Find **strength**. Cross paths. Rock worlds. Gain **control**.
Seek **flexibility**. Reign the road. Bring gear. Enlist the family.
Go it alone. Gain **confidence**. Escape monotony. Never look back.

Introducing the all-new 7-passenger Nissan Pathfinder. Advanced technology and athletic capability come together in one of the most versatile SUVs on the planet.
STRENGTH
CONTROL
FLEXIBILITY
CONFIDENCE

PAVE YOUR OWN ROADS.
AND OWN THE PAVED ONES.

To reach that remote destination, take the road paved with asphalt. Or snow. Or mud. Chances are, the resolute strength of the all-new Pathfinder is tough enough to get you through it. This state-of-the-art 4.0-litre 24-valve V6 is based on the award-winning VQ engine series, and developed especially for Pathfinder. It produces more power than Pathfinder has ever known, pumping out 270 horsepower and a class-leading 291 lb-ft of torque, more torque than any other V6 in its class.* It’s all made possible with the help of friction-reducing microfinishing for silky-smooth performance at every turn.

Pioneer® SE Off-road shown in Storm Grey. * Pathfinder is in the mid-size SUV segment as classified by Ward’s Auto World.

270 HP
291 lb-ft of torque

For optimal power, Pathfinder has an advanced Continuously Variable Valve Timing Control System (CVVTCS). This system manages air consumption to give you enormous low-end torque and greater power as velocity rises. So whether you’re crawling over rocks or creating a blur on the horizon, you’ll have more power. More efficiency. More reasons to extend the vacation a few days.

Squeezing every last ounce of muscle out of this powerhouse is an advanced 5-speed automatic transmission. This high-performance control system lets you achieve quicker acceleration, greater efficiency and smoother shift quality.
EVERY GREAT ESCAPE REQUIRES A SMOOTH GETAWAY. HERE’S YOURS.

It’s Friday afternoon and the open roads are calling. And as it has for almost 20 years, Pathfinder answers the call. Be it a hometown tour of home-improvement stores, or a long-overdue trip to the mountains, Pathfinder will provide you with a smooth, solid ride from start to snow-covered finish.

For greater durability over the long haul, Pathfinder’s frame is built with super high-tensile steel in strategic areas, for improved structural integrity. This rugged material is 90% stronger and 22% lighter than conventional steel. It all adds up to more dynamic performance, solid handling, and superior ride comfort.

Planning your next getaway can be rough. Fortunately, the ride there doesn’t have to be. Pathfinder is equipped with a road-smoothing multi-link independent rear suspension that helps absorb the bumps and improve handling, especially on rough roads. It is also designed to maximize interior space, providing high riding comfort for your fellow escapees in the second and third rows.

Wherever you go, the action is sure to follow. Up to 2722 kg* (6000 lb) of it. Pathfinder’s maximum towing capacity can get your custom motorcycles, fishing boat, snowmobiles, or other fun-fueled ride-of-choice to the secret spot in time to set the weekend in motion.

*Towing: 7-pin connector trailer wire harness required.
THE EARTH IS YOUR PLAYGROUND.
TIME FOR RECESS.
Pathfinder finds fun wherever it travels, from snowy mountain roads to rocky riverbeds. And if the skies throw a little water into the mix, then it’s playtime for this nature-loving SUV.

Pathfinder’s standard shift-on-the-fly 4WD system can be activated at speeds up to 80 km/hr (50 mph). This system features a low-range gear with a unique electronic throttle control, allowing for smoother driving in severe off-road conditions.

Pathfinder’s available All-Mode 4WD system lets you rule muddy marshes, snowy back roads and rock-pitted inclines. By automatically and continuously adjusting the amount of power distributed to each wheel, this system helps improve traction over rough ground and slippery surfaces.

HILL DESCENT CONTROL
HILL START ASSIST

When engine braking isn't enough while driving down a steep grade in low gear, Pathfinder offers Hill Descent Control on SE off-road models. When activated, the system automatically adjusts speed and adds brake pressure to help keep you moving at a controlled speed.

For out-of-bounds enthusiasts, we offer the SE Off-road, which endures the off-roads like no other. It features dirt-loving BFGoodrich® Rugged Trail® off-road performance tires, protective skid plates, Rancho® off-road performance shocks, and the hill-friendly technologies of Hill Descent Control and Hill Start Assist.

While starting up steep hills on SE Off-road models, Hill Start Assist helps keep you from rolling backwards. It applies brake pressure for a few seconds, allowing you enough time to switch from the brake pedal to the accelerator, and get your Pathfinder smoothly moving uphill again.

And for optimal performance on uneven terrain, Pathfinder has 4-wheel Limited Slip (ABLS), which helps sense wheelspin on slippery surfaces and automatically brakes the slipping wheel(s) to redirect power to another wheel with traction and keep the momentum going.
NOW, EVERYTHING HAS ITS PLACE.
INCLUDING THE THREE-DAY WEEKEND.

Every Pathfinder is equipped with a durable roof rack with built-in hand grips for easy loading. Two adjustable crossbars are available to help you carry skis, kayaks, snowboards, camping gear, or duffel bags. We also offer a full line of Genuine Nissan Accessories that are compatible with these racks to help secure your gear in place for the long weekend ahead.

Pathfinder SE Off-road shown with optional equipment in Canteen.
The LoadWarrior™ is a cavernous gear carrier, ideal for storing lots of stuff when you've got all three rows occupied with people. Its weather-resistant, heavy-duty steel construction is incredibly durable, yet lightweight.

Cargo shown for display purposes only. Nissan recommends that all loose items be secured when transported.
Pathfinder is the ultimate combination of premium quality and rugged utility. For the first time ever, this adventure-loving SUV is equipped with three rows of seating to carry up to seven people. Surround yourself and your passengers in soft leather or durable cloth, available front heated seats, and available rear temperature controls. You'll also find this environment useful when your gear outnumbers your passengers, and you need to fold down the seats for greater cargo space. The second- and third-row integrated headrests adjust for passenger comfort and don't need to be removed when you're folding the seats down.

Flexibility is second nature to Pathfinder. Every seat, including the two seats in the third row and the front passenger seat,* can be folded down individually for a possibility of up to 64 seating configurations. The second- and third-row seats can also be folded down to give you a flat cargo floor. This allows all the flexibility you can imagine for your passengers and your gear.

*SE and SE Off-road models with cloth seats.
When you venture out into the mud, so does your gear. Now, cleanup is easier when you load everything dirt-covered into Pathfinder’s available **Easy Clean cargo area**, which extends to the back of the third row.
1. Centre console – Not only do you have easier access to the available DVD player, you’ll also find extra storage for DVDs and CDs inside the centre console.

2. Dash storage – Pathfinder has two storage bins built into the dash to give the driver and front passenger quick and easy access to notepads, snacks, tissues or other loose items.

3. Side seat pocket – This is where you can store pens and maps for easy reach and quick access.

4. Side net – Keep your water jugs and key supplies from rolling around in the back by placing them in the side net.

5. Under-floor storage – Don’t sweat the small stuff. Just put it in the under-floor storage in the cargo area or in the hidden storage bin located underneath the second-row seat cushions.

6. First-aid kit – Pathfinder is equipped with an available first-aid kit located in the rear hatch to help with the nicks and scrapes that come after a few days at the campsite.

In addition to the luxury that the seating configurations provide, Pathfinder has many convenient storage compartments and bins that allow you to keep your interior organized, and your gear securely in place. Use the rear hatch window to load small luggage and shopping items into the back without opening the back door. Secure everything in place using the eight utility hooks in the floor, sidewalls, and ceiling of the cargo area.

Cargo shown for display purposes only. Nissan recommends that all loose items be secured when transported.
IT'S OKAY TO loose YOURSELF.
JUST DON'T GET LOST ALONG THE WAY.

Pathfinder LE shown with optional equipment in Desert Leather. U.S. instrumentation shown.
Let the tunes fly through the available premium Bose®-powered audio system that is custom-tuned for ultimate sound quality. It comes with a single-slot 6-CD autochanger with MP3/CD capability and nine strategically placed speakers.

Memory Seats. Now, you and your significantly lucky other can set your own positions for the driver’s seat. The available memory seat system also remembers power pedal placement and power outside mirror locations, and recalls them all with the touch of a button.

Pick an address and let the DVD-based Nissan Navigation System help you find it. A 178 mm (7-inch) colour monitor displays your current location on a conventional map or through the patented 3-dimensional Birdview™. Once back in civilization, this system can direct you to the nearest ATM, gas station or restaurant.*

Memory Seats.

Pathfinder’s available Dual Zone Automatic Climate Control (ACC) allows front passengers to set different temperatures, with all data displayed on the Information Centre.

Standard on Pathfinder is a trip computer that calculates your average fuel consumption, average kilometres per hour, distance to empty, and more.

Entertain your second- and third-row passengers with the available Nissan DVD Entertainment System. It comes with a 178 mm (7-inch) flip-down colour monitor, DVD player, a wireless remote and auxiliary inputs for video game systems or playing home movies on the camcorder. Plus, thanks to the Dual Media Playback feature, rear passengers can use wireless headsets provided with the DVD system to listen to a different audio source than the front passengers.
SAFETY BEHIND THE WHEEL.

Every Pathfinder is equipped with active safety systems. These advanced technologies respond to every twist and turn you take, reacting instantly and predictably to help keep you in control every mile of the journey.

VEHICLE DYNAMIC CONTROL (VDC) is an advanced system designed to help you stay on your steered path. If your vehicle begins to oversteer (fishtail) or understeer (plow forward), VDC senses it and can reduce engine output and/or apply appropriate brake pressure to specific wheels.

VDC cannot prevent accidents due to abrupt steering, carelessness, dangerous driving techniques, or any other reason. Always drive safely.

ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD) compensates for additional weight in the rear, whether it’s a full house or a full tank of gas, by sending extra force to the rear brakes.

4-WHEEL LIMITED SLIP (ABLS) senses wheelspin on slippery surfaces and automatically brakes the slipping wheel(s) to redirect power to another wheel with traction and keep the momentum going.

ANTI-LOCK BRAKING SYSTEM (ABS) rapidly pumps the brakes during hard braking, to help keep your wheels from locking up and allow you to steer around the obstacle.
THREE-POINT SEAT BELTS
Every seat is protected by a 3-point seat belt. Both front seat belts are equipped with pre-tensioners that automatically help tighten the belts when the front airbags deploy, as well as load limiters that give a little when high force is put on the belt.

SAFETY BEHIND THE FRAME.
Beneath the stylish exterior of every Pathfinder lies an entire set of safety features to help protect you from the unavoidable. Including steel reinforcements, guard beams and advanced airbags that will help safeguard you and your passengers in the event of an accident.

ACTIVE HEAD RESTRAINTS
Active head restraints actually move up and forward in the event of a rear-end collision, helping reduce whiplash-style injuries to you and your front passenger.

SNUG KIDS®
A properly installed child restraint is one of the best ways to keep a child safe. Which is why LATCH – a system that makes compatible child restraints easy to install – is standard on all Pathfinders. In fact, the importance of child safety also led us to create the Snug Kids Child Seat Fit Guide. An industry first, the guide gives invaluable tips on correct installation. Look for it at your nearest dealer or at nissan.ca

1. Zone Body construction with crumple zones: This helps to absorb crash energy before it reaches the passenger zone.
2. Pillar/roof reinforcements: These are made of high-strength steel and help Pathfinder surpass Federal Roof Crush Resistance Standards.
3. Hood deformation point: Structural creases allow the hood to buckle at a predetermined point to help protect the passenger zone.
4. Pipe-style steel side-door guard beams: Constructed like a thick-walled hollow pipe for extra strength, these help protect passengers in a side impact.
5. Advanced Airbag System: Pathfinder’s dual-stage supplemental front airbags* incorporate seat belt sensors and adjust deployment according to seat-belt usage and crash severity.
6. Available driver and front-passenger side-impact supplemental airbags*: They are built into the front seats (not the door), so they’re still in the right place if you change your seat position.
7. Roof-mounted curtain supplemental airbags for side impact and rollover protection: When the sensor detects an impending rollover, the system deploys the available roof-mounted curtain supplemental airbags.* These airbags remain inflated long enough to help provide front-, second- and third-row enhanced protection in the event of multiple rollovers.

CHILD SAFETY
When the front passenger seat is empty or occupied by a child, a sensor is designed to turn off that airbag. In the second row, Pathfinder features the LATCH System (Lower Anchors and Tethers for CHildren) for securing compatible child-restraint seats for your adventurer-in-training.

*Please keep in mind that airbags are a supplemental restraint system and must always be used in conjunction with a seat belt. Even with advanced airbags, a rear-facing child restraint must never be placed in the front-passenger’s seat. In fact, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Driver and front-passenger side-impact supplemental airbags and roof-mounted curtain side-impact supplemental airbags for front- and rear-seat outboard occupants head protection are designed to inflate in higher severity side collisions on the side of the vehicle impacted. Please see your owner’s manual for more details. Inflated airbags shown for illustration purposes only. Actual airbags deflate after deployment.

Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see your local Nissan Dealership for actual colours and pricing information.
### EXTERIOR
- Automatic on/off headlights
- Fog lights
- Roof rack and mud guards
- Roof rack crossbars
- Running boards
- Front tow hook
- Tow receiver hitch (Class IV)
- Dual power outside mirrors (black on XE)
- Dual power heated outside mirrors
- Power sliding glass sunroof with one-touch open/close
- Flip-up liftgate window
- Front UV-reducing solar glass and rear privacy glass

### ENTERTAINMENT
- Nissan DVD Entertainment System with 178 mm (7.0") monitor, DVD player with auxiliary inputs, remote control, and two wireless headsets
- AM/FM/CD audio system
- Digital Bose®-powered audio system with AM/FM/in-dash 6-CD changer
- Radio Data System (RDS) and speed-sensitive volume
- Steering wheel-mounted audio controls
- MP3 playback capability
- Six speakers
- Nine speakers, including subwoofer

### INTERIOR
- Nissan Navigation System with GPS, DVD atlas, 178 mm (7.0") colour LCD monitor, and Information Centre
- Trip computer
- Front air conditioning
- Rear air conditioning with rear controls
- Dual Zone Automatic Climate Control (ACC)
- Power door locks and windows with front one-touch auto-up/down (driver's side only)
- Remote keyless entry
- HomeLink® universal garage-door opener
- Cruise control with steering wheel-mounted controls
- Variable intermittent windshield wipers and rear intermittent wiper
- Auto-dimming rearview mirror, digital compass and outside temperature display
- Front map lights; rear reading lights
- Four 12-volt DC power outlets
- Voltage and oil pressure gauges
- Dual visor vanity mirrors
- Dual sunvisors with extenders and dual illuminated visor vanity mirrors
- Power adjustable pedals
- Tilt steering column
- First-aid kit

### FEATURES
- Standard
- Optional
- Part of SE Premium Package
- Part of SE Off-road Leather Package
- Part of Nissan DVD Entertainment System
- Part of LE Nissan Navigation Package
- Part of Side Airbags option
### SEATING / APPOINTMENTS

- 8-way manual adjustable driver’s seat
- 8-way power adjustable driver's seat with manual lumbar
- Fold-down front-passenger's seat
- 4-way power adjustable passenger seat
- Memory system – driver's seats, mirrors and pedals (remote-activated), driver's entry/exit system
- Heated front seats
- Second-row 40/20/40 split fold-flat bench seat with tip-up easy entry for third row
- Third-row 50/50 split fold-flat bench seat
- Cloth seat trim
- Leather seating surfaces
- Leather-wrapped steering wheel and shift knob
- Wood-tone trim
- Second-row under-seat storage
- Eight cup holders, front seatback pockets, and front and rear door storage pockets
- Cargo tie-down hooks (eight), cargo net, and under-floor storage
- Easy Clean cargo area
- Overhead centre console with storage bins

### SAFETY / SECURITY

- Nissan Advanced Airbag System with dual-stage supplemental front airbags with seat belt sensors and occupant-classification sensor
- Driver and front passenger side-impact supplemental airbags
- Roof-mounted curtain supplemental airbags for side-impact and rollover protection for all three rows of occupants
- 3-point ALR/ELR passenger seat belt system (ELR for driver)
- Active front head restraints
- Front seat belts with pre-tensioners and load limiters
- LATCH System (Lower Anchors and Tethers for CHildren)
- Zone Body construction with front and rear crumple zones
- Hood buckling creases and energy-absorbing steering column
- Pipe-style steel side-door guard beams
- Anti-theft system and Immobilizer Key System

## Specifications

### Dimensions – MM (in)

- **Exterior**
  - Wheelbase: 2850 (112.2)
  - Overall length: 4765 (187.6)
  - Overall width – without mirrors: 1849 (72.8)
  - Overall height – with roof rack XE, SE, LE: 1852 (72.9)
  - Overall height – with roof rack SE-OR: 1862 (73.3)
  - Track width – front: 1570 (61.8)
  - Track width – rear: 1570 (61.8)

- **Interior – Front/Second Row/Third Row**
  - Head room without sunroof: 1016 / 991 / 932 (40.0 / 39.0 / 36.7)
  - Leg room: 1077 / 869 / 714 (42.4 / 34.2 / 28.1)
  - Hip room: 1410 / 1463 / 1118 (55.5 / 57.6 / 44.0)
  - Shoulder room: 1481 / 1483 / 1118 (58.3 / 58.4 / 44.0)

### Drivetrain

5-speed automatic transmission
Shift-on-the-fly 4WD with 2-speed transfer case (XE, SE, SE Off-road)
All-Mode 4WD with 2-speed transfer case (LE)
Vehicle Dynamic Control (VDC)
Hill Descent Control (HDC) – SE Off-road
Hill Start Assist (HSA) – SE Off-road
4-wheel Limited Slip (ABLS)

### Engine

- VQ40DE – 4.0-litre DOHC 24-valve V6 engine
  - Horsepower: 270 hp @ 5600 rpm
  - Torque: 291 lb-ft @ 4000 rpm
  - Emissions: LEV

- Continuously Variable Valve Timing Control System (CVVTCS)
- Variable Intake System
- Nissan Direct Injection system with platinum-tipped spark plugs
- Electronic drive-by-wire throttle
- Skid plates – lower radiator, oil pan, fuel tank, transfer case (SE Off-road)

### Wheels and Tires

- 16" x 7" 5-spoke aluminum-alloy wheels (XE, SE)
- 16" x 7" 6-spoke aluminum-alloy wheels (SE Off-road)
- 17" x 8" 6-spoke aluminum-alloy wheels (LE)
- P245/75R16 Tires (XE)
- P265/70R16 BFGoodrich® Long Trail OWL tires (SE)
- P265/75R16 BFGoodrich® Rugged Trail® OWL tires (SE Off-road)
- P265/65R17 Tires (LE)

### Brakes

- 4-wheel vented disc brakes
- 4-wheel Anti-lock Braking System (ABS) with G-sensor
- Electronic Brake force Distribution (EBD)

### Suspension and Steering

- Front: Independent double-wishbone
- Rear: Independent double-wishbone
- Rancho® shocks (SE Off-road)
- Front and rear stabilizer bars
- Engine speed-sensitive power-assisted rack-and-pinion steering

**Packages**

- **SE Premium Package**
  - Automatic on/off headlights
  - Power tilt and sliding glass sunroof with one-touch open/close
  - Digital Bose®-powered audio system with AM/FM/in-dash 6-CD changer and speed-sensitive volume control
  - MP3 playback capability
  - 9 speakers, including subwoofer
  - Steering wheel-mounted audio controls
  - HomeLink® universal garage-door opener
  - Driver and front passenger side-impact supplemental airbags
  - Roof-mounted curtain supplemental airbags for side-impact and rollover protection for all three rows of occupants

- **SE Off-road Leather Package**
  - Leather seating surfaces
  - Heated front seats
  - 4-way power front passenger’s seat
  - Driver and front passenger side-impact supplemental airbags
  - Roof-mounted curtain supplemental airbags for side-impact and rollover protection for all three rows of occupants
  - Fold-down front-passenger’s seat feature is deleted with this package.

- **NISSAN DVD Entertainment System (SE, LE)**
  - Nissan DVD Entertainment System with 178 mm (70°) monitor
  - Dual Media Playback
  - DVD player with auxiliary inputs
  - Remote control and two wireless headsets
  - This package requires SE Premium Package on SE models.

- **NISSAN Navigation Package**
  - Nissan Navigation System with GPS, DVD atlas, 178 mm (70°) colour LCD monitor
  - Information Centre
  - This package requires Nissan DVD Entertainment System.

FINANCE OPTIONS
Through Nissan Canada Finance, we offer many attractive purchase programs, all with competitive rates and terms. With our Nissan “No-Nonsense” lease plan, driving home a new Nissan has never been easier. Consult your local Nissan Dealership for complete details.

NO-NONSENSE WARRANTY
Every 2005 Nissan is covered by a 3-year/60,000-km* Comprehensive New Vehicle Warranty, a 5-year/100,000-km* Powertrain Warranty, an 8-year/130,000-km* Emission Control Warranty on selected components, and a 5-year/unlimited-km Corrosion Perforation Warranty. As a Nissan owner, you’ll also receive a 3-year Roadside Assistance program available to you 24 hours a day. * Whichever comes first.

ADDED SECURITY PLAN (ASP)
For ultimate peace of mind, consider the Nissan Added Security Plan. It’s our commitment to be there for you, and to help you leave your worries behind. Different plans, available for both purchased and leased vehicles, let you tailor the coverage to your driving habits.

THIRTEEN DIFFERENT WAYS TO MOVE THROUGH THE WORLD.
Produced in October 2004. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries.
Catalogue number: 99999-PTH05EN.
