The world has changed. It’s time your SUV did, too. Welcome to the Next Gen SUV, with the capability to help you take on whatever the day brings. You’ve got Intuitive 4-Wheel Drive to help you handle the most challenging conditions. And a class-exclusive Xtronic CVT® transmission to ride a wave of V6 power and pass the pumps with a best-in-class 26 MPG.1 A class-exclusive Around View® Monitor to help you grab those challenging parking spaces.2 How about an innovative 2nd row that tilts and slides forward for easy access—even with a child seat installed? And there’s also best-in-class passenger room so everyone gets a great seat.3 That’s an SUV for the real world. Introducing the all-new 2013 Nissan Pathfinder. The most innovative Pathfinder ever. Nissan. Innovation that excites.4

Starting at $28,270.1

For over 25 years, Pathfinder has been your trusted guide, leading the way for all other SUVs to follow.
YOU’VE GOT THE CAPABILITY TO SEE MORE WORLD.

Intuitive 4WD. With Pathfinder’s All-Mode 4x4-i, you’ve got a system that’s capable on-road and off. And it’s the only vehicle in its class with driver-selectable modes. All it takes is a turn of the knob. Choose full-time 2WD for maximum efficiency. Auto Mode constantly monitors conditions and adjusts the balance of power between front and rear wheels for best traction. And 4WD Lock Mode is your choice when you encounter terrain where you’d feel more confident with full-time 4WD. When you’re on steeper paths, Pathfinder also features Hill start assist to help give you control when starting and driving away on an incline.
Efficiency, brought to you by a Next-Generation Xtronic CVT® Transmission. With Pathfinder’s class-exclusive Xtronic CVT®, you have a virtually gearless wonder that can hold the engine at the ideal rpm for the job, giving you a wave of power when you need it — for towing, passing — and quiet, efficient running when you don’t. Proof? Pathfinder returns a best-in-class 26 MPG highway.1

Power, courtesy of a 3.5-L V6 engine. Seven on board, a big beautiful boat in tow. This is the stuff that tests what an SUV is made of. Pathfinder takes it on with 260 hp of 3.5-L V6 muscle, and with the highest standard towing rating in its class, you can bring along 5,000 lbs. of toys.2,3

AND THE SMARTS TO SEE FEWER GAS STATIONS.
Welcome to first class. The most comfortable Pathfinder ever beckons you with premium comforts, including standard Tri-Zone Automatic Temperature Control, available heated and cooled front seats, heated 2nd-row seats, and even a class-exclusive heated steering wheel. With the available Nissan Navigation System featuring Zagat Survey restaurant recommendations and live weather updates, plus available dual driver’s seat memory system and Bose® premium audio system, you may never want to ride in any other SUV again.
What good is a spacious 3rd row if you can’t get to it? With the innovative EZ Flex™ Seating System, the 2nd row glides and tilts forward for easy access. Thanks to LATCH AND GLIDE™ technology, you can even move the 2nd row with a child seat securely installed. Add in a class-exclusive reclining 3rd row, and Pathfinder may just be the favorite SUV for everyone from kids to grandparents.

In the Next Gen SUV, it’s not just seating for seven. It’s seating for seven with best-in-class passenger room, including a 2nd row that slides over 5 inches for stretch-out room and the only 3rd-row reclining seat in its class. And with the available dual panorama moonroof, you can be sure everyone also has a great view.
When it comes to carrying cargo, Pathfinder makes easy work of it, with folding 2nd- and 3rd-row seats that create a virtually flat floor and up to 79.8 cubic feet of cargo space. There's also an under-floor storage area that keeps valuables out of sight. It's easily accessed whether the 3rd row is folded or upright, giving added cargo room even when you carry seven passengers.

**Tri-Zone Entertainment.** If you've ever taken a trip with a few kids, you probably know it's hard to please everyone. With Pathfinder’s available Tri-Zone Entertainment System, you’ve got a fighting chance. The rear monitors can play individually, giving a choice of DVD, video games, photos and more, while those in the front seats can enjoy their own choice of entertainment.

**Around View® Monitor.** A massive camera to gain when you’re maneuvering into a tight space. Now, with Pathfinder’s class-exclusive Around View® Monitor, you have four wide-angle cameras as your helpful spotters. Which helps make you an expert parking ace. So quit circling the block – that space is yours.

**Tire Pressure Monitoring and Alert.** Smart and smarter. Pathfinder’s Tire Pressure Monitoring System not only tells you a tire is low – it tells you which one. Even better, when you’re inflating the tire, Pathfinder’s class-exclusive Easy-Fill Tire Alert System will give you a friendly beep of the horn when you’ve reached the correct pressure.

**Advanced Drive-Assist® Display.** With so much going on around you, it’s easy to lose sight of what’s most important: driving. From trip computer to 4WD torque distribution, the new Advanced Drive-Assist® Display serves up info right in front of you – helping to minimize time looking away. Plus, its intuitive 3-D depth and tilt design improves cognition, helping you take it all in quickly. So you can focus on what really matters.
