THE FEELING OF INNOVATION.

Today will be different. You’ve got Quest® on your side. When life comes calling, rely on the modern 7-seater with style. Daily routine or family road trip, celebrate it all – with accommodations that are nothing but first class. Say yes to a roof made of sky, sliding doors that open with one touch, and seats so incredibly easy to configure, you’ll look for excuses to pack up and go. Nissan. Innovation that excites.™
WHAT IF YOU COULD DOUBLE-CHECK YOUR DOUBLE-CHECK?

You always check your outside mirrors to change lanes. What if your vehicle kept an eye on things as well? Quest’s available Blind Spot Warning System uses radar to do just that. When it detects a vehicle in the blind spot area, an indicator lights up on your mirror. If you put on your turn signal, the indicator flashes and you’ll hear a warning chime. It’s nice to have a little extra peace of mind.  

The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents or detect every vehicle or object around you.
THE FEELING OF AN UPGRADE, EVERY TIME YOU OPEN THE DOOR.

Nissan Quest LE shown in Beige Leather.
MAKING ROOM FOR THE TO-DO LIST, AND THAT GREAT SALE, TOO.

What good is storage if it isn't always there for you? Unlike other minivans, Quest's unique third row folds forward out of the way rather than down into the rear storage well. So to create the wide-open cargo space you see here, you don't have to first empty out all the stuff you carry in the well underneath. Life just got easier.

Nissan Quest LE shown in Beige Leather with Dual Opening Glass Moonroof Package.
THE FEELING OF FINDING A NEW MEMBER OF THE FAMILY.

Nissan Quest SL shown in Brilliant Silver.
INNOVATION THAT’S ON YOUR SIDE.

What’s it like to have a Quest in your life? Not just a minivan, but possibly the most helpful member of your family. Imagine putting air in your tires and knowing when they’re full. Or looking up to see not one, but two, available dual-opening moonroofs. Freezing outside? Available Quick Comfort heated front seats warm you up fast. Long to-do list? Quest makes you a hero. Whether seating seven or filling with gardening supplies, you’ve never flipped and folded seats so easily. With a unique third row that folds forward instead of slowing in the rear, you can load up on spring blooms without stopping to drop off the groceries. No matter what’s on the agenda, it’s your life Quest has in mind.
In Quest, not only does the second row fold flat, forward, and out of the way, so does the third. So unlike other minivans, instead of stowing seats, the cargo well behind the third row is a permanent place to put whatever you like, eliminating the need to ever empty it out.

All seats up. Seven on board and you still have room for gear. The permanent storage well has two separate lids. You can keep a flat cargo floor on one side, and leave the other lid open to carry taller things.

All seats down. Go full cargo mode, while Quest’s practical and permanent rear storage well is always at the ready.

Any way you look at it, Quest flips and folds like no other minivan.

119.8 cu. ft. on S, SV and SL models without Bose® audio system. 115.1 cu. ft. on SL and LE models with Bose® audio system. Cargo and load capacity limited by weight and distribution. Always secure all cargo.
Permanent rear storage well.
The cargo well behind the rear seats is always open for business, thanks to third-row seats that fold forward.

A second row you never have to remove. The second row folds flat, which means no more wrestling with seats.

Power-down rear windows.
Fresh air for all. In Quest, your second-row passengers have their own power window.

Quick Comfort heated front seats.
Get to cozy quicker. Key areas of the body are heated in sequence for warming that’s ASAP.

Where to put the long legs?
With Quest’s sliding second row, you can create more leg room where you need it, in the second or third row.

Comfort seating design. Shaped and padded especially for improved posture support and comfort. Designed with your next road trip in mind.

Easy up, easy down. Push the release button and the third-row seats fold right down. The available power-up feature brings them back into place at the push of a button.

Second- and third-row seats down. Just the pair of you cruising the flea market? What will you bring home?
With up to 119.8 cu. ft. to fill, there’s no telling. And you won’t even have to remove the second row.

Available on Quest SV with SV Leather Package. **75 cu. ft. on S, SV, and SL models without Bose® audio system. 70.3 cu. ft. on SL and LE models with Bose® audio system. 119.8 cu. ft. on S, SV, and SL models without Bose® audio system. 115.1 cu. ft. on SL and LE models with Bose® audio system.**
From a convenient way to get everyone inside to a better way to wave goodbye, you’ll see innovative design at work for you – everywhere you look.

**Removable 2nd-row console.** Your choice. Cup holders for the rear and a place to stash small items. Or remove this handy console to create some walk-around space.

**Nissan Intelligent Key® and Push Button Ignition.** A system so smart, you can unlock the doors, open the available power rear liftgate and start the engine, all without taking the key out of your pocket or purse.

**Conversations mirror.** Don’t miss a thing. With this available feature, see who’s behaving, or not, in the rows behind.

**Power second-row windows.** Open up to let fresh air in, or to just wave goodbye.

**Power rear liftgate.** This available feature is the next best thing to your own doorman. Just push a button on your keyless remote, the liftgate or on the dash.

**Low step-in height.** It’s easy for anyone to get in a Quest.

**One-touch power sliding doors.** Hands full? No problem. Quest’s available one-touch power sliding doors open easily.

**CARGO**

Nissan Quest SL shown in Pearl White with Beige Leather.
Do not operate any devices connected to the USB or auxiliary audio input jack while driving. "Always give your full attention to driving. DO IT ALL. AND THEN SOME.

**Around View Monitor.** Make that space yours. With Quest’s available Around View Monitor, you have not one, but four, wide-angle cameras as your helpful spotters. It works by converting the view from each wide-angle camera into a composite overhead view of your Quest. In “Reverse,” the system automatically shows the rear view/bird’s-eye combo (A). Press the “Camera” button and it changes to a right curbside view. Likewise, in “Drive,” you can look at what’s in front, or use the “Camera” button for either a right curbside (B) or bird’s-eye view (C).

**Powerful V6.** With 260 horsepower and 240 lb-ft of torque, Quest’s powerful V6 gives you the confidence and the power to get around the way you need to. Then change the filters and fluids regularly and cover 105,000 miles before needing a tune-up.

**CVT.** The smarter way to shift. Quest’s virtually “gearless” CVT transmission keeps you in the sweet spot. When accelerating, CVT maintains engine rpm – instead of shifting – for a seamless wave of power. At cruising speed, it maintains low rpm for efficiency.

**Speed-sensitive Steering.** So responsive, it gives you the assist you need at different speeds. Steering is easier at low speeds (for parking), then firms up at higher cruising speeds.

**Easy-Fill Tire Alert.** No more taking your chances with that sketchy gauge at the gas station. Just fill with air until a friendly beep of the horn signals that you’ve reached the correct pressure.

**RearView Monitor** Helps you see what’s behind you when backing up.*

**Large mirror design** So handy, so you can see more.

**Extra-view corner window** Improved visibility through the turns.

**Tilt-down mirrors** In reverse, mirrors tilt down for a better view of the curb.

**Blind Spot Warning System** An indicator appears on the outside mirror when another vehicle is detected in the blind spot area. Put your turn signal on and the indicator flashes with a warning chime to alert you.*

Screen shown for demonstration only. Actual appearance may vary. *Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Always be alert what is behind you; turn signal does not function as a signal to change lanes. See Owner’s Manual for details. **Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. **Available feature. **The Blind Spot Warning System is not a substitute for proper lane change procedures. This system will not prevent contact with other vehicles or accidents or detect every vehicle or object around you.
Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger’s seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner’s Manual for more details.

Inflated air bags shown for illustration purposes only, actual coverage area may differ. Actual air bags deflate after deployment.  2 VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

SAFETY ALL AROUND.

It’s protecting you and your most precious cargo that drives our comprehensive approach to safety.

Six Standard Air Bags. The Nissan Advanced Air Bag System incorporates seat belt sensors and an occupant-classification sensor to inflate the dual-stage supplemental front air bags according to crash severity and seat belt usage. Quest also has side-impact supplemental air bags built into each front seat so they move with you as you adjust your seat. And two roof-mounted curtain side-impact supplemental air bags help provide head protection for all of the outboard occupants.

Active Front-seat Head Restraints. These help reduce the chance of whiplash injuries to you and your front passenger by moving up and forward during certain rear-end collisions.

Vehicle Dynamic Control/Traction Control System. Quest’s Vehicle Dynamic Control (VDC) helps you stay on your steered path by sensing understeer or oversteer and compensating accordingly. Get a grip with Traction Control System (TCS). It senses drive-wheel spin and reduces engine power and/or applies front brakes to help maintain traction.

Anti-lock Braking System. ABS pumps the brakes faster than you could in sudden-braking situations, to help prevent wheel lockup.

Electronic Brake force Distribution (EBD). Monitors weight distribution and adjusts rear brake force for more balanced braking.

Brake Assist. Quick! In an emergency, Brake Assist helps boost braking by applying additional braking pressure.

Brake Override Technology. Like every Nissan since 2005, Quest comes standard with Brake Override Technology. It’s designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

LATCH. The Quest LATCH System (Lower Anchors and Tethers for Children) lets you easily secure LATCH—compatible child restraints in specific second- or third-row seats without using a seat belt or a locking clip.

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

Quest for Safety® Program. Committed to child-seat safety, Nissan launched the award-winning Quest for Safety® program in 1998 to inform caregivers how to ensure proper child seat safety usage.
GENUINE NISSAN ACCESSORIES. IMPRESS. CONNECT. PROTECT. ORGANIZE.

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durability-tested; backed by Nissan’s 3-year/36,000-mile limited warranty; and can be financed when installed by dealer at time of purchase.

A. Roof Rail Crossbars**
   Made of steel, so you know they’re good.

B. Cargo Area Protector
   Because being a cargo area isn’t easy.

C. Hatch Tent
   It’s a minivan. It’s a campsite. It’s both!

**Buying and owning a Nissan is like driving one: quick, convenient, confidence-inspiring.**

Nissan Motor Acceptance Corporation. Whether you’re buying or leasing, you’ll find attractive rates and flexible terms to make your purchase more accessible.

**New Vehicle Limited Warranties.** Protection for your new Nissan includes 3-year/36,000-mile basic coverage and 5-year/50,000-mile powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

**Security+Plus.** For additional peace of mind, a variety of extended service plans let you tailor the coverage to your driving habits.

**Maintenance+Plus:** This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

**Genuine Nissan Parts.** When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they’re the only parts to carry Nissan’s factory-backed limited warranty.

Nissan’s philosophy toward the environment, “Seeking a symbiosis of people, vehicles and nature,” describes our ideal for a sustainable mobile society, now and in the future. We launched the Nissan Green Program with specific objectives to realize this goal, and we are pursuing it energetically. For more information, log on to NissanUSA.com/green

Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors at your local Nissan dealer.
Shouldn’t you drive something you love? Absolutely. And that’s what inspires our innovation. We look at every part of your drive and ask how can we make this better, smarter and more fun. So when you get in your new Quest, you’ll feel how exciting the answers can be:

### Seating

**A revolution in seating.**

Quest’s 2nd-row seats fold flat—no removal required. And the 3rd row folds forward, for a permanent cargo well behind the 3rd row—no other minivan does that.

### Safety

**Blind Spot Warning System.** An extra pair of eyes never hurts. Quest’s available system warns you if another vehicle is detected in the blind spot area on either side.

**Easy-Fill Tire Alert.** No guesswork involved. Just fill the tire with air until a friendly beep of the horn signals you’ve reached the correct pressure.

**One-touch power sliding doors.** Hands full? Quest’s available one-touch power sliding doors open easily with the touch of a finger.

### Convenience
