BRZ. Heart of a Subaru. Soul of a sports car.
The joy of driving purified.

The 2017 Subaru BRZ

There are sports cars with rear wheel-drive. There are also sports cars with responsive steering, a few with nimble handling, and some that are lightweight. The BRZ has all of these characteristics—and more. And with the supremely low and balanced 205-horsepower® SUBARU® BOXER® engine, the experience is simply divine. This is how sports cars should be built—and how driving should feel.

Performance Package—Ready for your best lap.

To push the BRZ harder so it can handle the demands of higher performance driving, look no further than the Performance Package. With Brembo® performance brakes for supreme stopping power, SACHS® performance dampers for enhanced stability, and black 17 x 7.5-inch, 10-spoke aluminum-alloy wheels for an exclusive look, this BRZ is ready to perform, lap after lap. 1

1 Manual transmission models only. 2 We do not recommend racing your vehicle. Racing may void the vehicle warranty. See Warranty & Maintenance Booklet for details. If you do race the vehicle, do it safely and lawfully on approved racing tracks. Drive responsibly at all times and obey all traffic laws.
The open road is your canvas.

With a traditional rear-wheel drive layout, the BRZ pays homage to classic sports car ideals while retaining modern necessities. Its combination of traits—lightness, low center of gravity, fully independent suspension, telepathic handling—deliver an unfiltered, unequivocally enjoyable driving experience.

Powered by a 205-hp direct- and port-injected 2.0-liter 4-cylinder SUBARU BOXER® engine, the BRZ hits all the right notes in both performance and sound. The sonorous, high rpm symphony from the tuned exhaust system is music to the enthusiasts’ ears.

The ideal sports car driving position means you’ll find everything you need, right where you need it. The bolstered, sport-design front seats keep you planted, while the small-diameter, leather-wrapped steering wheel is perfectly complemented by a point-and-shoot 13.1:1 steering ratio.

Operable by new steering wheel-mounted controls, the standard SUBARU STARLINK™ 6.2” Multimedia system allows you to connect via Bluetooth® or USB port to apps like Pandora®, iHeart® Radio, Stitcher™ and Aha™ for all your favorite news, music and podcasts. You can also connect to the clear sounds of HD Radio® and SiriusXM® Satellite Radio® so you can always hear your soundtrack, no matter where the road takes you.

1 Manual transmission models only. 2 Compatible smartphone and application required. For applications to operate, latest version of each app is required. Data provided by smartphones is displayed on the audio system screen. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. Smartphone apps should only be launched when vehicle is safely parked. Your wireless carrier’s rates may apply. 3 Activation and required monthly subscription sold separately. Includes 4-month trial subscription. See your retailer.

Driver-focused Cockpit

Everything is designed with the driver in mind. From the small-diameter, leather-wrapped steering wheel to the strategically placed pedals, obliging shifter and low-mounted performance-design front seats with deep bolsters and Alcantara® inserts— it’s all perfectly assembled to create the ideal sports car driving position. The new 4.2” multifunction display keeps you informed with a G-force meter, lap timer, engine torque curve maps and more while the new Track Mode lets you push the limits of performance driving even further. The available dual-zone automatic climate control system keeps you in the comfort zone, while Bluetooth® hands-free calling and audio streaming simplifies making calls and listening to music. And with the standard auto-on/off LED headlights, you can stay connected to the driving experience, even after dark.

It only lacks one thing— you.
Every excess eliminated.

Every thrill amplified.

Lightweight—2,785 Pounds

Lightweight sports cars can react quicker, accelerate faster, and stop with more authority. With less heft, the 205-hp SUBARU BOXER® engine becomes a powerhouse, and the available 12.8-inch Brembo® performance brakes—world-beaters. High-tensile steel makes it not only lighter but stiffer, too. Also a priority was balance—so it’s rear-wheel drive for better front-to-rear weight distribution.

Low .27 Coefficient of Drag

To a sports car, wind is like weight—the more of it you have to move, the more it takes from your ability to perform. Features like a channeled roof, aerodynamic underbody panels and a rear diffuser help the BRZ cut through the air, sharpening the performance you’ll feel.

SUBARU BOXER® Engine

Low, stable, with immediate power delivery, the SUBARU BOXER® engine with up to 205 hp is the heart and soul of the BRZ. With port- and direct-injection technology, its efficiency is impeccable—up to 33 highway MPG—and its power easily harnessed with either the lauded 6-speed close-ratio manual transmission or a quick-shifting 6-speed automatic transmission with manual mode and paddle shifters.

Low Center of Gravity

Not only was the engine designed to be compact, allowing it to be mounted lower in the chassis, every element of the BRZ was placed as low as possible, from the roofline to the seating position. This is what gives the BRZ its supercar-like center of gravity measurement—18.11 inches—that keeps it firmly planted to the ground for otherworldly composure and response.
2017 BRZ Series.Yellow

Turn faster laps. Turn more heads.

The 2017 BRZ Series.Yellow blazes onto the scene with a fiery new look and performance upgrades to match. Adorned with exclusive yellow paint, black mirror caps, black badging, a frameless rearview mirror, and yellow stitching throughout, the Series Yellow also includes SACHS® performance dampers for sportier handling, and high-performance Brembo® brakes with 4-piston front and dual-piston rear calipers with 12.8” front and 12.4” rear rotors. Topping off the Series Yellow package, its black 17 x 7.5 inch, 10-spoke aluminum-alloy wheels give this BRZ a timeless presence to complement its exclusivity—only 500 units will be built.

1 We do not recommend racing your vehicle. Racing may void the vehicle’s warranty. See Warranty & Maintenance Booklet for details. If you do race the vehicle, do it safely and lawfully on approved racing tracks. Do not race on public roads and highways.

Protecting Your Investment

Subaru Badge of Ownership

Once you’re part of our family, we’ll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru retailer and other services are just a phone call away. And to protect you over the long haul, we offer Added Security®, ask for it by name—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. They’re the only mechanical and maintenance plans backed by Subaru, and because we’ve been backing them for more than 30 years, they’re agreements you can trust. Your retailer has full coverage details.

True commitment shows through. For Subaru owners, it shows in keyless scooters and skateboard scratches. It can take the form of dog hair that just won’t come out, fresh coats of dust, or extra coats of wax. For many, the Subaru Badge of Ownership lets them show their commitment to the life they love and the confidence that has inspired them to fully embrace it. Owners can order badges online for free, stick them on, and let everyone know how they experience the world. Which one are you get?

Durability

It’s not disposable. It’s family.

Life moves fast. Don’t slow it down with a car you can’t trust. At Subaru, we build each of our vehicles with the highest standards of manufacturing and with designs that are inherently tough and resilient. It’s why our vehicles excel in the extreme rigors of rally racing. And why 95% of all vehicles sold in the last 10 years are still on the road today. It’s also why Subaru owners are so likely to stay Subaru owners for years and years. What’s more, keeping cars on the roads means they stay out of landfills longer. And if we can make the world a cleaner and greener place while making cars that inspire and motivate their drivers, we’ve done our job.
