Every Subaru carries the DNA of lessons learned in the fiercest driving competitions in the most brutal places in the world. Lessons about durability, safety, and most importantly, control. Winning the World Rally Championship a phenomenal three years in a row, and having just won the 2001 World Rally Drivers’ Championship, we know what works. That means the Baja will help take you where you want to go quickly, comfortably and safely, regardless of weather or road conditions. It’s also why every Subaru features advanced Full-Time All-Wheel Drive for maximum traction. A vehicle in control is a safe vehicle, one that inspires confidence in any situation, and is the heart of the Subaru philosophy of Active Driving, Active Safety.
Remember when times were simpler? We do. It was boring. Today, with an endless variety of things to do, you need a vehicle with the flexibility to give you freedom to choose. Introducing the Baja. It gives you the comfort, ride, safety and outstanding control found in every Subaru, but opens up a whole new way to carry things. For hauling taller items, the Baja has an open cargo bed. The integrated bed liner helps protect the bed area from dings and scratches-and makes cleaning the bed easier than ever. The skid-resistant floor helps keep loads from shifting. The Switchback system expands the cargo bed into the passenger area for hauling longer items. And with the tailgate down, using the optional bed extender* lengthens the cargo area even further. So no matter what you do, or where you go, go to Baja first.

* The optional bed extender must be used when driving with the tailgate open.

AN OPEN INVITATION TO ADVENTURE.
Before the Baja could redefine flexibility, it first had to be a Subaru. That means providing all the ruggedness and versatility you need without sacrificing real-world safety, comfort and performance. That’s why you’ll find the outstanding control of the Subaru All-Wheel Driving System, which includes a powerful 2.5-liter boxer engine. There’s the added grip of a limited-slip rear differential, and a fully independent heavy-duty raised suspension for ride and handling that truck-based vehicles can’t match. It’s ruggedly handsome too, with oversized fog lights with stone shields, and Silver Stone Metallic body-side cladding, tailgate cladding and bumpers. Finishing the look are roof rails with cross bars, chrome sport bars, rear privacy glass, and sporty 16-inch aluminum-alloy wheels.

**GAME FOR JUST ABOUT ANYTHING.**
While the Baja is long on carrying ability, it's also long on comfort. You'll find standard air conditioning, cruise control, power windows, locks and mirrors, a remote keyless entry system, and the fine sounds of an AM/FM stereo with single-disc CD player. Luxurious touches include leather-trimmed upholstery, leather-wrapped steering wheel and shifter handle, 6-way power driver's seat, a power moonroof, and center consoles with cup holders front and rear. Comfort and convenience don't stop at the interior, either. The cargo area features an integrated bed liner, dual illumination bed light, chrome sport bars, even an integrated rear bumper step pad to make loading and unloading easier when the tailgate is closed.
Navigating challenging conditions requires that power goes where it’s needed, and not where it would be wasted. Innovative transmission technologies make sure that Subaru All-Wheel Drive makes the most of its powerful engine. Our experience in rallying has led to a 5-speed manual transmission that is easy to shift, yet extremely durable. To enhance the experience, there’s the tactile pleasure of a leather-wrapped shifter handle on manual transmission models. Automatic transmission models feature a gated shifter design that makes selecting the proper gear simple, and a silver and black leather-wrapped shifter handle for an added touch of luxury. The All-Wheel Drive components are tailored to the type of transmission used. On manual transmission models, a viscous-coupling locking center differential provides power to the front and rear wheels. The transmission control module on models equipped with the available automatic transmission is constantly controlling the variable transfer clutch, providing maximum traction on all road surfaces. The standard 4-channel/4-sensor anti-lock braking system (ABS) communicates with the transmission control module to provide maximum traction and steering control during severe braking. Further enhancing traction, all Baja models feature the added grip of a standard limited-slip rear differential.

Any BMX racer will tell you that when the going gets rough, power is great, but you also need control. The same is true for 4-wheel vehicles. That’s why you’ll find the Subaru All-Wheel Driving System on every Subaru: a horizontally opposed boxer engine, advanced Full-Time All-Wheel Drive and a long travel, low-friction suspension design. Why? Because this is simply the best way to give exceptional vehicle control for outstanding response and safety. The horizontally opposed boxer engine has a lower center of gravity, helping to keep the Baja from leaning out in turns. Its compact dimensions allow it to be placed further back in the chassis, reducing weight ahead of the front wheels for more responsive handling. The engine’s compact size also means a lower hoodline for better forward visibility. By closely balancing the body left to right and keeping components close to the chassis’ centerline, Baja is exceptionally agile, yet extremely stable. A perfect partner to this innovative design is Subaru All-Wheel Drive, which constantly monitors and smoothly adjusts power to provide the best traction in any weather. For ultimate control, the system drives all four wheels all the time. Many other AWD systems drive only two wheels until they detect a loss of traction and then respond or must be engaged by the driver. To further enhance the effectiveness of Full-Time AWD, Baja features a standard limited-slip rear differential.

Subaru All-Wheel Drive is always directing power to both the front and rear wheels for optimum control. On curves, vehicle dynamics are constantly changing. Subaru AWD sends power to the wheels with the best traction, maximizing control through the entire curve for neutral handling. This is a distinct advantage over a front-wheel drive vehicle, where understeer may cause the vehicle to move low and the outside of a curve, or a rear-wheel drive vehicle, where oversteer may cause the back end to lose traction. Although Part-Time 4WD systems will send power to all four wheels when the system is engaged, driving in 4WD mode on dry pavement may cause increased tire wear and damage to driveline components. Subaru AWD is a Full-Time system, always engaged, providing maximum traction on all road surfaces. The standard 4-channel/4-sensor anti-lock braking system (ABS) communicates with the transmission control module to provide maximum traction and steering control during severe braking. Further enhancing traction, all Baja models feature the added grip of a standard limited-slip rear differential.

Baja is powered by a 2.5-liter, 16-valve horizontally opposed boxer engine producing 165 horsepower and 166 lb.-ft. of low-end torque.

The horizontally opposed boxer design gives a lower center of gravity, which means reduced body roll in turns. The horizontally opposed boxer engine produces 165 horsepower and 166 lb.-ft. of low-end torque.

Pentrairz components are laid out in a straight line and close to the chassis’ centerline, giving agility while providing greater stability.
If you don’t have complete trust in your equipment, do you really want to be in harm’s way? We wouldn’t. That’s why every Subaru is designed to help you avoid trouble by giving you outstanding control in even the worst conditions. Active Safety means going where you want to go, and just as important, avoiding where you don’t. The same features that make the Baja so enjoyable to drive also make it extremely safe. Standard AWD, responsive handling and 4-channel/4-sensor anti-lock brakes all help you avoid harm. And that added control translates into a true feeling of confidence when you’re behind the wheel. When trouble is unavoidable, an advanced Passive Safety system is there to help protect you. Ring-shaped reinforcement frames in the front, center and rear of the Baja work with reinforced side sills to disperse the energy of an impact around the passenger compartment. Front and rear crumple zones progressively deform to absorb the energy of a collision. Inside, front seatbelts with automatic pre-tensioners and force limiters, along with driver and dual-stage front passenger air bags help protect occupants during deceleration in a collision. For added protection, interior trim surrounding the windows is specially designed to absorb occupant impact to reduce injury in the event of a collision. And to help make sure your child safety seat is properly secured, Baja employs the Lower Anchors and Tether for Children (LATCH) System. This system provides rear seat anchorage independent of the vehicle’s seatbelts for installing a compatible child safety seat in either of the rear outboard positions. LATCH standardizes the installation of child safety seats to help reduce the risk of the seat being installed incorrectly.

* Always wear seatbelts. Children should be properly restrained in the rear seat.
The innovative Baja Switchback system gives you the kind of flexibility you just won’t find anywhere else. And because it’s a Subaru, you’ll also find a full supply of safety, comfort, and luxury. The Switchback system incorporates a door in the rear bulkhead panel. With the rear seatback down, a durable surface allows cargo to be carried in the rear passenger area. Open the Switchback door, and the cargo bed extends into the rear passenger area for carrying long items. For your enjoyment, accommodations include standard perforated leather-trimmed upholstery, a 6-way power driver’s seat, center consoles with cup holders front and rear, and the security of headrests and 3-point seatbelts for all four seating positions.

WE BEND OVER BACKWARDS SO YOU DON’T HAVE TO.
Finding a comfortable place is easy with the standard 6-way power driver’s seat. A manually adjustable lumbar support provides a custom fit.

To help secure your gear, the cargo bed features four tie-down hooks that can be used with the optional bed cargo net.

The standard remote keyless entry system makes unlocking and locking your Baja a snap. When the vehicle is locked with the remote, the system gives an audible “chirp” to confirm the vehicle is secure.

To help you keep your cool and protect the interior of the Baja from sun damage, the rear side door windows and rear window feature dark-tinted privacy glass.

The standard power moonroof gives you the sun during the day, the stars at night, and a refreshing breeze anytime.

Looking for something? The standard dual illuminated cargo bed light makes nighttime loading and unloading easier.

With its appetite for adventure, you’ll probably take your Baja on some long trips. And with an abundance of standard features, including cruise control and premium AM/FM stereo with single-disc CD player, you’ll really enjoy the ride. But it’s the little things that others forget that make your everyday experience so enjoyable. That’s why you’ll find standard center consoles front and rear, convenient mesh pockets on the front seatbacks, dual map lights and dual-illuminated visor vanity mirrors.

For maximum cargo space, you can drop the tailgate with the optional bed extender in place and lower the Switchback door for a cargo area over 90 inches long. Or with the Switchback system closed (as shown), and you have a cargo bed over 58 inches long and still have seating for four.

Need more room? Fold down the Switchback door and have a cargo area over 74 inches long, and easy access to anything you need.

Cargo shown for display purposes only. Always secure all cargo in vehicle.

See Owner’s Manual for instructions and precautions concerning cargo space, load and loading.

*The optional bed extender must be used when driving with the tailgate open.

Whatever you want to do, with this versatile Switchback system, the Baja is open for it. Consider the possibilities: with room for four, you can use the cargo bed or use the optional bed extender* for even more room. With two on board and the rear seatback down you can secure cargo internally or open the Switchback door and extend the cargo bed to allow items to be carried over 7 feet long. And with the integrated bed liner, the cargo area is protected as well.

With the Switchback door closed, you have plenty of room for four and a cargo bed floor 41.5 inches long by 40 inches wide.

For maximum cargo space, you can drop the tailgate with the optional bed extender in place and lower the Switchback door for a cargo area over 90 inches long. Or with the Switchback system closed (as shown), and you have a cargo bed over 58 inches long and still have seating for four.

Genuine Subaru Accessories not only help you stand out in the crowd, they’re the smart choice when outfitting your new Baja. Subaru specially designs accessories that are expressly made to the same high level of quality, durability, fit and finish as our cars. A perfect example is the available Security System Upgrade Kit which is designed to work with the standard remote keyless entry system on Baja. And you buy with confidence, knowing that Genuine Subaru Accessories are covered by the basic vehicle 3-year/36,000-mile limited warranty when installed at the time of vehicle purchase. For complete warranty details, see your Subaru dealer. You can raise the Baja sound system to audiophile-level performance with the optional audio upgrade components.

To Baja you can add a 6-disc in-dash CD changer. Upgraded speakers offer crisper sound with minimal distortion, while the tweeter kit gives increased high-frequency response as well as improved stereo imaging. And for powerful bass, the sub-woofer amplifier adds 120 watts of power and delivers low frequency sound you not only hear, but feel.

Security system upgrade kit. Upgrade the remote keyless entry with the addition of a security system.

6-disc in-dash CD changer. Allows selection and play for up to six CDs in dash.

Upgraded speakers. Speaker kit includes four upgraded speakers for a crisper sound with minimal distortion.

Sub-woofer/amplifier. Mounts under passenger seat. Delivers super bass sound you not only hear but feel.

Tweeter kit. Special speakers help enhance high-frequency audio.

Auto-dimming mirror/compass. Includes electronic compass. Mirror darkens when headlights are detected from rear of vehicle.

Rubber mats. Heavy-gauge, custom-fitted protective mats.

Air-filtration system. Helps reduce dust and pollen infiltration within the vehicle cabin area.

Bed cover (Tonneau). Unique weather resistant vinyl and plastic cover helps protect bed cargo area from the elements. Vinyl cover may be rolled up and secured to access bed area.

Bed extender. Sturdy U-shaped aluminum construction extends bed floor length to nearly 60 inches. Locking straps help prevent movement during vehicle operation.

Bed bike carrier. Lockable carrier holds up to two bikes with fork mounts. Includes holders for front wheels. Shown with optional bed extender.* (available November 2002)

Bike hitch/attachment. Slides into trailer hitch to carry up to two bikes. Designed for easy dismounting of bikes without lifting**

Bike attachment. Transports two bicycles in secure fashion.

Bed cargo net. Heavy-duty net with bungy-style straps helps hold bulky-shaped cargo to bed floor.

Cargo net, horizontal. Provides added cargo-carrying capacity. Mounts horizontally to the folded-down rear seat back.

Cargo net, vertical. For secure storage of items behind the rear seat.

*Use of bed extender recommended.

**To avoid blocking rear taillights, use roof-mounted bike attachment or bed bike carrier to transport solid-wheel bikes.

Security system upgrade kit. Upgrade the remote keyless entry with the addition of a security system.

6-disc in-dash CD changer. Allows selection and play for up to six CDs in dash.

FINISHING TOUCHES

11 Front end cover-full. Helps protect the front of the Baja from stone chips. Cover is custom fitted, tough weather resistant vinyl.

12 Front end cover-hood. Helps protect the front of hood from stone chips and provides a sporty appearance.

13 Hood deflectors. Durable acrylic plastic wrap-around design helps protect the Baja hood from stone chips and bags.

14 Rear differential protector. Helps protect rear differential from rocks and logs.

15 Wheel locks. Help protect your investment in alloy wheels and tires.

16 Splash guards. Color matched to lower cladding and made of durable vinyl to help protect paint finish. Set of four.

17 Rear bumper corner molding. Helps protect rear bumper from scratches and dings.

18 Engine block heater. 400-watt, 115-volt heater.

19 Battery warmer. For easier cold weather starting.

20 Car cover. Helps protect the exterior of your Baja.

21 Trailer hitch. Heavy-duty rated at 200 lbs. tongue weight, 2,400 lbs. towing capacity. (Ball not included. Trailer brakes may be needed).*

22 Rear differential protector. Helps protect rear differential from rocks and logs.

23 Wheel locks. Help protect your investment in alloy wheels and tires.

24 Sport activity lights. Illuminates the area in front of the Baja when parked. Lights mount to cross bars. Includes Baja-logoed light covers which help prevent stone damage.

25 Moonroof air deflector. Helps reduce wind noise and cuts sun glare.

26 Kayak carrier. Attaches quickly and easily to cross bars. Carries two kayaks.

27 Roof cargo basket. Adds increased cargo carrying capacity.

28 Ski attachment. Holds up to six pairs of skis or four pairs of skis and poles. May be used to carry snowboards or fishing rods.

29 Moonroof air deflector. Helps reduce wind noise and cuts sun glare.

30 Engine block heater. 400-watt, 115-volt heater.

* When properly equipped. See Owner’s Manual for detailed instructions you should follow when towing a trailer.
**SPECIFICATIONS**

**ENGINE**
- Horizontally opposed 4-cylinder with die-cast-aluminum block and aluminum-alloy cylinder heads
- Displacement: 2.5 liters (156 cubic inches)
- Horsepower: 165 @ 5600 rpm
- Torque (lb-ft): 142 @ 4000 rpm
- Valvetrain: 16-valve with single overhead camshaft design (SOHC)
- Fuel System: Sequential multi-port fuel injection system
- Ignition System: Low-maintenance distributorless electronics
- Engine Management: EOS Engine Control Module manages fuel injection and ignition systems and features learning, self-diagnosis, limp-home and anti-knock capabilities

**DIMENSIONS** (Numbers unless otherwise noted)
- Wheelbase (length): 104.3 (inches unless otherwise noted)
- Wheelbase (length): 193.3
- Width (between wheelhouses): 39.2
- Width (at doors): 49.0
- Depth (at rear): 17.0
- Curb Weight (lbs.): 3485
- EPA Interior Volume: 90.5
- EPA Cargo Bed Volume: 17.7
- Maximum Towing Capacity (lbs.)*: 2400 (Class One)

**SAFETY**
- Meets all Federal passenger car safety standards
- All-Wheel Drive (AWD) (for all-wheel drive features
- Antilock brake system
- Rear differential
- 4-channel anti-lock brake system (ABS)
- Dual-stage front air bags (SRS)*
- Drainage/door deployment passenger front air bag (SRS)*
- Daytime running lights
- Height-adjustable 3-point front seatbelts with pre-tensioners and force limiter
- Four cargo bed tie-down hooks
- Energy-absorbing steering column
- Energy-absorbing front and rear bumper beams
- Impact-absorbing bumpers
- Side impact door beams
- 2 rear seat child safety seat anchors
- Child restraint system anchors and tethers for children
- Child safety rear door locks
- Safety belt reminder

**INTERIOR**
- Reclining front bucket seats with height-adjustable head restraints
- Front seatback net pockets
- Driver’s seat lumbar adjustment
- Daytime running lights
- Switch to Electronic Transfer Case (ETC) w/Crevice
- Automatic transmission models have a viscous-coupling limited-slip rear differential
- All Baja models have a viscous-locking center differential
- Automatic transmission models have an electronically managed continuously variable transfer clutch
- Automatic transmission models also have an electronically managed continuously variable transfer clutch
- All Baja models have a viscous-liquifying center differential

**EXTERIOR**
- Large dual exhaust hood vents
- Variable intermittent windshield wipers
- Rear air deflector with timer
- Multi-reflector halogen fog lights with stone shields
- Protective rear bumper step pad
- Rear view mirror w/cover
- Silver Steel Metallic body-color fender
- Rear window defogger
- Stylin’d alloy-finish wheel Spear
- Cargo bed with drop-down tailgate
- Rear cargo bed with lift-out hooks
- Integrated cargo bed liner
- Integrated luggage cap
- Cargo bed sport bars
- Swing-down license plate bracket
- Swing-down license plate bracket

**CHASSIS**
- Body Construction: Unibody with front and rear crossmember, 80% of body sheet metal is two-sided galvanized
- Suspension: Fully independent, heavy-duty raised type with coil springs
- Brakes: Power-assisted with dual-diagonal hydraulic circuits and 4-channel/sensor anti-lock braking system (ABS)
- Steering: Rack-and-pinion with engine-speed-sensitive variable power assist

**DRIVETRAIN**
- Manual Transmission (Standard)
- 5-speed manual with overdrive
- Automatic Transmission (Optional)
- 4-speed electronically controlled with overdrive
- Automatic mode engages with rapid use of the accelerator pedal
- Manual transmission models have a viscous-creeping locking center differential
- Automatic transmission models have an electronically managed continuously variable transfer clutch
- All Baja models have a viscous-liquifying center differential

**WARRANTIES**
- Basic Warranty: 3 years or 36,000 miles, whichever comes first
- Powertrain Warranty: 5 years or 60,000 miles, whichever comes first
- Rust Perforation Warranty: 5 years, unlimited mileage

**DIMENSIONS**
- Wheelbase: 104.3 (inches unless otherwise noted)
- Width (between wheelhouses): 39.2
- Depth (at rear): 17.0
- Curb Weight (lbs.): 3485
- EPA Interior Volume: 90.5
- EPA Cargo Bed Volume: 17.7
- Maximum Towing Capacity (lbs.)*: 2400 (Class One)

**FEATURES**
- Air conditioning with 4-speed fan and ventilation features
- Cruise control
- Illuminated ignition switch ring
- Remote keyless entry system
- Front/rear Cup holders
- Four cup holders: two in front center console with lid and four speakers
- Four cargo bed tie-down hooks
- Cargo bed sport bars
- Swing-down license plate bracket
- Swing-down license plate bracket

**WARRANTIES**
- Basic Warranty: 3 years or 36,000 miles, whichever comes first
- Powertrain Warranty: 5 years or 60,000 miles, whichever comes first
- Rust Perforation Warranty: 5 years, unlimited mileage

* When properly equipped. See Owner’s Manual for detailed instructions you should follow when towing a trailer.

†† The Supplemental Restraint System (SRS) (air bags) affords the driver and front seat passengers additional protection in a moderate to severe frontal collision. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat.

†† For complete warranty information, including coverage and exclusions, see your Subaru dealer.

Specifications in this brochure are based on the latest product information available at the time of publication. Specifications shown in photographs may differ from those in this brochure. Specifications in this brochure are intended as general information and should be confirmed by contacting your Subaru dealer before making a purchase decision.

Learn more about Subaru at the Web site at www.subaru.com.
The Baja is brand new, so we don't have any awards to tell you about. Yet. But it does have award-winning genes. The Impreza WRX was named 2002 Automobile of the Year by Automobile Magazine. Winner of Car and Driver's 2002 10Best Cars, along with MotorWeek Driver's Choice Awards—Best Sports Sedan. And Edmunds.com gave the WRX the Most Wanted Vehicle Award for 2002—Sport Sedan under $30,000. And Kiplinger's Personal Finance named Forester L "First for Safety." And our commitment to value and quality makes the Forester being named a "Best Bet for 2002" in the Mid-size Sport Utility category by The Ultimate Car Book 2002 particularly nice, considering they also named the Legacy a "Best Bet" for the 5th year in a row. And because we're in this for the long haul, we're extremely pleased that the Legacy was recognized by Polk for having the highest model loyalty in the Mid-Size Car segment; and Forester the highest model loyalty in the Compact SUV segment for the 2001 model year.

**Mid-size Sport Utility category, the Ultimate Car Book 2002 (HarperCollins)**

*According to Polk statistics for the Compact SUV Category in the 2001 model year, Subaru Forester and Subaru Legacy ranked highest by having the greatest percentage of households to return to purchase or lease another Subaru Forester or Subaru Legacy vehicle.

To learn more about the entire award-winning line of Subaru vehicles, visit us on the Web at www.subaru.com or call 1-800-SUBARU-3.

The Subaru Roadside Assistance Program covers all 2003 Subaru vehicles during the first three years or 36,000 miles, whichever comes first. By calling the toll-free number in the Owner's Information Kit, Subaru owners can take advantage of any of the following benefits:

- **24-hour Roadside Assistance**, seven days a week, 365 days a year at throughout the United States.
- **Emergency Towing Service** to the nearest authorized Subaru dealer.
- **Emergency Roadside Assistance** for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle) and emergency fluid replacement. See your Subaru dealer for details.

Subaru supports the U.S. Forest Service's "Tread Lightly!" organization and urges you to go easy on the environment when you go off-highway.
