Just picked up my new STI; it looks amazing. There's a lot of cars that have a lot of power, but the WRX puts the power to the pavement, where it counts. A little while ago, I traded my Subaru for another sport compact. What a huge mistake! I can't wait for the time I can own another Subaru. Subaru AWD makes the STI an absolute beast on the track.

The Impreza WRX and WRX STI in the words of those who own them:

Those who know, appreciate the legacy behind a WRX. And it gets respect. Sure it's fast, but I really love the interior, too. It's much more sophisticated than some competitors. I love the reliability of my Scooby, and I certainly don't want a car I'm going to have to take to the shop every two weeks. I buy a car to drive, not to repair! You only have to drive a WRX for maybe an hour or two, and you'll know—it's one incredible car. A friend of mine was looking at some other car, but I helped him see the error of his ways. I want more than just a straight-line car, and my STI handles like it's on rails. It's fast, I can drive it in the snow, and it has a really cool community of owners, too. When I drove up, my mom was a little surprised. She said, 'I didn't know Subaru made cars like this.' I didn't tell her the horsepower rating. I don't drive it for the attention (though it gets a lot). I drive it because I love to drive.
Bringing the world together, one corner at a time.
Because you love the rush.

Point A to point B doesn’t even begin to describe it. You see an open stretch of tarmac as a blank canvas, and driving as a form of self-expression. You are not alone. G-force junkies can be found all over the world. And for years, untold numbers have been united by their passion for two incomparable high-performance cars: the WRX®, now bolder and badder—and its untamed sibling, the WRX STI®. Step behind the wheel and on the throttle of either, and you’ll know exactly what has inspired so many.

The 2009 Subaru Impreza WRX and WRX STI.
Elevating high performance by digging in the dirt. Whether it’s dodging snowdrifts in Sweden, taking flight at the X Games, or grinding gravel in Greece, to be the best in rally racing you have to be ready for extremes. The Impreza WRX and WRX STI put true performance in your hands with the quickness, agility and adaptability of the rally platform. It’s a design that’s better than fast—it’s smart.

An Icon Forged in Competition
Legends don’t happen by accident. They’re made by being the best in design, engineering, and driving, and coming out on top when the dust clears. The Subaru Impreza got its reputation by dominating competitions all over the world. The X Games, Rally America, and even the pinnacle of rally racing competition, the World Rally Championship, have all seen many Impreza victories. The power, agility and winning spirit of these champion cars live on inside every WRX and STI.

Continuing the Bloodline
From radical changes in body style to subtle suspension tweaks, Subaru Tecnica International—the high-performance wing of Subaru—takes the lessons learned in the crucible of rally competition and applies them to the WRX and its signature model, the STI. Each stage in the evolution of these models reflects what’s needed on the race course to stay competitive in one of the most demanding motorsports on earth.
It’s more than a car. It’s a culture.

Speed knows no borders. Performance goes beyond boundaries. From the freeways of L.A. to the back roads of Istanbul, you’ll find WRX and WRX STI fans. United by a devotion to rally and a passion for high-performance driving, they come together from all corners of the globe to share in the language of fast. You are officially invited to take part in the movement. fraternityofsti.com
2 GUYS WITH A PH.D. IN OMG

Going from showroom to showtime.

What SRT USA drivers Travis Pastrana and Ken Block do with a vehicle, most of us will only ever dream of. Yet, there’s no better platform for these X Games superheroes than the Impreza WRX STI. Their competition vehicles may be modified, but the same control, response, and durability you get with a WRX or an STI help give these daredevil athletes what they need to redefine what’s possible behind the wheel.

Do not attempt. Stunts performed at sanctioned events. Specially equipped rally vehicle.
Power

For generations, the Impreza WRX and WRX STI have outpaced the compromises of a conventional approach. Their famed SUBARU BOXER® engine is intensifi ed with enhancements that make every firing of its spark plugs an explosion of emotion. Every breath is rush-delivered via intercooled turbocharging. The resulting torque and horsepower race to all four wheels with maximum efficiency for throttle response that reminds you every time why you love to drive.

Turbocharger
If it's a WRX or an STI, its not-so-secret weapon is a turbocharger that helps to generate 265 force-fed horsepower for the WRX, and a whopping 305 horsepower for the STI. As always, the signature hood scoop is the real deal, supplying airflow to a lightweight intercooler that boosts output and response by enhancing the turbocharger's ability to deliver a potent fuel and air mixture.

Subaru Boxer Engine
With pistons laid flat, the SUBARU BOXER engine offers drivers unique advantages. The pistons' movement helps reduce vibration for revs that come on buttery smooth. And the layout boasts a flatter profile and helps create a lower center of gravity for the entire car—increasing balance and stability for cornering characteristics that are one-of-a-kind.

Active Valve Control System
While turbocharging boosts power by pumping more air into each cylinder, the Subaru Active Valve Control System (AVCS) on the WRX and Dual Active Valve Control System (DAVCS) on the STI make sure to deliver the air at precisely the right moment. Valve timing is adjusted to match engine rpm, for better response at any speed.

Horsepower
GENTLEMEN, START YOUR DYNAMOMETERS
It’s not just what you’ve got; it’s how you use it. With an enhanced horsepower rating of 265, the 2009 WRX gives you a lot to work with. But follow the torque chart and you’ll see the ability of the WRX to turn power into acceleration. Torque peaks at 244 lb-ft—more than any previous WRX—and continues over a wide power band. It’s a punch that takes WRX from 0–60 mph in just 5.4 seconds. But you won’t need a dyno, or even a stopwatch to appreciate it.
If you want to turn power into action, you need traction. Subaru has put more than 30 years into developing a traction system that delivers pavement grip and vehicle control unlike any other. The result, Subaru Symmetrical All-Wheel Drive, boasts almost total side-to-side symmetry for optimal balance and stability. What’s more, it delivers power with brilliant efficiency for rapid response to slippage and to driver input.

**why**

**awd**

**Exceptional Control**
The Subaru Symmetrical All-Wheel Drive system, with its fore, aft and lateral balance, results in excellent handling overall. Unlike a rear-wheel drive car which may oversteer, or a front-wheel drive car that is more prone to understeer, the full-time symmetrical AWD of the WRX and WRX STI transfers power to all four wheels for more stable, neutral cornering. The result? Greater safety and intensified performance.

**Instantaneous Response**
Only four small patches of rubber keep you in control of your vehicle. The more your tires are engaged, the more control you have. Unlike FWD or RWD vehicles, the Subaru Symmetrical AWD system keeps power routed to all four tires. So they’re all ready to respond when you use the throttle, especially in tight curves or unexpected maneuvers.

**Road Adhesion**
The greater the grip your tires have on the road, the more predictable your car becomes. With all four wheels receiving power all the time, chances are much more likely that none will be overpowered or spin freely, and your vehicle will stay on its intended trajectory. Think of it as prevention rather than reaction.
Handling
You don't take on the menacing courses and brutal competition of the World Rally Championship without learning a thing or two about handling. With the intense grip of Subaru Symmetrical All-Wheel Drive and the poise and balance of the SUBARU BOXER engine, the WRX and WRX STI put intense control into the hands of drivers. Both are also equipped with a high-performance, 4-wheel independent suspension to further sharpen vehicle responsiveness. All this works to help driver and vehicle and road stay perfectly in sync for cornering that's pure inspiration.

WRX Premium 4-door in Satin White Pearl.

Powerful Braking
Impressive power must be matched with impressive stopping power. So the WRX and the STI are equipped with large disc brakes at all four wheels. The Antilock Braking System (ABS) is also standard equipment, along with Electronic Brake-force Distribution (EBD), which optimally reapporions stopping power to the front and rear wheels.

Vehicle Dynamics Control (VDC)
Standard on every 2009 WRX and STI, the VDC electronic stability control system helps keep you on your intended path by measuring variables such as steering input and braking. If the system senses the vehicle deviating from your intended course, VDC applies individual brakes and/or reduces engine power to help keep you securely in control.

Track-Tuned Suspension
The 2009 WRX features an enhanced, track-ready, 4-wheel independent suspension designed to eat up the world’s greatest roads as well as handle the daily rigors of real-world driving. Front struts feature multiple-phase damping for an ideal balance of stability and precision. While the double wishbone rear suspension matches smoothness with control.
Performance-Design Seats
Designed for hardcore driving and serious comfort, the front seats in the WRX and the STI are contoured for support around corners and down the road. Deep side bolsters help you handle lateral g-forces, and a height adjuster helps the driver find that perfect spot at the helm.

Generous Cargo Space
The rear suspension of the WRX and STI doesn’t just help it handle better—it helps it handle more. More cargo. More gear. The 4-door can take on three golf bags in its 11.3 cubic-foot trunk. The 5-door’s remarkably wide cargo area boasts a maximum of 44.4 cubic feet of space, and features a standard retractable cover.

10-Speaker Audio System
Every epic drive needs an epic soundtrack to make it complete. With the available 10-speaker system, the crisp, crystal clarity of the SRS Circle Surround Automotive® audio enhancement turns every WRX seat into a sweet spot. And with available XM® or SIRIUS® Satellite Radio, you’ll enjoy digital-quality programming wherever your epic drive takes you.

Auxiliary Audio and Video
Every WRX or STI comes standard with an audio jack for connecting a portable music player. And now the accessory iPod® Interface Kit, which allows you to charge your iPod® and control it through the head unit, is available at every trim level. Team this kit with the navigation system, and get enhanced interactivity. What’s more, the nav system gives you audio/video jacks that let you plug in nearly any music, video, or gaming device. Park the car, and the video portion plays on the in-dash screen.

Interior
Functional and rewarding. Subaru insists your interior be both. Twist the key and illuminated red needles perform a full sweep of crisp electroluminescent gauges. Look—or feel—your way around the cockpit, and you’ll find every detail is executed to connect you to your car, from a multifunction trip computer to an L.E.D.-illuminated storage area. And a tilt/telescoping leather-wrapped steering wheel puts available audio and standard cruise control buttons at your thumbs. It’s a Subaru. Functional has to feel good.

60/40-Split Flat-Folding Rear Seatback
Performance matched with practicality has always been a hallmark of the WRX. Both the 4- and 5-door models feature the versatile 60/40-split fold-down rear seatback, which allows you to expand the cargo area, while still bringing along a rear-seat passenger or two.

Touch-Screen Navigation System
Just a few taps on the high-resolution touch-screen of the available GPS navigation system and you’ll have a co-pilot across town or across the country. When not in use, you can use the system as a calendar, a calculator, or to get information on your vehicle.
No matter how fast a vehicle gets you to your destination, the most important thing is that it gets you there in one piece. Subaru is committed to **protecting** passengers with multidimensional safety. So committed, that each and every Subaru model tested, when equipped with available VDC, was chosen as an IIHS 2008 Top Safety Pick.1

---

**Active Safety |** Trust. Subaru knows that this is the most important feeling to have when you get behind the wheel. You can drive with confidence knowing that Subaru engineers their vehicles to assist in keeping you safe by helping you avoid accidents. Exceptional visibility helps you see danger coming, and active technologies like Subaru AWD and a responsive suspension help you stay in control in an emergency.

**Passive Safety |** In a worst-case scenario, the Subaru Impreza is one of your best possible bets. Government crash testing recognizes the Impreza with a five-star crash-test safety rating.2 Its brilliant track record in safeguarding passengers comes from an array of advanced protection technologies coupled to a body structure that is meticulously engineered to help save lives.

---

**Brake Assist**
This feature helps provide safer braking in a panic stop. By sensing the speed with which the brake pedal is depressed, maximum brake pressure is immediately applied, even if your right foot doesn’t supply enough force.

**Vehicle Dynamics Control (VDC)**
Standard on every 2009 WRX and STI, VDC electronic stability control monitors the path of your vehicle to help detect unwanted deviations in your trajectory, and corrects them to keep you in control and on the right path.

**Front, Side and Side-Curtain Airbags**3
An array of sensors can deploy any one or more of the six airbags the instant an accident is detected. The WRX and the STI feature side-curtain airbags to better provide all-over protection for the driver, front passenger and outboard rear passengers.

**Ring-Shaped Reinforcement Frame**
Exceptionally strong, the frame design of the WRX and the STI not only helps to maintain cabin integrity during a crash—it also helps divert dangerous impact energy away from occupants.

---

1 Rating based on Insurance Institute for Highway Safety’s (IIHS’s) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, and 20-mile-per-hour rear-impact test. For more information, contact IIHS at www.iihs.org.

2 Star ratings are part of the U.S. Department of Transportation’s safercar.gov program (www.safercar.gov). For more information, contact IIHS at www.iihs.org.

3 Always wear seatbelts. Children should be properly restrained in the rear seat.
16 years of rally experience, boiled down to 4.7 seconds.
Intensified Power
A rush like none other. Turn the key, ignite the power plant and feel the intercooled, high-boost turbocharger spool up to unleash 305 horses, and 290 lb-ft of vicious torque sure to keep you firmly pinned to your seat. The SUBARU BOXER engine’s low-slung and uniquely balanced design keeps all that power poised and agile for precision handling.

Legendary Traction
Gravel. Tarmac. Dirt. Rain. Snow. Raced on virtually every surface, Subaru Symmetrical All-Wheel Drive has proven itself to produce pavement-rending grip and brilliantly efficient power delivery. When strapped to the STI, Subaru AWD results in traction that melts curves, and accelerates heartbeats.

Cutting-Edge Control
Experience response and control that’s virtually telepathic. At the heart of the handling is a high-performance sport-tuned suspension ready to knife into hard maneuvers. Inverted struts up front add stability and cornering precision, and a rear suspension with double wishbone design helps eat up uneven roads without upsetting the chassis. Multi-mode Vehicle Dynamics Control (VDC), featuring the Traction mode, gives you the power to keep the handling razor-sharp while retaining the safety characteristics of VDC. And fat Brembo brakes help you keep a leash on the power and acceleration of the STI.
Navigation System
Find that epic mountain drive or that restaurant downtown. With the available navigation system, it takes just a few taps on the ultra-sharp, 7-inch screen and you're there. When you've finished your drive and parked, flip the screen up, slip in a DVD, and enjoy a movie.

Customized Performance
The STI puts you in the driver’s seat in more ways than one. With the exclusive Driver Controlled Center Differential (DCCD), you can define how Subaru AWD distributes power. Use three distinct automatic modes to fine tune the system for the road conditions you encounter, or use manual mode to create the handling characteristics you desire. A quick-shifting 6-speed manual gives you plenty of gearing room to match your driving style, and the innovative SI-DRIVE lets you tailor the way the engine behaves—from smooth and efficient to completely unrestrained.

Performance-Design Front Seats
Deep leather bolsters and rich, grippy Alcantara inserts keep you in position and ready when g-forces take hold.

Satellite Radio
Rock to hip hop. Stand-up comedy to sports commentary. Enjoy a vast array of digital-quality programming with available XM® or SIRIUS® Satellite Radio.1

**FUEL**

- Shoulder room (front/rear): 54.8 inches/53.2 inches
- Legroom (front/rear): 43.5 inches/33.5 inches
- Cargo volume: 11.3 cubic feet
- Traction Control System (TCS): VDC also incorporates three different selectable modes of vehicle performance characteristics by regulating the engine control unit (ECU) and by fine-tuning the electronically controlled throttle.
- Driver Controlled Center Differential (DCCD): All-Wheel Drive axles an electronically managed multi-plate transfer clutch and a planetary-limited-slip differential to control power distribution between the front and rear wheels. Featuring manual and three automatic modes, EDCD splits power 41% front and 59% rear. Sensors monitor parameters such as wheel slippage, steering angle, throttle position and braking to help determine torque distribution and direct it to the wheels with optimum traction. EDCD also features a limited-slip half shaft rear and Torana® rear differential.
- Driver Controlled Center Differential (DCCD): All-Wheel Drive!
- Brakes: 4-wheel disc, ventilated front, Dual-piston front and dual-piston rear calipers, 4-channel, 4-sensor ABS with Electronic Brake-force Distribution (EBD). Brembo® performance braking system, 4-wheel disc, ventilated front and rear.
- Electronic Brake-force Distribution (EBD)!
- Stability and traction:
  - VDC stability control utilizes sensors which constantly monitor wheel speed, steering angle, brake pressure, vehicle weight and lateral g forces. If VDC detects a difference between the driver’s intended path and the one the vehicle is actually taking, VDC applies braking force and/or reduces engine torque to help correct vehicle path. Exclusive to WRX STI, VDC features Standard, Off and performance-oriented Traction modes.

**CHASSIS**

- Steering: Engine speed-sensing variable power-assisted rack and pinion. Turn radius: 36.5 feet.
- Suspension:
  - Front: Strut-type with lower L-arm.
  - Rear: Double wishbone.
- Brakes: 4-wheel disc, ventilated front, Dual-piston front and dual-piston rear calipers, 4-channel, 4-sensor ABS with Electronic Brake-force Distribution (EBD).
- Brakes:
  - Front: 12.8 inches/10.7 inches
  - Rear: 10.9 inches/9.9 inches
- Wheel:
  - 17 x 7.0-inch 10-spoke aluminum-alloy. Gray color. Optional 18 x 7.5-inch 18-spoke BBS aluminum-alloy. Silver or gold color.

**WHEELS AND TIRES**

- Wheels:
  - 17 x 7.0-inch 10-spoke aluminum-alloy. Gray color. Optional 18 x 7.5-inch 18-spoke BBS aluminum-alloy. Silver or gold color.

**AUDIO SYSTEMS**

- 4-speaker audio system with single-disc in dash CD player and XM® Satellite Radio capability.
- 6-speaker audio system with 6-disc in dash CD changer, XM® Satellite Radio capability and 480 Circle Tuned Automation® audio enhancement.
- Auxillary audio jack
- XM® or Sirius® Satellite Radio capability

---

**CONVENIENCE FEATURES**

- Power front and rear windows with driver’s auto-dowm
- Power side mirrors
- Electronic cruise control
- Tilt/telescoping steering column
- Dual cupholders in center console
- Single bottle holder in each rear door panel
- Sun visors with concealed vanity mirrors
- Center console with LED-illuminated storage tray and 12-volt power outlet
- Illuminated and lockable glovebox
- Footwell illumination
- Cargo-area grocery bag and tiedown hooks (5-door)
- Retractable/removable cargo-area cover (5-door)

**INSTRUMENTATION**

- Analog speedometer, tachometer, coolant temperature and fuel gauges
- Sport design electroluminescent gauges with center-mounted tachometer
- STI sport design electroluminescent gauges with center-mounted tachometer
- Gauge needle full-weep and thin rings illumination on start-up
- Digital trip computer displaying average fuel economy, digital clock and ambient temperature
- DCDD and STI-DRIVE modes display

---

**SEATING AND TRIM**

- 6-way manually adjustable driver’s seat. 4-way manually adjustable front-passenger’s seat.
- Performance-design front seats with fixed integrated head restraints, embroidered WRX logos and red stitching
- Performance-design front seats with fixed integrated head restraints and embroidered STI logos
- Heated front seats
- 60/40-split fold-flat folding reatachable backrest
- Leather-wrapped 3-spoke steering wheel with cruise control buttons and red stitching
- Leather-wrapped 3-spoke steering wheel with audio system, cruise control buttons and red stitching
- STI-design leather-wrapped 3-spoke steering wheel with audio system and cruise control buttons
- STI-design leather-wrapped 3-spoke steering wheel

1  iPod® Interface
Take your music, podcasts, and audiobooks on the road with the iPod® Interface. Control your iPod through the factory head unit and steering wheel controls (if equipped), while text displays artist, album, song, or playlist information. The dock connector is located in the center console compartment, freeing the interior of unsightly cables and keeping the iPod hidden while it’s charging.
Not compatible with vehicles equipped with satellite radio. See www.subaru.com/ipod for complete details.

2  Sport Mesh Grille
Bold metal mesh design grille comes pre-painted and ready to install. Available with or without STI logo.

3  Body-Side Moldings
Color-matched moldings help protect the vehicle’s doors from parking lot dings while attractively blending with the lines of the car.

4  Exhaust Finisher
Aluminum trim pieces add a serious performance look to the rear of WRX STI.

5  Roof Carrier Base
Can be installed or removed in minutes without the use of any tools. Fits both 4- and 5-door models and is compatible with most Genuine Subaru roof carriers and attachments.
Consult vehicle owner’s manual for total roof load limit.

6  SPT Performance Exhaust System
These exhaust systems feature full stainless steel construction with smooth mandrel bends for low restriction and that famous boxer engine sound. WRX 4-door system shown. Available for WRX 4-door and 5-door.

7  Rear Cargo Tray
Helps protect cargo area from dirt and spills. Can be easily removed and rinsed clean.

8  iPod® Interface
Take your music, podcasts, and audiobooks on the road with the iPod® Interface. Control your iPod through the factory head unit and steering wheel controls (if equipped), while text displays artist, album, song, or playlist information. The dock connector is located in the center console compartment, freeing the interior of unsightly cables and keeping the iPod hidden while it’s charging.
Not compatible with vehicles equipped with satellite radio. See www.subaru.com/ipod for complete details.

9  Footwell Illumination
Casts a groovy blue glow onto the front floor area. Also available in red.

10  Auto-Dimming Mirror with Compass and HomeLink®
Mirror darkens when headlights are detected from behind the vehicle. Includes electronic compass and three integrated HomeLink buttons which can be programmed to operate most garage-door openers and other HomeLink compatible devices.

11  Bluetooth® Hands-Free Kit
Wirelessly connect your Bluetooth compatible cell phone with your Impreza using menu choices displayed on the navigation screen. Make and receive calls, store phone book information and more. Available on vehicles equipped with navigation system only. Some Bluetooth phones may not be compatible. See www.subaru.com/bluetooth for details.

12  Short-Throw Shifter
Significantly reduces shift throw lengths for crisper shifts and sportier driving feel. Available for both 5 M/T and 6 M/T transmissions.

Make a Subaru your Subaru. From styling upgrades to storage solutions, you can outfit your vehicle to be as unique as your adventures. With genuine Subaru accessories, you’ll have the versatility to take everything you need. And backed by a 3-year or 36,000-mile limited warranty, they’re built with Subaru reliability in mind.

For a complete list of available accessories, visit your local Subaru dealer or log on to subaru.com.
Your Subaru will be a vehicle you can love for years to come. That’s the promise delivered by our comprehensive warranties, Roadside Assistance Program, and outstanding vehicle reliability. It’s a promise attested to by the fact that 95% of Subaru vehicles sold in the past ten years are still on the road today.¹ Love. It’s what makes a Subaru, a Subaru.

Powertrain Limited Warranty
5 years or 60,000 miles, whichever comes first.

Rust Perforation Limited Warranty
5 years, unlimited mileage.

New Car Limited Warranty
3 years or 36,000 miles, whichever comes first.

Wear Item Limited Warranty
3 years or 36,000 miles, whichever comes first.

We cover you where others don’t. Repairs to the following items will also be covered under warranty:

• Brake Pads
• Wiper Blades
• Clutch Linings
• Transmitter Batteries

Insurance Privileges for Subaru Owners
The driving experience is only one of the benefits of Subaru ownership. Through Subaru Advantage Insurance by Liberty Mutual, Subaru owners may be eligible for an exclusive rate on auto and home insurance just for owning a Subaru. To learn more about Subaru Advantage Insurance and the special features designed for Subaru owners, visit subaru.com.

Subaru Added Security
It’s possibly the most important option you choose. Protect your investment with a Subaru® Added Security® extended service contract—the only one backed by Subaru of America, Inc. Ask your salesperson for coverage details and assistance in selecting the plan that’s best for you, up to 7 years or 100,000 miles.

Subaru.com
Begin your Subaru experience right in your own home. Here, you can find extensive information, including specs, photos and reviews, build your own Subaru, contact dealers, and schedule a test drive. After your purchase, activate your free My.Subaru site, where Subaru owners can track their vehicle’s service history, schedule service appointments, receive special offers exclusive to My.Subaru members, and much more.

The Subaru Roadside Assistance Program
This comprehensive package covers all 2009 Subaru vehicles during the first 3 years or 36,000 miles, whichever comes first. By calling the toll-free number on the Owner’s Information Kit, Subaru owners can take advantage of any of the following benefits:

• 24-Hour Roadside Assistance, seven days a week, 365 days a year, throughout the United States.
• Emergency Towing Service to the nearest authorized Subaru dealer.
• Emergency Roadside Assistance for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle), and emergency fluid replacement.

Your Subaru will be a vehicle you can love for years to come. That’s the promise delivered by our comprehensive warranties, Roadside Assistance Program, and outstanding vehicle reliability. It’s a promise attested to by the fact that 95% of Subaru vehicles sold in the past ten years are still on the road today.¹ Love. It’s what makes a Subaru, a Subaru.

Just picked up my new STI; it looks amazing • There’s a lot of cars that have a lot of power, but the WRX puts the power to the pavement, where it counts • A little while ago, I traded my Subaru for another sport compact. What a huge mistake! I can’t wait for the time I can own another Subaru • Subaru AWD makes the STI an absolute beast on the track • The Impreza WRX and WRX STI in the words of those who own them • Those who know, appreciate the legacy behind a WRX. And it gets respect • Sure it’s fast, but I really love the interior, too. It’s much more sophisticated than some competitors • I love the reliability of my Scooby, and I certainly don’t want a car I’m going to have to take to the shop every two weeks. I buy a car to drive, not to repair! • You only have to drive a WRX for maybe an hour or two, and you’ll know—it’s one incredible car • A friend of mine was looking at some other car, but I helped him see the error of his ways • I want more than just a straight-line car, and my STI handles like it’s on rails • It’s fast, I can drive it in the snow, and it has a really cool community of owners, too • When I drove up, my mom was a little surprised. She said, ‘I didn’t know Subaru made cars like this.’ I didn’t tell her the horsepower rating • I don’t drive it for the attention (though it gets a lot). I drive it because I love to drive.
