2019 WRX / WRX STI

The best-handling, best-performing WRX and WRX STI ever.
The WRX has all the hardware needed to corner with grace and speed. Starting with the suspension, the WRX has an enviable setup—a rigid unibody chassis with reinforced suspension mounting points, aluminum front lower control arms with pillow-ball joint mounts, and a double wishbone rear suspension architecture with pillow-ball joint bushings. And with Subaru Symmetrical All-Wheel Drive and Active Torque Vectoring, you’ll enjoy a seemingly endless supply of continuous traction.

Having excellent grip is only half of the handling equation. The other is the driver’s sense of control and precision, which the WRX delivers, thanks to a near-instant 14.4:1 steering ratio.1 With available 18-inch wheels2 and inverted front struts2 for less unsprung weight and more cornering response, the road will have to come to terms with your confidence.

Pure bliss exists in the form of the 268-hp 2.0-liter Direct-Injection Turbocharged (DIT) SUBARU BOXER® engine, where power is generated smoothly, efficiently and instantaneously, thanks to its twin-scroll turbocharger. Matched with either the 6-speed manual transmission or the Sport Lineartronic™ Transmission with SI-DRIVE and paddle shifters,2 the WRX intends to elevate every drive and heart rate.

The WRX backs up its potent performance features with appropriately robust safety measures. With available LED Steering Responsive Headlights (SRH)2 and High Beam Assist (HBA),2,3 the WRX can help safely maximize your visibility at night. The standard Rear-Vision Camera can help keep you aware of what’s behind you as you’re backing up. And with available Blind-Spot Detection2,4 and Rear Cross-Traffic Alert2,4 peace of mind in the WRX is just as possible as excitement.
The WRX STI is laser-focused on handling with a track-tuned suspension that features standard inverted front struts and aluminum front lower control arms for low unsprung weight, an attribute further enhanced by its lightweight 19-inch alloy wheels. And it’s all underpinned by Subaru Symmetrical AWD with Driver Controlled Center Differential (DCCD), front and rear limited-slip differentials and Active Torque Vectoring, so you can hit your apexes and nail your exits with control, precision and speed.

The WRX STI driving experience is a synergy between driver and car that’s all too rare. You’ll feel an invigorating sense of control, thanks to the ultra-quick 13.3:1 steering ratio, rigid unibody chassis and powerful Brembo® high-performance braking system. It features 6-piston front and 2-piston rear monoblock calipers and cross-drilled rotors to stop you with authority and reduced brake fade. For more stability at higher speeds, the signature rear wing of the WRX STI adds downforce for greater control.

It’s a potent, race-proven package—a 2.5-liter turbocharged SUBARU BOXER® engine, which gets a boost in power to 310 hp, thanks to a revised air intake and high-flow performance exhaust system. It’s coupled with a precise and durable 6-speed, close-ratio transmission and SI-DRIVE for on-the-fly performance adjustments. This puts all the power and torque of the WRX STI right into your hands.

For nearly three decades, Subaru Tecnica International (STI) has applied lessons learned in motorsports to Subaru automobiles, not only enhancing performance but the ability to keep performing, lap after lap. Their holistic approach to engineering results in vehicles that are more communicative, responsive, and able to take the sustained punishment that high-intensity driving demands.

Mundane undone.

It’s a joy to drive, and the joy in cars is the experience of driving them.”

— Autoweek.com, 2018
It’s not about settling in. It’s about strapping in. The moment you step into the WRX or WRX STI, the available Recaro® performance seats lock you into position. As you grip the leather-wrapped flat-bottom steering wheel, take control with SUBARU STARLINK™ Multimedia, now with standard Apple CarPlay™ and Android™ Auto integration. Simply use voice commands, steering-wheel-mounted controls or the high-definition touchscreen for easy access to apps such as Pandora®, iHeartRadio® and Stitcher™. Now just crank up the available 440-watt 9-speaker Harman Kardon® premium audio system, and you’re off.

A sports car with room for weekdays.

Compromises are few, thanks to standard roof cross-bar mounting points, a 12-cubic-foot trunk, a 60/40 split-folding rear seatback, expansive rear legroom and wide door openings. In fact, the Subaru WRX has the largest passenger volume among all-wheel drive vehicles in its class.¹ It’s a commuter, an errand-runner and a track-day weapon, all rolled into one. This sports car goes anywhere but the garage.

¹ We do not recommend racing your vehicle. Racing may void the vehicle warranty. See Warranty & Maintenance Booklet for details. If you do race the vehicle, do it safely and lawfully on approved racing tracks. Drive responsibly at all times and obey all traffic laws.

Durability

It's not disposable. It's family.

With the highest standards of manufacturing and with designs that are inherently tough and resilient. It's why our vehicles excel in the most extreme rigors of rally racing. And why 97% of Subaru vehicles sold in the last 10 years are still on the road today.
