The earth isn’t disposable. Neither is a Subaru.

The Legacy is designed for maximum enjoyment out on the road, but at Subaru, we put just as much emphasis on minimizing what we leave behind. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It’s why 94% of the vehicles we’ve built in the last 10 years are still on the road today.1 We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Legacy has been recognized with Partial Zero Emission Vehicle—PZEV—status and SmartWay® certification. It achieves such cleanliness and efficiency without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

1 Based on R. L. Polk & Co. registration data in the U.S. 1998 to 2008. 2 Available on 2010 Legacy models certified as Partial Zero Emission Vehicles (PZEV) that are sold and registered in California, Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont. PZEV emissions warranty applies to only certain states. See your dealer for complete information on warranties and new car financed vehicles. 3 For all 2009 Forester, Legacy and Outback non-turbos. 2.5-liter models certified as PZEV that are sold and registered in California and certain other states. Visit subaru.com/environment for more information.

Love. It’s what makes a Subaru, a Subaru.
Introducing the all-new 2010 Subaru Legacy.

When choosing what to drive, make sure it’s something that drives you.
Love the possibilities.

A new hobby. A new favorite drive. A new way to engage with life every day. Subaru vehicles are uniquely designed and equipped to get you out, to connect you to the road, and to inspire you to embrace more of life’s opportunities. It all starts with the balance of Subaru Symmetrical All-Wheel Drive. Standard on every Subaru, it gives you the stability and control to drive where you want, when you want—always with the greatest confidence. That poise is matched with the reassurance of being protected by award-winning safety. It’s why we hear again and again, “I love my Subaru.”

Love. It’s what makes a Subaru, a Subaru.
By combining the balance and road adhesion of Subaru Symmetrical All-Wheel Drive with the stability of the SUBARU BOXER® engine, Subaru builds more than cars—we build confidence. Confidence that can help you enjoy getting there as much as being there. And it can help you feel the freedom to live more of the life you love.

All wheels. All roads. All the time.
Learn more about the benefits of Subaru's Symmetrical All-Wheel Drive.

**Subaru Symmetrical All-Wheel Drive**

In any driving environment, control of your vehicle comes from one place—where your tires meet the road. Rough or smooth. Curves or straight-aways. A sure grip of the road can give you the control to step around danger, and the engagement to find exhilaration in every strip of asphalt. Subaru has spent nearly 40 years developing a system for traction and control that employs an almost perfectly symmetrical layout to maximize power delivery to the wheels, and to create balance and stability that can heighten your enjoyment of every experience you have behind the wheel.

---

**Better grip to better perform.**

**Quicker Response**

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged, the more control you have. Subaru Symmetrical AWD keeps power routed to all four tires all the time, so it doesn’t have to react to slippage that has already occurred. Rather, it keeps your tires as fully engaged with the road as possible.

**Efficient Design**

Because some systems lack the simplicity of Subaru Symmetrical AWD, they not only sacrifice efficiency, but also can incur more wear and tear. Subaru routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum. All while maximizing the seamless feeling of traction whenever you need it.

---

**Better Balance**

Every Subaru is built for AWD from the ground up. Each one features a longitudinally mounted engine that feeds power to the all-wheel drive system in a straight line. Which results in a balanced drivetrain with almost total side-to-side symmetry that is free of the extra components some other systems need to route power. This symmetry and balance means stability that helps make driving your Subaru safer and agility that makes it more fun.
Horizontally Opposed Design
The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Design
The engine’s flat design is inherently rigid, and reduces the amount of vibration that “V” or inline engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity
The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle more stably balanced and resistant to side-to-side motion than other designs.

Smother Operation
Step on the accelerator and the revs come on smooth. While there’s plenty of power when you need it, it never compromises your comfort or control.

Increased Reliability
An engine subjected to less vibration lasts longer. It’s no wonder 94% of Subaru vehicles built in the last 10 years are still on the road today.

Greater Agility
The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it’s less likely to become unstable during maneuvers, giving you an increased feeling of being in control at all times.

An engine that runs on good ideas.

Subaru Boxer Engine
We think about engines a little differently. We believe an engine should deliver both power and control. That way, it performs as well in rush-hour traffic as it does on a winding road. That’s why every Subaru is powered by the SUBARU BOXER® engine. Its horizontally opposed design and symmetrical layout provide powerful, yet smooth acceleration, but also give drivers balance and stability that set it apart from engines with a “V” or inline configuration. It’s an insightful difference that has the power to make driving more engaging.

Legacy 3.6R in Ruby Red Pearl
My right foot’s new best friend.
How do you define performance?

Refined. Turbocharged 2.5GT

A wealth of ultra-smooth power at the ready. That’s the hallmark of the 3.6-liter 6-cylinder—the largest SUBARU BOXER® engine available. It produces 256 horsepower and 247 lb-ft of torque, moving the Legacy 3.6R models with effortless confidence over the road. This commanding engine is matched with the ease of a 5-speed automatic transmission, featuring SPORTSHIFT® technology and paddle shifters, which allow you to easily control shifting for more direct access to engine power.

Thrilling. 2.5-liter SUBARU BOXER

The all-new 2.5i offers more value than ever. This 4-cylinder engine generates 170 horsepower and 170 lb-ft of torque. Ample power for confident driving. Especially considering that, when paired with Lineartronic™ CVT (Continuously Variable Transmission), you can get 30 miles to the gallon1. With the 18.5-gallon tank, you’ll spend more time enjoying your getaways and less time filling up. What’s more, every mile will be quieter and smoother than any previous Legacy.

Efficient. Lineartronic™ CVT

Experience smooth performance and save money at the same time. Lineartronic™ CVT is an innovative technology that can reduce the amount you spend on fuel. Now available on Legacy 2.5i models, it eliminates the need to shift, thereby preserving momentum. And your engine always stays in its optimal rev range for maximum efficiency. In automatic mode, it infinitely adjusts the transmission to match your needs. Or use the paddle shifters and 6-speed manual mode for quick access to power and torque on the fly.

Advanced. 3.6-liter 6-cylinder

For those of you who desire the kind of lift in your day that only high performance can provide, the all-new Legacy 2.5GT is more ready than ever to oblige. It features an intercooler that’s 25% larger than last year’s—increasing the power this engine puts to the pavement. You’ll now feel the turbocharged punch of 265 horsepower and 258 lb-ft of torque. And it’s designed to respond to throttle input better than ever. A 6-speed manual transmission with new, performance-oriented gearing keeps you always in control of the action.

1 Manufacturer highway estimate. Actual mileage may vary.
Bringing power and control into balance.

Dynamic Handling
Throw the all-new Legacy into a corner, and forget everything you think about driving a spacious sedan. Despite being significantly roomier than last year’s, the all-new Legacy is more athletic than ever. Subaru Symmetrical All-Wheel Drive holds tight to every inch of asphalt—carving hairpins with predictability that makes the car feel like an extension of yourself. Its redesigned chassis features a stiffer sub-frame than last year’s and the same lower center of gravity, making for exceptional stability. And it’s gained less than 50 lbs, so it reacts to changes in direction quickly and effortlessly, which means you’ll be pulling through s-curves with inspiring precision.

Responsive Suspension
Years of experience competing in the automotive acrobatics of rally racing have helped Subaru develop a suspension system that communicates with the driver. Its 4-wheel independent design maximizes the feel you have for the road. While the double-wishbone rear deflects the worst of the bumps without unsettling the chassis. With MacPherson struts up front, it’s a tight, yet supple ride that always leaves you in touch and in control.
More space.
More focused than ever.
As sharp as it is comfortable.

Your Cabin

The interior of the all-new Legacy has been completely redesigned to give every passenger more room. Hip room in the front, legroom in the back, and headroom all around have seen generous enhancements for greater comfort. You’ll also find features and design that make this space more purposeful and rewarding than ever. Opt for the 440-watt, 9-speaker harman/kardon premium audio system—with Bluetooth hands-free calling standard—and immerse yourself in your music with its stunning clarity. And with the newly available voice-activated navigation system, you can program destinations and find points of interest with spoken commands. This totally new nav system also features upgraded Bluetooth capability to include streaming audio.
Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, healthier, and more hopeful world as much as we do. That’s why you’ll see us offering support at events like Dining Out for Life, or promoting responsible recreation with Leave No Trace. Our recent Share the Love sales event harnessed the generosity of Subaru owners to raise nearly five million dollars for deserving causes like the ASPCA and Habitat for Humanity.

Protecting Your Investment

Every Subaru comes with a 3-year or 36,000-mile warranty, which includes such generous benefits as 24-hour roadside assistance. Because your Subaru will be part of the family for a while to come, we want to protect it over the long haul. That’s why we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. They’re the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we’ve been backing them for more than 25 years, they’re agreements you can trust. Your dealer has full coverage details.

Ensuring You’re Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield® GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

Building Cars That Last

Life is too important to slow down with a car you can’t rely on. That’s why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—and keep you out there. This commitment is why 94% of all the vehicles we’ve built in the last 10 years are still on the road today. And why a Subaru can keep its value, and stay out of a landfill longer.

Discover in-depth the Subaru safety advantage.

subaru.com/safety

Subaru Active and Passive Safety

When it comes to feeling confident, nothing is more important than feeling safe. That’s why Subaru places safety as one of our highest priorities, and why we think about safety in 360 degrees. First, we engineer the Legacy with exceptional control and advanced accident-avoidance technologies to help keep accidents from happening in the first place. Then, we build it with protection technologies that have made it a Top Safety Pick, 2006–2009. The end result is a car that—in a worst-case scenario—is one of your best possible bets.

Protected from every angle.

for front and side-impact collisions.1

— National Highway Traffic Safety Administration

Subaru Active and Passive Safety

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technologies to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Increased Awareness

Before you can avoid danger, you have to see it coming. The all-new Legacy is now available with the rear vision camera. This feature—standard with the navigation system—gives you a clear view of the area behind your vehicle, so you can always be in charge of your surroundings.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Legacy also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to keep you on your intended path.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. Also, front, front-side and side-curtain airbags—standard on every Legacy—surround outboard occupants in the event of a crash to further help prevent injury.

1 2010 Legacy not yet tested. Government star ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program. Visit safercar.gov for more information.
2 2010 Legacy not yet tested. Ratings based on Insurance Institute for Highway Safety’s (IIHS’s) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, and 20-mile-per-hour rear-impact test. For more information, contact IIHS or visit their website at www.iihs.org.
3 Always wear seatbelts. Children should be properly restrained in the rear seat.

What makes a Legacy, a Legacy.
Making the final decision to purchase a vehicle can be complex. That’s why you’ll find everything you’ll need to know about being a Legacy owner at subaru.com. Not only will you find images of the Legacy and detailed information about it, but you’ll also be able to check out special offers, ratings, reviews, and news about Subaru. We’ve also provided a wealth of interactive tools to help you decide if a Subaru is right for you.

What makes a car special is not always found on the surface. Go here to delve beneath the skin of the Legacy to find out what really makes it drive and complement your life so well.

Discover the Subaru difference.

Configure your own.
With a wide variety of trim levels, colors and options to choose from, there is a Legacy for you. Use this tool, and within a few minutes you’ll know exactly which Legacy that is.

Does it measure up?
Sometimes you need to see your choices side-by-side to really make a decision. Get in-depth information on the Legacy and how it compares to the competition in just about every category.

Need an expert opinion?
The Legacy has been tested, analyzed and put through its paces by some of the toughest critics in the automotive field. Find out what they thought about the driving experience the Legacy has to offer.

Legacy® Equipment

EXTerior

- Impact-beak low-beak (with Air-Comb) and multi-reflector high-beam headlights
- Functional hood scoop (feeds turbocharger intercooler)
- Black side mirrors
- Body-color side mirrors
- Body-color door handles
- Heated side mirrors and windshield wiper de-icer
- Two-speed windshield wipers with variable intermittent rate
- Aerodynamic side ground effects
- Single chrome exhaust outlet
- Dual chrome exhaust outlets

Sitting & Trim

- 6-way manually adjustable driver's seat
- 4-way manually adjustable front-passenger's seat
- 10-way power driver's seat with power adjustable lumbar support
- 4-way manually adjustable front-passenger's seat
- 6-speed fan and airflow direction
- Dual-zone lockout and CFC-free air conditioning
- 4-speed fan and airflow direction
- Climate Control
- Manual or automatic/CVT transmission shift-position indicator

Instrumentation

- 440-watt 9-speaker harman/kardon® premium audio system with amplifier, subwoofer, XM® satellite radio capability and Bluetooth® wireless phone capability
- Single-speaker audio system with CS audio enhancement and MP3/WMA playback capability
- Audio and Communication Systems
- Ring-shaped Reinforcement Frame body structure
- Safety brake pedal system
- Height-adjustable 3-point front seatbelts with pretensioners and force limiters
- Three individual rear head restraints
- Seat-mounted front side-impact airbags (SRS) 5
- Tire Pressure Monitoring System (TPMS)
- Vehicle Dynamics Control (VDC)
- Traction Control System (TCS)
- Daytime Running Lights (DRL)

Optional Equipment

- CD/DVD7 player with Bluetooth wireless phone and streaming audio capability, MP3/WMA playback capability and Bluetooth® wireless phone capability
- Auxiliary audio jacks for portable media players
- XM® or SIRIUS® Satellite Radio capability 2

Convenience Features

- Electronic parking brake with ib-switch
- Driver's auto-dimming power window
- Electronic cruise control
- Integrated key fob with lock, unlock and panic functions
- 3-spoke steering wheel with audio system and cruise control buttons
- Leather-wrapped 3-spoke steering wheel with audio system, cruise control and (if equipped) Leather-wrapped manual transmission shifter handle
- Cloth upholstery
- Leather-trimmed upholstery
- Sun visors with extenders and illuminated vanity mirrors
- Center console with two 12-volt power outlets and enclosed storage compartment
- Overhead console with dual maplights and sunglasses storage

Audio and Communication Systems

- 4-speaker audio system with CS audio enhancement and MP3/WMA/AAC playback capability
- 440-watt 9-speaker harman/kardon® premium audio system with amplifier, subwoofer,XM® satellite radio capability and Bluetooth® wireless phone capability
- Single-disc, CD/DVD changer
- Auxiliary audio jacks for portable media players
- XM® or SIRIUS® Satellite Radio capability

Institutional

- Analog speedometer, tachometer, “eco” fuel economy and fuel level gauges
- Digital trip computer displaying fuel economy, digital clock and ambient temperature
- Manual or automatic/CVT transmission (if equipped) with position indicator

Climate Control

- Manual or automatic/OSP air-conditioning system with rotary controls for temperature, 6-speed fan and air flow direction
- Dual-zone automatic digital climate control system with controls for temperature, 6-speed fan, air flow direction, dual-zone humidification and OCF-free air conditioning

Security

- Stability entry system with trunk release and answer-back electronic chip
- Antitheft security system with engine immobilizer

Safety

- Active
- Subaru Symmetrical All-Wheel Drive (AWD)
- SUBARU BOXER engine
- 4-wheel anti-lock brakes (ABS) with Electronic Brake-force Distribution (EBD)
- Brake Assist
- Vehicle Dynamic Control (VDC)
- Traction Control System (TCS)
- The Tire Pressure Monitoring System (TPMS)
- Daytime Running Lights (DRL)

Warranties

New Car Limited Warranty: 3 years or 36,000 miles, whichever comes first.
Powertrain Limited Warranty: 3 years or 60,000 miles, whichever comes first.
Limited Warranty: 3 years or 36,000 miles, whichever comes first. Repairs to the following items will also be covered under Wear Item Limited Warranty:
- Brake Pads
- Wiper Blades
- Clutch Master Cylinder
- Battery
- Transmission Fluid
- Routine Maintenance Limited Warranty: 5 years, unlimited mileage.

All-weather Floor Mats
Custom-fitted, heavy-gauge protective mats. Helps protect vehicle’s carpet from sand, dirt and moisture.
Not intended for use over top of carpeted floor mats.

Short-throw Shifter
Significantly reduces shift throw lengths for crisper shifts and sportier driving feel.

Fog Lights
Casts a low and wide beam of light to enhance vision in inclement weather.

Blueconnect
Bluetooth® wireless technology with advanced voice recognition allows you to make and receive calls, store phonebook information, and recognize up to seven different cell phones.
Some phones may not be compatible. Details at subaru.com/bluetooth.

Trunk Tray
Helps protect trunk area from stains and dirt while providing a surface that helps reduce shifting of cargo while driving.

Puddle Lights
L.E.D. lights activate when vehicle doors are unlocked using the keyless entry. A soft glow illuminates the ground, aiding entry and exit of the vehicle.

Auto-dimming Mirror with Compass and HomeLink®
Mirror darkens when headlights are detected from behind the vehicle. Includes a compass and three HomeLink buttons that are programmable for most garage-door openers and other HomeLink-compatible devices.

Moonroof Air Deflector
Helps reduce wind noise and sun glare.

Hood Protector
Matches the contours of the hood while helping to protect from bug strikes and stone chips.

Remote Engine Starter
Allows vehicle to start by pushing a button from the convenience of home or the office (up to 400 feet away depending on obstructions) so that the vehicle’s interior temperature is more comfortable upon entry. Remote confirms when vehicle engine has been started.

Trunk Spoiler
Sleek, low-profile design adds just the right amount of attitude to your Legacy. Comes pre-painted and ready to install.

Splash Guards
Helps protect the vehicle’s paint finish from stones and road grime.
The earth isn’t disposable.
Neither is a Subaru.

The Legacy is designed for maximum enjoyment out on the road, but at Subaru, we put just as much emphasis on minimizing what we leave behind. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It’s why 94% of the vehicles we’ve built in the last 10 years are still on the road today.1 We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Legacy has been recognized with Partial Zero Emission Vehicle—PZEV—status and SmartWay® certification. It achieves such cleanliness and efficiency without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

2 Available on 2010 Legacy models certified as Partial Zero Emission Vehicles (PZEV) that are sold and registered in California, Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont. PZEV emissions warranty applies to only certain states. See your dealer for complete information on emissions and new car limited warranties. 3 For all 2009 Forester, Legacy and Outback non-turbo 2.5 models certified as PZEV that are sold and registered in California and certain other states. Visit www.epa.gov/greenvehicles for more information.

Love. It’s what makes a Subaru, a Subaru.
