The Legacy is designed for maximum enjoyment out on the road, but at Subaru, we put just as much emphasis on minimizing what we leave behind. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It’s why 95% of the vehicles we’ve built in the last 10 years are still on the road today.2 We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Legacy has been recognized with Partial Zero Emission Vehicle—PZEV—status. It achieves such cleanliness without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
2 2011 Forester, Legacy and Outback 2.5L non-turbo models certified as Partial Zero Emission Vehicle—PZEV—available in all 50 states. Only those sold and registered in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New Mexico, New York, Oregon, Vermont and Washington for the 15 years/150,000 mile emission warranty.
Embrace the road. Not the status quo.
The 2011 Subaru Legacy
Begin each day with the exception to the rule. Begin it with a vehicle that mingles spaciousness with responsiveness, power with responsibility and capability with captivation. A vehicle that inspires you with confidence because of its renowned safety, while at the same time begs you to push it further, and to relish every curve life throws at you. Begin each day with the 2011 Subaru Legacy, and its intelligent solutions to all of your driving needs, and you’ll know what a daily commute should really feel like.

Mingle work with pleasure every time you commute.
Getting out there. Getting going. Getting to where your life is lived.
Whether you're taking a new turn or simply taking a break, we build
every Subaru to help you take it all in. With Symmetrical All-Wheel Drive,
you have the stability and control to drive with confidence where you
want when you want. Smart features help you do more of what you live
for, and award-winning safety helps you do it with assurance. It's the
joy of having a car that you don't just love to drive, but one built for life.
And we think that's why owners always tell us, "I love my Subaru."

Love. It's what makes a Subaru, a Subaru.
“The only mainstream midsize sedan that can call itself a ‘sport sedan.’”

— Motor Trend
Quicker Response

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged, the more control you have. Subaru keeps more power routed to all four tires than some other systems that only fully engage as a reaction to slippage that has already occurred.

Better Balance

Every Subaru is built for AWD from the ground up. This allows us to build a balanced, symmetrical drivetrain that is free of the extra components some other systems need to get power to all four wheels. This symmetry and balance means stability that helps make driving your Subaru safer and agility that makes it more fun.

Efficient Design

Because power in some systems must route through extra components, these systems not only sacrifice efficiency, but also can incur more wear and tear. Subaru routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum.
Subaru Boxer Engine

Better engines start with better ideas. That’s why we think about engines a little differently. And it’s why every Subaru is powered by the SUBARU BOXER® engine. It features a unique horizontally opposed design and symmetrical layout. The design advantages it has over “V” or inline engines mean it provides powerful, yet smooth acceleration, while at the same time helping to create a more stable and balanced vehicle. It’s an insightful difference that has the power to make driving more engaging.

Find out more about how our engine compares.
subaru.com/boxer-engine

Low profile. High performance.

Horizontally Opposed Design
The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Construction
The engine’s flat design is inherently rigid, and reduces the amount of vibration that “V” or inline engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity
The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle more stably balanced and resistant to side-to-side motion than other designs.

Smother Operation
Step on the accelerator and the revs come on smooth. While there’s plenty of power when you need it, it never compromises your comfort or control.

Increased Durability
An engine subjected to less vibration lasts longer. It’s no wonder 95% of Subaru vehicles built in the last 10 years are still on the road today.¹

Greater Agility
The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it’s less likely to become unstable during maneuvers, giving you an increased feeling of being in control at all times.

¹ Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
Dynamic Handling

Throw the Legacy into a corner, and forget everything you think about driving a spacious sedan. With its unique design advantages, the Legacy doesn’t sacrifice athleticism to give you a roomy and comfortable interior. Subaru Symmetrical All-Wheel Drive holds tight to every inch of asphalt—carving hairpins with surefooted predictability. Its chassis features a stiff sub-frame, which, combined with its lower center of gravity, makes for an exceptionally stable platform. All this adds up to a vehicle that reacts to changes in direction quickly and effortlessly, which means every maneuver you make—from s-curves to lane changes—can be executed with inspiring precision.

Responsive Suspension

Years of experience competing in the automotive acrobatics of rally racing have helped Subaru develop a suspension system that communicates with the driver. Its 4-wheel independent design maximizes the feel you have for the road. While the double-wishbone rear deflects the worst of the bumps without unsettling the chassis. With MacPherson struts up front, it’s a tight, yet supple ride that always leaves you in touch and in control.
How do you define performance?

Refined. 3.6-liter 6-cylinder
A wealth of ultra-smooth power at the ready. That’s the hallmark of the 3.6-liter 6-cylinder—the largest SUBARU BOXER® engine available. It produces 256 horsepower and 247 lb-ft of torque, moving the Legacy 3.6R models with effortless confidence over the road. This commanding engine is matched with the ease of a 5-speed automatic transmission with manual mode and paddle shifters, which allow you to easily control shifting for more direct access to engine power.

Thrilling. Turbocharged 2.5GT
For those who desire the kind of lift in their day that only high performance can provide, the 2.5-liter 4-cylinder in the Legacy 2.5GT Limited is ready to oblige. Named one of the industry’s 10 Best Engines\(^1\), it features a large intercooler and a turbocharger optimized for quick spooling. When you engage, you’ll feel the responsive throttle and feel the turbocharged punch of 265 horsepower and 258 lb-ft of torque. And a standard 6-speed manual transmission with performance-oriented gearing keeps you always in control of the action.

Efficient. Up to 31 MPG
The 2011 Legacy 2.5i offers more value than any previous generation Legacy. Its 4-cylinder SUBARU BOXER engine generates 170 horsepower and 170 lb-ft of torque. Ample power for confident driving. What’s more, when paired with Lineartronic™ CVT (Continuously Variable Transmission), you can get 31 miles to the gallon\(^1\). With the 18.5-gallon tank, you’ll spend more time enjoying your getaways and less time filling up. What’s more, every mile will be quiet and smooth, thanks to the advanced design of the 2.5i.

Advanced. Lineartronic™ CVT
Experience smooth performance and save money at the same time. Lineartronic™ CVT is an innovative technology that can reduce the amount you spend on fuel. Available on Legacy 2.5i models, it eliminates the need to shift, thereby preserving momentum. And your engine always stays in its optimal rev range for maximum efficiency. In automatic mode, it infinitely adjusts the transmission to match your needs. Or use the paddle shifters and 6-speed manual mode for quick access to power and torque on the fly.

\(^1\) EPA highway estimate. Actual mileage may vary.
Technology Features

The available 440-watt, 9-speaker harman/kardon premium audio system immerses you in your music with stunning clarity. Bluetooth hands-free calling comes standard, as well as XM® Satellite Radio¹, which offers the possibility of vast programming choices wherever your drive takes you.

¹ Activation and monthly subscription sold separately. Includes 3-month trial subscription. See your dealer.

Voice-activated Navigation System

Finding that perfect drive is easier thanks to the available voice-activated navigation system. Program destinations and find points of interest using the 8" high-res touchscreen or voice commands. The system also enhances your audio experience by allowing iPod® and USB connectivity, as well as Bluetooth streaming audio. You can even listen to audio playback from your DVDs.

As sharp as it is comfortable.

Every Legacy passenger enjoys a spacious cabin with generous room to make things comfortable. Dual-zone automatic temperature controls, convenient steering-wheel-mounted controls and a 10-way adjustable driver's seat are available to let you customize your environment with ease.
Ensuring You’re Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield™ GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

Building Cars That Last

Life is too important to slow down with a car you can’t rely on. That’s why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—all with quality and consistency. This commitment is why 95% of all the vehicles we’ve built in the last 10 years are still on the road today.1 It’s also why Subaru vehicles keep their value so well. In fact, Subaru was named the number one automotive brand for residual value by ALG for 2010.2

Protecting Your Investment

Once you’re part of our family, we’ll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru dealership and other services are just a phone call away. And to protect you over the long haul, we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. Subaru Added Security offers the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we’ve been backing them for more than 25 years, they’re agreements you can trust. Your dealer has full coverage details.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, and more hopeful world as much as we do. That’s why you’ll see us supporting events like Dining Out for Life, or promoting responsible recreation with Leave No Trace. Our year-end Share the Love sales event raises money for the ASPCA, Habitat for Humanity, National Wildlife Federation, Meals on Wheels and Boys & Girls Clubs of America. With the help of our generous customers, in 2010 we donated almost five million dollars to these worthy causes. We hope to see even more love in 2011.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
2 Based on ALG’s 2010 Residual Value Awards Brand Rankings for Mainstream Brands.

Subaru Active and Passive Safety

You'll find our commitment to safety in almost every aspect of Subaru design. From a uniquely poised All-Wheel Drive system, to a one-of-a-kind engine that can help protect you in an accident, we've created each of our vehicles with active and passive safety systems that make a Subaru—in a worst-case scenario—one of your best possible bets. This passionate commitment to your confidence was the reason Subaru was the only manufacturer to have each of its vehicles named a 2010 IIHS Top Safety Pick, and why we continue to win safety accolades year after year.

It’s more than engineering. It’s a promise.

—Insurance Institute for Highway Safety (IIHS)

The only manufacturer with 2010 IIHS Top Safety Picks for all models.

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technologies to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER engine provide you with the outstanding control you need to react to hazards. Every Legacy also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

Increased Awareness

Before you can avoid danger, you have to see it coming. The Legacy features the available rear-vision camera. This feature gives you a clearer view of the area behind your vehicle, so you can be in charge of your surroundings.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. Also, front, front-side and side-curtain airbags—standard on every Legacy—surround outboard occupants in the event of a crash to further help prevent injury.

1 Ratings based on Insurance Institute for Highway Safety’s (IIHS') 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, 20-mile-per-hour rear-impact test, and roof-strength test. For more information, contact IIHS or visit their website at www.iihs.org.

2 Always wear seatbelts. Children should be properly restrained in the rear seat.

Legacy 2.5GT Limited in Steel Silver Metallic.
You’ll find yourself **looking for long-cuts.**
Make your Subaru truly yours.

All-weather Floor Mats
Custom-fitted, heavy-gauge protective mats. Helps protect vehicle’s carpet from sand, dirt and moisture.

BlueConnect®
Bluetooth® wireless technology with advanced voice recognition allows you to make and receive calls, store phonebook information, and recognize up to seven different cell phones. Some phones may not be compatible. Details of voice features vary by vehicle.

Auto-dimming Mirrors with Compass and HomeLink®
Mirror darkens when headlights are detected from behind, as well as when vehicle is reversed. HomeLink buttons are preprogrammed for most garage door openers and other HomeLink-compatible devices.

Remote Engine Starter
Allows vehicle to start by pushing a button from the convenience of home or the office (up to 100 feet away depending on obstruction) so that the vehicle’s interior temperature is more comfortable upon entry. Remote confirms when vehicle engine has been started.

ALL-WHEEL DRIVE SYSTEMS

Symmetrical All-Wheel Drive

Vehicle Dynamics Control (VDC)
VDC electronically controls vehicle’s stability by monitoring vehicle speed, steering angle, brake pressure, vehicle yaw rate, and wheel slips. If VDC detects a difference between what the driver intends and the actual path the vehicle is taking, VDC applies braking power—and/or reduces engine torque—to help correct vehicle path.

Traction Control System (TCS)
VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to help correct vehicle path.

Trunk Spoiler
Sleek, low-profile design adds just the right amount of attitude to your Legacy. Comes pre-painted and ready to install.

Fog Lights
Casts a low and wide beam of light to enhance vision in inclement weather.

Side Window Deflectors
Let the fresh air in while helping to keep the weather out. Deflector design includes integrated chrome insert to match window frame trim. Side Window Deflectors may not be legal in all markets. Please check the laws of your state.

Body Side Moldings
Attractive color-matched moldings coordinate with the styling of this vehicle, while helping to protect doors from unsightly dings.

WARRANTIES

New Car Limited Warranty
3 years or 36,000 miles, whichever comes first.

Powertrain Limited Warranty
5 years or 60,000 miles, whichever comes first.

Wear Item Limited Warranty
3 years or 36,000 miles, whichever comes first. Repairs to the following items will also be covered under the Wear Item Limited Warranty:
- Brake Pads
- Wiper Blades
- Clutch Linings
- Transaxle Bathies

Rust Perforation Limited Warranty
5 years, unlimited mileage.

Prices may not include state and local taxes, tags, registration fees, dealer installation charges, and destination charges. Consult your Subaru retailer for complete warranty details.
**EXTERIOR**

- Projection-beam low-beam (with Auto-on) and multi-reflector high-beam headlights
- Fog lights
- Functional hood scoop (needles turbocharger intercooler)
- Black folding side mirrors
- Body-color folding side mirrors
- Headed side mirrors and windshield wiper de-icer (All-Wheel Package)
- Single chrome exhaust outlet
- Dual chrome exhaust outlets
- Power tilt/tilting glass roof

**SEATING AND TRIM**

- 8-way, manually adjustable driver’s seat
- 4-way, manually adjustable front-passenger’s seat
- 10-way power driver’s seat with power adjustable lumbar support
- 4-way, manually adjustable front-passenger’s seat
- Heated front seats (All-Weather Package)
- Power tilt/sliding-glass moonroof
- 60/40-split fold-flating rear seatback
- Leather-wrapped manual transmission shifter handle
- Cloth upholstery
- Leather-trimmed upholstery
- Silver metallic trim on doors and console
- Carbon fiber-patterned accent trim on doors and console
- Woodgrain-patterned accent trim on doors and console
- Aluminum-alloy pedal covers

**CONVENIENCE FEATURES**

- Electronic parking brake with hill-holder function
- Driver's auto up/down power window
- 3-spoke steering wheel with audio system and cruise control buttons
- Leather-wrapped 3-spoke steering wheel with audio system, cruise control and (if equipped) Bluetooth® wireless phone (with navigation system voice command buttons)
- Automatic transmission or Lineartronic® CVT transmission paddles shifter
- Manually adjustable tilt/telescoping steering column
- 8 cup holders
- Overhead console with dual maplights and sunglasses storage

**AUDIO AND COMMUNICATION SYSTEMS**

- 4-speaker audio system with CD audio enhancement and MP3/WMA playback capability
- harman/kardon® Audio Package: 440-watt 8-speaker harman/kardon® premium audio system with amplifier, subwoofer, MP3/WMA playback capability, XM® Satellite Radio and Bluetooth® wireless phone capability
- Navigation Package: Voice-activated 8-inch high-resolution touch-screen GPS navigation system and single-disc CD/DVD/player with Bluetooth wireless phone and streaming audio capability, MP3/WMA playback capability and USB/Pop auxiliary audio port (with iPod® control)
- Premium harman/kardon® Audio Package: 640-watt 10-speaker harman/kardon® premium audio system with amplifier, subwoofer, XM® Satellite Radio and Bluetooth® wireless phone capability
- SIRIUS® Satellite Radio
- Auxiliary audio jack for portable media players with amplifier, subwoofer, MP3/WMA playback capability and USB/Pop auxiliary audio port (with iPod® control)
- Single-disc in-dash CD player
- Dual-stage deployment driver and front-passenger front airbags (SRS)5
- Dual-stage deployment side airbags (SRS)5
- Dual-stage deployment curtain airbags (SRS)5
- Driver's auto up/down power window
- Electronic parking brake with hill-holder function
- Three individual rear head restraints
- Height-adjustable 5-point front seatbelts with pretensioners and force limiters
- 3-point rear seatbelts at all seating positions
- Rear child-safety door locks
- LATCH system: Lower Anchors and Tethers for Children

**OPTIONAL EQUIPMENT**

- Linenoptic® CVT (Continuously Variable Transmission)
- Power Windshield glass microwindow
- SIRIUS® Satellite Radio®
- XM® Satellite Radio®
- harman/kardon® Audio Package: 440-watt 8-speaker harman/kardon® premium audio system with amplifier, subwoofer, MP3/WMA playback capability, XM® Satellite Radio and Bluetooth® wireless phone capability
- Navigation Package: Voice-activated 8-inch high-resolution touch-screen GPS navigation system and single-disc CD/DVD/CD player with Bluetooth wireless phone and streaming audio capability, MP3/WMA playback capability and USB/Pop auxiliary audio port (with iPod® control)

**INSTRUMENTATION**

- Tachometer, analog speedometer, fuel economy, “eco” fuel economy and fuel level gauges
- Digital trip computer displaying fuel economy, digital clock and ambient temperature

**CLIMATE CONTROL**

- Manually adjustable automatic CFC-free air-conditioning system with rotary controls for temperature, 6-speed fan and air-flow direction
- Dual-zone automatic digital climate control system with controls for temperature, 6-speed fan, airflow direction, dual-zone locked and CFC-free air-conditioning

**SECURITY**

- Keyless entry system with trunk release and alarm-back electronic chip
- Anti-theft security system with Immobilizer

---

1. 2011 Subaru Legacy non-turbo 2.5-liter models achieving a Partial Zero Emission Vehicle (PZEV) rating by the California Air Resources Board are available in all 50 states. Only those registered in California, Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New Mexico, New York, Rhode Island and Vermont are eligible for the 15 years/150,000 mile emission warranty. See your warrantee manual for additional information. 2. 2011 EPA fuel economy estimates. Actual mileage may vary. 3. Requires optional moonroof. 4. All available as an accessory when ordered individually. XM Satellite Radio requires up to a 3-month subscription at the time of purchase. See your dealer for details. 5. The Supplemental Restraint System (SRS) affords the driver and the front passenger additional protection in moderate to severe frontal and side-impact collisions and outboard 2nd-row passengers additional protection in moderate to severe side-impact collisions. The SRS is part of the Airbag System. See your Owner's Manual for important information on airbag system deployment, function, compatibility with child seats and more. The SRS should always be properly restrained in one of the rear seats. See your Owner's Manual for important information on airbag system deployment and function. The SRS should always be properly restrained in one of the rear seats. See your Owner's Manual for important information on airbag system deployment and function. 6. Requires optional moonroof. 7. With vehicle stoppage and parking brake engaged.

The Legacy is designed for maximum enjoyment out on the road, but at Subaru, we put just as much emphasis on minimizing what we leave behind. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It’s why 95% of the vehicles we’ve built in the last 10 years are still on the road today. We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Legacy has been recognized with Partial Zero Emission Vehicle—PZEV—status. It achieves such cleanliness without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
2 2011 Forester, Legacy and Outback 2.5L non-turbo models certified as Partial Zero Emission Vehicle—PZEV—available in all 50 states. Only those sold and registered in California, Colorado, Connecticut, Delaware, Massachusetts, New Jersey, New Mexico, New York, Oregon, Rhode Island, Vermont, and Washington will be eligible for the 15 years/150,000 mile emission warranty.

Find out more detailed efforts to keep it cleaner and greener. subaru.com/environment

Love. It’s what makes a Subaru, a Subaru.
