Welcome to the all-new Subaru Legacy. Love, for all the right reasons.
Arrive like you’ve never **imagined.**

Welcome to the all-new 2020 Legacy. Our best ever.

It’s that feeling you get when the next level is within reach, when the latest safety technologies combine with renowned Subaru reliability to give you confidence. A sense of connection is made possible by advanced technology, and you experience the warm invitation of premium materials and abundant space. You’re here. Feel the love, for all the right reasons.

---

**Safest**

Innovations in the Legacy look out for you and help keep you focused on the road, including the standard EyeSight® Driver Assist Technology and the newly available DriverFocus™ Distraction Mitigation System. Underlying this is the Subaru Global Platform that’s up to 70% stronger to help keep you safe and secure.

---

**Most Reliable**

This has always been a sedan designed to last: 96% of Legacy vehicles sold in the last 10 years are still on the road today! One of the many reasons is Subaru core technology, featuring Subaru Symmetrical All-Wheel Drive, standard on every Legacy.

---

**Most Advanced**

An available 11.6-inch touchscreen makes connection easy and intuitive. Through SUBARU STARLINK® Multimedia, you can enjoy your music and apps almost anywhere you go with standard Apple CarPlay® and Android Auto™ integration.

---

**Most Comfortable and Spacious**

Abundance is what defines comfort and space in our most refined sedan ever. It means soft-touch materials throughout the spacious cabin, including a generous 39.5 inches of legroom for rear-seat passengers. And Legacy Touring XT indulges you even more with upgrades including genuine Nappa Leather.
We’ve been expecting you.

With next-level comfort and generous space, the Legacy is designed to welcome you every time. Even before you get in, available Remote Engine Start with Climate Control lets you set your ideal temperature so the interior is ready for you the moment you enter.1,2 The experience continues with a roomy cabin that includes 39.5 inches of rear legroom—more than the Camry, Fusion, Malibu and Altima3—plus soft-touch materials, available heated front and rear seats,1 and an available heated steering wheel.1 And thanks to laminated glass and a body structure that optimizes the placement of sound insulation, this is the quietest Legacy interior ever.

Touring XT refines the feeling further.

Only by selecting the Touring XT model can you elevate your Legacy with a genuine Nappa Leather interior. Heated and ventilated seats and a heated steering wheel increase the comfort in the front row, while features like automatic power-folding side mirrors take convenience even higher. It’s the Legacy in its most inviting form.

1 Availability varies by model. See your retailer for details. 2 Requires Keyless Access with Push-Button Start and subscription to STARLINK Safety and Security Plan services. 6-month free trial included. See your retailer for details. 3 Competitor information from manufacturer websites for 2019 model-year vehicles and current at time of printing. Competitors’ maximum specification figures used for comparison.

Soft-touch Materials

Genuine Nappa Leather

Heated Rear Seats and Dual USB Charge Ports
An extra set of eyes every time you drive.

Every 2020 Legacy includes standard Subaru EyeSight® Driver Assist Technology.1

Equipped with a comprehensive suite of innovative safety features, EyeSight® looks ahead, alerts you to potential dangers and can even intervene to help you avoid a collision.

EyeSight® reduces rear-end crashes with injuries by 85%

1 EyeSight is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. The Pre-Collision Braking System is designed to provide automatic braking that either prevents a collision or reduces the severity of a frontal impact. Pre-Collision Throttle Management is designed to reduce acceleration and thus the severity of certain frontal impacts. Advanced Adaptive Cruise Control and Brake Light Recognition are designed to assist the driver and are not substitutes for safe and attentive driving. Lane centering function operates only when lane markings are visible, and its effectiveness depends on many factors. See Owner's Manual for complete details on system operation and limitations.

Every day in the U.S., more than 1,000 people are injured in crashes reported to have involved a distracted driver.1 As an industry leader in safety, Subaru developed the DriverFocus™ Distraction Mitigation System,2,3 one of the first technologies of its kind. Engineered for both new and experienced drivers, it works together with Subaru EyeSight® to help detect distracted or drowsy driving. If the driver's attention strays from the road for too long, DriverFocus can deliver visual and auditory alerts to bring attention back to the road.

Pre-Collision Braking
Can help slow and bring your Legacy to a full stop if necessary.

Lane Departure and Sway Warning
Can alert you if you drift to the edge of your lane and begin to cross into another.

Advanced Adaptive Cruise Control with Lane Centering
 Automatically helps keep you centered in your lane, at a safe distance behind the car in front of you— even in traffic and around curves.

Pre-Collision Throttle Management
Can reduce engine power to help give you more time to react and to help minimize the possible impact force and frontal impact damage.

Every 2020 Legacy includes standard Subaru EyeSight® Driver Assist Technology.1

In the stop-and-go, confidence in all directions.

Blind-Spot Detection
Using radar sensors, Blind-Spot Detection\(^1,2\) warns you with a visual indicator on your side mirror if the system detects a vehicle in your blind spot. Another feature of this system, Lane Change Assist, alerts you with a flashing indicator on your side mirror if it senses a vehicle approaching at a higher speed in a neighboring lane.

Rear Cross-Traffic Alert
Rear Cross-Traffic Alert\(^1,2\) uses radar sensors to help warn you of traffic approaching from the side as you are backing up, utilizing a flashing visual indicator on your side mirror and Rear-Vision Camera display as well as an audible warning.

Reverse Automatic Braking
Reverse Automatic Braking\(^1,3\) can detect objects directly behind your vehicle when backing up at a low speed and can help bring the Legacy to a stop should an object be detected within its range and if the driver fails to act. There’s also the Rear-Vision Camera to help you keep an eye out.

Enhanced Awareness
No matter where you go, there are things you might not see coming. We prioritize giving you a clear view of what’s ahead and around corners, with the 180-Degree Front View Monitor\(^1\) and standard LED headlights with available steering responsive functionality. The Legacy is also equipped with innovations that help keep you aware whether you’re moving forward, reversing or changing lanes, so you can enjoy peace of mind on every drive.

Enhanced Awareness
No matter where you go, there are things you might not see coming. We prioritize giving you a clear view of what’s ahead and around corners, with the 180-Degree Front View Monitor\(^1\) and standard LED headlights with available steering responsive functionality. The Legacy is also equipped with innovations that help keep you aware whether you’re moving forward, reversing or changing lanes, so you can enjoy peace of mind on every drive.

SUBARU STARLINK® Safety and Security
The Legacy features the latest STARLINK® Safety and Security\(^4\) system, which can alert a first responder in an emergency, help police locate your vehicle if it’s stolen and more. To get you started, new Legacy drivers enjoy a free three-year STARLINK® Safety Plus subscription, which includes Advanced Automatic Collision Notification, Enhanced Roadside Assistance, SOS Emergency Assistance and customizable vehicle alerts.

1 Availability varies by model. See your retailer for details. 2 Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver by monitoring the rear and side areas of the vehicle during a lane change or reversing and are not a substitute for safe and attentive driving. 3 The Reverse Automatic Braking System is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle maintenance, weather and road conditions. Always exercise caution, and use vehicle mirrors and the Rear-Vision Camera when backing up. See Owner’s Manual for complete details on system operation and limitations. 4 Activation with subscription required. Includes a 3-year trial subscription to Safety Plus services and a 6-month trial subscription to Safety and Security Plus services. The Concierge plan can be purchased annually or monthly. A credit card on file will be required for specific packages and for renewal purposes. See your retailer for details.
Let your passion take you far.

Reliability for miles—and more.

Starting from its very core, the Legacy is built for longevity. Subaru Symmetrical All-Wheel Drive is the result of decades of Subaru expertise in full-time AWD engineering. The horizontally opposed design of the SUBARU BOXER® engine results in less vibration and wear-and-tear, and the Subaru Global Platform is simply our strongest foundation ever—increasing durability and built to last.

Choose your engine:

In the Legacy, two engine options deliver the power you need to pass vehicles in the city and the efficiency to go the distance on the highway. The 182-hp direct-injection SUBARU BOXER® engine yields capable performance and up to 35 MPG highway. Those who want to play to their edge can opt for the 260-hp direct-injection turbocharged SUBARU BOXER® engine delivering 277 lb-ft of torque along with up to 32 MPG highway. Either way, you use only the fuel you need, as the standard Auto Start-Stop can shut off the engine anytime you come to a complete stop.

1 EPA-estimated highway fuel economy for 2020 Legacy 2.5L models at 35 highway mpg and 2020 Legacy XT models at 32 highway mpg. Actual mileage may vary. 2 Availability varies by model. See your retailer for details.
Accessing your favorite media whenever you want is essential. Go big on your ability to connect with an available 11.6-inch touchscreen—that’s bigger than what’s offered on sedans like the Accord, Camry, Malibu and others. SUBARU STARLINK® Multimedia with standard Apple CarPlay® and Android Auto™ integration makes your apps easy and intuitive to use, while your playlists shine with renewed fidelity, as the available Harman Kardon® premium sound system uses 576 equivalent watts of power to deliver pristine audio through 12 speakers. Passengers enjoy connection to their media, too, with built-in Wi-Fi capability and four USB ports that ensure charged devices all around.

Connect at any moment. Accommodate for any mood.

Customization that remembers you.

From the moment you sit behind the wheel, the available DriverFocus™ recognizes you and automatically adjusts the Legacy to your preferences. This includes driver’s seat settings, climate controls, side mirrors and even your choices for which vehicle system information appears on the screen.

1 Availability varies by model. See your retailer for details. 2 Competitor information from manufacturer websites for 2019 model-year vehicles and current at time of printing. Competitors’ maximum specification figures used for comparison. 3 Internet access is purchased separately through AT&T with monthly, per gigabyte, and unlimited data options available. Existing AT&T customers have the option to add a line to their AT&T Mobile Share plan. 4 The DriverFocus™ Distraction Mitigation System is a driver recognition technology designed to alert drivers if their attention to the road wavers or if the driver’s face appears to turn away. The driver is always responsible for safe and attentive driving. System effectiveness may be affected by clothing or facial features. See Owner’s Manual for complete details on system operation and limitations.
systems designed to assist the driver by monitoring the rear and side areas of the vehicle during a lane change or reversing and are not a substitute for safe and attentive driving.

Includes a 3-year trial subscription to STARLINK Safety Plus services and a 6-month trial subscription to STARLINK Safety and Security Plus services. • 13-inch aluminum-alloy wheels
• All-weather Package: Headed exterior mirrors, 3-mirror heated front seats, windshield wiper de-icer
• 10-way power-adjustable driver seat with lumbar support
• Leather-wrapped steering wheel and shifter handles

Includes Legacy key features and adds:

• Body-color side mirrors with integrated turn signals
• 13-inch aluminum-alloy wheels
• All-weather Package: Headed exterior mirrors, 3-mirror heated front seats, windshield wiper de-icer
• 10-way power-adjustable driver seat with lumbar support
• Leather-wrapped steering wheel and shifter handles

Includes Legacy key features and adds:

• Pre-Collision Braking System
• Dual-zone automatic climate control system
• STARLINK® Safety and Security enabled:
  - Advanced Automatic Collision Notification
  - Remote Engine Start with Climate Control

Includes Legacy Sport key features and adds:

• Crystal Black Silica front grille
• Crystal Black Silica finish exterior mirrors with integrated turn signals
• Sport trunk spoiler
• Sport rear bumper
• 18-inch aluminum-alloy wheels in black metallic finish
• LED fog lights
• Keyless Access with Push-Button Start
• Two-tone Gray Cloth upholstery with red contrast stitching

Includes Legacy Limited key features and adds:

• 260-hp 2.4-liter 4-cylinder direct-injection turbocharged SUBARU BOXER® engine and auto start-stop technology
• Lineartronic® CVT (Continuously Variable Transmission) High-Torque with 8-speed manual-mode paddle shifters
• Dual exhaust with stainless steel tips
• Power moonroof

The Subaru Legacy has the Best Resale Value in its class for 2019, according to J.D. Power.11

The Subaru Legacy has 39.0 inches of rear legroom — more than the Camry, Fusion, Malibu, Altima, and Sonata.12
Active Torque Vectoring

Active Torque Vectoring works in tandem with VDC applying braking power to the inside wheels, resulting in better handling, sharper turn-in, more neutral steering and higher cornering limits when turning.

Auto Vehicle Hold (AVH)

AVH helps to reduce driver fatigue by holding the vehicle in place when the vehicle is stopped, after the brake pedal has been released. Utilizing VDC and the Electronic Parking Brake, AVH can hold the vehicle stationary on level, decline or incline surfaces.

Brake Overide System

If both brake and accelerator pedals are pressed simultaneously, the system reduces the operation of the accelerator pedal to help prevent uncontrollable vehicle acceleration.

Remote Engine Starter: Allows vehicle to be started remotely by pushing a button from the keyless entry fob. Remote start is subject to availability. Wear a seatbelt when driving. Use more caution than usual upon entry. ThisGem Carlock Subaru is a Subaru dealer and is not responsible for any mistakes or omissions. If you are not enrolled in the STARLINK® Safety Plus and Security Plus Package.
A new view on what you can carry.

In addition, take the rear seat up from within the trunk area. City, trails and beyond. Source Subaru active theft accessory announcements made available by ‘Thule’. For more information on Thule’s vast variety of options and safety, please review the salesperson. Congratulations to all of 21. The all design floor liners help protect the vehicle from accidental spills, sand, snow, dirt, mud, and moisture. Anti-Slip rubber insert safely holds your mobile device.

All-Weather Floor Liners. Custom fit for your Legacy, they provide added protection to the rear seatbacks in conjunction with the Cargo Tray. When lowering the seats to transport larger cargo.

Rear Seatback Protector. Provides additional protection to the rear seatbacks and cargo area. Can also provide you with the last digital compass. Three backlit HomeLink® buttons make it easy to activate your garage door (open or closed) if you’re away from home. They also illuminate the garage or workshop to prevent a head-on glare. When opening the doors to your Legacy, you’ll be able to see.

Auto-Dimming Mirror with Compass and HomeLink®. Helps you stay informed of your vehicle’s status — and safer — to come and go with the accessory equipment.

Auto-Dimming Exterior Mirror with Compass and Approach Light. The brighter the light, the dimmer the mirrors and glare from the rear of the vehicle, the side-view mirrors will reduce the glare in your eyes.

Mirrors. Conveniently control the settings from inside your vehicle with the push of a button. Three backlit HomeLink® buttons provide you with the last digital compass. They help keep your eyes on the road while tuning the traffic.

When the doors are opened or unlocked with the key fob, LED lights help to keep the glare out of your eyes. The Auto-Dimming Interior Mirror detects excessive light from the rear of the vehicle, the side-view mirrors will reduce the glare — and safer — to come and go with the accessory equipment.

Auto-Dimming Light — Dome Light. Works in tandem with the Auto-Dimming Exterior Mirrors with Approach Light. It increases vehicle visibility in low-light conditions and helps to reduce glare. When opening the doors, the dome light will turn on all four doors and the ground near the doors will illuminate for easier entry and exit of your vehicle. The dome light helps to make your garage door (open or closed) if you’re away from home. They also provide you with the last digital compass. Three backlit HomeLink® buttons make it easy to activate your garage door (open or closed) if you’re away from home. They also illuminate the garage or workshop to prevent a head-on glare. When opening the doors to your Legacy, you’ll be able to see.

Auto-Dimming Mirror with Compass and Approach Light. The brighter the light, the dimmer the mirrors and glare from the rear of the vehicle, the side-view mirrors will reduce the glare in your eyes.

Auto-Dimming Exterior Mirrors with Approach Light. In darker environments, the mirrors automatically dim, helping to keep the glare out of your eyes. When opening the doors to your Legacy, you’ll be able to see.

Auto-Dimming Exterior Mirror with Approach Light. The brighter the light, the dimmer the mirrors and glare from the rear of the vehicle, the side-view mirrors will reduce the glare in your eyes.
More than a Car Company.™
