The Subaru Outback. Built to take you to the place you’ve never been.
In the 2019 Outback, anywhere is closer than you think. It’s built to minimize limits and maximize versatility, durability1 and all-around safety. This means you can explore that new destination you have in mind, take the scenic route, and go without hesitation.

The Subaru Outback. Built to take you to the place you’ve never been.

To keep you exploring, the SUBARU BOXER® engine and Lineartronic® CVT (Continuously Variable Transmission) give you up to 32 highway MPG! With standard Subaru Symmetrical All-Wheel Drive, X-MODE® with Hill Descent Control and 8.7 inches of ground clearance, you’ll never fear the road less paved.

Delivering comfort to long drives, the Outback offers a quiet, spacious interior crafted from high-quality materials. The experience is further enhanced by SUBARU STARLINK™ Multimedia with standard Apple CarPlay™ and Android™ auto integration, connecting you to the possibilities ahead.

With standard 60/40-split flat-folding rear seats, a surprisingly spacious 108.1 cu. ft. interior,3 a gear-ready fold-out roof rack4 and an available Power Rear Gate, the Outback is built to help you get out there. Just pack up and go.

Every Outback now includes standard EyeSight® Driver Assist Technology5 with Pre-Collision Braking, which can help bring you to a full stop if necessary. You can also opt for a number of available safety features, including Blind-Spot Detection,6 Rear Cross-Traffic Alert6 and Reverse Automatic Braking (RAB).7 And a standard Rear-Vision Camera can help you see what’s behind you as you’re backing up.

1 Based on IHS Markit vehicles in operation for the Non-Luxury Midsize CUV segment as of December 2017 for MY2008–2017 vs. total new registrations of those vehicles. 2 EPA-estimated fuel economy for 2019 Outback 2.5i at 32 highway MPG. Actual mileage may vary. 3 Without available moonroof. 4 Not available on Touring models. 5 EyeSight is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. 6 Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver by detecting the rear and side areas of the vehicle during a lane change or reversing. Always exercise caution and use vehicle mirrors and the Rear-Vision Camera when backing up. See Owner’s Manual for complete details on system operation and limitations.

Outback 3.6R Limited in Crystal White Pearl with optional and accessory equipment. Some accessories shown are no longer available through Subaru. Visit your Subaru retailer for current optional and available accessories.
Versatile and Capable

Standard Subaru Symmetrical All-Wheel Drive and 8.7 inches of ground clearance give the Outback the capability to get you just about anywhere. Thanks to its versatile and spacious cargo area, you can pack up and head out in no time. The available height-adjustable Power Rear Gate simplifies loading and unloading by opening with a simple push of a button on your key fob, rear gate or dashboard, while one-touch folding rear seats can easily be adjusted to make room for your longer items.

The most fuel-efficient vehicle in its class.1

Whether you go with the responsive 32 highway MPG2 2.5-liter SUBARU BOXER® engine or the smooth and powerful 256-horsepower 6-cylinder 3.6R, the Outback is ready to go the distance, no matter the destination.

1 Based on the EPA Combined/City/Highway estimate of fuel economy for 2018 year model vehicles within the Non-Luxury Midsize Utility segment. Segment definition supplied by IHS Markit. 2 EPA-estimated fuel economy for 2019 Outback 2.5i at 32 highway MPG. Actual mileage may vary.
Elevate your surroundings.

Outback Touring Trim

The perfect complement to the outdoors, the interior of the Outback Touring features exclusive Java Brown Leather upholstery with contrast stitching, a heated steering wheel and subtle design accents. It also includes STARLINK™ Multimedia Navigation powered by TomTom®, standard Apple CarPlay™ and Android™ Auto app integration, an easily accessible 8-inch touchscreen and a Harman Kardon® 576-watt-equivalent 12-speaker premium audio system.
An open space for open plans.

Step inside the spacious 108.1 cubic-foot cabin1 of the Outback, and you’ll find comfort in every detail, from its high-quality upholstery to its contrast stitching to its especially quiet ride. To keep you connected to your music and apps, the Outback features STARLINK™ Multimedia with standard Apple CarPlay™, Android™ Auto and Pandora® integration, as well as an available 8.0-inch touchscreen. And with available dual rear USB ports, even your passengers in back can plug in. Up front, the available 10-way adjustable driver’s seat with 2-position memory functions will keep you focused and content, while the supple yet supportive reclining and heated2 rear seats with 60/40-folding functionality ensure space for everyone and their cargo.

1 Without available moonroof. 2 Availability varies by trim level. See your retailer for details.
EyeSight® reduces rear-end crashes with injuries by 85%

An extra set of eyes every time you drive.
Every Outback includes standard EyeSight® Driver Assist Technology.

Pre-Collision Braking
When a driver ahead unexpectedly hits the brakes or cuts you off, EyeSight® warns you, applies brakes to help avoid impact and, at lower speeds, can even help bring your Outback to a full stop, if necessary.

Adaptive Cruise Control
Traffic doesn’t always flow smoothly, so EyeSight® doesn’t only keep a set speed. The system looks ahead and helps your Outback automatically adjust to keep your distance, even in stop-and-go traffic.

Lane Departure and Sway Warning with Lane Keep Assist
You accidentally drift to the edge of your lane and begin to cross into another. EyeSight® watches for lane markers and chimes to warn you before you leave your lane, and it can even help steer you back into your proper course, thanks to Lane Keep Assist.

Pre-Collision Throttle Management
This system reduces power to your engine to help you avoid accidentally accelerating into the car in front of you while merging, or if you unintentionally put your Outback in Drive instead of Reverse.

1 Based on data from 2013–2015MY Subaru models equipped with EyeSight through 2014. From an Insurance Institute of Highway Safety report published January 2016. 2 EyeSight is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. See Owner’s Manual for complete details on system operations and limitations.
Blind-Spot Detection
Using radar sensors, Blind-Spot Detection2,3 warns you with a visual indicator in your side mirror if it senses a vehicle in your blind spot. Another feature of this system, Lane Change Assist, alerts you with a flashing indicator in each side mirror if it senses a vehicle approaching in a neighboring lane while you signal for a lane change.

Rear Cross-Traffic Alert
Rear Cross-Traffic Alert2,3 uses radar sensors to help warn you of traffic approaching from the side as you are backing up, utilizing a flashing visual indicator in your side mirror and an audible warning.

Reverse Automatic Braking
In addition to the standard Rear-Vision Camera, available Reverse Automatic Braking (RAB)3,4 detects objects directly behind your vehicle when backing up at a slow speed and can help bring your Outback to a stop, should an object be detected within its range and the driver fail to act.3,4

SUBARU STARLINK™ Safety and Security
Bringing peace of mind to each drive, STARLINK™ Safety and Security can alert a first responder in an emergency, help police locate your vehicle if it’s stolen and more.5

1 Always wear seatbelts. Children should be properly restrained in the rear seat. 2 Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver in monitoring the rear and side areas of the vehicle during lane change or reversing and are not a substitute for safe and attentive driving. 3 Availability varies by trim level. See your retailer. 4 The Reverse Automatic Braking System is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle maintenance, weather and road conditions. Always exercise caution and use vehicle mirrors and the Rear-Vision Camera when backing up. See Owner’s Manual for complete details on system operation and limitations. 5 Activation and required subscription sold separately. Includes 1-year Safety Plus trial subscription.

In terms of safety, the 2019 Outback is one of our proudest achievements. Standard features include a Rear-Vision Camera and eight airbags1 to help protect you from multiple angles. Available features like Blind-Spot Detection with Lane Change Assist and Rear Cross-Traffic Alert2,3 help warn you of moving danger you don’t see coming, while available Reverse Automatic Braking (RAB)3,4 can step in to help stop your vehicle should you not see an object behind you when backing up. To help maximize your visibility, LED Steering Responsive Headlights (SRH)3 help you see around corners by pointing the way as you turn, while High Beam Assist (HBA)3 can dim or activate your high beams as needed.

Outback 2.5i Limited in Crystal White Pearl with optional equipment.
## The Subaru Outback is the best-selling all-wheel drive crossover (CUV) in its class for the past 10 years.\(^2\)

### 2.5i

Auto-Dimming Exterior Mirror with Approach Light

Make it easier—and safer—to come and go with the accessory Auto-Dimming Exterior Mirrors with Approach Light. 1

When the doors are opened or unlocked with the key fob, LED lights on the side-view mirrors will help illuminate the way, casting light on all four doors and the ground near the vehicle. They can also help reduce headlight glare in traffic. When the Auto-Dimming Interior Mirror activates, accessory light from the rear of the vehicle, the side-view mirrors automatically dim, helping to keep the glare out of your eyes. The brighter the light, the dimmer the mirrors and the better you’ll be able to see.

For a complete list of available accessories, visit your local Subaru retailer or visit www.subaru.com.
**Durability**

Responsible. Suitable. Ready to join the family.

At Subaru, we're committed to building long-lasting, dependably reliable vehicles you can trust. That's why we offer an industry-leading 10-year/100,000 mile coverage on most major mechanical and electronic components. Subaru has the only mechanical and maintenance plan that covers major mechanical components for up to 10 years or 100,000 miles. These warranties are just one reason why Subaru owners are driven by their passions. Whether hiking to see the canoe, shopping online with your smartphone or playing fetch with your furry friend. For many, our exclusive Badge of Ownership lifestyle icons."
