Welcome to the all-new Subaru Outback. Go where love takes you.
Inspiring out-of-office memos since '95.

Welcome the all-new 2020 Outback. Our best ever.

A change of scenery isn’t just about a different location. It’s about a different perspective—something the Outback has offered for the past 25 years. In 2020, the Outback philosophy remains, but its technologies are further advanced, from safety features that can watch the road to systems that keep you connected as you explore. With the capability of its Subaru engineering, you might just want to take a personal day. Or two.

Most Adventurous
No idea is too far-out. With standard Subaru Symmetrical All-Wheel Drive and a new direct-injection SUBARU BOXER® engine, the Outback achieves up to 33 MPG—better AWD fuel economy than the Honda Passport, Ford Edge and Jeep Grand Cherokee. For greater towing capability, there’s a turbocharged engine option that delivers 260 horsepower.

Most Reliable
Built on the strength of the Subaru Global Platform, the Outback has had years of experience on all types of terrain. Its record speaks for itself—99% of Outback vehicles sold in the last 10 years are still on the road today.

Safest
The Outback takes an active role in helping you stay safe, thanks to innovations such as standard Subaru EyeSight® Driver Assist Technology, which now includes Advanced Adaptive Cruise Control with Lane Centering. There’s also the DriverFocus™ Distraction Mitigation System to help reduce distracted or drowsy driving.

Most Advanced
More options come with more ease in the Outback. A new 11.6-inch touchscreen makes it intuitive to find the app you need, while SUBARU STARLINK® Multimedia lets you connect just about anywhere through standard Apple CarPlay® and Android Auto® integration. Technologies such as Remote Engine Start with Climate Control help make the Outback a place of comfort.
Farther doesn’t have to feel longer.

To keep distances engaging, the Outback delivers far-reaching connectivity. With a new 11.6-inch touchscreen, you have simple, easy access to SUBARU STARLINK® Multimedia, featuring standard Apple CarPlay® and Android Auto™ integration. For passengers, built-in Wi-Fi capability offers a wide range of entertainment possibilities. Once everyone votes on what music to play, the Harman Kardon® premium audio system will bring it to life through 12 speakers and a 576-watt-equivalent amplifier.1

Welcoming you, personally.

From the moment you sit behind the wheel, available DriverFocus™ recognizes you and automatically adjusts the Outback to your preferences.1,3 This includes driver seat settings, climate controls, side mirrors and even your choices for which vehicle system information appears on the screen. 1

1 Availability varies by model. See your retailer for details. 2 Activation and subscription required. Internet access is purchased separately through AT&T with monthly, per gigabyte, and unlimited data options available. Existing AT&T customers have the option to add a line to their AT&T Mobile Share plan.

2 The DriverFocus™ Distraction Mitigation System is a driver recognition technology designed to alert drivers if their attention to the road wavers. Drivers are always responsible for safe and attentive driving. System effectiveness may be affected by articles of clothing worn on the head or face. See Owner’s Manual for complete details on system operation and limitations.
Roof rails with integrated retractable crossbars and tie-down points

8.7 inches of ground clearance

180-Degree Front View Monitor

60/40 split-folding rear seatback

Find a place that makes you forget to take a selfie.

This is what rush hour looks like with standard Subaru Symmetrical All-Wheel Drive. The Outback thrives when pavement is scarce, thanks to standard X-MODE® with Hill Descent Control and a class-leading 8.7 inches of ground clearance.¹ And it handles gear as easily as terrain. Its roof rails with integrated retractable roof crossbars smooth the packing process, while its towing capacity of up to 3,500 pounds² means you can bring all your must-haves—and fun-to-haves, too.

Outback Onyx Edition XT in Abyss Blue Pearl with optional and accessory equipment.

Onyx Edition XT

Itinerary becomes anywhere in the all-new Outback Onyx Edition XT. A 260-hp turbocharged SUBARU BOXER® engine delivers more power than the Honda CR-V, Toyota Rav4 and Hyundai Santa Fe.¹ An advanced version of the X-MODE® system offers dual-mode capability, letting you take on snow or dirt as well as deep snow or mud. Inside, you have StarTex™ water-repellent upholstery and enhanced visibility with a 180-Degree Front View Monitor. All around, you’ll find exclusive touches, from black exterior accents to black 18-inch alloy wheels and even a full-size spare.

¹ Comparison based on competitor information from manufacturer websites for 2019 model-year vehicles within the IHS Markit Non-Luxury CUV segment and current at time of printing.
² Outback XT models only. Trailer brakes may be needed. Some safety features, including X-MODE®, Blind-Spot Detection and Rear Cross-Traffic Alert, may not function properly when towing. See your retailer for details.
³ Availability varies by model. See your retailer for details.
Subaru EyeSight® Driver Assist Technology reduces the rate of rear-end crashes with injuries by up to 85%.

Pre-Collision Braking
Can help slow and bring your Outback to a full stop if necessary.

Advanced Adaptive Cruise Control with Lane Centering
Automatically helps keep you centered in your lane, at a safe distance behind the car in front of you—even in traffic and around curves.

Pre-Collision Throttle Management
Can reduce engine power to help give you more time to react and to help minimize the possible impact force and frontal impact damage.

Lane Departure and Sway Warning
Can alert you if you drift to the edge of your lane and begin to cross into another.

Every day in the U.S., more than 1,000 people are injured in crashes reported to have involved a distracted driver. As an industry leader in safety, Subaru developed the DriverFocus™ Distraction Mitigation System, one of the first technologies of its kind. Engineered for both new and experienced drivers, it works together with Subaru EyeSight® to help detect distracted or drowsy driving. If the driver’s attention strays from the road for too long, DriverFocus™ can deliver visual and auditory alerts to bring attention back to the road.

1. EyeSight® is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. See Owner’s Manual for complete details on system operation and limitations.
3. Availability varies by model. See your retailer for details.
Detect, alert, protect.

Advanced Safety Features

The Outback represents the very latest in Subaru safety, down to the strong core of its Subaru Global Platform. For better visibility, there are standard LED headlights with High Beam Assist, available Steering Responsive Headlights1 and an available 180-Degree Front View Monitor.1 Peace of mind is possible just about anywhere, thanks to a host of active safety technologies.

Blind-Spot Detection

Using radar sensors, Blind-Spot Detection1,2 warns you with a visual indicator on your side mirror if the system detects a vehicle in your blind spot. Another feature of this system, Lane Change Assist, alerts you with a flashing indicator on your side mirror if it senses a vehicle approaching at a higher speed in a neighboring lane.

Rear Cross-Traffic Alert

Rear Cross-Traffic Alert1,2 uses radar sensors to help warn you of traffic approaching from the side as you are backing up, utilizing a flashing visual indicator on your side mirror and Rear-Vision Camera display as well as an audible warning.

Reverse Automatic Braking

Reverse Automatic Braking1,3 can detect objects directly behind your vehicle when backing up at a low speed and can help bring the Outback to a stop should an object be detected within its range and if the driver fails to act. There’s also the Rear-Vision Camera to help you keep an eye out.

SUBARU STARLINK® Safety and Security

The Outback features the latest STARLINK® Safety and Security1,4 system, which can alert a first responder in an emergency, help police locate your vehicle if it’s stolen and more. And to get you started, new Outback drivers enjoy a free three-year STARLINK® Safety Plus subscription, which includes Advanced Automatic Collision Notification, Enhanced Roadside Assistance, SOS Emergency Assistance and more.

1 Availability varies by model. See your retailer for details. 2 Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver by monitoring the rear and side areas of the vehicle during a lane change or reversing and are not substitutes for safe and attentive driving. 3 The Reverse Automatic Braking System is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle maintenance, weather and road conditions. Always exercise caution and use vehicle mirrors and the Rear-Vision Camera when backing up. See Owner’s Manual for complete details on system operation and limitations. 4 Activation with subscription required. Includes a 3-year trial subscription to Safety Plus services and a 6-month trial subscription to Safety and Security Plus services. The Concierge plan can be purchased annually or monthly. A credit card on file will be required for specific packages and for renewal purposes. See your retailer for details.
Stops aren’t the only chances to stretch.

Expanding possibility.

Space goes a long way in the Outback, and with 109.0 cubic feet of passenger volume, it’s roomier than the Jeep Grand Cherokee, Honda CR-V and Toyota RAV4! A vast cargo area offers the convenience of a Hands-Free Power Rear Gate and the versatility of a 60/40-split folding rear seatback. When it comes to comfort, you can ensure the Outback is at the perfect temperature even before you step in, thanks to Remote Engine Start with Climate Control. 3,4 Once inside, you’re welcomed by genuine Nappa Leather and a 10-way power driver seat.3 There’s also an 8-way power front-passenger seat,3 along with heated3 and ventilated front seats,5 heated rear seats3 and even a heated steering wheel! When the moment calls for calm, you’ll have as much as you need—this is the quietest Outback interior yet.

1 Without available power moonroof. See your retailer for details. 2 Comparison based on competitor information from manufacturer websites for 2019 model-year vehicles within the IHS Markit Non-Luxury CUV segment and current at time of printing. 3 Availability varies by model. See your retailer for details. 4 Requires Keyless Access with Push-Button Start and subscription to STARLINK Safety and Security Plus services. 6-month free trial included. See your retailer for details. 5 Touring models only. See your retailer for details.

Java Brown Nappa Leather

Remote Engine Start with Climate Control

Two-position memory driver seat and exterior mirrors

Rear-seat comfort

Outback Limited with Warm Ivory Leather and optional equipment.
10 The DriverFocus™ Distraction Mitigation System is a driver recognition technology designed to alert drivers of dangerous conditions on the road, as long as drivers are actively engaged and paying attention to the road. It does not operate in certain distraction situations, such as heavy traffic or inclement weather. For full details, see your retailer. 

913 The 2.5-liter 4-cylinder SUBARU BOXER® engine includes 95.6-hp 2.5-liter 4-cylinder direct-injection turbocharged SUBARU BOXER® engine with auto start-stop technology. See your retailer for further details. 

12 Subaru Outback Onyx Edition XT includes Outback Limited key features and adds: 
- 260-hp 2.4-liter 4-cylinder direct-injection turbocharged SUBARU BOXER® engine with auto start-stop technology. 
- Lineartronic® CVT (Continuously Variable Transmission) 
- Heated steering wheel 
- SUBARU STARLINK® 11.6-inch Multimedia Navigation with 3 years of map updates, SiriusXM® All Access Radio2 and Travel Link®9 
- Sound-insulating front passenger seat 
- Power moonroof 
- Heated rear seat, Heated steering wheel, Heated windshield 
- Subaru Eyesight® with LED Steering Responsive Headlights, EyeSight® Driver Assist Technology, and Blind-Spot Detection and Rear Cross-Traffic Alert. May not function properly when towing. See your retailer for details. 
- 4-way power-adjustable front passenger seat 
- Auto-dimming rearview compass mirror with HomeLink® and Rear Cross-Traffic Alert® 
- Advanced Automatic Collision Notification, Advanced Emergency Services, and Subaru Starlink® 11.6-inch Multimedia Navigation with 3 years of map updates, SiriusXM® All Access Radio2 and Travel Link® 
- CD player 
- Power moonroof 

15 Outback Limited XT includes Outback Limited key features and adds: 
- 3,500-lb. towing capacity 
- Dual exhaust outlets 
- Sound-insulating front passenger seat
### Engine and Drivetrain

<tr>
<td><strong>Steering</strong></td>
<td>Electric power-assisted quick ratio rack-and-pinion steering (ERPS). Turning circle: 36.1 ft.</td>
<td>-</td>
</tr>
</tbody>
</table>

**Hill Descent Control**
X-MODE® also incorporates Hill Descent Control that helps to maintain a constant vehicle speed when traveling downhill, enhancing vehicle control.

**Vehicle Dynamics Control (VDC)**
VDC electronic stability control utilizes sensors that constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver’s intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.

**Traction Control System (TCS)**
Also incorporates an all-wheel, all-speed Traction Control System, which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

**Active Torque Vectoring**
Active Torque Vectoring works in tandem with VDC to apply braking power to the inside wheels, resulting in better handling, sharper turn-in, more neutral steering and higher cornering limits when turning.

**Spare Tire**
Outback, Outback Premium, Outback Limited/XT and Outback Touring/XT: Temporary use T155/80 D17

Enhance your Outback Onyx Edition XT in Abyss Blue Pearl with optional and accessory equipment.

1 Requires Auto-Dimming (Interior) Mirror. For Touring models, vehicle must be unlocked to unfold side mirrors, allowing the approach light to illuminate next to and towards the rear of the vehicle.

For a complete list of available accessories, visit your local Subaru retailer or visit www.subaru.com

Thule® Kayak Carrier

Outfit your Outback.

When your passion is even bigger than your cargo area, Genuine Subaru active lifestyle gear like bikes, skis, snowboards, kayaks, paddleboards and more. Each carrier safely attaches to your roof rack, and the available Thule® Portable Steps can help you easily access everything.

TARLINK® Safety and Security Plus.

Use in conjunction with the Keyless Access and Start System. This Genuine Subaru Accessory is an electronic, wireless alarm system. Can also provide you with the last status of your garage door (open or closed), home lighting and more. Can also provide you with the status of your door locks (locked or unlocked).

Clean Cover - Rear - Keep your second row seats clean and protected from accidental spills, sand, snow, mud, dirt and moisture.

Rear Seat Protective Cover - Choose this durable appearance of your Outback seats.

Floor Mats - Carpet - Interior trim kit - Woodgrain.

Interior Trim Kit - Woodgrain - Features a coordinating interior trim kit. Machine-washable, water-resistant and latch-accessible, it offers easy installation with the last status of your garage door (open or closed), home lighting and more. Can also provide you with the status of your door locks (locked or unlocked).

Use in conjunction with the Cargo Tray for maximum protection. EVA foam base with a hexagon pattern, this tray provides added protection for your vehicle while helping to protect doors from unsightly dings.

Real Cover - Rear - Keep your second row seats clean and protected from accidental spills, sand, snow, mud, dirt and moisture.

Body Side Molding - Durable automotive-quality channel molding that is smartly attached to the vehicle while helping to prohibit loose items from sliding.
For additional Subaru resources, including owner’s manuals, maintenance schedules, available options and more, go to our website at subaru.com or contact your local Subaru retailer.

Protecting Your Investment

When you become part of the Subaru family, we’ll be there for you. Every Subaru comes with a 3-year/36,000 mile limited warranty, 5-year/60,000 mile powertrain limited warranty, and 5-year/50,000 mile new car limited warranty. For added protection, Subaru Maintenance Plans are available at your local Subaru retailer. Subaru Maintenance Plans are optional services and are not a substitute for regularly scheduled maintenance. For more information, contact your local Subaru retailer.

New Car Limited Warranty
3 years or 36,000 miles, whichever comes first.

Powertrain Limited Warranty
5 years or 100,000 miles, whichever comes first.

Wear Item Limited Warranty
3 years or 36,000 miles, whichever comes first. Replacement parts for labor cost that come under “Wear Item Limited Warranty” are covered for 1 year or 12,000 miles, whichever comes first.

Fender Liner Limited Warranty
5 years or 100,000 miles, whichever comes first.

10-year/100,000 mile bumper-to-bumper limited warranty.

24-hour Roadside Assistance
3 years or 36,000 miles, whichever comes first.

With these added benefits, you can keep your vehicle running smoothly and enjoy the peace of mind that comes with Subaru's quality and reliability. For more information, contact your local Subaru retailer.

More than a Car Company™

More than a car company, Subaru of America, Inc. is committed to making a positive impact on the world.
