Press powergate automatic shoulder strap seat belts to clearly display. All buckles and lap belts should be connected and used.

WELCOME TO FIRST CLASS

The Special Edition 25th Anniversary 1993 Subaru SVX® is about to take off. And beneath its sleekly sculpted silhouette lies a balance of performance and luxury few cars in the world possess.

If it's sheer, heart-pounding excitement you crave, the Subaru SVX delivers. Settle into the cockpit, turn the key, and you'll feel the whispery growl of its 230-horsepower engine.

Rev it up to the redline, and it sings.

The Subaru SVX makes this awesome power your ally through its Full-Time All-Wheel Drive system. You'll love the added traction on wet or dry roads. And you'll seize the added security and safety of a sophisticated 4-Channel Anti-lock Braking System that's always poised to help stop you in your tracks.

Obviously, this Special Edition machine really kicks asphalt. But unlike other spotty cars, it has a soft side.

For starters, its fully-independent suspension is remarkably refined. You wouldn't think twice about driving your Subaru SVX to your next out-of-town business meeting.

Cradled in its supple leather seats and spacious cabin, you'll marvel at the unique touches that make this a world class luxury car, as well.

Like an eight-way power driver's seat. Wrap-around cockpit. Heated mirrors with timer. Compact Disc player. Remote controlled security system. CFC-free climate control system. An electric sunroof that can shed light on the beauty of it all.

Why not arrange for a test drive today? After all, these first class seats are going fast.

25th
SUBARU
SILVER ANNIVERSARY

The driver's side supplemental restraint system can help offset the driver's additional protection in a frontal collision. This system provides mechanical protection only, and air inflation will be subject to order to provide the best combined protection in a serious accident.
