The earth isn’t disposable. Neither is a Subaru.

The Tribeca may be uniquely designed for getting out there, but at Subaru, we put just as much emphasis on not leaving it out there. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It’s why 95% of the vehicles we’ve built in the last 10 years are still on the road today.¹ We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And if we make the world a cleaner and greener place while making cars that inspire and motivate their drivers, we’ve done our job.

¹ Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
Who says quality time can’t come in big quantities?
The 2011 Subaru Tribeca.
Good memories last a lifetime. Whether you’re taking the whole family cross-country, dropping your kids off at school or surprising a loved one with dinner in the city, you can count on your Tribeca to make every occasion unforgettable. You’ll enjoy stretch-out room for up to seven and innovative storage solutions at every turn. And when the going gets tough, you and your family will have peace of mind knowing the Subaru Symmetrical All-Wheel Drive system will deliver traction and stability when you need it most. When it comes to making lasting memories, there are no wrong places. Just a right way of getting there.

Getting out there. Getting going. Getting to where your life is lived. Whether you’re taking a new turn or simply taking a break, we build every Subaru to help you take it all in. With Symmetrical All-Wheel Drive, you have the stability and control to drive with confidence where you want, when you want. Smart features help you do more of what you live for, and award-winning safety helps you do it with assurance. It’s the joy of having a car that you don’t just love to drive, but one built for life. And we think that’s why owners always tell us, “I love my Subaru.”

Love. It’s what makes a Subaru, a Subaru.

Love every mile.
Live every moment.
The government's highest crash test rating for all four categories.

— National Highway Traffic Safety Administration
Quicker Response

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged the more control you have. Subaru keeps more power routed to all four tires than some other systems that only fully engage as a reaction to slippage that has already occurred.

Better Balance

Every Subaru is built for AWD from the ground up. This allows us to build a balanced, symmetrical drivetrain that is free of the extra components some other systems need to get power to all four wheels. This symmetry and balance makes stability that helps make driving your Subaru safer and agility that makes it more fun.

Efficient Design

Because power in some systems must route through extra components, these systems not only sacrifice efficiency, but also can incur more wear and tear. Subaru routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum.

All wheels. All roads. All the time.

Subaru Symmetrical All-Wheel Drive

Wherever, whenever, or however you drive, control and confidence come from one place—where your tires meet the road. Subaru has spent nearly 40 years developing a system to get the most of those few points of contact, for traction and control that will help you feel empowered on rough roads and in bad weather. A system that can make smooth roads more engaging, and can help you avoid danger with greater surety. Discover the balance and stability that Subaru Symmetrical All-Wheel Drive delivers, knowing that your Subaru is ready to get you out there—wherever that may be.
Subaru Boxer Engine

Better engines start with better ideas. That’s why we think about engines a little differently. And it’s why every Subaru is powered by the SUBARU BOXER® engine. It features a unique horizontally opposed design and symmetrical layout. The design advantages it has over “V” or inline engines means it provides powerful, yet smooth acceleration, while at the same time helping to create a more stable and balanced vehicle. It’s an insightful difference that has the power to make driving more engaging.

Horizontally Opposed Design
The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Construction
The engine’s flat design is inherently rigid, and reduces the amount of vibration that “V” or inline engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity
The flatter profile and symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle more stably balanced and resistant to side-to-side motion than other designs.

Smoother Operation
Step on the accelerator and the revs come on smooth. While there’s plenty of power when you need it, it never compromises your comfort or control.

Increased Durability
An engine subjected to less vibration lasts longer. It’s no wonder 99% of Subaru vehicles built in the last 10 years are still on the road today.1

Greater Agility
The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it’s less likely to become unstable during maneuvers, giving you an increased feeling of being in control at all times.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
Every Tribeca is powered by the 3.6-liter 6-cylinder SUBARU BOXER® engine, the largest engine Subaru offers. With 256 horsepower, it delivers more than enough power to inspire confidence in virtually any driving condition. And with a unique horizontally opposed design, that power is delivered with exceptional smoothness and stability. The Tribeca also comes standard with the smooth-shifting 5-speed automatic transmission featuring a manual shift mode. This means you can take manual control over how the Tribeca shifts for greater involvement and access to power when you want it.

Dynamic Handling
With surefooted capability and excellent cargo and towing capacity, the Tribeca is no lightweight. But the way it handles is anything but heavy or sluggish. It features a 4-wheel independent suspension tuned for an ideal balance of sharp responsiveness and smooth, comfortable compliance. With a double-wishbone rear design, this versatile suspension helps the Tribeca react effortlessly to changing road conditions while responding quickly to your input. But the true core of its inspiring control and surprising agility is Subaru Symmetrical All-Wheel Drive. Its exceptionally balanced design helps the Tribeca maneuver more predictably, while at all times grabbing hold of as much of the road as possible.

You’ll want to drive more not just bring more.
Space to spare.
Loaded with potential.

74.4 cu. ft. Cargo Space
Many SUVs offer a spacious interior. But the Tribeca fills that space with innovations and designs that are simply smart. Every square inch of the elegant interior is maximized with distinctive features thoughtfully placed and ingenious configurations that mean just about everyone and everything fits. The flexible design lets you conveniently fold all the seats down, creating a cargo area with 74.4 cubic feet of space. With this much space, you won’t ever have to leave anyone or anything behind.

Standard 3rd-row Seating
The split-folding 3rd-row seating is now standard on every Tribeca making it more family-friendly than ever. Every Tribeca now has a place for up to seven passengers. What’s more, the thoughtful design of the 3rd row allows you to neatly fold down one or both of the seats for easy access to the 37.6 cubic feet of cargo space. And because you can access the 3rd row from both sides of the vehicle, getting to it is always easy.

Flexible 2nd Row
Your needs and the needs of those you take with you have a way of changing all the time. The Tribeca is ready to adapt to your life with features like the 40/20/40-split 2nd row. Its seatback splits three ways, so you can seat three across, or fold down one or two of the seatbacks to carry longer items in the cargo area. And to help accommodate varying passenger needs—from infants who need to be within easy reach, to adults who want all the legroom possible—the 2nd row slides almost eight inches forward and backward, and also reclines for comfort.

10 Cup Holders
There’s no need to cry over spilled anything with ten cup holders to choose from. Every seat has one within reach. There’s two in the center console, one in every door, two in the 2nd-row armrest. And even those in the back aren’t left out with two on each side of the 3rd row. You’ll also find a variety of conveniently placed storage compartments throughout the interior—helping you carry what you need while cutting down on clutter.
Compared to the choice of a 2018 Subaru Tribeca 3.6R Limited with Slate Gray leather and optional Navigation System.

**Interior Features**

The Tribeca has a wealth of available features designed to give you the comfort and control to make every drive more rewarding. It's easy to find the perfect driving position with the 8-way adjustable power driver's seat. And steering wheel-mounted controls keep key vehicle settings within easy reach. You'll quickly find your destination with the available touch-screen navigation system, which will also provide you with points of interest along the way. For even greater convenience, Bluetooth hands-free connectivity is available. This feature allows you to pair a Bluetooth-enabled phone, and make your calls with voice commands.

**Entertainment Systems**

With the right soundtrack, every drive can inspire. The Tribeca is available with the stunning sounds of a Harman Kardon premium audio system. It features 10 speakers placed around the cabin for optimum clarity, impact and harmonic richness. Powering the system is a 385-watt amplifier built and custom-tuned by the audio wizards at Harman Kardon. Choose from a variety of audio sources—including an available 6-disc CD changer, XM® Satellite Radio, and a versatile auxiliary jack. And with an available rear-seat DVD entertainment system at your disposal, even the longest journeys can seem like short trips.

**Rear-vision Camera**

Not only is the Tribeca designed for good visibility on all sides, it's also available with a back-up camera. The optional rear-vision camera, with available 3.5-inch display located conveniently in the rearview mirror, gives you a clear view behind you. Upgrade to the navigation system and you'll have a 7-inch in-dash display.
Ensuring You’re Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield™ GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

Building Cars That Last

Life is too important to slow down with a car you can’t rely on. That’s why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—all with quality and consistency. This commitment is why 95% of all the vehicles we’ve built in the last 10 years are still on the road today.1 It’s also why Subaru vehicles keep their value so well. In fact, Subaru was named the number one automotive brand for residual value by ALG for 2010.2

Protecting Your Investment

Once you’re part of our family, we’ll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru dealership and other services are just a phone call away. And to protect you over the long haul, we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. Subaru Added Security offers the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we’ve been backing them for more than 25 years, they’re agreements you can trust. Your dealer has full coverage details.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, and more hopeful world as much as we do. That’s why you’ll see us supporting events like Dining Out for Life, or promoting responsible recreation with Leave No Trace. Our year-end Share the Love sales event raises money for charities such as the ASPCA, Habitat for Humanity, National Wildlife Federation, Meals on Wheels and Boys & Girls Clubs of America. With the help of our generous customers, in 2010 we donated almost five million dollars to these worthy causes. We hope to see even more love in 2011.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
2 Based on ALG’s 2010 Residual Value Awards Brand Rankings for Mainstream Brands.
Subaru Active and Passive Safety

When it comes to feeling confident, nothing is more important than feeling safe. That’s why Subaru places safety as one of our highest priorities, and why we think about safety in 360 degrees. First, we engineer our vehicles with exceptional control and advanced accident-avoidance technologies to help keep accidents from happening in the first place. Then, we build every Subaru with protection technologies that help keep danger out, while helping to keep those inside safe. The end result is a car that—in a worst-case scenario—is one of your best possible bets.

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technology to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Tribeca also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

Increased Awareness

Before you can avoid danger, you have to see it coming. Not only is the Tribeca designed for excellent visibility on all sides, it’s also available with a back-up camera. The optional rear-vision camera, with available 3.5-inch display located conveniently in the rearview mirror, gives you a clear view behind you. Upgrade to the navigation system, and you’ll have a 7-inch in-dash display.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. To further help prevent injury, an array of sensors, including a rollover sensor, can detect an impending crash and deploy front, front-side and side-curtain airbags—working to surround and cushion outboard occupants.

Ratings based on Insurance Institute for Highway Safety’s (IIHS) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, 20-mile-per-hour rear-impact test, and roof-strength test. For more information, go to www|ihs.org. For new information, go to www|subaru.com/safety. Always wear seatbelts. Children should be properly restrained in the rear seat.

The only manufacturer with 2010 IIHS Top Safety Picks for all models. 

— Insurance Institute for Highway Safety (IIHS)

It’s more than engineering. It’s a promise.
Nowhere to be. Just new places to go.

**Traction and Stability**

| Symmetrical All-Wheel Drive | Standard                                                                                   |
| Vehicle Dynamics Control (VDC) | VDC electronic stability control utilizes sensors which constantly monitor wheel speed, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver’s intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path. |
| Traction Control System (TCS) | VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion. |

**Fuel**

| Fuel Economy          | 16/18/18 mpg                                             |
| Fuel Requirement      | Unleaded gasoline (97 octane)                          |
| Fuel Capacity         | 15.9 gallons                                             |

**Chassis**

| Steering | Engine-speed-sensing power-assisted rack-and-pinion. Turning circle: 37.4 feet. |

**Warranties**

- **New Car Limited Warranty**
  - 3 years or 36,000 miles, whichever comes first.
  - 3 years or 36,000 miles, whichever comes first.

- **Powertrain Limited Warranty**
  - 5 years or 60,000 miles, whichever comes first.

- **Weat Item Limited Warranty**
  - 3 years or 36,000 miles, whichever comes first. Repairs to the following items will also be covered under Weat Item Limited Warranty: • Brake Pads • Wiper Blades • CLHCH Livings • Transmission Balance

- **Rust Perforation Limited Warranty**
  - 5 years, unlimited mileage.
**CLIMATE CONTROL**

- Keyless entry system with tailgate unlock and answer-back electronic chirp
- CFC-free air conditioning
- Dual-zone automatic climate control system with air filtration and controls for temperature, 6-speed fan, digital coolant temperature and fuel gauges. Digital odometer and automatic transmission shift-position indicator.

**AUDIO SYSTEMS**

- 365-watt premium audio system with single-disc in-dash CD player and iPod® capability
- Rear seat entertainment system (requires Power Moonroof Package and Navigation System)

**INSTRUMENTATION**

- An analog speedometer and tachometer with illuminated red needles on black faces and white indicators
- Digital coolant temperature and fuel gauges. Digital odometer and automatic transmission shift-position indication

**CLIMATE CONTROL**

- 6-driver seatback and multi-plexer rear high-beam headlights
- High intensity discharge (HID) low-beam and multi-plexer halogen high-beam headlights
- Fog lights
- Front bumper underguard
- Chrome-finished door handles
- Body-color side-ails and front and rear lower bumper area
- Body-color power mirrors with integrated turn signals
- Heated side mirrors and windshield wiper deflector (all-weather Package)
- Power-thrillishing glass moonroof
- Privacy glass for rear doors, rear quarter and rear gate
- Raised roof rail, black-line (3.6R Limited) or silverline (3.6R Touring). 150 lbs maximum capacity.

**SEATING AND TRIM**

- 8-way power driver's seat and 6-way power front-passenger’s seat, both with manually adjustable lumbar support
- 3-stage heated front seats (all-weather Package)
- 2-position driver’s seat memory
- 60/40-split folding and reclining 3rd-row seats with 73-inch fore/aft travel and driver/passenger-side tip-forwardable function for 3rd-row entry/exit
- 40/20/40-split flat-folding 2nd-row seatbacks. 50/50-split flat-folding 3rd-row seatbacks.
- Leather-wrapped shifter handle
- Leather-interior upholstery
- Premium cloth upholstery
- Silver metallic trim on dashboard, doors and center console
- Overhead console with dual maplights and either sunglasses storage (3.6R Premium) or Bluetooth® remote transmitter with 3 memory settings
- 10 cup holders
- Dual 12-volt power outlets in center console storage compartment. Dual 12-volt power outlets in cargo area
- Cargo area undercover storage
- 4 cargo-area tie-down hooks and dual cargo-area grocery hooks
- Silver metallic trim on dashboard, doors and center console
- Power tilt/sliding-glass moonroof
- Heated side mirrors and windshield wiper de-icer (All-Weather Package)
- Analog speedometer and tachometer with illuminated red needles on black faces and white indicators
- Automatic mode and CFC-free air conditioning
- Digital odometer and automatic transmission shift-position indicator.

**SAFETY**

**ACTIVE**

- Subaru Symmetrical All-Wheel Drive
- Vehicle Dynamics Control (VDC)
- Brake Assist
- The Pressure Monitoring System (TPMS)
- Daytime Running Lights (DRL)

**PASSIVE**

- Dual-stage deployment driver's and front-passenger’s front airbags (SRS)*
- Suburban advanced front airbag system*
- Side-curtain airbags protecting front and outboard 2nd-row occupants (SRS)*
- Seat-mounted side-impact airbags (SRS)*
- Height-adjustable active front-seat head restraints
- 3-point height-adjustable outboard 2nd-row seatbelts.
- 3-point fixed 2nd-row seatbelts.
- Emergency Locking Retractors at all seating positions
- Rear child-safety door locks, LATCH system: Lower Anchors and Tethers for Children.
- Rollover sensor (3.6R Limited)
- Rearvision camera

**OPTIONAL EQUIPMENT**

- Power Moonroof Package:
- Power tilthrillizing glass moonroof, auto-dimming rearview mirror with integrated back-up camera in 3.5-inch display, Raised roof rail (150 lbs capacity)
- Navigation System:
- Touch-screen GPS navigation system with multifunction screen displaying rear-view mirrors, audio system information, trip computer functions, outside temperature, maintenance intervals, controls for various vehicle settings, calculator, and memory functions.
- Rear Seat Entertainment System:
- Rear-seat DVD entertainment system (RDES) with 8-inch widescreen format, 2 wireless headsets, wireless remote, and auxiliary input for game consoles, video cameras or other multimedia devices. Video input from RDES may also be displayed on in-dash screen (with vehicle in Park).

1. 2011 EPA fuel economy estimates. Actual mileage may vary. 2. With accessory transmission control. 3. Available as an accessory on 3.6R Premium and 3.6R Limited. See your dealer. 4. Available on 3.6R Limited as part of option package. See equipment listing above. 5. Activation and monthly subscription sold separately. See your dealer. 6. This Supplemental Restraint System (SRS) package offers the driver and front passenger additional protection in moderate to severe frontal and side-impact collisions, and outboard 2nd-row passengers additional protection in moderate to severe side-impact collisions. The system provides supplemental protection, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident.
