Responsibly. Reliable. Ready to join the family.

At Subaru, we’re committed to building a lasting, rewarding relationship with you and the world we share. We start by building our vehicles to last—it’s why 96% of all vehicles we’ve built in the last 10 years are still on the road today. We also share your desire for a cleaner, greener world and that’s why in 2004 Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever go into a landfill.

By producing these brochures in a green way rather than by traditional methods, we saved 91 trees preserved for the future, 118 lbs water borne waste not created, 17,344 gallons wastewater flow saved, 1,710 lbs solid waste not generated, 2,776 lbs net greenhouse gases prevented, 30,000 AHD 676kBTUs energy not consumed.

Love. It’s what makes a Subaru, a Subaru.
Room for all the memories you can create.

You’ll always remember the little things. The perfect restaurant you found in that tiny town. Ice cream victory celebrations with the kids. Sundays at the park with the dog. Fortunately your Tribeca is built to help them all happen, with a refined and comfortable cabin for up to seven, and storage for all your belongings. And because no two road conditions are ever the same, the Subaru Symmetrical All-Wheel Drive system sends power to all wheels for maximum control and to deliver a responsive drive. Wherever you’re headed, time spent together will be the time of your life.

Versatile
Every journey requires its own cargo, and that’s why Tribeca offers all kinds of smart ways to pack, store and secure it, including a 3-way split-sliding second row.

Responsive
The balance, responsiveness and smooth ride found in the Tribeca is rarely seen in other CUVs, thanks to its SUBARU BOXER® engine, AWD, and well-tuned suspension. The combination of these features make for a punchy and safer ride around town.

Comfortable
With three rows of roomy seating, flexible design for cargo capacity and thoughtful extras like 10 cup holders, the Tribeca has a comfortable place for everyone and everything.

Protective
Tribeca safety features include impressive active and passive safety systems making it—in a worst-case scenario—one of your best possible bets.
“One of the Tribeca’s strongest driving attributes is its ride quality: the suspension absorbs road imperfections with ease, making for a very comfortable commute.”

— Cars.com
Better Balance
Every Tribeca is built for AWD from the ground up. This allows us to build a balanced, symmetrical drivetrain that is free of the extra components some other systems need to get power to all four wheels. This symmetry and balance means stability that helps make driving your Tribeca safer and agility that makes it more fun.

Quicker Response
There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged the more control you have. Subaru Tribeca has an AWD system that keeps more power routed to all four tires than some other AWD systems that only fully engage as a reaction to slippage that has already occurred.

Efficient Design
Because power in some AWD systems must route through extra components, these systems not only sacrifice efficiency, but also can incur more wear and tear. The AWD in Tribeca routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum.

All wheels. All roads. All the time.

Subaru Symmetrical All-Wheel Drive
Wherever, whenever, or however you drive, control and confidence come from one place—where your tires meet the road. Subaru has spent nearly 40 years developing a system to get the most of those few points of contact, for traction and control that will help you feel empowered on rough roads and in bad weather. A system that can make smooth roads more engaging, and can help you avoid danger with greater surety. Discover the balance and stability that Subaru Symmetrical All-Wheel Drive delivers, knowing that your Subaru is ready to get you out there—wherever that may be.
Low profile. Big difference.

Horizontally Opposed Design
The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Construction
The engine’s flat design is inherently rigid, and reduces the amount of vibration that “V” or in-line engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity
The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle feel more balanced and nimble versus other designs.

Subaru Boxer Engine
Better engines start with better ideas. That’s why we think about engines a little differently. And it’s why every Subaru is powered by the SUBARU BOXER® engine. It features a unique horizontally opposed design and symmetrical layout. The design advantages it has over “V” or in-line engines means it provides powerful, yet smooth acceleration, while at the same time helping to create a more stable and balanced vehicle. It’s an insightful difference that has the power to make driving more engaging.

Smotherer Operation
Step on the accelerator and the revs come on smooth without the extra engineering other engines require. It’s comfortable and controlled, with plenty of power when you need it.

Increased Durability
An engine subjected to less vibration lasts longer. It’s no wonder 96% of Subaru vehicles built in the last 10 years are still on the road today.1

Greater Agility
The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it’s more likely to feel stable during maneuvers, giving you an increased feeling of being in control at all times.

Dream big.  
There’s room for that, too.

Flexible 2nd Row
Your needs and the needs of those you take with you have a way of changing all the time. The Tribeca is ready to adapt to your life with features like the 40/20/40-split 2nd row. Its seatback splits three ways, so you can seat three across, or fold down one or two of the seatbacks to carry longer items in the cargo area. And to help accommodate varying passenger needs—from infants who need to be within easy reach, to adults who want all the legroom possible—the 2nd row slides almost eight inches forward and backward, and also reclines for comfort.

Standard 3rd-row Seating
With a split-folding 3rd-row seat, standard on every Tribeca, there’s room for up to seven passengers, making it family-friendly and comfortable. And with the thoughtful design of the 3rd row allowing you to neatly fold down one or both of the seats, you’ve got easy access to over 37 cubic feet of cargo space. And because you can access the last row from both sides of the Tribeca, getting to it and your cargo is always easy.

10 Cup Holders
There’s no need to cry over spilled anything with ten cup holders to choose from. Every seat has one within reach. There’s two in the center console, one in every door, two in the 2nd-row armrest. And even those in the back aren’t left out with two on each side of the 3rd row. You’ll also find a variety of conveniently placed storage compartments throughout the interior—helping you carry what you need while cutting down on clutter.

74.4 cu. ft. Cargo Space
Many SUVs offer a spacious interior. But the Tribeca fills that space with innovations and designs that are simply smart. Every square inch of the elegant interior is maximized with distinctive features thoughtfully placed and ingenious configurations that mean just about everyone and everything fits. The flexible design lets you conveniently fold all the seats down, creating a cargo area with 74.4 cubic feet of space. With this much space, you won’t ever have to leave anyone or anything behind.
Comfortable, connected and entertained.

Interior Features

The Tribeca has a wealth of available features designed to give you the comfort and control to make every drive more rewarding. It’s easy to find the perfect driving position with the 8-way adjustable power driver’s seat. And steering wheel-mounted controls keep key vehicle settings within easy reach. You’ll quickly find your destination with the available touch-screen navigation system, which will also provide you with points of interest along the way. For even greater convenience, Bluetooth® hands-free connectivity is available. This feature allows you to pair a Bluetooth-enabled phone, and make your calls with voice commands.

Entertainment System

With the right tunes, every drive will inspire. Tribeca is available with the stunning sounds of a Harman Kardon premium audio system, featuring 10 speakers for optimum clarity, impact and harmonic richness. Powering the system is a 385-watt amplifier built and custom-tuned by Harman Kardon. Choose from a variety of audio sources, including an available 6-disc CD changer, XM® Satellite Radio, or an auxiliary jack that you can plug your iPod or MP3 player in. And with the available rear-seat DVD entertainment system at your disposal, even the longest journeys can seem like short trips.

Convenience Features

Available features like the auto-dimming rearview mirror with integrated back-up camera, leather-wrapped 3-spoke steering wheel with audio controls, overhead console with dual maplights, and a HomeLink® remote transmitter with three memory settings, the Tribeca makes it easier to stay comfortable and connected to the things that matter most.

Activation and monthly subscription sold separately. See your dealer.
A distinctive and intelligent approach to seating and trouble-free flexibility are just two of the reasons Tribeca is a great choice for growing families. The 8-way power driver’s seat and 4-way power front-passenger’s seat, both with adjustable lumbar support allow for a customized and comfortable ride. The smart seating and storage systems include 40/20/40-split flat-folding 2nd-row seatbacks, 50/50-split flat-folding 3rd-row seatbacks and enclosed storage compartments with a rear storage drawer for all of the extra things life brings. Fold the seats into the floor and the flat cargo floor area offers 74.4 cubic feet of cargo room to accommodate the bigger things in life just as well as the little ones.

Your kids grow quickly, but don’t worry—we made space.
Ensuring You’re Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield® GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

Building Cars That Last

Life is too important to slow down with a car you can’t rely on. That’s why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—all with quality and consistency. This commitment is why 96% of all the vehicles we’ve built in the last 10 years are still on the road today. It’s also why Subaru vehicles keep their value so well. In fact, Subaru was awarded the industry’s highest predicted resale value by ALG® and Kelley Blue Book’s kbb.com.

2 Projected resale values are specific to the 2011 model year. For more information, visit ALG’s alg.com.
3 Vehicle’s projected resale value is specific to the 2011 model year. For more information, visit Kelley Blue Book’s kbb.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, and more hopeful world as much as we do. Through our year-end Share the Love sales events we’ve raised nearly 15 million dollars over the last 3 years to distribute amongst charities such as ASPCA, Habitat for Humanity, National Wildlife Federation, Meals on Wheels and Boys & Girls Clubs of America. We look forward to seeing even more love from our generous customers in 2012.

Protecting Your Investment

Once you’re part of our family, we’ll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru dealership and other services are just a phone call away. And to protect you over the long haul, we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. Subaru Added Security offers the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we’ve been backings them for more than 25 years, they’re agreements you can trust. Your dealer has full coverage details.

Ensuring You’re Fully Covered

Subaru Active and Passive Safety

When it comes to feeling confident, nothing is more important than feeling safe. That’s why Subaru places safety as one of our highest priorities, and why we think about safety in 360 degrees. First, we engineer our vehicles with exceptional control and advanced accident-avoidance technologies to help keep accidents from happening in the first place. Then, we build every Subaru with protection technologies that help keep danger out, while helping to keep those inside safe. The end result is a car that—in a worst-case scenario—is one of your best possible bets.

Stopping Power
Powerful and reliable vented disc brakes are teamed with advanced technology to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Exceptional Control
Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Tribeca also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

Increased Awareness
Before you can avoid danger, you have to see it coming. Not only is the Tribeca designed for excellent visibility on all sides, it’s also available with a back-up camera. The optional Rear-Vision Camera, with available 3.3-inch display located conveniently in the rearview mirror, gives you a clear view behind you. Upgrade to the navigation system and you’ll have a 7-inch in-dash display.

All-around Protection
Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. To further help prevent injury, an array of sensors, including a rollover sensor, can detect an impending crash and deploy front, front-side and side-curtain airbags—working to surround and cushion outboard occupants.
Nowhere to be.

Just new places to go.
3.6R Premium

- 3.6-liter 6-cylinder SUBARU BOXER® engine
- Subaru Symmetrical All-Wheel Drive
- 5-speed automatic transmission
- Fog lights

Warranties

- New Car Limited Warranty: 3 years or 36,000 miles, whichever comes first
- Powertrain Limited Warranty: 3 years or 60,000 miles, whichever comes first
- Wear Item Limited Warranty: 3 years or 36,000 miles, whichever comes first
- Rust Perforation Limited Warranty: 5 years, unlimited mileage
### EXTERIOR
- 3.6R Premium
- 3.6R Limited
- 3.6R Touring
- Projector low-beam and multi-reflector high-beam headlights
- High intensity discharge (HID) low-beam and multi-reflector halogen high-beam headlights
- Fog lights
- Front bumper underguard
- Chrome-finished door handles
- Body-color side skirts and front and rear lower bumper area
- Body-color power mirrors with integrated turn signals
- Heated side mirrors and windshield wiper de-icer (3.6R Weather Package)
- Power folding glass moonroof (90% UV light reducing)
- Privacy glass for rear doors, rear quarters and rear gate
- Raised roof rail, black-finish (3.6R Limited) or silver-finish (3.6R Touring). 150 lbs. maximum capacity.

### SEATING AND TRIM
- 8-way power driver's seat and 4-way power front-passenger's seat, both with manually adjustable lumbar support
- 3-stage heated front seats (All-Weather Package)
- 2-position driver's seat memory
- 60/40-split sliding and reclining 3rd-row seats with 7.5-inch fore/aft travel and driver/passenger-side tip-forward/foldable function for 3rd-row entry/exit
- 60/40/40-split flat-folding 2nd-row seatbacks. 50/50-split flat-folding 3rd-row seatbacks.
- Leather-wrapped shifter handle
- Leather-trimmed steering wheel
- Premium cloth upholstery
- Leather interior upholstery
- Silver metallic trim on dashboard, doors and center console

### CONVENIENCE FEATURES
- Auto-dimming rearview mirror with integrated back-up camera in 3.3-inch display
- Power front and rear windows with driver's auto-down
- Leather-wrapped 3-spoke steering wheel with audio system buttons
- Center console with armrest, enclosed storage compartment and rear storage drawer
- 10 cup holders
- Bluetooth® hands-free phone module
- HomeLink® remote transmitter with 3 memory settings
- Dual 12-volt power outlets in center console storage compartment. Dual 12-volt power outlets in cargo area.
- Cargo-area underfloor storage
- 4 cargo-area sidebins and dual cargo-area grocery hooks

### AUDIO SYSTEMS
- 6-speaker single-CD audio system with 3.5-mm auxiliary jack
- 360-watt 10-speaker Harman Kardon 6-CD audio system with amplifier, subwoofer, XM® Satellite Radio® and 3.5-mm auxiliary jack
- Subaru Satellite Radio® and 3.5-mm auxiliary jack

### INSTRUMENTATION
- Analog speedometer and tachometer with illuminated red needles on black face and white indicators
- Digital coolant temperature and fuel gauges. Digital odometer and automatic transmission shift position indicator

### CLIMATE CONTROL
- Dual-zone automatic, climate control system with air filtration and control for temperature, 6-speed fan, airflow direction, automatic mode and CPC-free air conditioning.
- Rear cabin air conditioner with 4-speed fan

### SECURITY
- Keyless entry system with tailgate unlock and answer-back electronic chip
- Antitheft security system with engine immobilizer and answer-back electronic chip

### SAFETY

#### ACTIVE
- Subaru Symmetrical All-Wheel Drive
- 4-wheel Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD)
- Vehicle Dynamic Control (VDC)
- Rear Vision Camera
- Subaru Eyesight

#### PASSIVE
- Dual-stage deployment driver’s and front-passenger’s front airbags (SRS®)
- Subaru advanced frontal airbag system®
- Side-curtain airbags protecting front and outboard 2nd-row occupants (SRS®)
- Seat-mounted front-side impact airbags (SRS®)
- Height-adjustable active front-seat head restraints
- Rollover sensor (SIRIUS®)
- Brake Assist
- Tire Pressure Monitoring System (TPMS)
- Daytime Running Lights (DRL)

#### STANDARD
- Power Moonroof Package
- Power folding glass moonroof (90% UV light reducing), auto-dimming rearview mirror with integrated back-up camera in 3.3-inch display, Raised roof rail (150 lbs. capacity)
- Navigation System
- Touch-screen GPS navigation system with multi-function display showing Rear-Vision Camera, audio system information, trip computer functions and vehicle settings.
- Rear Seat Entertainment System:
  - Rear-seat DVD entertainment system (with 9-inch widescreen format, 2 wireless headsets, wireless remotes, and auxiliary inputs for game console, video camera or other multimedia device. Video input from RSES may also be displayed on in-dash screen (with vehicle in Park).
  - Sirius® Satellite Radio®
  - XM® Satellite Radio®

#### AVAILABLE
- Standard
- Optional
- Not available
- Available as a dealer-installed accessory

1. 2012 EPA estimate emissions. Actual mileage may vary. 2. With accessory transmission oncooler. 3. included in Power Moonroof Package. See equipment listing below. 4. Not available in Legacy.
5. Satellite Radio hardware standard on all of Subaru’s factory audio system. Activation and required monthly subscription available separately. Includes 3 months of service at no charge. 6. Additional all-wheel drive models are also available in front-wheel drive.”

The Supplemental Restraint System (SRS) (airbags) affords the driver and front passenger additional protection in moderate to severe frontal and side-impact collisions, and outboard 2nd-row passengers additional protection in moderate to severe side-impact collisions. This system provides supplementary protection only, and seatbelts must be worn in order to avoid injury to out-of-position occupants upon deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat. 7. Requires Power Moonroof Package. 8. Requires Power Moonroof Package and Navigation System. 9. Requires Navigation System.

### Which wheels?

3.6R Premium and 3.6R Limited

3.6R Touring
Make your Tribeca truly yours.

**All-weather Floor Mats**
Custom-fit, heavy-gauge protective mats help protect vehicle’s carpet from sand, dirt and moisture. Not intended for use over top of carpeted floor mats.

**Moonroof Air Deflector**
This air deflector helps reduce wind noise and cut sun glare.

**Remote Engine Starter**
Conveniently allows vehicle to start by remote control (up to 400 feet away depending on obstruction), so that the vehicle’s interior temperature is more comfortable upon entry.

**Front Bumper Underguard**
Adding a touch of style to a rugged profile, the front bumper underguard protects the lower bumper area from brush and debris.

**Trailer Hitch**
When your toys are too big to fit inside, the Trailer Hitch may be what you need. Rated at 350 lbs. tongue weight and 3,200 lbs. towing capacity (2,500 lbs. with addition of accessory Transmission Oil Cooler). Hitch ball not included. Trailer brakes may be needed.

**Puddle Lights**
L.E.D. lights mounted in the rocker panel trim turn on when the vehicle doors are unlocked using the keyless entry and illuminate the ground to aid entering and exiting the vehicle.

**Cargo Net—Rear**
Neatly holds cargo and prevents it from sliding about while the vehicle is in motion.

**18-inch Chrome-finished Alloy Wheel**
Ride even more stylishly with these 18-inch chrome-finished alloy wheels.

**Hood Protector**
The hood protector is made from a durable acrylic material that helps shield the hood from bugs and stone chips.

**Kayak Carrier**
Cradles and securely transports most kayak hull shapes. Includes bow-down straps with padded buckles. Required mounting clamps sold separately. Shown with accessory Round Cross Bars, also sold separately.

**Dog Guard/Compartment Separator**
Provides a divider between your cargo or pet and the passenger area of the Tribeca.

**Rear Bumper Cover**
Helps protect upper surface of rear bumper from scratches and dings.

At Subaru, we’re committed to building a lasting, rewarding relationship with you and the world we share. We start by building our vehicles to last—it’s why 96% of all vehicles we’ve built in the last 10 years are still on the road today. We also share your desire for a cleaner, greener world and that’s why in 2004 Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill.

These brochures were printed with vegetable-based inks and produced using a “Green Printing Process” and FSC® standards. The Forest Stewardship Council™ (FSC) is an international organization that brings people together to find solutions which promote responsible stewardship of the world’s forests and environments.

By producing these brochures in a green way rather than by traditional methods, we saved 17,344 gallons wastewater flow saved; 1,919 lbs solid waste not generated; 3,778 lbs net greenhouse gases prevented; 28,920,400 BTUs energy not consumed.
