Love. It's what makes a Subaru, a Subaru.
Room for all the memories you can create.

The 2014 Subaru Tribeca

You’ll always remember the little things. The perfect restaurant you found in that tiny town. Ice cream victory celebrations with the kids. Sundays at the park with the dog. Fortunately, your Tribeca is built to help them all happen, with a refined and comfortable cabin for up to seven, and storage for all your belongings. And because no two road conditions are ever the same, the Subaru Symmetrical All-Wheel Drive system sends power to all wheels for maximum control and to deliver a responsive drive. Wherever you’re headed, time spent together will be the time of your life.

Versatile

Every journey requires its own cargo, and that’s why Tribeca offers all kinds of smart ways to pack, store and secure it, including a 3-way, split-sliding second row.

Responsive

The balance, responsiveness and smooth ride found in the Tribeca is rarely seen in other CUVs, thanks to its SUBARU BOXER® engine, AWD and well-tuned suspension. The combination of these features make for a punchy and safer ride around town.

Comfortable

With three rows of roomy seating, flexible design for cargo capacity and thoughtful extras like 10 cup holders, the Tribeca has a comfortable place for everyone and everything.

Protective

Tribeca safety features include impressive active and passive safety systems making it—in a worst-case scenario—one of your best possible bets.
“Subaru has racked up more endorsements by independent arbiters of automotive quality and safety than just about any other manufacturer.”

—FORTUNE Magazine, December 3, 2012

Better Balance

Every Tribeca is built for AWD from the ground up. This allows us to build a balanced, symmetrical drivetrain that is free of the extra components some other systems need to get power to all four wheels. This symmetry and balance means stability that helps make driving your Tribeca safer and agility that makes it more fun.

Quicker Response

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged the more control you have. Subaru Tribeca has an AWD system that keeps more power routed to all four tires than some other AWD systems that only fully engage as a reaction to slippage that has already occurred.

Efficient Design

Because power in some AWD systems must route through extra components, those systems not only sacrifice efficiency, but also can incur more wear and tear. The AWD in Tribeca routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum.

All wheels. All roads. All the time.

Subaru Symmetrical All-Wheel Drive

Wherever, whenever, or however you drive, control and confidence come from one place—where your tires meet the road. Subaru has spent more than 40 years developing a system to get the most of those few points of contact, for traction and control that will help you feel empowered on rough roads and in bad weather. A system that can make smooth roads more engaging, and can help you avoid danger with greater confidence. Discover the balance and stability that Subaru Symmetrical All-Wheel Drive delivers, knowing that your Subaru is ready to get you out there—wherever that may be.
Low profile. Big difference.

Horizontally Opposed Design
The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Construction
The engine’s flat design is inherently rigid and reduces the amount of vibration that “V” or inline engines— with more upright pistons—are subjected to during operation.

Lower Center of Gravity
The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle feel more balanced and nimble versus other designs.

Smoother Operation
Step on the accelerator and the revs come on smooth without the extra engineering other engines require. It’s comfortable and controlled, with plenty of power when you need it.

Increased Durability
An engine subjected to less vibration lasts longer. It’s no wonder 96% of Subaru vehicles built in the last 12 years are still on the road today.1

Greater Agility
The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it’s more likely to feel stable during maneuvers, giving you an increased feeling of being in control at all times.

Subaru Boxer Engine
Better engines start with better ideas. That’s why we think about engines a little differently. And it’s why every Subaru is powered by the SUBARU BOXER® engine. It features a unique horizontally opposed design and symmetrical layout. The design advantages it has over “V” or inline engines means it provides powerful, yet smooth acceleration, while at the same time it helps create a more stable and balanced vehicle. It’s an insightful difference that has the power to make driving more engaging.

74.4 cu. ft. Cargo Space

Many SUVs offer a spacious interior. But the Tribeca fills that space with innovations and designs that are simply smart. Every square inch of the elegant interior is maximized with distinctive features thoughtfully placed, and ingenious configurations that mean just about everyone and everything fits. The flexible design lets you conveniently fold all the seats down, creating a cargo area with 74.4 cubic feet of space. With this much space, you won’t ever have to leave anyone or anything behind.

10 Cup Holders

There’s no need to cry over spilled anything with 10 cup holders to choose from. Every seat has one within reach. There are two in the center console, one in every door, two in the second-row armrest. And even those in the back aren’t left out with two on each side of the third row. You’ll also find a variety of conveniently placed storage compartments throughout the interior—helping you carry what you need while cutting down on clutter.

Flexible Second Row

Your needs and the needs of those you take with you have a way of changing all the time. The Tribeca is ready to adapt to your life with features like the 40/20/40-split second row. Its seatback splits three ways, so you can seat three across, or fold down one or two of the seatbacks to carry longer items in the cargo area. And to help accommodate varying passenger needs—from infants who need to be within easy reach, to adults who want all the legroom possible—the second row slides almost eight inches forward and backward, and also reclines for comfort.

Standard Third-row Seating

With a split-folding third-row seat, standard on every Tribeca, there’s room for up to seven passengers, making it family-friendly and comfortable. And with the thoughtful design of the third row allowing you to neatly fold down one or both of the seats, you’ve got easy access to more than 37 cubic feet of cargo space. And because you can access the last row from both sides of the Tribeca, getting to it and your cargo is always easy.

Dream big.
There’s room for that, too.
Comfortable, connected and entertained.

**Interior Features**

The Tribeca has a wealth of standard features designed to give you the comfort and control to make every drive more rewarding. It's easy to find the perfect driving position with the 8-way adjustable power driver's seat with 2-position memory. And steering wheel-mounted controls keep key vehicle settings within easy reach. You'll quickly find your destination with the available touch-screen navigation system, which will also provide you with points of interest along the way. For even greater convenience, Bluetooth® hands-free connectivity is standard. This feature allows you to pair a Bluetooth®-enabled phone, and make your calls with voice commands.

**Entertainment System**

With the right tunes, every drive will inspire. Tribeca is available with the stunning sounds of a Harman Kardon premium audio system, featuring 10 speakers for optimum clarity, impact and harmonic richness. Powering the system is a 385-watt amplifier built and custom-tuned by Harman Kardon. Choose from a variety of audio sources, including an available 6-disc CD changer, SiriusXM® Satellite Radio¹, or an auxiliary jack that you can plug your iPod® or MP3 player into. And with the available rear-seat DVD entertainment system at your disposal, even the longest journeys can seem like short trips.

**Convenience Features**

Available with features like the auto-dimming rearview mirror with integrated back-up camera, leather-wrapped, 3-spoke steering wheel with audio controls, overhead console with dual maplights, and a HomeLink® remote transmitter with three memory settings, the Tribeca makes it easier to stay comfortable and connected to the things that matter most.

¹ Activation and monthly subscription sold separately. See your dealer.
Your kids grow quickly, but don’t worry—we made space.

A distinctive and intelligent approach to seating and trouble-free flexibility are just two of the reasons Tribeca is a great choice for growing families. The 8-way power driver’s seat and 4-way power front-passenger’s seat, both with adjustable lumbar support, allow for a customized and comfortable ride. The smart seating and storage systems include 40/20/40-split flat-folding second-row seatbacks, 50/50-split flat-folding third-row seatbacks and enclosed storage compartments with a rear storage drawer for all of the extra things life brings. Fold the seats into the floor and the flat cargo floor area offers 74.4 cubic feet of cargo room to accommodate the bigger things in life just as well as the little ones.
Ensuring You’re Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield® GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,0001. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com/owners/ownership-benefits.html.

Building Cars That Last

Life is too important to slow down with a car you can’t rely on. That’s why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—all with quality and consistency. This commitment is why 96% of all the vehicles we’ve built in the last 12 years are still on the road today.1 It’s also why Subaru vehicles keep their value so well.

Protecting Your Investment

Once you’re part of our family, we’ll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru dealership and other services are just a phone call away. And to protect you over the long haul, we offer Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. Added Security® offers the only mechanical and maintenance plans backed by Subaru, and because we’ve been backing them for more than 30 years, they’re agreements you can trust. Your dealer has full coverage details.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener and more hopeful world as much as we do. After five years of the Share the Love sales event, Subaru has donated nearly $25 million dollars. This year’s participating charities included the Alzheimer’s Association®, ASPCA®, Make-A-Wish®, Meals on Wheels Association of America®, and USO. We’re thrilled that we’ve been able to help such deserving causes and are grateful to our owners for helping us make this event a success year after year.

1 Not applicable in Alaska.
Subaru Active and Passive Safety

When it comes to feeling confident, nothing is more important than feeling safe. That’s why Subaru places safety as one of our highest priorities, and why we think about safety in 360 degrees. First, we engineer our vehicles with exceptional control and advanced accident-avoidance technologies to help keep accidents from happening in the first place. Then, we build every Subaru with protection technologies that help keep danger out, while helping to keep those inside safe. The end result is a car that—in a worst-case scenario—is one of your best possible bets.

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technology to help you stop short of danger. Anti-lock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Tribeca also comes with standard VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

Increased Awareness

Before you can avoid danger, you have to see it coming. Not only is the Tribeca designed for excellent visibility on all sides, it’s also available with a back-up camera. The optional Rear-Vision Camera, with available 3.3-inch display located conveniently in the rearview mirror, gives you a clear view behind you. Upgrade to the navigation system and you’ll have a 7-inch, in-dash display.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. To further help prevent injury, an array of sensors, including a rollover sensor, can detect an impending crash and deploy front, front-side and side-curtain airbags—working to surround and cushion outboard occupants.

“Subaru Tribeca has been named an IIHS Top Safety Pick, seven years running (2007–2013).”

Warranties

New Car Limited Warranty

3 years or 36,000 miles, whichever comes first.

Powertrain Limited Warranty

5 years or 60,000 miles, whichever comes first.

Wear Item Limited Warranty

3 years or 36,000 miles, whichever comes first. Repairs to the following items will also be covered under Wear Item Limited Warranty: Brake Pads, Wiper Blades, Clutch Linings, Transmitter Batteries

Rust Perforation Limited Warranty

5 years, unlimited mileage.
### Exterior

- Projector bi-xenon and multi-reflector high-beam headlights
- Fog lights
- Chrome-finished door handles
- Body-color power mirrors with integrated turn signals
- Heated side mirrors and windshield washer de-icer (All-Wheel Package)
- Power tilt/slide glass moonroof (99% UV light reducing)
- Privacy glass for rear doors, rear quarter and rear gate
- Raised roof rail, black finish. 150-lb maximum capacity.

### Convenience Features

- 2-stage, automatic climate control system with air filtration and controls for temperature, 6-speed fan, airflow direction, automatic mode and CFC-free air conditioning
- Dual 12-volt power outlets in center console storage compartment. Dual 12-volt power outlets in cargo area.
- HomeLink® remote transmitter with three memory settings
- Bluetooth® hands-free phone module
- 10 cup holders
- 40/20/40-split flat-folding 2nd-row seatbacks. 50/50-split flat-folding 3rd-row seatbacks.
- 2-position driver’s seat memory
- 3-stage heated front seats (All-Weather Package)
- Adjustable lumbar support
- 8-way power driver’s seat and 4-way power front-passenger’s seat, both with manually adjustable lumbar support
- 3-position heated front seats (All-Wheel Package)
- 2-position driver’s seat memory
- 60/40-split sliding and reclining, 2nd-row seat with 7.8-inch fold-flat travel and driver/passenger-side tip-forward/tilt-side function for 3rd-row entry/exit
- Silver metallic trim on dashboard, doors and center console
- Rear Vision Camera
- Cargo-area underfloor storage
- Dual 12-volt power outlets in rear seat storage compartment.
- Power tilt/sliding-glass moonroof (99% UV light reducing)
- Heated side mirrors and windshield wiper de-icer (All-Weather Package)
- Brake Assist
- Daytime Running Lights (DRL)
- Rear-Side Impact Sensor
- Tire Pressure Monitoring System (TPMS)
- Electronic Brake-force Distribution (EBD)

### Instrumentation

- Analog speedometer and tachometer with illuminated red needles on black faces and white indicators
- Digital coolant temperature and fuel gauges. Digital odometer and automatic transmission shift-position indicator
- Brake Override System
- Brake Assist
- Daytime Running Lights (DRL)
- Tire Pressure Monitoring System (TPMS)
- 4-wheel Antilock Braking System (ABS) with Electronic Brake-force Distribution (EBD)
- Brake Assist
- Daytime Running Lights (DRL)
- Rear-Side Impact Sensor
- Emergency Locking Retractors at all seating positions
- Rear child safety door locks. LATCH system: Lower Anchors and Tethers for Children.
- Brake Assist
- Daytime Running Lights (DRL)

### Safety

- Active
- Subaru Symmetrical All-Wheel Drive
- Subaru BOXER® engine

### Optional Equipment

- Navigation System and Rear Seat Entertainment System:
  - Touch-screen GPS navigation system with multifunction screen, displaying Rear-Vision Camera, audio system information, trip computer functions and vehicle settings. Rear-seat DVD entertainment system (RSES) with 9-inch widescreen format, 2 wireless headsets, wireless remote, and auxiliary inputs for game consoles, video cameras or other multimedia devices. Video input from RSES may also be displayed on in-dash screens (with vehicle in Park).
- Vehicle Dynamics Control (VDC)
- Vehicle Stability Control (VSC)
- Traction Control System (TCS)

### Audio System

- 360-watt 10-speaker Harman Kardon 6-GT audio system with amplifier, subwoofer, SiriusXM® Satellite Radio® and 3.5 mm auxiliary jack

### Color

- Colors shown may vary due to differences in monitors and/or screen settings.

### Equipment

- TRIBECA Equipment

- EXTERIOR
  - Projector bi-xenon and multi-reflector high-beam headlights
  - Fog lights
  - Chrome-finished door handles
  - Body-color power mirrors with integrated turn signals
  - Heated side mirrors and windshield washer de-icer (All-Wheel Package)
  - Power tilt/slide glass moonroof (99% UV light reducing)
  - Privacy glass for rear doors, rear quarter and rear gate
  - Raised roof rail, black finish. 150-lb maximum capacity.

- SEATING AND TRIM
  - 8-way power driver’s seat and 4-way power front-passenger’s seat, both with manually adjustable lumbar support
  - 3-stage heated front seats (All-Wheel Package)
  - 2-position driver’s seat memory

- CLIMATE CONTROL
  - Dual-zone automatic climate control system with air filtration and controls for temperature, 6-speed fan, airflow direction, automatic mode and CFC-free air conditioning
  - Rear cabin air conditioner with 4-speed fan

- SECURITY
  - Keyless entry system with tire pressure monitor and answer-back electronic chip
  - Anti-theft security system with engine immobilizer

- AUDIO SYSTEM
  - 360-watt 10-speaker Harman Kardon 6-GT audio system with amplifier, subwoofer, SiriusXM® Satellite Radio® and 3.5 mm auxiliary jack
Make your Tribeca truly yours.

All-weather Floor Mats
Custom-fitted, heavy-gauge, protective mats. Help protect vehicle carpet from sand, dirt and moisture. Not intended for use on carpeted floor mats.

Moonroof Air Deflector
This air deflector helps reduce wind noise and cut sun glare.

Remote Engine Starter
Conveniently allows vehicle to start by remote control (up to 400 feet away depending on obstructions), so that the vehicle’s interior temperature is more comfortable upon entry.

Front Bumper Underguard
Adding a touch of style to a rugged profile, the front bumper underguard protects the lower bumper area from brush and debris.

18-inch, Chrome-finished Alloy Wheels
Ride even more stylishly with these 18-inch, chrome-finished alloy wheels.

Cargo Net—Rear
Neatly holds cargo and prevents it from sliding around while the vehicle is in motion.

Trailer Hitch
When your toys are too big to fit inside, the Trailer Hitch may be what you need. Rated at 350 lbs tongue weight and 5,000 lbs towing capacity (3,500 lbs with addition of accessory Transmission Oil Cooler).

Hood Protector
The hood protector is made from a durable acrylic material that helps shield the hood from bugs and stone chips.

Puddle Lights
L.E.D. lights mounted in the rocker panel turn on when the vehicle doors are unlocked using the keyless entry and illuminate the ground to aid entering and exiting the vehicle.

Kayak Carrier
Cradles and securely transports most kayak hull shapes. Includes tie-down straps with padded buckle.

Remote Engine Starter
Conveniently allows vehicle to start by remote control (up to 400 feet away depending on obstructions), so that the vehicle’s interior temperature is more comfortable upon entry.

Dog Guard/Compartment Separator
Provides a divider between your cargo or pet and the passenger area of the Tribeca.

Rear Bumper Cover
Helps protect upper surface of rear bumper from scratches and dings.

At Subaru, we’re committed to building a lasting, rewarding relationship with you and the world we share. We start by building our vehicles to last—it’s why 96% of all vehicles we’ve built in the last 12 years are still on the road today.1 We also share your desire for a cleaner, greener world. That’s why in 2004, Subaru of Indiana Automotive, Inc., (SIA) became the first manufacturing facility in the U.S. to reach zero-landfill status—nothing from its manufacturing efforts ever goes into a landfill. Also Subaru is headquartered in a zero-landfill office in Cherry Hill, NJ.
