2015 Land Cruiser

The impressive 2015 Toyota Land Cruiser is the culmination of over 60 years of intrepid exploration across seven continents. Sold and celebrated in 188 countries, it is a rare blend of luxury and capability.
A tradition of adventure.
Over 60 years of heritage

One summer day back in 1951, the first Land Cruiser, then called the BJ, started up the side of Mt. Fuji and accomplished a feat no other vehicle in history had managed to achieve. It climbed to Checkpoint No. 6, a spot so high up the mountainside it was thought to be unreachable by motor vehicle. The event signaled more than just the triumph of one vehicle over a formidable challenge. It marked the birth of a legend.

Since its impressive debut, Land Cruiser has developed a loyal following unmatched by any other SUV in the world. From the rugged machine of those early days, to the model of refinement it is today, Land Cruiser continues to be a symbol of capability, innovation and quality.
Many SUVs perform well either on the highway or on the dirt, but fail to do well on both. Armed with features like Kinetic Dynamic Suspension System (KDSS) and 4WD with Active Traction Control (A-TRAC), Land Cruiser delivers optimum performance on or off the pavement.
5.7L V8 Dual Independent VVT-i
With Land Cruiser's power and torque at your disposal, even the most inhospitable terrain will not intimidate you. The 5.7-liter Double Overhead Cam (DOHC) 32-valve V8 employs Dual Independent Variable Valve Timing with intelligence (VVT-i) and Acoustic Control Induction System (ACIS). These advanced technologies help the engine produce 381 hp and 401 lb.-ft. of torque.

Robust Towing
Sooner or later in your travels you may need to pull something. And when that time arrives, you'll be ready with the capable Land Cruiser. Its powerful V8, 6-speed automatic transmission and torque-enhancing gear ratios endow it with an incredible 8200-lb. towing capacity.[1]

Trailer-Sway Control (TSC)[2]
Stability is crucial to towing and Land Cruiser has you covered. It features a technology called Trailer-Sway Control (TSC), which helps counteract vehicle yaw caused by trailer oscillation, helping keep you in command at all times.

---

1. See footnote 2 in Disclosures section. 2. See footnote 28 in Disclosures section.
Multi-Terrain Monitor\(^1\)
This remarkable feature gives you a look at the front, side, and rear areas of the vehicle from the comfort of the driver’s seat while off-roading. Shown on the 8-in. navigation screen, the images help you double-check your blind spots and examines your immediate surroundings for potential trouble.

Multi-Terrain Select
Multi-terrain Select ensures that the driver has the maximum amount of traction possible for any off-road scenario. The driver chooses from five available modes — Mud & Sand, Rock, Rock & Dirt, Loose Rock and Mogul — to best match the terrain being negotiated. The system optimizes throttle and brake control, helping to limit wheelspin and wheel lockup.

Multi-Terrain 4-Wheel ABS with EBD
ABS sensors detect wheel lockup during emergency braking situations, and the system helps compensate by “pulsing” individual wheel brakes. Land Cruiser’s ABS also features Electronic Brake-force Distribution (EBD), which redistributes brake force to help keep the rear wheels from locking up during sudden braking situations. By adapting to off-road conditions such as sand, gravel or mud, this standard Multi-terrain 4-wheel ABS is ideally suited for adventure.

Variable Gear Ratio Steering (VGRS)
When driving at speed in a straight line, you don’t want the vehicle to change direction with every slight movement of the steering wheel. In town, however, when negotiating tight turns and when parking, you want the steering to be responsive. VGRS is designed to keep Land Cruiser’s steering relaxed at speed, and progressively more responsive as your speed drops.

Torsen\(^2\)
Limited-Slip Differential
The Torsen\(^2\) or torque-sensing differential is engineered to automatically send more torque to the wheel or axle with more traction, helping provide greater grip and better turning on uncertain surfaces.

---

\(^1\) See footnote 15 in Disclosures section.  \(^2\) See footnote 31 in Disclosures section.
4WD with Active Traction Control (A-TRAC)
The only thing better than the confidence of 4WD is 4WD with Active Traction Control (A-TRAC) and a Torsen[1] locking center differential. By interpreting data from the ABS wheel-speed sensors, A-TRAC can tell if a drive wheel is turning faster than a non-drive wheel, which indicates loss of traction. The system can then automatically reduce engine power until the wheel that is slipping slows and regains traction. If reducing engine power isn’t enough, the braking system will gradually slow that wheel through pulsed brake action.

5-Speed Crawl Control (CRAWL)[2]
Go where few other vehicles can. Crawl Control (CRAWL) helps control the throttle and brake in tough terrain allowing the driver to focus on steering, and with Off-road Turn Assist (OTA), negotiation of tight corners and off-road drivability are enhanced.

Kinetic Dynamic Suspension System (KDSS)
Many traditional suspension systems perform well on the highway, but fall short when it comes to off-road performance. KDSS automatically optimizes suspension performance both on and off the pavement. On the road, it helps suppress body roll to enhance cornering performance. Off-road, it relaxes sway control on rough terrain for increased wheel articulation. This helps tires maintain contact with the ground on uneven terrain and minimizes body tilt.

1. See footnote 31 in Disclosures section.
2. See footnote 32 in Disclosures section.
1 **Suspension**
Land Cruiser is equipped with an independent double-wishbone suspension with coil springs and stabilizer bar up front, and a 4-link rear with coil springs stabilizer bar and semi-floating axle in the rear. Trustworthy? You bet. Land Cruiser’s reputation is riding on it.

2 **Skid Plates**
Land Cruiser’s underside is equipped with reinforced skid plates to help protect the front suspension, radiator, fuel tank and transfer case.

3 **Rigid Frame**
Land Cruiser boasts the strength of body-on-frame construction. Using high-tensile steel, our engineers optimized the shape and thickness of the frame components to help increase joint strength and keep vehicle curb weight down. In addition, key suspension components have been optimized to enhance overall ride quality.

4 **Stainless Steel Exhaust**
In addition to being corrosion resistant, Land Cruiser’s exhaust system has been designed for performance. To help reduce back pressure, two independent exhaust tubes have been used to transport exhaust from either side of the V8 engine to the main muffler. Plus, the edges on the outer muffler casing have been removed to enhance uneven-terrain driving performance.

5 **6-Speed Automatic**
Land Cruiser’s automatic transmission not only offers the smooth shifting of six speeds, but also incorporates advanced features such as Electronically Controlled automatic Transmission with intelligence (ECT-i) sequential shift mode and uphill/downhill shift logic.

6 **Multi-Terrain 4-Wheel ABS**
ABS sensors detect wheel lockup during emergency braking situations, and the system helps compensate by “pulsing” individual wheel brakes. Land Cruiser’s ABS also features Electronic Brake-force Distribution (EBD), which redistributes brake force to help keep the rear wheels from locking up during sudden braking situations. By adapting to off-road conditions such as sand, gravel or mud, this standard Multi-terrain 4-wheel ABS is ideally suited for adventure.
1. **Rain-Sensing Windshield Wipers**
Using a combination of LEDs that send out infrared rays and photo diodes that receive the rays, the sensor on Land Cruiser’s rain-sensing windshield wiper system is designed to detect water on the windshield and adjust the wiper speed accordingly. The wipers are fully automatic, but also have a manual control for conventional operation.

2. **Headlight Cleaners**
Concealed in the front bumper, Land Cruiser’s headlight cleaner system uses a high-pressure pump to lift sprayers from the bumper, and then rinses the headlights with windshield wiper fluid. The system employs a precise fan pattern to help keep fluid spray off the windshield and hood.

3. **High Intensity Discharge (HID) Headlights (and LED Accent Lights)**
Capable of producing whiter, more brilliant light than a traditional halogen bulb of the same size, HID lightbulbs also use less electricity and last several times longer. HID lights are filled with pressurized xenon gas that is ignited by a pair of electrodes, effectively turning the gas into a white-hot filament.
Leather-Trimmmed Heated Steering Wheel

No need to leave civility behind when you venture above the timberline. Land Cruiser’s steering wheel is not only leather-trimmed, but also heated.

Front- and Second-Row Seat Comfort

Both front seats offer the comfort of power adjustability, multi-stage heating and ventilation. The second-row seats offer heating for the passengers in back.

Perforated Leather

When adventuring in Land Cruiser, roughing it is relative. Its luxurious seats offer plush perforated leather trim.
It's true that Land Cruiser offers everything that's needed for an expedition to the farthest corners of the globe. Five doors, seating for eight and a 40/20/40 split-fold second row that lets you transform seats into extra cargo space. But this versatile interior is also the picture of refinement. With features like a leather-trimmed heated steering wheel, wood-grain-style trim and ventilated front seats, Land Cruiser is that rare vehicle that lets you go forth in comfort.
Color Multi-Information Display
As the name suggests, the Multi-Information Display serves up valuable info on a variety of vehicle functions and systems, and does so in color. The driver is provided with data relating to fuel economy, trip and vehicle information.

Dynamic Radar Cruise Control (DRCC)
This standard feature automatically adjusts vehicle speed to help you maintain a preset following distance between your vehicle and the vehicle traveling directly in front of you.

Smart Key System
Better to search for adventure than for your keys. When you approach Land Cruiser with the Smart Key fob in your pocket or bag, the interior illuminates automatically, the doors unlock when you touch any door handle, the back hatch opens with the touch of its handle and the engine starts with the push of a button.

Multi-Terrain Monitor
This remarkable feature gives you a look at the front, side and rear areas of the vehicle from the comfort of the driver’s seat. Shown on the 8-in. navigation screen, the images help you double-check your blind spots and examine your immediate surroundings for potential trouble.

Premium HDD Navigation with Entune App Suite and JBL
Boasting a sharp 8-in. high-resolution touch/split-screen display with an integrated backup camera, this superb system offers:
• AM/FM CD player with MP3/WMA playback capability
• 14 JBL Synthesis speakers with subwoofer
• SiriusXM All Access Radio capability and SXM Data Services including NavTraffic, NavWeather, Fuel and Sports & Stocks
• HD Radio with iTunes Tagging
• USB port with iPod connectivity and control
• Vehicle information
• Hands-free phone capability
• Phone book access
• Advanced voice recognition
• Music streaming via Bluetooth® wireless technology

iPod® Connectivity and Bluetooth® Wireless Technology
The 2015 Land Cruiser offers standard Bluetooth wireless technology that lets you use your mobile phone hands-free, as well as stream music through the vehicle’s audio system from your Bluetooth®-compatible device.

Rear-Seat DVD Entertainment System
While you may be exploring a far-flung locale, your second-row passengers will feel right at home. That’s because they can watch the latest movies or even play video games on the available rear-seat DVD entertainment system with 9-in. screen. Even better, after the final credits have rolled, those movies or games can be quickly stowed in any of Land Cruiser’s many storage compartments.

JBL Synthesis® Audio System
Providing the soundtrack for your adventures is Land Cruiser’s available JBL Synthesis® AM/FM CD audio system. The unit features 14 speakers, including an 8-in. subwoofer and a 605-watt amplifier.

81.7 cu. ft. of cargo storage[1]
12 cup and bottle holders
8 seats

Land Cruiser's perforated, leather-trimmed 8-passenger interior features a foldaway third-row seat. The split/fold design of the second and third rows allows for seemingly countless cargo and passenger configurations. And with all the seats stowed, the cargo capacity is a full 81.7 cubic feet.

Pet Travel Safety

Toyota offers a wide range of available pet accessories designed to help you transport your furry companions in comfort and security. Ask your local Toyota dealer for all the details.
Heritage Capability Interior Safety Choices

Sumptuous Seats
When adventuring in the luxurious Land Cruiser, roughing it is relative. Both front seats offer the comfort of power-adjustability and perforated leather, multi-stage heating and ventilation.

Second-Row Versatility
The second-row seats are heated and offer 40/20/40 split and fold-down options. Plus, they slide, recline, tumble and feature comfortable armrests.

Center Console Cooler Box
Beneath the armrest on Land Cruiser’s center console, there’s an available cooler box that can accommodate as many as six 12-oz. water bottles. The next time you’re traversing the arid Sahara Desert in northern Africa, you’ll thank us.

Four-Zone Automatic Climate Control
With Land Cruiser’s four-zone automatic climate control, the driver, front passenger and two second-row passengers can each control their own individual environments. In fact, there are a total of 28 vents located throughout the cabin to further enhance everyone’s comfort.

Third-Row Versatility
The third-row seats offer 50/50 split fold-down functionality, plus they fold away for maximum cargo capacity.

Standard Roof Rack
Uncommonly remote expeditions may require that you carry some of your gear on the roof. The sturdy roof rack tops off Land Cruiser’s impressive list of standard features.

Power Tilt/Slide Moonroof
Make your next adventure an open-air experience. Land Cruiser’s available power moonroof does more than just tilt and slide — it inspires.
The elements of structural integrity.

1. Pre-Collision System (PCS)\(^{[1]}\)
2. Side-Impact Door Beams
3. Crumple Zones

Photo not intended to replicate actual inflated airbags.

1. See footnote 27 in Disclosures section.
1. **Pre-Collision System (PCS)**
   Using a radar unit located in the vehicle’s front grille, PCS monitors the position of the vehicle relative to other vehicles and certain objects in the road directly ahead. If PCS determines that a collision is imminent, the Brake Assist (BA) system is placed in standby mode, a warning is displayed and a buzzer sounds. If PCS determines that a collision is unavoidable, the system will still alert the driver via a warning light, warning display and buzzer, apply the brakes and automatically retract the driver and front passenger seatbelts to help prepare for such a scenario.

2. **Crumple Zones**
   An important element of occupant protection, crumple zones are structurally engineered to absorb and dissipate the energy of a collision by a process known as controlled deformation.

3. **Side-Impact Door Beams**
   To help provide extra occupant protection when the vehicle is struck from the side, steel beams are located inside all doors and designed to absorb energy and reduce the chance of intrusion into the cabin.

4. **Active Front Headrests**
   In certain lower-speed, rear-end collisions, a bracket and cable system in the lower region of the front seats trigger the upward movement of the headrests to help position them to the back of the occupants’ heads.

5. **Ten Airbags and More**
   Land Cruiser comes with ten standard airbags that cover every row of seats and include driver and front passenger knee airbags. The front seats also incorporate active front headrests, which can help reduce the severity of whiplash injuries.

6. **Safety Connect®**
   Via Toyota’s 24/7 call center, available Safety Connect® offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance and Automatic Collision Notification. Safety Connect® also offers the reliability of embedded cellular and GPS technology.

7. **Star Safety System™**
   The 2015 Land Cruiser, like every new Toyota, comes standard with the Star Safety System, a suite of six advanced safety features designed to help keep drivers out of harm’s way. On Land Cruiser, the system includes Vehicle Stability Control (VSC), Active Traction Control (A-TRAC), Multi-terrain 4-wheel Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST).

8. **Tire Pressure Monitor System (TPMS)**
   Maintaining proper tire pressure is important. TPMS evaluates the pressure of the tires, provides a direct readout and issues a warning if the pressure becomes critically low.

1 Parking Assist Sonar
With sonar sensors located in the front and rear bumpers, parking assist sonar system detects and then warns the driver about objects that might not have been seen while parking or maneuvering at low speeds.

2 LATCH
Lower Anchors and Tethers for Children (LATCH) provides an added measure of safety for the smaller members of your family. LATCH includes low-mounted anchors on outboard second-row seats and tether anchors for every second-row seat.

Britax Child Safety, Inc. and its affiliates and subsidiaries (“Britax”) disclaims responsibility for any depiction of the use or installation of the products herein. Britax makes no representation(s) related to the installation or use of the products, whether the products fit in the depicted vehicles nor whether any occupants are properly secured into the products.
How many colors does it come in?

Land Cruiser is available in seven exterior colors. It’s fitting that this legendary off-road vehicle should offer as many colors as there are continents. Plus, it offers two handsome interior colors to choose from, as well.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

- **Basic**: 36 months/36,000 miles (all components other than normal wear and maintenance items).
- **Powertrain**: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).
- **Rust-Through**: 60 months/unlimited miles (corrosion perforation of sheet metal).
- **Emissions**: Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty.

Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.
**Features**

**EXTERIOR**

- Projector-beam High Intensity Discharge (HID) headlights with auto level control
- Integrated fog lights
- LED accent lighting with on/off feature
- LED tail and stoplights with vortex generators and integrated Land Cruiser logo
- Color-keyed heated power, auto-dimming outside mirrors with cameras, turn signal indicators, vortex generators and power-folding, reverse tilt-down, and memory features
- Power tilt/slide moonroof with sunshade and one-touch open/close with jam protection
- 18-in. 5-spoke alloy wheels with P285/60R18 tires

**INTERIOR**

- Four-zone automatic front and rear climate control with air filter, dust and pollen filtration mode, push-button controls, separate second-row control panel, individual temperature settings for driver, front passenger and rear-seat passengers, and second- and third-row vents
- Premium HDD Navigation1 with Entune® App Suite1 and JBL® Synthesis — includes 8-in. high-resolution touch-screen with split-screen capability and integrated backup camera2 display, AM/FM CD player, Optitron instrumentation with turquoise-illuminated edges and white-backlit speedometer, tachometer, voltmeter, coolant temperature, fuel and engine oil pressure gauges; TFT Multi-Information Display with odometer, tripmeter, speedometer, shift position, current and average fuel economy, distance to empty, average speed, parking assist, steering wheel angle, Eco Driving Indicator zone display, Multi-terrain Select, TPMS, with MP3/WMA playback capability, 14 JBL® speakers including subwoofer, SiriusXM All Access Radio3 with 3-month complimentary trial, HD Radio4 with iTunes® Tagging5 USB port6 with iPod7 playback capability, advanced voice recognition8 and music streaming9 via Bluetooth® wireless technology
- Leather-trimmed heated power tilt/telescopic steering wheel with wood-grain-style accents and audio, Multi-Information Display, Bluetooth10 hands-free phone, voice-command and Dynamic Radar Cruise Control (DRCC)11 controls
- Leather-trimmed shift lever with wood-grain-style inlay
- Optitron instrument cluster with turquoise-illuminated edges and white-backlit speedometer, tachometer, voltmeter, coolant temperature, fuel and engine oil pressure gauges; TFT Multi-Information Display with odometer, tripmeter, speedometer, shift position, current and average fuel economy, distance to empty, average speed, parking assist, steering wheel angle, Eco Driving Indicator zone display, Multi-terrain Select, TPMS, with maintenance information and warning messages
- Rear-seat entertainment system with in-seat, display, RCA jacks, remote, and two wireless headphones12
- Multi-terrain Monitor13 with selectable front, side or rear views
- 40/40/40 split sliding, reclining, tumble and multi-stage heated second-row seat with center armrest14
- Leather-trimmed shift lever with wood-grain-style inlay
- Power windows with one-touch auto up/down with jam protection in all positions
- Power door locks with shift-linked automatic lock/unlock feature
- Auto-dimming rearview mirror with compass and HomeLink®15 universal transceiver
- Overhead console with maplights, sunglasses storage and Safety Connect®16 controls
- Two center-console area 12V auxiliary power outlets and one rear cargo area 120V AC power outlet
- Leather-trimmed heated power tilt/telescopic steering wheel with wood-grain-style accents and audio, Multi-Information Display, Bluetooth10 hands-free phone, voice-command and Dynamic Radar Cruise Control (DRCC)11 controls
- Leather-trimmed shift lever with wood-grain-style inlay
- Optitron instrument cluster with turquoise-illuminated edges and white-backlit speedometer, tachometer, voltmeter, coolant temperature, fuel and engine oil pressure gauges; TFT Multi-Information Display with odometer, tripmeter, speedometer, shift position, current and average fuel economy, distance to empty, average speed, parking assist, steering wheel angle, Eco Driving Indicator zone display, Multi-terrain Select, TPMS, with maintenance information and warning messages
- Smart Key System® on all doors and liftgate with Push Button Start, remote keyless entry system and remote illuminated entry
- Power windows with one-touch auto up/down with jam protection in all positions
- Power door locks with shift-linked automatic lock/unlock feature
- Auto-dimming rearview mirror with compass and HomeLink®15 universal transceiver
- Overhead console with maplights, sunglasses storage and Safety Connect®16 controls
- Bi-level covered center console with cooler box and second-row vents
- Two center-console area 12V auxiliary power outlets and one rear cargo area 120V AC power outlet
- Front and rear door storage pockets
- Dual extendable sun visors with illuminated vanity mirrors and secondary visors
- Second-row maplights

**SAFETY AND CONVENIENCE**

- Star Safety System™ — includes Vehicle Stability Control (VSC), Active Traction Control (A-TRAC), Multi-terrain 4-wheel Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST)
- Ten airbags® — includes driver and front passenger Advanced Airbag System, driver and front passenger seat-mounted side airbags, second-row outboard seat-mounted side airbags, driver and front passenger knee airbags, and all-row Roll-sensing Side Curtain Airbags (RSCA) with cutoff switch
- Driver and front passenger active headrests
- Driver and front passenger Active Seatbelt Pretensioning System with force limiters
- 3-point seatbelts for all seating positions; driver-side Emergency Locking Retractor (ELR) and Automatic/Emergency Locking Retractor (ALR/ELR) on all passenger belts
- Adjustable front- and second-row outboard seatbelt anchors
- LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors on outboard second-row seats and tether anchors on all second-row seats
- Child-protector rear door locks and power window lockout control

**Features**

S = Standard  O = Optional  P = Feature is available as part of an option package.

See numbered footnotes in Disclosures section.
Specifications

**MECHANICAL AND PERFORMANCE**

**ENGINE**
- 5.7-Liter DOHC 32-Valve V8 with Dual Independent Variable Valve Timing with intelligence (VVT-i); 381 hp @ 5600 rpm; 401 lb.-ft. @ 3600 rpm

TOYOTA LAND CRUISER

Toyota Land Cruiser is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area and do not ever load cargo to the maximum capacity. Toyota recommends using only a specified equipment vehicle. A vehicle with specific equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

DISCLOSURES

1. Toyota strives to build vehicles that match customer interest and they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. Before towing, confirm your vehicle and trailer are compatible, hooked up and load properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with new SAE J2807 method. 3. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost or as a package. 4. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 5. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 6. SiriusXM services require a subscription after 3-month trial period, and are sold separately or as a package. Subscriptions governed by SiriusXM Customer Agreement; see available at www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your subscription term, you will automatically renew to a pre-paid monthly or annual plan unless you cancel when offered online. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 7. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio™ technology manufactured under license from iBiquity Digital Corporation. 8. iTunes® Tagging is a registered trademark of Apple Inc. All rights reserved. 9. May not be compatible with all mobile phones, MP3/WMA players and like models. 10. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 10. Advanced voice recognition capabilities vary by head unit. Some systems vary by factory equipped features. 11. Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. 12. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 13. Sound performance depends on the environment, your speakers, and your head unit. 14. Pandora®, the Pandora® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., with permission. 15. The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 16. Headphones are for passenger use only. Do not use while operating vehicle. 17. Dynamic Radar Cruise Control is designed to help the driver maintain vehicle speed and control. 18. The Multi-terrain Monitor is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect the Multi-terrain Monitor’s performance. 19. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect the Vehicle Stability Control’s performance. 20. trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect the Trailer-Sway Control’s performance. 21. The Multi-terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 22. Headphones are for passenger use only. Do not use while operating vehicle. 23. Dynamic Radar Cruise Control is designed to help the driver maintain vehicle speed and control. 24. Smart Stop technology operates only in the event of certain simultaneous brake and accelerator pedal applications. 25. At the airbag (AB) systems are Supplemental Restraint Systems. All vehicles (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions; frontal and knee airbags typically inflate in frontal collisions; side and side curtain airbags in side collisions; Rollo-Sensing Curtain Airbags at a severe tilt degree, roll or G-force. In other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner’s Manual for further information and warnings. 26. Active front headrests can help reduce the extent of whiplash in certain rear impacts. 27. Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors such as speed, driver input and road conditions. 28. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect the TSC’s performance. 29. Hill Start Assist Control (HAC) is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See your Owner’s Manual for further details. 30. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or Smart Key fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key or Smart Key fob, it can be costly to replace. If you lose a key or Smart Key fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by contacting your local Yellow Pages or by contacting www.aaa.org. 31. Torsen® is a registered trademark of Zexel Torsen, Inc. 32. The Toyota Land Cruiser is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. 33. Cargo and load capacity limited by weight and distribution. 34. 2015 EPA-estimated mileage. Actual mileage will vary.

TOYOTA FINANCIAL SERVICES

Toyota Financial Services (TFS) is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

Toyota Land Cruiser is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area and do not ever load cargo to the maximum capacity. Toyota recommends using only a specified equipment vehicle. A vehicle with specific equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The issuer and co-issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank, Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only, Prototypes shown. Actual production vehicles may vary.
