YOU THINK ALL THE HOTTEST STYLES END UP IN PARIS? TRY A CREEK BED IN THE MOJAVE.

Not every top style ends up on the runway. Some end up on the highway. Or, in some cases, off the highway. Like the 2002 RAV4. With its graceful lines and sleek design, it sets the standard for style in an SUV. And with available full-time 4-wheel drive and an uncommonly smooth ride, it’s versatile enough to take you almost anywhere, from the hottest desert to the coolest club. The RAV4—proof that good looks will take you places.

*The Toyota driver and front passenger air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to inflate in a severe frontal collision. In all other accidents, the air bags will not inflate. To decrease the risk of injury from a deploying air bag, always wear seatbelts and sit upright in the middle of the seat as far back as possible from the air bag modules. Do not put objects in front of an air bag. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying air bag SRS may cause serious injury or death. Please see your Owner’s Manual for further instructions.
