Disclaimers

All information in this eBrochure is based on data available at time of posting, is subject to change without notice and pertains specifically to continental U.S.A. vehicles only.

[2] All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner’s Manual for further information/warnings.
[4] Rear defroster standard with Convenience Package. All-Weather Guard Package also available without rear defroster.
[8] 25.7 cu. ft. with rear seat folded forward.
[9] 13.7 cu. ft. with available 60/40 split fold-down rear seat.
[10] 2008 EPA-estimated mileage. For model year 2008, the EPA has revised the way the estimated fuel economy rating is determined. Actual mileage will vary.
