Who is Eos?
Eos is the Greek Goddess of Dawn, who rode in on a rose-colored chariot drawn by white horses each morning to mark the new day. Read on to discover how this ancient goddess can guide you and your 200 horses to a calmer and more centered self.

The sunroof is only 1/3 of the story.
To be honest, other cars do have a sunroof. And yes, some cars are convertibles. But this is the only one that has a roof, a sunroof and no roof. And because we know how important this is to your Eos experience, we took eight full pages to go through everything. But don’t let this make you feel like you have to rush. Sit back and enjoy.

Experience reflexology.
Every last detail in your Eos was designed to create harmony between mind, body and soul. Even things that you might not expect, like your steering wheel and gas pedal. But don’t stress yourself trying to figure it all out—we’ve included a guide to Eos reflexology.
IN THIS ISSUE
The star of this brochure is Eos. Each page dedicated to exploring both its inner workings and outer effects. It’s a world of simple German design and masterful German technology. Enjoy.

Turbo Trim

Standard Features

Technical

2.0 TFSI®: 200 horsepower, 207 lb-ft torque, inline 4-cylinder, 16-valve engine, turbocharged with intercooler and direct fuel injection

6-speed manual transmission

Front Axle: Independent McPherson strut double wishbone design, coil springs, telescopic self-leveling shock absorbers and stabilizer bar

Rear Axle: Independent 4-link suspension with coil springs, telescopic shock absorbers and stabilizer bar

4-wheel Anti-lock Braking System (ABS)

Electronic Stabilization Program (ESP) with brake assist and side-impact airbags

Anti-slip regulation (ASR)

Electronic Differential Lock (EDL)

Brake-pad wear indicator

Electromechanical power steering with speed variable assist

Anti-intrusion side door beams

Manual – 21.29 (city)/29.73 (highway)*

Automatic DSG – 21.30 (city)/29.73 (highway)*

Exterior

Power retractable hardtop with integrated power sunroof

Panoramic lift and sliding sunroof with tinted glass, pinch protection and manual sunshade

Dual power heatable exterior mirrors with integrated directional signals

16” “Adelaide” alloy wheels

215/55 R16 all-season tires with space-saving spare

Wind Deflector, front, in windshield frame

CSC (coupe-sunroof-convertible) power retractable hardtop with integrated power sunroof

Interior

Analog gauges: speedometer, tachometer, vehicle temperature and fuel

Multi-function trip computer

Digital read-outs for odometer, trip odometer, and clock

Illuminated warning lights

Radio frequency remote locking system

AM/FM Radio with single-disc in-dash CD player, MP3 format readable, eight speakers, AUX in multimedia socket for external audio source

Driver and front passenger, front airbag supplemental restraint system

Passenger Occupant Detection System (PODS)

Rollover Protection System, automatic, behind rear head restraints

Lower anchors for child restraint systems in rear seating positions

Center console

Cargo cover in trunk

Rear passenger ventilation for heat and A/C

Cruise control

Climatic single zone air conditioning

Digital compass

Windblocker (rear)

*All bags are supplemental restraints only and not intended to be used as the sole means of occupant safety. Please wear safety belts and seat children in the rear seat, using restraint systems appropriate for their size and age. **EPA Estimates. Your fuel consumption may vary.

Warranty

New Vehicle Limited Warranty – 4-year/50,000 mile (whichever occurs first)

Wear and tear items and adjustments excluded after initial 12 months/12,000 (whichever comes first)

Powertrain Limited Warranty – 5-year/60,000 mile (whichever occurs first)

Anti-corrosion – 12-year/unlimited distance limited warranty against corrosion perforation.

Roadside Assistance

4-year/50,000 mile (which ever comes first), 24-hour, provided by Cross Country Automatic Services, Inc.

Komfort Trim

Includes Turbo features, plus:

Exterior

Heated washer nozzles

Interior

Dual-zone Climatronic

12-way power driver’s seat with easy entry function

Front heatable seats

Footwell ambient lighting

Lux Trim

Includes Komfort features, plus:

Technical

DSG® 6-speed Automatic Transmission with Tiptronic™

Exterior

Automatic headlights with “Coming Home” feature

Dual power folding exterior mirrors with integrated directional signals

17” “Sienna” alloy wheels

215/45 R17 all-season tires and space-saving spare

Wind Deflector, front, in windshield frame

CSC (coupe-sunroof-convertible) power retractable hardtop with integrated power sunroof

Interior

Analog gauges: speedometer, tachometer, vehicle temperature and fuel

Multi-function trip computer

Digital read-outs for odometer, trip odometer, and clock

Illuminated warning lights

Radio frequency remote locking system

AM/FM Radio with single-disc in-dash CD player, MP3 format readable, eight speakers, AUX in multimedia socket for external audio source

Driver and front passenger, front airbag supplemental restraint system

Passenger Occupant Detection System (PODS)

Rollover Protection System, automatic, behind rear head restraints

Lower anchors for child restraint systems in rear seating positions

Center console

Cargo cover in trunk

Rear passenger ventilation for heat and A/C

Cruise control

Climatic single zone air conditioning

Digital compass

Windblocker (rear)

The Carbon Neutral Project is a partnership with Carbonfund.org designed to start addressing the issue of carbon emissions. With their help, we’ll be making it easy for anyone who owns a Volkswagen to determine their vehicle’s carbon output and take action towards offsetting it. Learn more at vw.com.

**Notes:**
- High-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim, and wheel damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. The ideas in this brochure are new, the paper however is recycled. Please remember to recycle. The brochure. Not the ideas in it. Thanks.
Within these pages you’ll get a sense of the power of Eos. Its power to nurture. To refresh. To bring balance. It’s a vehicle of inspiration, all parts designed with your peace of mind in mind. But how can you understand the healing strength of warm winds on a hot summer’s night from mere text on paper? Or grasp the internal peace that can be achieved as you gaze into the heavens on a desolate stretch of highway with only the low hum of the engine as your companion through type? Yes, words can explain, but the Eos’ ability to clear the mind and open the senses is something to be experienced. So just sit back and relax while you flip through these pages. But remember, this will only give you a sense of the power of Eos.
What’s your pleasure?

Hard top? Sun roof? Top down? The Eos is the world’s first hardtop convertible with a sunroof. That means no matter what state your mind is in, the Eos can match.

3-in-1 roof
What’s your pleasure?
The Eos is the world’s first hardtop convertible with a sunroof. That means no matter what state your mind is in, the Eos can match it. And with the push of a button, it takes only 25 seconds. Decide between getting cozy and snug, tucked beneath the hardtop; being showered by glistening afternoon light pouring through the sunroof; or taking a top-down pleasure cruise. Each has its own effect. The choice is yours.

“Putting the top down opens the ‘heart chakra’ to the universe.”

- Lulu
25 seconds to open your lungs to crisp air
to open your lips to subtle flavors you can nearly taste
to open your eyelids
to glimmers of reflecting light
to open your ears to faint sounds you otherwise might’ve missed
to open your nostrils to smells you never knew you’d remember

only 25 seconds to open your Eos convertible to the world.

What’s in a color? Everything. That’s because within color there is life. There is power. There is essence. Color helps us interpret our surroundings as much as anything else. Choosing your Eos color is something that will help express who you are as a human being. It’s not something to be done on a whim. Take your time, get to know yourself. Listen to your inner voice. Find the color that goes best with your exterior as well as your interior.

These are the Eos colors. Each unique. Only one right for you. Why not start by trying them on in your mind?

Eismeer Blue: The shade of swimming pools and the color your tongue turns when you get the blue-raspberry gumball. Thunder Blue: The color of melting blueberries as the pancake batter spreads in the frying pan—the star-filled sky as you lower the roof of your new Eos. Black Uni: The color of crisp, parallel grill lines seared into a fleshy steak—dancing piano keys—a desolate road without a single streetlight. Island Gray: The color of foggy mornings—drizzly afternoons—smeared newsprint on your fingertips—smoke rising from the crackling fire. Silver Essence: Like that lanky, tin cup with a little bit of chocolate milkshake dripping down the side—the wobbling handlebars of your first bike ride. Paprika Red: The hue of your mom’s secret sauce—the crimson ring left halfway up your wineglass when the conversation lasts til 4am. Candy White: Like snow-covered sidewalks not yet marred by footprints—fresh paint on the porch swing that you can smell is still wet.

Deciding on your color without knowing if you’re a summer, fall or winter is like playing darts blindfolded.

-Irene
Palm
Gripping the steering wheel tightly will stimulate the stomach.
If you’re doing it right you should feel butterflies around 2,500 rpm.

Fingertips
Stimulating this part of your hand with the steering wheel is a great way to clear your sinuses. Which is fortunate because your Eos is about to fill them with fresh air at highway speeds.

Inner Hand
You always knew there was a reason stepping on the gas got your blood pumping. Massaging this area is good for the ticker. So make sure you safely pass the car in front of you whenever possible. You know, for a healthy heart.

Ball
You always knew there was a reason stepping on the gas got your blood pumping. Massaging this area is good for the ticker. So make sure you safely pass the car in front of you whenever possible. You know, for a healthy heart.

The Eos is quite sophisticated. All of its computers and techie touches can help get you back to a more enlightened state. Available features like DVD navigation system, multi-function steering wheel and heated seats, for example. Every piece of computer circuitry working to help you feel more together.

**DVD Navigation.**
Only get lost when you want to.

**Heated Seats.**
Relax your muscles and your soul. And your backside.

**Four Cup Holders.**
What’s a convertible without friends? We’ve got four cup holders to brew some sun tea in the summer or hold hot cocoa during the cooler months.

**Multi-function Steering Wheel.**
In addition to steering, this puppy lets you change the radio station, track your average speed and even see how long you can possibly go until you will run out of gas. And all from one spot, so you don’t have to lift a finger. Well, maybe just one finger.
Dual-zone Climatronic. It's the climate control you've always wanted. This available feature automatically adjusts the temperature inside the Eos depending whether the top is up or down. So stop worrying about the thermometer—you've got more important things not to think about.

This optional system sounds flawless whether the top is up or down. That's because it was designed specifically to adjust with your Eos. We started with an 8-channel digital amplifier and an antenna built into the trunk so that the radio signal stays clear. Then we added eight coordinated speakers—in the usual places and a few in some unusual spots. Add to this a 6-disc CD changer or iPod® adapter to create your own soundtrack and set the perfect mood.
Prevent and Preserve Safety System
Every Volkswagen comes standard with the 47 safety features that make up the Prevent and Preserve Safety System. The features work together to both help you avoid an accident and protect you if an accident is unavoidable. And we are constantly updating it because when it comes to your safety, there’s always room for improvement. vw.com/safehappens

Additional EOS features above and beyond the Prevent and Preserve Safety System:

PODS
The Passenger Occupant Detection System (PODS) is a standard feature for your front passengers. It can calculate timing on airbag deployment based on weight and belt tension.

Brake System
Sometimes life throws you a curve. And sometimes those curves just so happen to end up in the road when you least expect it. Every new EOS has antilock brakes, Hydraulic Brake Assist and Electronic Stabilization Program. All standard.

Steering
The EOS’ electromechanical power steering and counter steering assist help keep you and the car centered in windy conditions and on heavily slanted roads.

Rollover
EOS’ rollover protection system features fully electronic sensors that release two bars behind the backseat should your car roll over in convertible mode. Sure, it’s not something we like to talk about, but the EOS was designed to help put you at ease, even in the most unlikely of events.

Airbags
The EOS features four standard airbags, dual front airbags and dual front side airbags, which are newly developed to unfold horizontally and vertically to cover the entire length of the front side windows. We’ve got you covered because safe happens when you least expect it.

Bi-xenon Headlights
The EOS also has a feature to light the road ahead of you. Optional bi-xenon headlights with an Adaptive Front Lighting System move in the direction of the turn you’re cornering. You’ll always see what the road has in store.

Prevent and Preserve Safety System
Every Volkswagen comes standard with the 47 safety features that make up the Prevent and Preserve Safety System. The features work together to both help you avoid an accident and protect you if an accident is unavoidable. And we are constantly updating it because when it comes to your safety, there’s always room for improvement. vw.com/safehappens

Additional EOS features above and beyond the Prevent and Preserve Safety System:

PODS
The Passenger Occupant Detection System (PODS) is a standard feature for your front passengers. It can calculate timing on airbag deployment based on weight and belt tension.

Brake System
Sometimes life throws you a curve. And sometimes those curves just so happen to end up in the road when you least expect it. Every new EOS has antilock brakes, Hydraulic Brake Assist and Electronic Stabilization Program. All standard.

Steering
The EOS’ electromechanical power steering and counter steering assist help keep you and the car centered in windy conditions and on heavily slanted roads.

Rollover
EOS’ rollover protection system features fully electronic sensors that release two bars behind the backseat should your car roll over in convertible mode. Sure, it’s not something we like to talk about, but the EOS was designed to help put you at ease, even in the most unlikely of events.

Airbags
The EOS features four standard airbags, dual front airbags and dual front side airbags, which are newly developed to unfold horizontally and vertically to cover the entire length of the front side windows. We’ve got you covered because safe happens when you least expect it.

Bi-xenon Headlights
The EOS also has a feature to light the road ahead of you. Optional bi-xenon headlights with an Adaptive Front Lighting System move in the direction of the turn you’re cornering. You’ll always see what the road has in store.

*Airbags are supplemental restraints only and will not deploy under all accident scenarios; always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.
Meditation at 60mph. A car is only as good as the engine under its hood. And like any VW model, the Eos’ engine compromises nothing in the name of true performance.

Ergonomically designed, the heart of the new Eos comes in the form of a fully outfitted, 2.0 TFSI™ 200HP Turbocharged engine. The engine purr will help reduce stress, heighten your senses and increase circulation into the adrenal glands.

The DSG® 6-speed automatic transmission with Tiptronic® sets the Eos apart. Available paddle-shifters lets you shift up or down as you plow through winding roads or cruise straightaways.

The invigorating Tiptronic® turns the automatic transmission into something that feels more like a manual. Use tiny fingertip movements to shift gears to create a toxic cleansing moment.
Leather vs. V-Tex.
The interior of the Eos comes with a choice of leather or V-Tex seating surfaces. Both easy on the eyes. Both soft on the elbows and the backs of the knees. Designed to complement either interior trim in black, gray or beige. Be comfortable in either skin.

Choosing an interior sets the mood for every drive you’ll be on. Don’t end up in a bad mood.

- Johnny
What’s hot and what’s not.

Road rage. Oversized cars. Sunburn. And definitely cutting people off. These things are out. But don’t worry, we’ve filled this entire page with things that are in. And for even more things that are hot, go to vw.com. You’re welcome.
We love great design. The type of designs that bring a quiet order to an aspect of your life. And, ideally, without you ever knowing it.
The placement of a dial on a watch—the angle of the pockets in your favorite pair of jeans the distance between the buttons on a car dash.
It just makes sense so you forget about it.
And as much as we want you to know the amount of thought and effort that went into designing every micrometer of the Eos, we’re sort of hoping you don’t even notice.
