2015 Eos
Liberate your senses. With the touch of a button, open the hardtop convertible and let the wind sing its song or simply let the rays warm your skin through the retractable sunroof. Top up or down, the Eos promises to help you see the bright side of every single drive. Options mean freedom. And the freedom is yours. That’s the Power of German Engineering.
Performance. You can have it all. With the 200-hp, turbocharged, highly acclaimed 2.0L TSI® engine under the hood of the Eos, you’ll understand just how dynamic and fun a drive can be. Take in curvier routes with an available, finely tuned sport suspension that will put you more in touch with the road. And once you experience the imperceptibly fast shifting with the 6-speed DSG® automatic transmission, you may take the long way around. Now, all you have to do is pick the road with the best view.

The sun. The moon. And turbocharged horsepower.

2.0L TSI engine

If the highly acclaimed turbocharged engine with 200 hp and 207 lbs/ft of torque sounds familiar, it should. It’s the same award-winning engine we’ve equipped in our sports cars. And it’s standard on the Eos to add a little more thrill to your ride.

6-speed DSG automatic transmission with Tiptronic® and Sport mode

Sport-tuned suspension*

EPS: electromechanical steering technology

Electro-Mechanical Power Steering (EPS) system

*Feature available on select models.
The bright side of obsessiveness.

**Quality.** We fret over the details. Because details tell the larger story of premium quality. Take, for instance, the available Bi-Xenon headlights that burn brighter than halogen. A shining example of better engineering. Then, consider the automatic power-folding hardtop, complete with a panoramic sunroof that disappears inside the trunk in a scant 25 seconds. And of course we can’t forget the legendary Volkswagen door “thunk” that quietly screams quality with every closure. Go ahead, enjoy every ride. It’s all there in the details.

**Electromechanical power steering**
Wrap your hands around the beautifully crafted, leather-wrapped steering wheel. It feels good to the touch, but it'll feel even better when you're taking that next turn.

**Leather seating surfaces**
The available Vienna leather seating surfaces brighten your driving experience every time you sink down into the luxurious seats of your Eos.

**Power-folding side mirrors**
The available side mirrors have the convenient ability to fold in with the push of a button, helping reduce impact damage and narrowing the width of the Eos in more confined spaces.
An embarrassment of riches. And starlight.

**Interior.** If it’s what’s on the inside that counts, then settle in. The Eos envelops you in a luxurious and thoughtfully designed interior. You’ll notice it the minute you sink into the available premium leather seating surfaces, use the integrated controls on the multi-function steering wheel, adjust your atmosphere with the dual-zone climate control, and enjoy the power-folding hardtop that also happens to have a panoramic sunroof. The Eos has everything under the sun. And stars.

*Feature available on select models.*

Heated front seats
V-Tex leatherette seating surfaces
12-way power-adjustable front seats
Keyless access with push-button start
Power easy-entry front seats
A muse by any measure.

Technology. Inspiration comes from the strangest places. Like your music booming from the available 600-watt, 10-speaker Dynaudio® premium sound system. Or from the touchscreen navigation system with the available SiriusXM Travel Link™ that can point you in the direction of new adventures. Or a podcast from your Bluetooth® connection with audio streaming.* There are so many technological marvels in the Eos, you’ll be inspired by the sheer magnitude of the possibilities.

SiriusXM® Satellite Radio with 3-month trial subscription
Bluetooth with audio streaming*
AUX-in for portable audio players
Touchscreen navigation system
Rearview camera**
Park Distance Control (PDC)**
Volkswagen Car-Net® connected car features†

†VW Car-Net services provided by Verizon Telematics, Inc. †VW Car-Net services require vehicle Internet connectivity and availability of vehicle GPS signal; certain services may collect location information. See Terms of Service at www.vw.com/carnet/info. Always pay careful attention to the road, and do not drive while distracted.

It’s all in here.

Safety. Life. It’s unpredictable. And that’s exactly what we had in mind when we designed the safety features in the Eos. We installed active safety systems that help reduce the likelihood of a collision in the first place. But for when an event is unavoidable, we’ve implemented multiple passive safety systems to help protect our most important assets: you and your passengers. Together, these measures help anticipate life’s unexpected curves, and help you feel a little safer out there.

For what’s out there.

Safety cage. Beautiful as the outside, tough on the inside. Underneath the gorgeous exterior of the Eos is a sturdy safety cage that’s designed to help protect you and your passengers in the event of a collision or rollover.

Adaptive airbags. You’re virtually surrounded by safety in the Eos with four airbags, including a seat-mounted side curtain airbag that helps protect you and your passengers.

Intelligent Crash Response System (ICRS). In the event of a collision that activates the vehicle’s airbags**, the Intelligent Crash Response System automatically unlocks the doors, turns off the fuel pump, and turns on the hazard lights. Now that’s thinking ahead.

Seven stability-enhancing systems. Electronic Stability Control (ESC) can help the Eos maintain control by applying corrective forces when you need it most. It’s nice to be in control.

Tire Pressure Monitoring System (TPMS). The Eos is sensitive, especially when it comes to its tires. To help stay efficient and safe, the Tire Pressure Monitoring System alerts you to a loss of tire pressure.

Automatic Rollover Support System. Just when you thought it couldn’t get safer, we added the Automatic Rollover Support System that deploys two hidden steel beams from behind the rear head restraints to help keep you safe in the event of a rollover.

*This is a dramatization and does not depict what will happen in a collision. All bags will not inflate simultaneously in a rollover. **Adaptive airbags are side airbags only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. †The Intelligent Crash Response System (ICRS) will only deploy in the event of a frontal or near-frontal collision. The system is designed to disable the stable post-collision and activate only if both post-collision and the vehicle is not able to maintain control. It will deploy only if the vehicle is not able to maintain control. It will deploy only if the vehicle is not able to maintain control.
**Eos Specs**

**Configuration**
- **Edition Basic**
- **Edition Executive**
- **Edition Executive**
  - **All Wheel Drive**
  - **1.8L Turbo**

**Exterior**
- **Color Options**
  - Cornsilk Beige
  - Deep Black Pearl
  - Executive 18" Wheels
  - Atlantic Blue
  - Blue Metallic

**Interior**
- **Leather/Synthetic Leather**
  - Leather Seating Surfaces
  - V-Tex Leatherette Seating Surfaces
- **Color Options**
  - Engineered Ebony Interior Trim
  - Black Peak Interior Trim
  - Silver Net Inlays for Instrument Panel
  - Matte Chromium Interior Trim
  - Color Stitching Accents on Steering Wheel and Shift Knob
