Look what we started.

The first Golf was introduced to the U.S. when large and curvy cars ruled the road. With its strong angular lines, this sporty and utilitarian hatchback was a revelation. It was unexpected, but left a lasting mark. More than twenty-nine million cars later, the essence of the Golf hasn’t changed much. It hasn’t had to. Sure, it’s gotten more refined, more powerful, and more celebrated — Car and Driver and AUTOMOBILE Magazine are rather fond of it. But the original shape and spirit remain. Here’s to getting it right the first time. That’s the Power of German Engineering.
And they’re off.

When you think of German engineering, it’s only natural your pulse starts racing. Especially when you’re choosing between a 2.5L, 170-hp gem or a 2.0L TDI® Clean Diesel. Press the accelerator, and you’ll hear the sweet sounds of the cylinders all humming some vaguely familiar German song. Listen carefully, and you’ll even hear them begging you to take them out for a ride.

Of course, if that wasn’t enough, the Golf is equipped with a 4-wheel independent suspension. And is assembled using laser seam welding for increased rigidity and superior handling. So even a drive to the dry cleaners is a gripping experience.

EPA estimated highway mpg. Actual mileage will vary.
Pack all your things into the back because it comes loaded up front. The TDI Clean Diesel engine delivers 236 lb-ft of torque for some serious oomph. But what’s more amazing is what it doesn’t give you: those sooty emissions from years past. In fact, it has 90% fewer emissions than previous diesel engines. Now it’s easier to drive the Golf, just for the fun of it.

Dual personality. One second you’re cruising along with the available fast-shifting DSG® automatic transmission. The next second you put it into Tiptronic® mode, and you’re manually shifting through gears like a person reborn.

“10Best Cars for 2012.” Car and Driver placed the Golf on their ultimate short list. Kelley Blue Book’s kbb.com named the Golf TDI one of its 2011 Top 10 Green Cars® for the second year in a row. And driving it is clearly a reward all its own.

**Go the distance.** TDI Clean Diesel technology isn’t just good for the wallet, it’s good for the long haul. As in 42 highway miles per gallon! How about a road trip?"10Best Cars for 2012. Car and Driver  placed the Golf on their ultimate short list. Kelley Blue Book’s kbb.com named the Golf TDI one of its 2011 Top 10 Green Cars® for the second year in a row. And driving it is clearly a reward all its own.

The sky’s the limit. The color blue symbolizes our commitment to building environmentally conscious cars that don’t compromise performance. And setting a good example for eco-conscious behavior, everywhere, and every day. Plus, it’s always been our favorite color.
The inside of the Golf is good at being flexible. Which really comes in handy throughout the day. One minute you're carrying four of your buddies in total comfort and style. The next you're hauling off with your latest find from the swap meet. Fold down the rear seats and you've got 46 cubic feet of space. That's a lot of space for cubes, not to mention furniture, suitcases, skis, or floor lamps. Put it this way, if you ever run out of things to put in your Golf, you're just not trying hard enough.

Watch this space.

Features

- 60/40-split folding rear seat with pass-through
- Glovebox with adjustable cooling feature
- Rear center armrest with storage
- 8-way adjustable front seats with adjustable lumbar support
- Heated front seats*
- Seating for five adults

*Feature available on select models.
There’s user-friendly. And then there’s user-super-friendly. On select Golf models, you can scroll through music without taking your hands off the wheel. Get turn-by-turn directions for that new restaurant you’ve been wanting to try in town or across the country. Plug in your iPod to listen to your favorite acid jazz or greatest hits of the ’80s compilation. And then call each of your friends with a push of a button to tell them how much you really love technology. The system will even turn down the music for you, so your private collection remains, well, private.

**Features**
- Touchscreen sound system*
- Media Device Interface (MDI) with iPod® cable*
- Bluetooth® with audio streaming**
- SiriusXM Satellite Radio with 3-month subscription*
- Touchscreen-navigation system*
- Multi-function steering wheel*

**All play. No work.**

*Feature available on select models. ** Requires compatible device.
Safety

Tire Pressure Monitoring System (TPMS). The TPMS helps monitor tire pressure and alerts you when it is too low. Properly inflated tires greatly increase safety by helping create better stability, handling, and braking in almost all situations.

Electronic Stability Control (ESC). ESC helps prevent oversteer or understeer during an evasive maneuver by applying corrective forces to each of the wheels. In other words, it helps you maintain control when you need it most.

Surrounded by safety. In addition to airbags, every Golf has a specially reinforced safety cage complete with anti-intrusion side beams and thermo-formed B-pillars, designed to help protect you in the event of a collision. Surrounding that are crumple zones, which provide space and material to help cushion and absorb the impact while the safety cage insulates you.

ABS and HBA. The Anti-lock Braking System (ABS) helps to keep the brakes from locking up during sudden stops and helps you retain control over the steering during emergency braking. Hydraulic Brake Assist (HBA) works with ABS to help ensure that you get the maximum braking power from the brake system.

Intelligent Crash Response System (ICRS). After the airbags* have deployed in a collision, the ICRS automatically unlocks all doors, disables the fuel pump, and turns on the hazard lights. †That’s why we call it intelligent.

2012 IIHS Top Safety Pick. The Golf 4-Door model is one of the Insurance Institute for Highway Safety’s Top Safety Picks. †Actually, it’s one of nine 2012 Volkswagen models to get their top award. That means all nine cars scored the highest rating in all four qualifying tests. That’s 36 instances of superior safety.

You know that German engineering you admire under the hood? It’s actually throughout the entire car. There are more than a dozen safety features specifically designed to help you prevent a collision. And even more to help protect you in the event of one. So no matter what happens, we’ll do our best to help keep you safe.

You can find a dramatization of what actually happens in a collision at vw.com. (Airbags do not inflate in all collisions. Many factors can affect airbag deployment, including vehicular damage and airbag and crash sensor performance. For a complete list of the vehicles capable of deploying airbags, go to vw.com/airbags.) The information presented here is based on information available at the time of publication. Volkswagen reserves the right to discontinue or modify these features without notice. Some of these features may not be available on all model years, in all trims, on all vehicles, or in all markets. Always wear your safety belt, buckle up every time you ride, and drive responsibly. Safety features are not a substitute for safe driving. They are designed to augment driver skill and can never guarantee collision avoidance or mitigation.

†"Top Safety Pick" based on 31 mph side-impact crash test, 40 mph frontal-offset crash test, 20 mph rear-impact test, roof strength testing, and the availability of ESC. Testing procedures by Insurance Institute for Highway Safety. For details, visit www.iihs.org. See vw.com for more information on safety features.
changing your oil, rotating your tires, topping off the windshield wiper fluid—do you remember to do all that stuff? your car does. right there in your instrument panel. both it and your dealer will let you know when it’s time to schedule your appointment. and for three years, or 36,000 miles, we’ve got you covered. that’s why we call it carefree. come by for a courtesy vehicle check within the first 90 days, or 6,000 miles, and ask us any questions you have while we give your golf a basic checkup. then, come by every year, or 10,000 miles, for your remaining scheduled maintenance checks. it’s that simple.
### Golf 2.5L

**Technology Package**

- 5-in touchscreen sound system with HD Radio, AM/FM and SiriusXM Satellite Radio
- 6-speed DSG automatic transmission with Tiptronic and Sport mode
- Halogen reflector lens foglights
- Power operated, heated side mirrors with integrated turn signals
- Illuminated rear parcel shelf
- Roof rail crossbars
- ClimaControl® automatic climate control
- Keyless access with push-button start

**Convenience and Sunroof Technology Package**

- Keyless access with push-button start
- Bluetooth® hands-free phone and audio streaming (if equipped with Bluetooth®)
- RNS 315 navigation and entertainment system with 5” color touchscreen in center console and SD memory card reader
- SiriusXM Satellite Radio with 3-month trial subscription
- Media Device Interface (MDI) with iPod cable

**Safety**

- 5 - speed manual transmission
- ESP® Electronic Stability Program
- Side Impact Protection System (SIPS)
- 4 - spoke, leather-wrapped steering wheel, height-adjustable, with telescoping steering column
- 160 mph speedometer, tachometer, odometer, trip odometer, fuel gauge, coolant temperature gauge, and average trip fuel consumption, current fuel consumption, miles to empty, radio station information display
- Personalizing function
- Automatic locking feature (doors lock when vehicle reaches 8 mph, unlock automatically upon airbag deployment)
- Electronic Stability Control (ESC), Anti-Slip Regulation (ASR), Electronic Differential Lock (EDL), and Engine Braking Assist (EBA)
- Tinted glass
- Fully galvanized sheet metal
- Front - lighting System (AFS)
- Bi-Xenon high - intensity headlights with LED Daytime Running Lights (DRL) and Adaptive Frontlighting System (AFS)
- Tires Pressure Monitoring System (TPMS)
- Power - operated, heated side mirrors with integrated turn signals
- Illuminated rear parcel shelf
- Roof rail crossbars
- ClimaControl® automatic climate control
- Keyless access with push-button start

**Options**

- 300 - watt amplifier, and DSP (Digital Sound Processor) technology
- Dynaudio premium sound system with 8 high-end speakers (4 tweeters, 4 bass/midrange)
- Bluetooth with audio streaming
- AUX-in for portable audio players
- Media Device Interface (MDI) with iPod cable
- SiriusXM Satellite Radio with 3-month trial subscription
- Carefree Maintenance Program covers the vehicle's scheduled maintenance for three years or 36,000 miles, whichever comes first. Some limitations apply. See dealer or vehicle maintenance program booklet for details.

### Golf 2.0L TDI Clean Diesel

**Technology Package**

- 6-speed automatic transmission with Tiptronic and Sport mode
- Illuminated rear parcel shelf
- Keyless access with push-button start
- Bluetooth® hands-free phone and audio streaming (if equipped with Bluetooth®)
- RNS 315 navigation and entertainment system with 5” color touchscreen in center console and SD memory card reader
- SiriusXM Satellite Radio with 3-month trial subscription
- Media Device Interface (MDI) with iPod cable

**Safety**

- Carefree Maintenance Program covers the vehicle's scheduled maintenance for three years or 36,000 miles, whichever comes first. Some limitations apply. See dealer or vehicle maintenance program booklet for details.

---

The Volkswagen Golf is available in a variety of configurations, each offering a unique set of features and capabilities. The Golf 2.5L model is equipped with a 2.5-liter inline 4-cylinder engine, offering a blend of performance and efficiency. It comes standard with features such as Power Windows, Cruise Control, and a CD Player. For those seeking an eco-friendly option, the Golf 2.0L TDI Clean Diesel model is available, offering a TDI Clean Diesel engine with 16-valve, in-line 4-cylinder turbocharged TDI Clean Diesel engine with common rail technology. This model also comes with a Carefree Maintenance Program, covering the vehicle's scheduled maintenance for three years or 36,000 miles, whichever comes first. Some limitations apply. See dealer or vehicle maintenance program booklet for details.
**Wheels**

- **Standard**
  - 17” Bi-Cast Orions
  - 18” Topaz
  - 18” Kurhause

**Accessories**

- Rear Hatch Spoiler
- Heavy Duty Deck Cover with CarGo Blocks
- Base Carrier Bars with Tray Holder Attachment
- MojoMat® Monster Mat®
- Base Carrier Bars with Ski/Snowboard Attachment

**Exterior**

- Candy White
- Reflex Silver Metallic
- United Grey Metallic
- Tornado Red
- Blue Graphite Metallic
- Black

**Interior**

- Titan Black Cloth
Think Blue is the Volkswagen way to drive progress by creating and producing cars that are more efficient, eco-conscious, and fun to drive. The Volkswagen line features a variety of BlueMotion technologies—from TDI engines to precision fuel injection—designed to make our vehicles as blue as possible. Which is likely to make other car companies green with envy. Learn how we think beyond green at vw.com/thinkblue.
