Das Auto

A VW doesn’t just start off as sheet metal and engine parts. It begins as an idea. A belief that getting the little things right is a big thing. A viewpoint that asks why dumb it down when you can smart it up. An attitude that says to make things perfect, you have to make them perfectly. Some would call these just a bunch of good ideas. We call them Das Auto.

The Jetta SportWagen

You’re not ready to give up the sport, but you need the wagon. That’s one reason we put sport and wagen right in the name. That’s right, wagen with an “e.” It’s the perfect blend of sporty hatchback and spacious sedan. It’s got our distinctive new front end design, comes with a 2.5L in-line 5-cylinder or TDI® Clean Diesel engine, and it fits everything in your life while looking stylish all at the same time. We understand, the Jetta SportWagen has earned its stellar reputation for a reason. Actually, for a whole lot of them.
Performance. When it comes to TDI, it all starts with the engine. A 2.0L TDI Clean Diesel engine with a direct injection system that runs on ultra-low-sulfur diesel fuel with 95 percent less sulfur content. And that helps reduce sooty emissions by up to 90 percent compared to previous diesel engines. A reduction so significant that you won’t see a thing. Which is exactly the way that we, and the planet, like it.

Go ahead, pass the next gas station. And the next. And even the next. Because the TDI Clean Diesel engine sips gas at the wallet-friendly rate of 42 highway miles per gallon.* Yes, you read that right. That’s up to 609 miles on just one tank** If that sounds impressive, prepare yourself for this: that T in TDI stands for turbocharged. And this engine delivers 140 hp and 236 lbs/ft of torque for exceptional power off the line and plenty of punch to keep you going. You can even add our race car inspired DSG® automatic transmission to take full advantage of its turbo. So if you love to drive and particularly enjoy breezing by gas stations, you and Jetta SportWagen will get along famously.

Extra room for all your stuff requires an engine with some extra oomph. The Jetta SportWagen also offers the choice of a powerful 2.5L, 170-hp, in-line 5-cylinder engine to ensure that you and your gear get everywhere you want to go. And it comes with the option of a six-speed automatic transmission, complete with Sport mode for a little extra kick, and Tiptronic® for those times when you want the thrill of shifting yourself. So go ahead and play around. Your Jetta SportWagen won’t mind.

Vroom to spare.

Design. How much room is 66.9 cubic feet of space? It’s a large screen TV, still in its box. It’s four flats of herbs and flowers, a huge bag of soil, that new hose you’ve been wanting, and all the tools you need to start that backyard garden. It’s two eager golden retrievers on their way to the park. And it’s what you get when you fold down the rear seats in every Jetta SportWagen.

Adapts easily to new situations.

One day you’ve got friends along for the ride, the next day is carpool duty, and the weekend finds you running errands. Sometimes it’s all three in one day. So when it came to designing the Jetta SportWagen, we gave it a rear seat that folds down in a 60/40 split that can reconfigure to your needs. In fact, everything about the design of the Jetta SportWagen is well thought out. From blinkers built right into the side mirrors to alert others to your next move, to an available panoramic sunroof that gives you extra room for blue sky thinking. After all, it’s not just about getting as much as possible into your ride. It’s about getting the most out of it.
Technology. Thanks to the available touchscreen navigation system, there’s no such thing as lost anymore. Just enter your destination, and let the computer do the rest. Not only will the navigation take you through every turn on-screen, but you’ll also find step-by-step guidance right in your line of sight, just above the steering wheel, in that screen that conveniently doubles as your trip computer.

You’ll light up too when you see all these features. On the optional touchscreen stereo, you’ve got an in-dash six-CD changer and SIRIUS® Satellite Radio complete with a three-month trial subscription to over 130 channels, including 100% commercial-free music, plus sports, news, and talk radio. That’s a whole lot of entertainment, and it doesn’t even count the AM/FM stations and individual CDs you could sing along to, all on the glorious 10-speaker sound system. And that’s just the audio portion of our tour. The Jetta SportWagen also comes with heated front seats, adjustable lumbar support, one-touch up and down automatic window controls for all four windows, and optional V-Tex leatherette seating surfaces for a premium experience. So if you’re thinking that this sounds more luxurious than you were expecting, then welcome to the Jetta SportWagen.

Even the buttons light up at the thought of options.
Safety. There’s safe. And then there’s Volkswagen safe. Safe helps protect you from all kinds of life’s little (and big) surprises. Volkswagen safe wins awards from the National Highway Traffic Safety Administration (NHTSA), which gave the 2010 Jetta SportWagen five stars (the highest rating possible) for side crash test safety.* Safe is what every car should be. Volkswagen safe is what every car wishes it were. When it comes to safety, picking the car that wins awards is always a safe bet.

When you buy a Volkswagen like the Jetta SportWagen, you’re driving home more than just a car. You’re taking home total peace of mind. You don’t have to think about how its doors thunk solidly into place. Or how it has six airbags standing guard.** Or especially how the crash-optimized front end would help absorb energy on impact and help protect you in the event of a collision. That’s because every Volkswagen is built to the highest standards. Volkswagen standards. Standards so high that we included ESC (Electronic Stability Control), ABS (Anti-lock Braking System), and HBA (Hydraulic Brake Assist) on every VW to help you stay safe in every situation. Because we believe that once you’ve achieved a certain level of excellence, there’s no going back. That’s why we call it a standard.

Our success is no accident.

*Government star ratings are part of the National Highway Traffic Safety Administration’s New Car Assessment Program (www.safercar.gov). 2010 model tested with standard side airbags. **Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
Buy one, get three.

Yes, you read that right. When you buy any new VW, you get three years or 36,000 miles of no-charge scheduled Carefree Maintenance*. That’s your first three years of scheduled maintenance at no extra charge. If you’d like, stop by in the first 90 days, or 6,000 miles, for your courtesy vehicle check. Ask us any questions you might have while we give your Jetta SportWagen a basic checkup. On the house.

After that, come by every year, or 10,000 miles, for your remaining scheduled maintenance checks. It’s really that simple. So relax and enjoy every carefree mile in your new VW. That’s what it’s there for: Keeping it like new, well, that’s what we’re here for. And because it’s a Volkswagen, I’ll keep that new car feeling for many years to come. If only everything in life could be this carefree.

At home in America.

From its advanced laser seam welding process that gives our cars stability and strength, to the six-minute monsoon water test to check for any sign of leaks, the brand-new Chattanooga, TN, manufacturing plant is state of the art. And those are just a couple of the benefits of starting from scratch. When you build something from the ground up, you can control every element of the process—from the building materials, to the quality of the people working on every step of development, to the world-class cars that emerge at the end of the line. It also gives us the opportunity to expand our network to include local suppliers, making sure to let them know about our standards so they can deliver the high-quality product we require. The way we look at it, this is not only the most eco-friendly and modern plant in the VW portfolio; it’s also an investment in our collective future. So here’s to building positive momentum. Together.

* The Volkswagen Carefree Maintenance Program covers the vehicle’s scheduled maintenance for three years or 36,000 miles, whichever comes first. See dealer or vehicle maintenance program booklet for details.
2.5L TDI® Clean Diesel includes 2.5L SE features, plus: 2.0L, 170-hp TDI engine, 16” all-season alloy wheels, TDI power outlet.

- Premium sound system: includes: 2.5L, 170-hp engine; 16” steel wheels with wheel covers and all-season tires;"
The VW of today is completely different from the VW you might know. We have a wide range of models, including world-class sedans, SUVs, and a minivan, each one more stylish and refined than ever before. And even though we’ve grown, rest assured that every VW still provides the exhilarating driving experience that has always been at the core of our reputation. Some things will never change.

Yes, that’s recycled paper you’re holding.

Subscriptions governed by SIRIUS Terms and Conditions available at sirius.com. If you decide to continue your SIRIUS service at the end of your complimentary trial, the self-paid plan you choose will automatically renew and bill at then-current rates unless you call 1-888-539-7474 to cancel. SIRIUS U.S. satellite service available only to those at least 18 years of age in the 48 contiguous United States, D.C., and Puerto Rico (with coverage limitations). Volkswagen DVD navigation depends on the signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes to location addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, and other road system changes are beyond the control of Volkswagen of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Periodically, the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. For further information regarding any Volkswagen model, please call 1-800-DRIVE-VW or just look us up at vw.com. VW11JSBUS

That’s Das Auto.
