Stand out, even on the move. Is there a rule that says all SUVs have to look and feel the same? Not for the Tiguan. Sure, it’s versatile, but feels solid. Crafted. And the Tiguan even has something extra under the hood—a turbocharged engine that comes standard. See, going your own way really is the way to go. That’s the Power of German Engineering.
The Tiguan brings out the inner driver in every driver.

Performance. Most people expect an SUV to be versatile, but rarely do they expect one to be fun to drive. Unless, of course, they’re driving a Tiguan. It has the same 200-hp turbocharged engine that they’ll find in some of our sports cars. And with available sport suspension and 4MOTION® all-wheel drive, the Tiguan shows how versatile it can be on and off the road.

4MOTION all-wheel drive
With all-wheel drive systems in place, your Tiguan can help you navigate all types of road conditions with ease. When the system senses the wheels aren’t rotating equally, it instantly delivers more torque to the wheels that need it for better grip, handling, and peace of mind.

2.0L TSI® engine
This turbocharged engine is the same one that’s won awards for its design and performance. But you don’t have to pop the hood to understand what it does. A simple step on the gas will do.

*Always obey speed and local laws.

Can quality have a sound?

Quality. Did you hear that? Close the door and you'll hear a solid “thunk.” That’s proof of the quality we engineered into the Tiguan, like the laser seam welds for sturdy construction, the available panoramic sunroof, the premium soft-touch dash, and the leather-wrapped steering wheel. It’s German engineering you can appreciate every time you get inside the Tiguan. As soon as you close the door.
It’s all about personal space.

Interior. Sit inside the Tiguan and you’ll feel right at home. That’s because we spent a lot of time making sure it fits perfectly into your life, while also letting you fit more in. It’s why we gave it 40/20/40-split folding rear seats, so it’s easier to change things up for carrying friends or all your stuff. And with the available fold-flat front passenger seat, you can make short work of loading extra-long items.

40/20/40-split folding rear seats. There are times when a 60/40 split just isn’t enough. The Tiguan lets you fold down one or both rear seats, or even part of the middle one, to help maximize flexibility and cargo space.

Panoramic sunroof. Things are definitely looking up with the 12.7-square-foot panoramic sunroof.* Open it up to let in the sunshine, ocean breezes, and sky-high view.

Glovebox with adjustable cooling feature. Forget to bring a cooler? That’s OK, because the Tiguan has a glovebox that can help keep your drinks and snacks from overheating. More misery road trip will be more cooler.

Dual-zone automatic climate control*
Heated front seats*
56.1 cu. ft. of cargo space**
Sliding rear seats
12-way power-adjustable front seats*

*Feature available on select models. **With rear seats folded down.

SEL shown in Sandstone leather.
Technology: Technology shouldn’t just be for technology’s sake. That’s why we gave the Tiguan features you’d actually use. A lot. Like a rearview camera and a color touchscreen sound system. Or Volkswagen Car-Net® connected car features, so you can stay connected to your Tiguan while also connecting to the outside world. Of course, the available Fender® Premium Audio System proves that technology can also be music to your ears.

High tech meets high fidelity.

Keyless access with push-button start

We’re always preparing for what’s coming ahead. It’s also nice to know what’s coming from behind. This rearview camera can help with that by letting you see any obstacles in your path when backing up. And when it comes to parallel parking, we’re sure the benefits will be easy to see.

Volkswagen Car-Net connected car features

With VW Car-Net, you can communicate and stay in touch with your Tiguan and the outside world by using your computer or app on your compatible smartphone. This looks like the start of a beautiful relationship.
You’ll feel safe on the inside.

Safety. We can’t always predict what’s going to happen down the road. That’s why we’ve engineered the Tiguan with advanced safety systems, like our Intelligent Crash Response System (ICRS).* It’s also why the Tiguan has a roof that can support over five times its own weight, for best-in-class roof strength.** When you drive a Tiguan, it’s safe to say you’ve got a strong ally.

---

Safety cage
Adaptive airbags††
Intelligent Crash Response System (ICRS)*
Seven stability-enhancing systems
Tire Pressure Monitoring System (TPMS)
Brake disc drying

---

You’ll feel safe on the outside.

Safety cage with heat-formed B-pillars. The safety cage not only helps protect you in front, side, and rear impacts, but the Tiguan’s roof resists with incredibly strength pillars, helping put the Tiguan at the top of its class for roof strength.

Adaptive airbags. Our airbags are designed to adapt to crash severity, and special sensors in the door deploy the side airbags faster in the event of a side impact. We’re always thinking ahead, from every angle.††

Seven-stability-enhancing systems. Electronic Stability Control (ESC) can help the Tiguan maintain control by applying corrective forces at each wheel in unsafe driving situations. It’s nice to be in control.

Tire Pressure Monitoring System (TPMS). The Tiguan is sensitive, especially when it comes to its tires. To stay efficient and safe, the Tire Pressure Monitoring System alerts you to a loss of tire pressure so you know when to put more air in.

Brake disc drying. When it’s raining outside, this system wipes water off the disc brakes to help them remain dry and always have their full stopping power. And it’s activated simply by turning the windshield wipers on.

Intelligent Crash Response System (ICRS). This system can automatically disable the fuel pump, unlock all the doors, and turn on the hazard lights in the event of a collision that activates the airbags.† It’s how your Tiguan looks after you when you can’t.*

### Standard, at no additional cost
- 2.0L TSI,® 16-valve, DOHC, in-line 4-cylinder turbocharged engine with direct fuel injection
- R-Line badging, aluminum door sill plates, stainless steel pedal covers, and chrome applications to exterior side window frames
- Power folding exterior mirrors with memory and passenger’s side reverse auto-adjust
- Foglights with low-speed corner-illuminating feature
- Privacy glass
- Radio station display
- Driver-seat memory function
- 12-way power-adjustable front seats including adjustable lumbar support
- Multi-function trip computer with trip time, trip length, average trip speed, self-dimming rearview mirror
- Climates single-zone climate control with pollen filter
- Media Device Interface (MDI) with iPod® cable
- AUX-in for portable audio players
- SiriusXM® Satellite Radio with 3-month trial subscription
- RNS 315 navigation system with 5” color touchscreen and SD memory card reader
- Volkswagen Car-Net® connected car features*
- WMA-compatible 6-disc CD changer, and SD memory card reader
- Trailer hitch preparation
- 4MOTION® all-wheel-drive system
- 4-wheel independent suspension
- Electromechanical Power Steering system with variable assistance and active return
- 2.0L TSI,® 16-valve, DOHC, in-line 4-cylinder turbocharged engine with direct fuel injection
- R-Line badging, aluminum door sill plates, stainless steel pedal covers, and chrome applications to exterior side window frames
- Power folding exterior mirrors with memory and passenger’s side reverse auto-adjust
