OVERSTIMULATION IS NOT A CRIME (IN SWEDEN).

With the high-performance five-cylinder turbo-charged T5 that brings 227 hp, a 6.2 second 0–60 (with manual transmission), a top speed of 146 mph, and more styling options than showgirl on pay-day, the Volvo Car Corporation, with complete knowledge and forethought, is introducing this new Volvo C30 in America with no apologies. Mature adults, in some parts of the world, will not stand for the machinery of such merry-making. That's why Americans, such as yourself who believe in freedom, are being encouraged here to fight maturity at every turn (while wearing seatbelts, of course).
LIKE CAFFEINE AND SUGAR. ONLY SAFER.

A spark is all it takes and you’re off: Quick, determined, and ready for what the road may bring. The Volvo C30 delivers an inspired mix of performance and passion. This may be the smallest Volvo but it functions at a very high level. The premium Volvo feel is evident in every detail. Smooth running engines respond instantly, even at low revs, so overtaking is fast and safe. Of course, handling is exceptionally sweet. Long trips? No worries. Tuck into one of four great seats and enjoy the ride. Elevated levels of enthusiasm are common for all passengers but if your seat has the steering wheel, don’t let the music stop.
Geartronic transmission
Geartronic is a five-speed automatic that's both smooth and responsive. It harmonizes perfectly with the Volvo C30 and takes you to the edge of more activity a brake from your normal mode to shift up or down with a press of the gear knob.

Chassis and steering
The advanced chassis is designed for comfort and balanced handling. High torsional rigidity enables the Multi-link rear and McPherson spring strut front suspension to cope predictably and consistently with different types of road surfaces. Electro-hydraulic steering offers quick and crisp response, while the rear wheels turn slightly to help the car to corner neatly.

Manual transmission
The power of the T5 engine is harnessing by a short-throw six-speed manual that inspires a sporting style of driving.

IS THIS MUCH ADRENALINE LEGAL IN ALL 50 STATES?

No one can hide the joy of instant gratification, especially when driving the Volvo C30. Its quick acceleration, balanced weight, rigid body, and advanced chassis can convince anyone that exceptional road-holding does not have to come at the expense of first-class comfort.
IN THRUST WE TRUST.

The intercooled, turbocharged T5 is a five-cylinder powerplant built with the mandate to do more with less. This high-performance 2.5-liter engine uses a light-pressure turbo and variable all-valve timing to deliver instant acceleration throughout the entire rev range. Wicked, yet wise, it also employs sophisticated engine management systems to use fuel efficiently. Here are some numbers for those keeping score at home: 227 hp. 0-60mph in 6.2 seconds. Top speed: 146 mph.
YOUNGER. SMARTER. BETTER LOOKING.
(BUT ENOUGH ABOUT YOU.)

Like every Volvo, this car is built to provide an intelligent mix of performance and practicality. Whether you’re travelling light or taking all your kit onboard, the versatile Volvo C30 is ready to accommodate an active life. There are numerous seating and storage configurations for creating comfort for people and space for things.
The full loading capacity is 33.4 cubic feet. For a flat cargo space about 60 inches long, fold down one or both rear seats. If this still isn’t enough, there are roof mounted carrying accessories.

With the seats in upright positions, four adults sit comfortably with room for luggage. An available retractable nylon cargo net makes sure things stay where you put them. To conceal your luggage, simply put the optional soft load cover in place. A hard cover is also available.

Loading is easy with the glass tailgate open and the seats folded flat. Wide door openings and easy entry front seats that quickly slide forward make it easy, too. Courtesy lights illuminate the cabin and cargo areas automatically or at your convenience.
WHATEVER HAPPENS IN THE BACK SEAT STAYS IN THE BACK SEAT.

The generous rear-seat gives you and three of your friends the space and convenience to travel in comfort. The floating center console presents intuitive controls for the infotainment and climate systems with style. The front seats adjust to suit height, posture, lumbar support and memory—powered seats can even memorize settings. The wide door openings and the easy entry feature—a sliding mechanism of the front seats—make getting in and out of the rear seat simple. With high-quality materials throughout the cabin fitted with millimeter precision, it’s easy to recognize the years of Volvo expertise, craftsmanship and dedication to safety in every detail.
Power windows
A quick press of the button in each door will raise or lower the front windows. Both of these windows can also be operated from the driver’s seat.

Front seat convenience
The multifunctional tunnel console accommodates an armrest, cupholders, space for CDs and other personal things under an illuminated compartment behind the center console. It’s ideal for smaller items like an MP3 player, change or spectacles.

Rear seat amenities
Rear seat passengers will appreciate the comfort of the separate full-size seats, uncompromised by a center seat. Without a center seat, each seat can easily accommodate night trains, daytrips and even the odd child seat. The rear seats are also equipped with an armrest and two storage compartments in each seatback.

Keyless Drive (Custom Build Option)
Keyless drive lets you lock, unlock and start the car without having the remote control in your hand. As long as you have the remote with you, you won’t need to insert a key into the door. To start the engine, simply turn the key. To lock the car, simply press the button in the door handle as you leave the car.

Electronic Climate Control (Custom Build Option)
In addition to the standard air conditioning, the available Electronic Climate Control (ECC) maintains chosen temperatures for either side of the cabin, while the Interior Air Quality System (IAQS) ensures that the air you breathe is as clean as possible. These systems help keep the driver alert and passengers comfortable.

Ambient lighting
There is a courtesy light, center console spot light, two reading lights located just above the center rear view mirror, mounted on the roof. There’s also a courtesy light in the rear and foot well lights, illuminate the interior allowing you to see what you’re doing in poor illumination.
PREMIUM SOUND. DEBAUCHERY MEASURED IN DECIBELS.

With a choice of two audio levels—High Performance and Dynaudio Premium Sound—each configured to the cabin’s ambient acoustics—the Volvo C30 has a sound system that makes the most of your music. The world-class components are mounted in the dashboard separately from the controls on the floating center stack and the control buttons on the steering wheel.
The ten Dynaudio high-end loudspeakers of the Dynaudio Premium Sound system are powered by a 5x130 W Alpine digital amplifier. Each speaker has a crossover filter to maximise fidelity. The latest generation Dolby® surround system with a center loudspeaker and sound processor recreates authentic sound with a strong sense of presence for everyone in the car—a Volvo world first. The digital Class D amplifier features a new technology to provide extremely high efficiency, enabling it to generate the most audio power from the least amount of current.

High Performance (Std Version 1.0)
A powerfully versatile system. Each loudspeaker is fitted with a more powerful magnet and a larger coil. In combination with the amplifier, this system promotes excellent transient reproduction and high power—quite simply superb sound. High Performance equipment includes:

- RDS radio
- MP3 and WMA compatible CD player
- 8 High Performance loudspeakers
- 4x40 W High Performance amplifier
- AUX input

Options: an MP3 and WMA compatible 6-CD changer (in place of the CD player), iPod®/USB Music Interface.

Dynaudio Premium Sound (Std Version 2.0)
Our top-of-the-line audio system designed for perfect sound dynamics, featuring 10 loudspeakers by Danish specialist Dynaudio. With Dolby® Pro Logic ® II surround sound for an authentic audio experience in all seats.

Premium Sound includes:

- SIRIUS satellite radio (N/A for Version 1.0 applications)
- RDS radio
- MP3 and WMA compatible CD player
- 10 Dynaudio loudspeakers
- 5x130 W digital Class D amplifier
- Dolby® Pro Logic ® II surround sound
- AUX input

Options: an MP3 and WMA compatible 6-CD changer (in place of the CD player), iPod®/USB Music Interface.
This is not a car. It’s a movement. A school of thought. A plan of action. OK, maybe it is just a car. But it’s your car, so let’s keep it your car.

Volvo safety doesn’t stop when you park your car. Personal security is a full time job. For example, on your way to or from the car at night your path can be lit up. With keyless drive, the doors unlock as you grip the handle. Should you encounter an emergency situation, the alarm can be activated with your hand-held remote control. The combination of sturdy door locks and an electronic immobilizer is an effective theft deterrent as are the available laminated side door windows.

Remote-controlled central locking
A button on the key fob or on the doors and tailgate. Both doors can be set to automatically lock three seconds after closing. The doors will then only unlock using the button inside the interior door handle.

Alarm
Connected to the doors, trunk, and tailgate, the available alarm has 10 sensors that constantly keep watch. Should you encounter an emergency situation on your way to or from the car, the alarm can be activated from your hand-held remote control.

Approach Light and Home Safe Lighting
On your way to and from the car at night, Approach Light and Home Safe Lighting enables you to light up the car and its immediate environment using your remote control. And with available puddle lights in the door mirrors, the pool of light around the car is further extended.

Door locks
The door locks feature an encapsulated cylinder that rotates freely if someone uses a screwdriver to try to get inside. If a thief does get inside, through a window perhaps, the doors cannot be unlocked from the inside without the key.

Electronic immobilizer
The ultra-modern immobilizer and the electromechanical steering lock make it almost impossible to start or drive the car without the key or your remote.

Remote-controlled central locking
A button on the key fob or on the doors and tailgate. Both doors can be set to automatically lock three seconds after closing. The doors will then only unlock using the button inside the interior door handle.

Alarm

HERE, HIGH-SPEED CATAPULTS HELP US PUSH AN ENTIRE INDUSTRY FORWARD (DON'T TRY THIS AT HOME).

Inaugurated in 2000, the Volvo Cars Safety Center in Göteborg is the world’s most advanced crash laboratory. Here we crash our cars into other vehicles and obstacles at most any angle and at speeds of up to 75 mph. We conduct over 400 full-scale crash tests every year. Many of these tests are based on what our Accident Research Team discovers at the scene of a real accident. Since 1970, our researchers have investigated over 32,000 such accidents. This gives us the unique ability to learn what works in real life and what doesn’t—which helps us improve, innovate and help save lives. The patented frontal structure of the Volvo C30 is a result of these efforts. Of course it takes more than catapults and lab coats to make some of the safest cars in the world. How a car behaves on the road in real life—its avoidance of an accident—is the ultimate test of a car’s safety. The way the chassis interacts with brakes, steering and different stability enhancing systems not only determines how fun a car is to drive—it’s also crucial to help drivers maintain control in challenging situations. On the road is where innovation confronts reality.

A passion for safety

That’s the philosophy that builds better cars. In a Volvo C30, sophisticated systems designed to help you avoid accidents are as important as the systems designed to help protect you in an accident. For example, the Volvo C30’s safety and agility, or the road-oriented suspension system, braking, and steering systems, plus its intelligent, energy-saving design, all combine to create a car that’s not only fun to drive but also safe. The safety features are designed to help protect you if an accident occurs. But the best way to protect yourself and others is to avoid an accident in the first place.

Viscosity

One of the most important criteria for safe driving is good vision. The Volvo C30 offers good all-round visibility. This is partly due to its standard front and rear lights, which provide good illumination of the road and its surroundings. But it’s also due to our unique, tapered rear design. In addition to the glass tailgate, you can actually see more of what’s behind you through the rear side windows. The large, heated door mirrors and the height adjustable driver’s seat also help provide excellent visibility.

Testing the limits

To test our best, we journey to our proving ground in Hällered, Sweden with its 55 km of test tracks—including different road types from all over the world. This facility is where cars are rigorously tested under the most demanding conditions. It’s where we scrutinise a car’s ability to perform under the most difficult driving conditions. We expose all new Volvo models to thousands of kilometres of extreme conditions in order to uncover any weakness. This is also where we evaluate the interaction between the car and the driver. Because the most important safety feature in any car is the one you use.
Life-saving innovations

Many of the safety features found in a Volvo are based on the findings from the Volvo Accident Research Team. A few recent examples are the collapsible steering column, the energy-absorbing frontal structure, the Side-Impact Protection System (SIPS) and the Whiplash Protection System (WHIPS).

Virtual crash tests

Super-computers make it possible for us to recreate and analyse different crash situations on a computer and avoid real crashes. We can test new cars virtually even before they exist as prototypes. This makes the next step, full-scale testing, very effective and enables us to focus our resources where they are most useful.

Component testing

In addition to the hundreds of real cars we crash test every year, advanced crash simulators help us to test individual components and full interior safety systems without crashing an entire car. Our crash sled, for example, can grip just the cabin and recreate the exact movement a car makes in a collision. This is unique in the car industry and it has helped us develop front seats with the whiplash protection system (WHIPS).
THE SAFER YOU ARE, THE SMARTER WE LOOK.

For eighty years we have been dedicated to making cars that save lives in an accident. Today, our safety systems also help people avoid accidents in the first place, and significantly help reduce injuries—like whiplash—when accidents occur. For many, Volvo is another word for safety. Proud as we are, we're not satisfied.

Our passion for life means looking for new safety solutions that exceed current requirements and conventional testing. Our goal is to help make travel safer for every road user, for generations to come. That's why our protective attitude has grown to include the air we breathe and the world at large. But then, we are ambitious people. At Volvo Cars, our overriding objective is to balance the needs of our company, our customers, society and future generations in a sustainable way. To find out more, please visit: www.volvocars.com/citizenship.
Power windows

A quick press of the button in each door is all it takes to automatically raise or lower the front windows. Both of these windows can also be operated from the driver's seat. What's more, the central locking remote control can close the windows as it locks the doors.

Front seat convenience

The multifunctional tunnel console accommodates an armrest, cupholders, space for CDs and other personal things while an illuminated compartment behind the centre console with an Auxiliary mini-plug input is ideal for smaller items like an MP3 player. There's also a holder for your spectacles or sunglasses.

Rear seat amenities

Rear seat passengers will appreciate the comfort of two separate full-size seats uncompromised by a centre seat. Without a centre seat, both rear seats enjoy improved sight lines ahead. A folding armrest for the middle is available and further enhances the lounge effect. The side panels have an armrest and two storage compartments in each side panel.

Keyless drive

Keyless drive lets you lock, unlock and start the car without having the remote control in your hand. As long as you have the remote with you, grasping the door handle automatically unlocks the door. To start the engine, simply turn the control on the instrument panel. To lock the doors, just press the button in the door handle as you leave the car.

Climate control

In addition to air conditioning, the available Electronic Climate Control (ECC) maintains chosen temperatures for either side of the cabin, while the Interior Air Quality System (IAQS) ensures that the air you breathe is as clean as possible. These systems help keep the driver alert and the passengers comfortable.

Ambient lighting

There is a courtesy light, centre console spot-light and two reading lamps located just above the centre rear-view mirror, mounted on the roof. These lights, along with a courtesy light in the rear and foot well lights, illuminate the interior's elegant Scandinavian design and set the stage for your adventures.

Environmental care is a natural part of Volvo's dedication to human safety. Considerable effort is invested in reducing harmful effects—in all their forms—of every Volvo car. From the earliest designs, materials are selected with respect for Earth's finite resources and to their recyclability. As a result, up to 85% of every Volvo is designed to be completely recyclable. Interior materials are also tested for certain allergens and harmful substances.

Air quality control

A cabin filter prevents dust and pollen from entering the car through the ventilation system. For even cleaner air, there's the option of optional IAQS. This continuously monitors incoming air and automatically and gently reacts to unhealthy gases. If necessary, IAQS will temporarily close all air vents. It also monitors air quality outside the car to ensure optimum emissions and happy breathing.

Testing of materials for harmful substances

Making life more comfortable for people with allergies or asthma, upholstery and interior textiles comply with the Oeko-Tex Standard 100, an international benchmark ensuring that textiles and materials are tested for certain allergens. Several interior metal details are tested with regard to nickel allergy, comply with the same standards as high-quality jewellery.

Fuel efficiency

To increase fuel efficiency and reduce carbon dioxide emissions, Volvo cars have global planning, all Volvo engines have electronically controlled engine management systems and low internal friction. Volvo contributes to tail emissions through efficient transmission systems, pretreatment body changes, and a top corrosion-resistant coating and advances in fuel distribution.

Exhaust control

Volvo engines use a diverse range of emission control measures. Advanced emission control technology minimizes the exhaust emissions between 95 and 99%. Volvo engines are also designed with high thermal efficiency and optimal control of nitrogen oxides in exhaust gases. And for the diesel engines, there's a particle filter that traps approximately 95% of fuel particles from being emitted. The emission control system in diesels is designed to provide full effect on exhaust at 30 minutes after cold start. These measures are further enhanced by the latest, most advanced exhaust after-treatment technology. Final exhaust is designed to reduce exhaust emissions through minimization and collection in tail-pipes.

Environmental care is a natural part of Volvo's dedication to human safety. Considerable effort is invested in reducing harmful effects—in all their forms—of every Volvo car. From the earliest designs, materials are selected with respect for Earth's finite resources and to their recyclability. As a result, up to 85% of every Volvo is designed to be completely recyclable. Interior materials are also tested for certain allergens and harmful substances.
CUSTOM BUILD...

Polished or painted alloy wheels...Leather seats, 6-speed manual or 5-speed Geartronic transmissions, Dynaudio Sound system, Bi-Xenon Headlights and 4,999,995 additional ways to make the New C30 your customized mode of transport.

Bi-Xenon headlights
Foglights in front spoiler
Rain sensor wipers
Headlight washers
Tailgate spoiler
Power retractable mirrors, including puddle lights
Park assist, rear
Dynaudio Sound System
Dynamic chassis
In-dash 6-CD player
Cruise control
Trip computer
Power driver and passenger seat
Soft load cover
Hard load cover
Heated front seats
Load protection net
Keyless drive
Interior Air Quality System (IAQS)
Ash tray
You've grown up with the ability to personalize your world. From the jeans you wear, the gear you carry, the cell phones, iPods, computers and even tattoos you affix to your body. They all represent an important and personalized picture of you. So why not take the opportunity to create an All-New C30 that's factory built to match your exact specifications. Volvo's new Custom-Build-Feature is all about "free will." When you want your All-New C30 to look different than any other car on the road, talk to your Volvo retailer about a personalized C30... it has your name all over it.

BOREDOM IS NOT AN OPTION.

As you define your own style and specify your needs, there’s a range of equipment levels, factory installed options and Volvo Genuine Accessories that can help reflect your taste or simplify your tasks. Each item is made to complement the design and function of your all-new Volvo C30—with the fit and finish you’d expect for a premium car. Interior materials are allergy tested and all Volvo Genuine Accessories and options are tested according to exacting Volvo standards for safety and with consideration for the environment. If you can’t wait to see your new car, build it online at www.volvocars.com.

Audio upgrades
- USB and iPod music player
- Center console décor panel and door trim kits
- Sport steering wheel and gearshift
- Sport pedals and floor mats
- Cargo compartment covers
- Rear seat armrest
- Front and rear park assist
- Alarm
- Alternative interior inlays (including body color)
- Carbon fiber exterior kit
- Interior LED lighting kit
Leather-clad sports steering wheel
Leather-clad gear knob, manual (std)
Leather-clad gear knob with aluminium inlay, manual, and a sports gaiter
Leather-clad gear knob with wood inlay, manual

Leather-clad gear knob, Geartronic
Sport pedals in brushed aluminium (available for manual and Geartronic)
Body kits can be color-matched to the body or painted in a contrasting tone. These are available as a retailer installed accessory on Version 1.0 except for Cosmic White. The standard body kit on Version 2.0 is always color-matched. See your retailer for details.

Body Kit Color Choices:

- 442 Java Metallic
- 455 Titanium Grey Metallic
- 462 Flint Grey Metallic
- 480 Shadow Blue Metallic
Leather Offblack upholstery, Optional Version 2.0
Offblack interior (5D77)
Optional aluminum center console and door panel inserts.

Kalix Offblack textile/T-tec upholstery, Optional Version 2.0
Offblack interior (5A77)
Optional aluminum center console and door panel inserts.

Kalix Dark Beige textile/T-tech upholstery, Custom Build Version 2.0, Optional Version 1.0
Dark Beige/Quartz interior (5AE2)
Optional aluminum center console and door panel inserts.
Kalix Offblack/Quartz textile/T-tech upholstery, Custom Build Version 1.0 and 2.0

- Offblack interior with Quartz carpeting and floor mats (5AFC)
- Optional aluminum center stack and door panel inserts.

Kalix Offblack interior with Red carpeting and floor mats (5AB7)

- Optional aluminum center stack and door panel inserts.

Kalix Offblack/Quartz interior (5AC7)

- Optional virtual white center stack and door panel inserts.

Kalix Offblack/Quartz textile/T-tech upholstery, Custom Build Version 1.0 and 2.0

- Offblack interior with Quartz carpeting and floor mats (5AFC)
- Optional virtual white center stack and door panel inserts.

Kalix Offblack interior with Quartz carpeting and floor mats (5AB7)

- Optional aluminum center stack and door panel inserts.

Kalix Offblack/Quartz interior (5AC7)

- Optional virtual white center stack and door panel inserts.
Leather Calcite upholstery, Custom Build Version 1.0 and 2.0
Offblack/Quartz interior (5DC4)
Optional aluminum center stack and door panel inserts.

Leather Calcite upholstery, Custom Build Version 1.0 and 2.0
Dark Beige/Quartz interior (5DE4)
Nordic Light Oak center stack and door panel inserts.
POWER DRIVER’S SEAT
The adjustable power driver’s seat allows you to program three different memory settings.

VOLVO NAVIGATION SYSTEM (VNS)
Integrated in the dashboard and controlled from the steering wheel, VNS helps you find the quickest or shortest route to your destination. Audible guidance is provided when necessary. The display shows your current location, as well as the time and distance remaining to your destination. It’s concealed when not in use and opens up at the touch of a button.

POWER SUNROOF
This makes the interior feel extra light and airy. The touch of a button fully opens and closes it and, if the sun is too strong, you can always close the built-in sun-shade.

BI-XENON HEADLIGHTS
Bi-Xenon headlights provide twice the high and low beam illumination of conventional halogen headlights. These headlights self-adjust to maintain the correct angle to the road, even when the car is heavily loaded.
INTERIOR STYLING
- Sport floor mats
- Sport steering wheel in wood
- Sport steering wheel with aluminum inlays
- Gear knob wood
- Gear knob aluminum
- Sport gear shift gaiter
- Sport pedals
- Décor panel kits
  - LED, Under-dash Lighting Kit

ACCESSORIES
FOR DRIVING FREEDOM
- Park assist rear
- Park assist front
- 6 Disc in dash CD changer/MP3 compatible
- Volvo handsfree with Bluetooth
- Volvo Aux adapter for iPod®
- Volvo alarm system
- Engine block heater
- USB port and iPod Connectivity
- Sirius Satellite Radio

FOR YOUR LEISURE
- Roof mounted load carrier

Driveline

Front wheel drive. Transverse engine. Six-speed manual transmission. It is also available with a five-speed Geartronic automatic allowing manual shifting. The smooth manual six-speed transmission inspires an active driving style, while the smooth clutch operation affords confident take-off. For the best of both worlds, there's the option of Geartronic—a responsive five-speed automatic for relaxed driving. It can also be shifted manually or you can maintain a lower gear to bring up the revs or provide the added assistance of engine braking.

Chassis

Front suspension with spring struts (McPherson), anti-dive and anti-lift function. Multilink independent rear suspension. Anti-roll bars front and rear. Version 2.0 includes a sport tuned dynamic chassis for spirited driving. Dynamic Stability system can help counteract a skid. The rigid body enables the suspension to perform optimally—for well-balanced handling and a high level of comfort. The front and rear suspensions also interact to provide stable braking and smooth steering. The DSTC system assists if either of the drive wheels begins to lose traction, and adds the benefit of counteracting any loss of traction.

Steering

Power-assisted electro-hydraulic rack and pinion steering. Tilt and telescopic steering wheel. Electronic Stability re-assurance (ESR) helps to return the car to its intended path after a loss of control. Turning circle 34 ft., depending on wheel size. Retractive electrically-assisted steering can help reduce steering effort at all speeds. High steering precision and on-demand road feedback are easily enjoyed.

Brakes

Power-assisted anti-locking disc brakes (ABS), ventilated discs front. Electronic Brake Assistance (EBA). Electronic Brake Distribution (EBD) between the front and rear brakes. Diagonal-split braking system. Powerful anti-locking disc brakes help ensure a short stopping distance under all circumstances and withstand tough use without fading. EBA helps you maintain control in an emergency situation, while EBD distributes the braking effect between the front and rear wheels in order to achieve optimal results according to the car’s load and driving conditions.

Fuel tank

15.9 US gallons

Engine

Five-cylinder in-line engine. Double overhead camshafts and 20 valves. Continuously variable valve timing on both the inlet and exhaust sides. Electronic engine management system. Turbocharger is connected to variable geometry turbocharger. The five-cylinder engine feature continuously variable valve timing on both the inlet and exhaust sides. Electronic engine management system. It also features a turbocharger and dual exhaust pipes (turbocharged). Roadability is enhanced all year long. This high performance power source delivers an even more enjoyable and powerful response throughout the entire range of rpm. It is capable of 125 target emission standards, such as California’s LEV 2.

Volvo C30 T5 (227 hp)

Engine type: 2.5-liter five-cylinder turbocharged engine
Max power output: 227 hp at 5000 rpm
Max. torque: 236 lbs/ft. at 1500–5000 rpm
Acceleration: 0-60 mph: 6.2 sec
Top speed: 146 mph
Fuel consumption, mixed cycle, man/auto: 19/19 City, 28/27 Highway

Volvo C30 T5 specifications: LEV 2, Environmental classification: ULEV 2

Powertrain: Six-speed manual or five-speed Geartronic automatic

Volvo C30 specification:

Engine:
- Five-cylinder in-line engine
- Double overhead camshafts and 20 valves
- Continuously variable valve timing on both the inlet and exhaust sides
- Electronic engine management system
- Turbocharger is connected to variable geometry turbocharger
- The five-cylinder engine feature continuously variable valve timing on both the inlet and exhaust sides
- Electronic engine management system
- It also features a turbocharger and dual exhaust pipes (turbocharged)
- Roadability is enhanced all year long
- This high performance power source delivers an even more enjoyable and powerful response throughout the entire range of rpm
- It is capable of 125 target emission standards

Transmission:
- Six-speed manual or five-speed Geartronic automatic

The new Volvo S40
The compact and energetic sedan.

Volvo S60
The sports sedan worth getting passionate about.

Volvo S80
The premier sedan, meticulously engineered for superior driving comfort.

Volvo XC90
The versatile SUV that takes you anywhere with grace.

Volvo XC70
The rugged yet stylish all-roader.

Volvo V50
The Sportswagon—flexible, compact and full of zest.

Volvo V70
The genuine family wagon—highly competitive yet comfortably versatile.

Volvo V70
The versatile SW that suits you anytime, anyplace.

Volvo C30
The compact and charismatic SportsCoupe.

Volvo C70
A convertible when you want it.

Volvo C70
A coupe when you need it to be.
TAKING CARE OF YOUR OWNERSHIP NEEDS

It’s a simple idea: one point of contact for all your car ownership needs, whether it’s finding the right financing or who to contact in an emergency. Get the most out of owning your Volvo.

Volvo Car Finance North America

If you purchase or lease your Volvo through Volvo Car Finance North America, you can take advantage of services designed to make financing simple and convenient. Quick Debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account. For more information, call 1-800-770-8238 or visit www.volvofinance.com

On Call roadside assistance

Whenever you need us, we’re just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1-800-63-VOLVO—anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranty information is available in your service interval manual. Exclusions include tires, wheels, certain electrical and electronic systems, some interior trim components, and certain accessories. Should you encounter any problem with your Volvo, simply contact your nearest retailer for assistance. Where your warranty is in effect, Volvo recommends an authorized retail service provider.

Volvo increased protection plan

The benefits of protection begin the moment you purchase your Volvo. Add the protection of a Volvo Increased Protection (VIP) plan. To purchase the additional protection of a VIP plan, contact your local retailer.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. They follow all prescribed factory maintenance schedules in your service interval manual. Genuine Volvo Service includes all labor performed by Volvo technicians.

Volvo mobility program

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment achieve independence. For those with exceptional transportation needs, freedom can be facilitated through an extra comfortable setting. For additional information on this program, please contact the Mobility Program Headquarters at 800-803-5222 or visit www.volvocars.com/mobility. TTY users are invited to call 1-800-833-0312.

Personal shopper

The Volvo Personal Shopper is dedicated to providing you with a whole new level of shopping convenience. Whether you’re looking for help identifying the Volvo model that best fits your lifestyle, detailed information on any Volvo model, or a comparison against the competition, Volvo is there to help. We can arrange a Guest Drive for you at your nearest Volvo retailer. So make the most of your shopping time and call the Volvo Personal Shopper at 1-800-550-5658.

Attractive pricing on US models.
