Life is good.
Enjoy it.
The Volvo S60 is the Swedish sports sedan for passionate drivers. With uncompromising performance, comfort and safety—and a sense of style that leaves no doubt about the capacity of this driving machine. Whether you intend to cross continents or simply rediscover the fun of a twisting road, this is the tool to make the most of your time behind the wheel. So take your seat in the Volvo S60 and go for a drive. Then use the vanity mirror to check that smile-wide grin.
Power is at your disposal.
Beyond the power source itself, the chassis is what dictates the car’s ride performance. In the Volvo S60, a torsionally rigid body and refined chassis with sports-tuned shock absorbers, suspension spring dampers and anti-roll bars interact to make body movement more agile and steering more responsive. All in all, a remarkably tight ride.

**Transmission**

The five-speed Geartronic automatic is a pleasure in any situation. Leave it in automatic mode for carefree driving, or nudge it into manual mode to shift gears yourself. This allows you to maintain a lower gear, for example, to provide added engine braking as you approach a curve.

**Chassis**

The sporty chassis of the Volvo S60 helps provide a firm stance and an exceptional feel. Multi-link rear suspension counteracts any tendency to understeer, while McPherson front suspension struts promote quick and crisp response to sudden turning and braking.

**ABS brakes with Emergency Brake Assistance (EBA)**

The anti-locking brakes are designed for optimal performance even during mitturation and braking. You can brake as hard as you like as you steer clear of trouble. EBA detects an attempted emergency braking and, when necessary, provides added assistance to bring the car to a safe standstill.

**All-Wheel Drive with Instant Traction™**

Providing instant take-off and superior grip, the electronically controlled all-wheel drive system employs Instant Traction™ technology. Constant hydraulic pressure ensures that power is rapidly distributed among the wheels with the best grip. Wheel spin is minimized while acceleration and stability are enhanced, not least in slippery conditions. When cornering on slippery dry roads, at least 50% of the power can be directed to the rear wheels. And when cornering, the system channelizes power back and forth to provide sharp turning and greater stability throughout the curve.
You're in command.
When you climb into the driver’s seat, the Volvo S60 puts the road ahead into its proper perspective. The highly adjustable seat and steering column help create the perfect ergonomics. Instrumentation is clearly presented, controls are intuitive. With two hands on the wheel, all important functions are at your fingertips. If it starts raining, sensors will take care of the wipers and when it gets dark, the anti-dazzle rear view mirror automatically adjusts.
Onboard intelligence.
In addition to your own, of course.
Within the center console lies the infotainment system, an electronic hub where the various systems integrate to give you just what you need. Navigation instructions, parking assistance and music can all coexist. Most of these functions are conveniently operated without you having to lose your attention to traffic.
Stay as long as you like.

The places where you choose to spend your time say a great deal about you. The Volvo S60, for example, is an environment that's both stimulating and warm. It's clearly a driver's car and yet it doesn't compromise the comfort of its passengers, as the sculpted seats and generous legroom show. So when the pleasure of the drive is over, you're still in shape to enjoy your destination.
Center armrest
Center armrest on the seat of the front seat offers a Thomas compact box at the center to hold small items and has a sliding cover to provide space for your drinks and snacks, even a small table for rear-seat passengers.

Multifunctional armrest
The cabin's center console incorporates several facilities: two cup holders concealed by the sliding cover, a handy storage space in front of the comfortable armrest, and special recesses for small items.

Rear-seat ventilation
Providing rear seat passengers with the opportunity to control ventilation, these adjustable vents are placed on either side of the car.

Coat hanger
On the front passenger seat headrest there's a convenient hook where you can keep your jacket within easy reach from the driver's seat.

Rear-seat central armrest
When there are only two rear-seat passengers, this armrest folds down to accommodate elbows, drinks and other nicknacks.
If you like what you see, you'll love what you hear.
This handy little socket, located in the front center armrest, allows you to connect a portable music device, or MP3 player, to the audio system. Volume is easily controlled via the buttons on the steering wheel or on the center console.

**Performance (standard)**
A console integrated radio and CD player—it sounds good and it’s easy to use. Performance includes:
- 6 speakers
- AUX input
- HU-650 RDS radio with built-in 4x25-watt amplifier
- WMA compatible CD player

**Performance (standard TS)**
A console integrated radio and CD player—it sounds good and it’s easy to use. Performance includes:
- 8 speakers
- AUX input
- HU-650 RDS radio with built-in 4x25-watt amplifier
- WMA compatible CD player

**Premium Sound (optional)**
The supreme sound system for the most discerning music lover. The power durability and exceptional transient reproduction of the speakers, combined with the amplifier’s high capacity, result in a truly remarkable and dynamic sound. Dolby® Pro Logic® II surround sound offers an authentic listening experience wherever you are seated. Premium Sound includes:
- 13 Premium Sound speakers
- AUX input
- HU-850 RDS radio with built-in MP3 and WMA compatible 6-CD changer
- 4x75-watt Premium Sound amplifier plus 25 watts for the center speaker
- Dolby® Pro Logic® II surround sound

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.
Expert security.
Multifunctional door mirrors

The turn signals embedded in the sides of the mirrors have a novel function. A nudge of the turn signal lever will automatically activate three flashes of the indicator—so there’s less risk your turn goes unannounced.

Approach and Home Safe lighting

Activated with the remote control, Approach lighting provides a warm reception on a dark night. This consists of interior and side lights—ground lighting too, if you choose. Home lighting is activated with the headlight stalk as you leave the car, and provides a similar courtesy including low beam headlights to accompany you to your door.

Alarm

Connected to the doors, hood and trunk, the alarm also reacts if a window is broken. And should you encounter an emergency situation on your way to or from the vehicle, the alarm can be activated from your hand-held remote control.

Sturdy door locks and an electronic immobilizer make stealing this car difficult, not to mention the remote-controlled alarm. Connected to the doors, hood and trunk, it also reacts to movement inside the car or the breaking of a window. Add a level sensor and the alarm will be triggered if the car is jacked up. The Volvo S60’s Approach and Home Lighting provide a sense of security when coming and going at night. But if an emergency should occur, the panic button on the remote control lets you sound the alarm.
“Safety is our promise. People trust us, and that’s a big responsibility. This is what we think about daily when we make our safety decisions. We have to maintain this trust—not only with words but with actions. That’s also why the safety in a Volvo always begins and ends in a real life situation.”

Ingrid Skogsmo, Director Volvo Car Safety Center

Inaugurated in 2000, the Volvo Car Safety Center in Göteborg is the world’s most advanced crash laboratory. All with the purpose to imitate traffic situations and crashes as they happen in real life. Here we recreate crashes with articulation of vehicles and road obstacles at any angle from 0 to 90 degrees and speeds up to 75 mph. We perform realistic roll-over tests and tests on terrain as well as against genuine Swedish granite rock-face—we can even simulate impacts with wild animals such as a 1100 lbs Swedish moose. Of course, these crash tests also incorporate advanced crash test dummies representing a wide range of sizes and ages—from infants to full-grown adults.

Every crash is thoroughly documented using high-speed cameras and analyzed into fragments of thousands of seconds. We even store crashed cars for a period for future reference. Beyond countless computer simulations, we conduct over 400
full-scale crash tests each year. These tests are based on what our Accident Research Team discovers on the road. Since 1970, our researchers have investigated over 36,000 real-life accidents. This gives us unique opportunities to learn what works in real life and what doesn’t—knowledge that actually helps save lives.

Life-saving knowledge

Many of the safety features found in a Volvo are based on the findings from the Volvo Accident Research Team. A few recent examples are the collapsible steering column, the energy-absorbing frontal structure, Volvo’s child safety equipment, the Side-Impact Protection System (SIPS) and the Whiplash Protection System (WHIPS).

Recreating reality into its smallest details

Advanced crash simulations are an important means of conducting realistic crash tests of separate components and interior safety systems. Our crash sleigh can recreate the exact movement the car makes the moment of collision, which is unique in the car world. This tipping affects the way occupants are restrained and is normally only possible to analyze through expensive full-scale crash tests.

Virtual crash tests

Super-computers make it possible for us to recreate and analyze different crash situations six times a day without crashing real cars. We have the technology to test new cars virtually even before they exist as prototypes, and we can incorporate extremely detailed virtual crash test dummies and even the world’s first pregnant crash test dummy. This makes the full-scale testing very effective, and enables us to focus our resources where they are most useful.
Sweden. Other car manufacturers come here for final car testing under harsh and capricious conditions. For us it’s home. This is where we live and drive, 365 days a year. So no wonder Volvos are in a category of their own when it comes to active safety. Take, for example, our own proving ground Hällered with its 34 miles of test tracks—including different road types from all over the world. This is the top secret facility where we scrutinize our cars’ ability to support their driver in all imaginable (and unimaginable) situations. On tracks aimed to reveal any weak spots, we expose all new Volvo models to extreme forces and conditions during hundred thousands of miles. Not to mention the distances driven on ordinary Swedish roads. Here’s where innovation confronts reality. Here’s also where we evaluate the interaction between the car and the driver. Because the most important safety feature in a Volvo is the driver. And the more efficient the car’s onboard systems support you as driver, the safer things are for you and your passengers.
Halogen Bi-Xenon
Dynamic Stability and Traction Control (DSTC)
By helping to prevent fishtails and spinouts, stability control technology like DSTC may be second only to seat belts in helping protect drivers and passengers. DSTC continuously compares the rotation of the drive wheels. If any of the drive wheels start to slip—on a wet road, for example—DSTC automatically steps in to cut power to the wheel until it regains its grip. DSTC also helps prevent a skid. At the core of the system, a gyroscope senses the car’s direction and compares this with steering wheel movements and the rotation of the car’s wheels. The system is able to detect a potential skid and helps to counteract one by reducing the engine’s power output, or braking on one or more wheels.

See around the corner
Using Active Bi-Xenon Lights (ABL), the motorized lights turn up to 15° in either direction—faithfully lighting up your chosen path. Double your illumination—twice. Compared to conventional halogen headlights, the optional Active Bi-Xenon headlights expand your vision up to about 230%. Driving at 60 mph, you’ll be able to see approximately 150 ft further.

The Nordic Light
Designed in a country characterized by cold and darkness for several months a year, the headlights in a Volvo S60 combine separate reflectors to provide even and effective illumination in all weather. And for even better vision, there’s the option of Bi-Xenon gas-discharge headlights. Bi-Xenon headlights provide more than twice the high and low beam illumination of conventional halogen headlights. Independent of the load, these headlights adapt to any condition. The current design is the result of more than 30 years of research and development.

Bi-Xenon headlights provide more than twice the high and low beam illumination of conventional halogen headlights. The optional Active Bi-Xenon lights expand your vision up to about 230%. Driving at 60 mph, you’ll be able to see approximately 150 ft further.

Dynamic Stability and Traction Control (DSTC)
By helping to prevent fishtails and spinouts, stability control technology like DSTC may be second only to seat belts in helping protect drivers and passengers. DSTC continuously compares the rotation of the drive wheels. If any of the drive wheels start to slip—on a wet road, for example—DSTC automatically steps in to cut power to the wheel until it regains its grip. DSTC also helps prevent a skid. At the core of the system, a gyroscope senses the car’s direction and compares this with steering wheel movements and the rotation of the car’s wheels. The system is able to detect a potential skid and helps to counteract one by reducing the engine’s power output, or braking on one or more wheels.

See around the corner
Using Active Bi-Xenon Lights (ABL), the motorized lights turn up to 15° in either direction—faithfully lighting up your chosen path.
"To me, safety is beautiful. Every detail in a Volvo—from the interior ergonomics and the fantastic seats, to the body's powerful shoulders and softly rounded front—are there for safety reasons. This is functionality that goes hand in hand with distinctive design, and it sure looks good."

Steve Mattin, Design Director, Volvo Car Corporation

In a frontal collision, the generous deformation zones will yield to help absorb crash energy before it reaches the cabin. The occupants are protected by an extremely sturdy safety cage, helping to maintain passenger compartment integrity. Longitudinal steel struts help disperse crash energy away from the front of the car, further helping to reduce the strains on the occupants.

The driver is designed to help absorb as much crash energy as possible.

"Designed for life."

Inside the car, occupant protection is increased by optimizing the functions of all safety restraint systems. The seat belts with pre-tensioners on all seats and force limiters on the front seats, together with other safety features, work on the deformation cages and dual-stage adaptive airbags to help keep the occupants safe in their seat.

The interior is designed to help absorb as much crash energy as possible.
IN A ROLL-OVER, the extremely sturdy safety cage will help protect the occupants while the seat belts help keep them restrained in their seats. If the car has initially been hit from the side, the Inflatable Curtain (IC) is activated to help protect the heads of the outboard occupants and help keep them inside the car. The IC remains inflated for several seconds to help provide extended protection, regardless of whether the windows are up or down. The energy absorbing interior also adds to occupant protection. Additionally, the roof structure is reinforced to help keep the passenger compartment in tact.

IN A REAR IMPACT, the rear deformation zones will help absorb as much as possible of the crash energy before it reaches the cabin. The fuel tank is designed to remain well protected in front of the rear axle. Even the exhaust system and spare wheel is designed to not affect the energy absorption. Inside the cabin, the head restraints not only help protect the neck and spine, but also help protect the head from glass shatters. Integrated in the front seats, Volvo's unique Whiplash Protection System (WHIPS) cradles the spine and neck in a controlled manner. The system is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective in the world. Since its introduction in 1998, it has helped reduce long-term consequences by more than 50%.

IN A SIDE IMPACT, the distance between your chest and the colliding car is about 1 ft. So how can we best use this distance to help protect the occupants? Volvo's strength is not only to take better information in a dare-Impact, for door and side structure of the door. It has led to the use of a special steel grade at side impacts, which is the steel used, you find the best, 40% more energy absorbed. The structure design is made from the side of the car (less then 1/10th of the volume). Inside the cabin, the side airbags in the front seats help protect the occupants chest and hip, irrespective of seating position. The Inflatable Curtains (IC) add protection for the head and help keep the occupants inside the car, both in the front and the rear.
To choose a Volvo model on the basis of its overall environmental performance, see our Environmental Product Information (EPI) guide at www.volvocars.com/EPI.
Environmental care.
Part of our commitment to safety and your well being.

Air quality control
A cabin filter helps to prevent dust and pollen from entering the car through its ventilation system.

Testing materials for harmful substances
To make life more comfortable for people with allergies or asthma, upholsteries and interior textiles comply with the Oeko-Tex Standard 100—an international benchmark ensuring that textiles and leathers are tested for certain allergy inducing or harmful substances. All interior metal details are tested with regard to contact allergies—so parts such as door handle and seat belt buckles comply with the same standards for nickel leakage as high quality jewelry.

Fuel efficiency
To increase fuel efficiency and reduce carbon dioxide emissions, all Volvo engines have advanced electronic management systems and low internal friction. Other factors that contribute to fuel economy include efficient transmission systems, aerodynamic body design, the use of various grades of steel to minimize body weight, and a trip computer displaying current and average fuel consumption.

Emission control
Volvo engines meet stringent international emission requirements. Advanced emission control technology eliminates between 95 and 99% of the carbon monoxide, hydrocarbons and nitrogen oxides in exhaust fumes. The emission control system is designed to provide full effect as rapidly as possible after a cold start—reducing emissions that are at their highest, right down to the fuel filler door; the fuel system is designed to reduce emissions through evaporation when the car is moving or at a standstill.

Clean all its life
Every Volvo begins its relationship with the environment at the earliest stage of its design. Volvos are built in some of the cleanest automotive plants in the world. What’s more, our Environmental Product Information (EPI) allows you to choose a Volvo model on the basis of its overall environmental performance.

At Volvo, the well being of people is at the core of every decision we make. And just like safety, we believe that environmental care requires a holistic approach from the very start. For this reason, Volvos are built in some of the cleanest automotive plants in the world.
Volvo’s accessories help you make your Volvo S60 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo’s exacting safety, quality and environmental requirements. You can also rest assured they’re a perfect match to the technology and design of your Volvo.

FOR DRIVING FREEDOM
- Homelink
- Integrated Navigation system
- Moon roof wind deflector
- Park assist, front and rear
- Volvo Hands free with Bluetooth

FOR YOUR ENTERTAINMENT
- CD holder
- Glove Compartment
- Digital jukebox
- Rear Seat Entertainment system with dual DVD players
- Satellite Radio
- Volvo iPod Aux Adapter
- Volvo USB and iPod music player
See the 2008 Volvo Accessories brochure for a complete list of Genuine Volvo Accessories.

FOR PRECIOUS CARGO

Booster cushion and backrest
Child Activity Bag
Child Mirror
First aid kit
Padded child seat
Padded upholstery and headrest
Sun screen

FOR UNEXPECTED SITUATIONS

Car cover
Breathable rain cover
Jumper cables
Weather cover kit
Wind Flaps, front and rear
Brake flashers
Warming blanket

FOR YOUR LEISURE

Ash tray
Bike carrier, roof mounted
Basket protector cover
Business bag organizers
Canoe/Kayak carrier, roof mounted
Cock tail, rear Tow Bar
Cup Holder, center console
Floor mats, rubber
Load limit, roof mounted
Lead securing rail, front floor
Luggage compartment mats
Net pocket, side panel cargo area
Perimeter Black, center “Volvo”
Roof Mounted “Load Bar”

FOR YOUR LOOKS

Aluminum Wheels, 18” & 17”
Body Kit
Chrome Wheels, 18” & 17”
License plate frame
Locking Lug nuts
Silk bagging, Volvo logo
Sport Floor mats
Sport gear shift gaiter
Sport gear shift knob
Sport steering wheel
Tunnel mat

Wood steering wheel
Wood trim kit

See the 2008 Volvo Accessories brochure for a complete list of Genuine Volvo Accessories.
Interior selection.

INTERIOR DESIGN: TAUPE

Choose Taupe for an interior with a relaxed and spacious feel.

- The top of the instrument panel is Offblack to reduce reflections on the windshield.
- Select the seat upholstery of your choice from the different materials and matching color combinations.
- The front center armrest and interior door panels are color coordinated with the seats and upholstered in matching material.

Leather Light Taupe upholstery (9981), Walnut wood trim, leather-clad steering wheel and gear knob.

Taupe interior, Kilen Taupe upholstery (9180)

2.5T and 2.5T AWD

Taupe interior, Imola leather Taupe/Light Taupe upholstery (918C)

T5

Leather Light Taupe upholstery (9981), Walnut wood trim, leather-clad steering wheel and gear knob.

Taupe interior, Sport Leather Light Taupe upholstery (9A81)

T5

Leather Light Taupe upholstery (9981), Walnut wood trim, leather-clad steering wheel and gear knob.

Taupe interior, ${...}$
The Volvo S60 offers exclusive interior options to go with your personality. All our leather and fabric upholstery are Oeko-Tex approved, meaning they're tested for certain allergen-inducing and harmful substances. Make your choices to compose your own interior styling.

**Imola leather Graphite Light Taupe upholstery**, Mesh aluminium trim, leather-clad steering wheel and gear knob.

**T5 Advanced Package**

**Graphite interior**, Kilen Graphite upholstery (9170), 2.5T and 2.5T AWD

**Graphite interior**, Leather Graphite upholstery (9970), Walnut wood trim, 2.5T, 2.5T AWD
Aluminum wheels.

- **Eudora 8x18" alloy wheels**
  - Silver Bright (opt. T5 only)

- **Cassiopeia 7.5x17" alloy wheels**
  - Silver Bright/Diamond cut (std. T5)

- **Tucana 7x17" alloy wheels**
  - Silver Bright
  - (std. 2.5T, 2.5T AWD / Advanced Package)

- **Eurus 7x16" alloy wheels**
  - Silver Bright (std. 2.5T)

- **Echo 6.5x16" alloy wheels**
  - Silver Bright (std. 2.5T AWD)

- **Tucana 7x17" alloy wheels**
  - Chromed (opt. T5)

Packages.

CLIMATE PACKAGE (2.5T, 2.5T AWD, T5)
In a Volvo you’re always prepared to deal with the ever-changing forces of nature. And to increase comfort when driving in cold, rain or snow, simply add the Climate Package.
- Headlight washers
- Heated front seats
- Rain sensor

PREMIUM PACKAGE (2.5T, 2.5T AWD)
A Volvo offers you long, relaxed drives and more spirit in your daily life. The Premium Package will provide you with some necessities for that extra ambience and convenience.
- Auto-Dim mirror
- Compass
- Geartronic Transmission
- Genuine Real Wood Inlays
- Leather seating surfaces
- Power glass moonroof
- Power passenger’s seat
- Rear shelf speakers
- Satellite radio prep

ADVANCED PACKAGE (2.5T, 2.5T AWD, T5)
- 7x17” Tucana Alloy wheels
- Active Bi-Xenon lights (T5)
- Aluminum inlays
- Brushed Aluminum door molding (T5)
- Brushed Aluminum trunk molding (T5)
- Dolby Pro Logic II Surround Sound System
- Genuine Real Wood Inlays
- Grocery bag holder
- Homelink
- HU-850 Radio/6-CD/surround sound
- Imola two-tone leather (T5)
- Interior Air Quality System
- Power glass moonroof
- Power passenger’s seat
- Rear shelf speakers
- Satellite radio prep
- Speed sensitive steering
- Sunglass holder
- Trunk spoiler (T5)
Volvo S60 specifications.

**ENGINES**

Five-cylinder in-line engine. Double overhead camshafts, 20 valves. Continuously variable valve timing on both the intake and exhaust side (2.5T and T5). Electronic engine management system. Three-way catalytic converter with a heated oxygen sensor. 2.5T and T5 also feature turbocharger and dual-charger air coolers (Intercoolers).

**Volvo S60 2.5T AWD (208 hp)**

This smooth running engine with a high pressure turbocharger provides a lively yet beautifully balanced driving experience. Access to the engine's full potential (236 ft./lbs.) is available from just 1500 rpm—for a very quick start and plenty of oomph for passing. Continuously variable valve timing for both intake and exhaust ensures performance and cleaner exhaust emissions under all driving conditions.

- **Engine type**: 2.5-liter five-cylinder turbocharged engine
- **Max power output**: 208 hp at 5000 rpm
- **Max torque**: 236 ft./lbs. at 1500–4500 rpm
- **Acceleration 0–60 mph**: 2.5T AWD 7.2 sec (2.5T 6.9 sec)
- **Top speed**: 130 mph
- **Fuel consumption, mpg, highway/city**: N/A
- **Environmental classification**: ULEV II
- **Transmission**: Five-speed automatic 2.5T, five-speed Geartronic automatic 2.5T AWD

**Volvo S60 T5 (257 hp)**

This highly efficient, turbocharged engine is an impressive performer. With plenty of punch throughout the range of rpm, full torque (258 ft./lbs.) is available at just 2100 rpm. High turbo charge pressure means extra power at high rpm—and an invitation to an active style of driving. The turbocharger too, has an over-boost feature that provides additional power when pushed, for instance when passing. Continuously Variable Valve Timing for both intake and exhaust valves (dual CVVT) contributes to the engine’s quick response and steady power flow. It also helps the engine meet stringent exhaust emission requirements.

- **Engine type**: 2.4-liter five-cylinder turbocharged engine
- **Max power output**: 257 hp at 5500 rpm
- **Max torque**: 258 ft./lbs. at 2100–5000 rpm
- **Acceleration 0–60 mph**: 6.6 sec
- **Top speed**: 130 mph
- **Fuel consumption, mpg, highway/city**: N/A
- **Environmental classification**: ULEV II
- **Transmission**: Five-speed Geartronic automatic

**DRIVELINE**

Front wheel drive (2.5T AWD features a pre-charged electronically controlled AWD with Instant Traction™ all-wheel drive system).

- **Transmission**: Geartronic automatic
- **Transmission**: Four-speed automatic, standard on 2.5T.
- **Transmission**: Five-speed automatic transmission, standard on 2.5T and T5.

**CHASSIS**

- **Front suspension**: With spring struts (McPherson), anti-dive and anti-lift function. Multi-link independent rear suspension attached to an aluminum sub-frame. Stabilizer bars front and rear. DSTC (Dynamic Stability and Traction Control).

- **Steering**: Power-assisted rack and pinion steering. Tilt and telescopic steering wheel column. 2.8 – 3.0 turns lock to lock. Turning circle 35.4–38.7 ft.

**BRAKES**

- **Brakes**: Power-assisted anti-locking disc brakes (ABS), ventilated discs front. EBA (Emergency Brake Assistance). EBD (Electronic Brake Distribution) between the front and rear brakes. Diagonally split braking system.

**FUEL TANK**

18 U.S. Gallons
Meet the family.

To live life is to care about it.

Every moment in a Volvo is a moment designed to celebrate life. All its twists and turns, big and small, the little things as well as the big ones. Of course, to live life is to be truly interested in people and places as well.

For almost eighty years we have been helping save lives on roads around the world. Nevertheless, when it comes to improving road safety, we will never be satisfied. And while we’re continuing our innovation, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children’s children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment in the car. Simply put, we care about you—and the whole circle of life.
Taking care of your ownership needs.

It's a simple idea, one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency.

Find the most out of owning your Volvo.

Volvo Car Finance North America

If you purchase or lease your Volvo through Volvo Car Finance North America, you can take advantage of services designed to make financing simple and convenient. Get the most out of owning your Volvo.

On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist when you require roadside assistance or repairs. Call 1-800-328-VOLVO or dial 1-800-63-VOLVO anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply call the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.
