At Acura, the driver always comes first. Our design philosophy assures it. Even in the MDX, engineered to carry seven adults, the focus is still on intimately connecting the driver and road, a focus that has crowned the MDX the best-selling three-row luxury SUV of all time. Such is the power of Precision Crafted Performance.
SEATS UP TO SEVEN, THRILLS ALL
The MDX is a performance SUV. As such, its design language matches its aggressive nature. As you approach the MDX, the low, wide stance whispers of its athletic abilities. Up front, a confident Acura Diamond Pentagon Grille flanked by chiseled and focused Jewel Eye® LED headlights adds to its demeanor. And down the sides, long, sculpted lines give the vehicle a sense of speed well before the engine roars to life.
SPEAK YOUR MIND WITHOUT SAYING A THING

The more powerful the design, the more powerful the emotions it stirs. The MDX A-Spec® Package takes what is already aggressive design language and puts a bullhorn on it. Massive 20-inch five-spoke Shark Gray alloy wheels, gorgeous and bold, give the MDX tremendous presence both at the curb and at speed. Confidence is furthered with an aggressive front bumper complete with LED fog lights. Even the smallest details—exclusive gloss-black window trim, a rear gloss-black diffuser, dual exhaust outlets—add to the conversation, all of it proudly finished with prominent A-Spec badging.
A-SPEC INTERIOR STYLE

It’s an attention to precision that’s furthered through an exclusive A-Spec steering wheel, complete with race-inspired paddle shifters that intimately connect the driver to the 9-speed transmission for a more engaged driving experience. Even small details, like eye-catching metal sport pedals, red ambient lighting, and an instrument panel that glows red, are all there to make sure your MDX is as inspiring as it is capable.

A-SPEC INTERIOR COMFORT

Can interior styling inspire high-performance driving? That was our goal when we created the A-Spec interior: styling so confident and innovative it inspires the driver. It’s the reason we outfitted the A-Spec seats with an available bold red-leather interior and finished them with contrast stitching. And it’s why we added Alcantara® inserts and seat bolsters, there to inspire spirited driving by holding the driver tightly while cornering.
HAND-CRAFTED WOOD, LEATHER, AND STYLE

EVERY DETAIL COUNTS

Enter the MDX, and you enter a first-class cabin. Inside, every detail comforts and inspires. Available leather–trimmed seats with premium contrast stitching and piping offer a more refined and sporty look. Front seats come standard with 14– and 12–way power controls for more precise positioning of the driver and passenger. Even the available wood selections—Olive Ash Burl and Desert Olive Ash—are responsibly sourced and handcrafted. Just as the smallest details can dramatically improve performance, they can also dramatically improve comfort.
INTERIOR

SOMETIMES YOU’LL FORGET IT’S AN SUV

As capable as the MDX is in high-performance driving, it’s equally capable when it comes to the utility part of the equation. Inside, the MDX offers generous cargo capacity, up to 90.9 cubic feet, with the flexibility of 60/40-split second-row bench or available folding captain’s chairs and 50/50-split third-row seats, adapting to a variety of passenger and cargo space combinations. And hidden nicely in the cargo area is a subfloor storage area, perfect for anything you want to keep secure.
NEVER DRIVE ALONE

The MDX was designed not only to intimately connect the driver to the road, but also the vehicle to the driver. AcuraLink® allows you to connect to your vehicle from almost anywhere, enabling you to preload your MDX with directions, easily locate it in a crowded parking lot, and even lock/unlock it remotely. But we didn’t stop there. The MDX display can host all your favorite Android Auto™ apps and services, as well as seamlessly integrate with your iPhone® through Apple CarPlay™.
**Android Auto**

Android Auto integration brings the Android™ experience to your car by projecting all your favorite apps and services right onto the MDX’s display, and it’s highlighted by an intuitive interface that populates suggested directions, upcoming appointments, and weather conditions, to name a few. The powerful new Talk to Google voice feature allows you to access directions via Google Maps™ or Waze™, send and receive text messages, and access your favorite music, providing an easier way to get the information you need, when you need it.

**Apple CarPlay**

Place the power of your iPhone in your dash with Apple CarPlay integration, which seamlessly connects your iPhone with the car’s built-in display and controls, so you can make calls, access your music, send and receive messages, get directions, seamlessly tap into the power of Siri® with the press of a button with Siri Eyes Free, and more.

**AcuraLink**

It’s not enough to simply be connected anymore; we need tools that work harder for us. Available AcuraLink seamlessly connects you to the information you want while providing peace of mind and added convenience. Download the available AcuraLink app to reap the benefits of the complimentary trial packages. The Remote Package allows you to locate your vehicle after the big game by flashing your lights and sounding your horn via your smartphone. And for the most demanding drivers, the Concierge Package puts personal assistants at your fingertips, night and day, to ensure that all your journeys go off stress-free.
Recording studios are sanctuary quiet for a reason. So too is the MDX. Acoustic spray foam and Acura’s Active Sound Control assure it. They assure it because inside the MDX is an available ELS Studio® Premium Audio System recognized by many as the pinnacle of audio. From crisp highs to a balanced midrange and deep, bold lows, ELS is designed to mimic recording-studio quality, and that’s only possible if traffic and wind noise are silenced. It’s a dedication to detail, to every single note of every single song, that creates an audio experience so revolutionary, it’s quite possible you’ll feel like you’re hearing all your favorite music for the first time.
IT’S NOT AS FAST AS IT LOOKS. IT’S FASTER.

The MDX’s 290-horsepower, 24-valve, 3.5-liter, i-VTEC® V-6 is fast. Add in available Super Handling All-Wheel Drive™ (SH-AWD™), which manages and optimizes all that power at each wheel, and every performance drive becomes even faster. Should you wish for even more, the MDX Sport Hybrid raises the output to a combined 321 horsepower and connects all that power through an incredibly responsive 7-speed Dual-Clutch Transmission to its very own Sport Hybrid SH-AWD, revolutionizing the performance of the MDX well past what’s considered possible in an SUV.
Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to distribute to the outside rear wheel, improving control and helping rotate the MDX through the turn.

Lane Change

For increased stability during lane changes, the SH-AWD system transfers power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD actively sends power to the wheel with the most traction.

Highway Cruise

For better fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

YOUR FAVORITE ROAD IS WAITING

Everyone has their favorite road, and usually, that favorite road is full of twists and turns and is empty of traffic. The next time you visit, bring along the perfect ally: the MDX with category-defining available Super Handling All-Wheel Drive (SH-AWD). Through an innovative torque-vectoring system, power is instantly distributed to the wheels in relation to the driver’s actions and available traction at each wheel, providing a stable platform for superior performance and control during high-performance driving. Should your favorite road surprise you with a rainstorm, a gravel corner, or a dusting of snow, SH-AWD is capable of making sure the road remains a favorite, no matter what challenges Mother Nature might add.

MDX SH-AWD shown in White Diamond Pearl.
When cornering, the rear Twin Motor Unit (TMU) allows for instant torque transfer side to side in the rear, independently applying positive or negative torque to each wheel. This torque-vectoring effect directly controls the yaw (rotation around a vertical axis), twisting the MDX through corners, tightening its line, and precisely tracing the driver’s desired path.

From a standstill, Sport Hybrid SH-AWD uses the rear electric motors to deliver torque instantly, translating to dramatic acceleration off the line. During mild acceleration, only the rear twin electric motors operate; under more aggressive acceleration, the gasoline engine and all three electric motors kick in simultaneously to maximize performance.

Sport Hybrid SH-AWD monitors speed, wheelspin, driver input, and more to actively and instantly distribute power to the wheels with the most traction or send negative torque to a specific wheel to act as a stabilizing force.

At low cruising speeds, the system can operate in electric-only mode, with power being sent to only the rear wheels. At higher speeds, up to 100 percent of the power is sent to the front wheels when cruising in a straight line.

When braking, coasting, or cornering, the ever-efficient system captures kinetic energy and uses it to recharge its advanced lithium-ion battery.

And neither does the MDX Sport Hybrid, thanks to our groundbreaking, electric-torque-vectoring Sport Hybrid Super Handling All-Wheel Drive (SH-AWD) system born from NSX supercar technology. So passionate we are to innovate past what we think is possible, we took the same SH-AWD technology we developed for the NSX, including the Twin Motor Unit (TMU) and battery pack, and engineered it into the MDX. Powered by a V-6 engine and three high-output electric motors perfectly mated to an incredibly responsive 7-speed Dual-Clutch Transmission, the electric Sport Hybrid SH-AWD system does what almost no other AWD system can do: It optimizes power distribution, even when the driver is not on the throttle. Its instinctive performance that creates an intimacy between driver and road most likely unmatched in any other SUV.
MAKE THE MOST OF ALL THE HORSEPOWER

Choose your desired driving mode—Comfort, Normal, Sport and, additionally, in the Sport Hybrid, Sport+—and the MDX’s Integrated Dynamics System (IDS) personalizes its technology for you. In Sport mode, the SH-AWD system and throttle are put on notice to offer up much more aggressive responses. In the MDX Sport Hybrid’s Sport+ mode, EV-only operation is paused, and maximum launch is achieved through full, unrestrained battery power. Additionally, in the MDX Sport Hybrid, in both Sport and Sport+ modes, the Active Damper System limits body roll for a stiffer and more precise reaction to the driver’s desires.

AGILE HANDLING ASSIST

Performance is not just about power. It’s also about precision. And precision in every corner is where the MDX shines, thanks to Agile Handling Assist®. As the MDX enters the corner, Agile Handling Assist technology tightens the vehicle’s line through the turn by braking individual wheels as needed to improve cornering stability and speed.
THE MOST IMPORTANT PERSON ON THE ROAD IS EVERY PERSON ON THE ROAD

AcuraWatch™ forms a network of seamlessly connected sensing technologies within the MDX. These advanced safety and driver-assistance features constantly gather information and offer warnings, and some features can even take action when necessary, all to help prevent, avoid, or minimize threats.

a. Forward Collision Warning (FCW) System
   Collision Mitigation Braking System™ (CMBS™)

b. Lane Departure Warning (LDW) System
   Lane Keeping Assist System (LKAS)
   Road Departure Mitigation (RDM) System

c. Adaptive Cruise Control (ACC) with Low-Speed Follow

d. Available Blind spot information (BSI) System

e. Available Rear Cross Traffic Monitor

f. Multi-View Rear Camera with Dynamic Guidelines
   Available Surround-View Camera System

MDX SH-AWD with Advance Package shown in Modern Steel Metallic.
**AT OUR BEST WHEN IT MATTERS MOST**

**ADVANCED COMPATIBILITY ENGINEERING**

The safest collision is the one you avoid. That’s reason enough to consider the high-performance MDX with standard AcuraWatch advanced safety and driver-assistance technology; however, some collisions are unavoidable. That’s why Acura’s next-generation Advanced Compatibility Engineering™ (ACE™) body structure was designed to absorb and disperse frontal impact energy more evenly around the vehicle, so less of it transfers to what really matters: the car’s occupants. Moreover, frontal crash compatibility is designed into the structure, so in the event of a collision with a smaller or larger vehicle, the occupants of both vehicles, not just those in the Acura, are more protected. But we didn’t stop there. We innovated the structure around the doors, making them four to five times stronger than traditional-grade automotive steel through laser welding, hot stamping, and the use of ultra-high-strength steel, all to improve cabin strength and the chance of literally walking out the door after impact.

The MDX received the highest possible overall safety rating from the National Highway Traffic Safety Administration (NHTSA)* and is a 2018 Top Safety Pick from the Insurance Institute for Highway Safety (IIHS).†

*Government 5-Star Vehicle Scores are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program. For additional information on the 5-Star Safety Ratings program, please visit www.safercar.gov. †Insurance Institute for Highway Safety.
When it comes to personalizing, choose Acura Genuine Accessories, which are crafted with the same precision and attention to detail as the rest of your Acura. The MDX has 47 accessories to choose from. See your Acura dealer for a complete list of accessories or visit acura.com.

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.19

Acura Financial Services®

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services (AFS) provides you with the conveniences, options, and service to complement your life. For more information, go to www.acurafinancialservices.com.20

Acura Care®

Additional peace of mind is had with the Acura Care program—comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care® (TLC®)

Acura’s commitment to your satisfaction doesn’t end with the delivery of a world-class vehicle. As an Acura owner, you’ll enjoy an array of services, like the Acura Concierge,21 for 24-hour weather information, insurance claims assistance, or to help you plan a trip, trip-interruption benefits, like alternative transportation, lodging, and meals, and a 24-Hour Roadside Assistance program.22

AcuraLink Owners Mobile App

It’s not enough to simply be connected anymore. You need tools that work harder for you and your family. AcuraLink provides you with a more enjoyable driving experience while offering peace of mind and added convenience. Download the AcuraLink app to reap the benefits of the complimentary trial packages. Enjoy the luxury of a personal concierge or locate your vehicle after the big game by remotely flashing your lights and sounding your horn via your smartphone. Check your vehicle status remotely, receive assistance from a live agent in the event of a collision, and more. AcuraLink package information can be located at acuralink.com.

1-800-to-Acura

Operators are available 24 hours a day to help answer your Acura questions.

Acura

Learn more about Acura vehicles, including the latest specifications, see photo galleries and technology videos, and find out how our vehicles compare with the competition. You can also build and price your Acura, see current offers, and even get a quote from an internet-certified Acura dealer.

Owners.Acura.com

The online help doesn’t end when you take possession of your vehicle. Your complimentary Acura Owners personalized website gives the most current information about your vehicle, provides tips on how to care for your Acura, lets you keep a personalized maintenance record, sends you service reminders, and lets you schedule service appointments online.
