When you're young, you seek out challenges. The straight and narrow is better left for someone else. The twists and turns are where the most thrilling life awaits. And it’s the twists and turns that created the TLX. Our challenge was to engineer a car that delivers the thrill of performance in every corner. It’s a driver-centric philosophy we call Precision Crafted Performance, the ultimate expression of man and machine becoming one. Welcome to one of our most exciting vehicles ever—the Acura TLX.
WE DON’T JUST BUILD CARS, WE ALSO BUILD DRIVERS
Low and wide, the Acura TLX is ready for corner after corner, and its aggressively chiseled design tells you so well before you ignite the engine. Up front, the bold Diamond Pentagon Grille is flanked by intense Jewel Eye® LED headlights. Along the sides, dramatic, sweeping creases further reinforce that attitude.
SPEAK YOUR MIND WITHOUT SAYING A WORD

When a car is already as bold as the TLX, every design detail of the A-Spec® Package makes a big impact. The large dual oval exhaust outlets tucked away neatly in the piano-black diffuser speak loudly of the vehicle’s performance focus. It’s a focus reinforced by darkened headlights and taillights, side underbody and decklid spoilers, and an exclusive A-Spec front bumper perfectly matched to the signature Diamond Pentagon Grille that’s finished with bold gunmetal mesh. And it’s all riding on 19-inch Shark Gray split five-spoke wheels that give the TLX A-Spec a posture as powerful as the car’s performance.
Welcome to a cabin built to inspire. Inside the TLX A-Spec is a wealth of comfort, style, and inspiration. And it all begins in the driver’s seat. Whether you choose a red leather-trimmed interior or the ebony leather with Alcantara® trim, the front seats are finished with more aggressive side bolsters to better support the driver. And the unique A-Spec steering wheel is engineered with a thicker rim to offer the driver a more confident grip, while red accent lighting and instrumentation are there to inspire the driver to make the most of the TLX and all its abilities.
THOUSANDS OF RACES AND MILLIONS OF CORNERS DESIGNED THIS COCKPIT

Enter the TLX, and you enter a driver-centric cabin. The seat—wrapped in available Milano premium leather trim finished with contrast stitching and piping—is as supportive during tight, high-speed maneuvers as it is comfortable during long, open-road drives. And the wealth of information, as intuitive as it is vast, is delivered on two screens; the top screen connects the driver to navigation, vehicle information, and smartphone, while the lower screen delivers access to entertainment and climate control.
IMMERSE YOURSELF IN PERFORMANCE

The relationship between car and driver compels every design decision at Acura. In the TLX, it’s a focus that created an interior wrapped around the driver. Keeping the driver stable during performance maneuvers is a precision-crafted advanced seat frame, while amenities such as multiple levels of available heating and ventilation, ten-way adjustability, sculpted side bolsters, and an available heated steering wheel are all there to assure supreme comfort.
DO MORE WITH HORSEPOWER THAN BRAG ABOUT IT

We believe horsepower is the beginning of the performance story, not the end, which is why, to make the most of the TLX’s horsepower, we offer an available 3.5-liter, 290-hp, i-VTEC® V-6 or a standard direct-injected, 206-hp inline-4.

And we created handling technology as advanced as the engines are powerful. The TLX comes equipped with the world’s first Precision All-Wheel Steer™ system, in which the rear wheels assist the front wheels, independently adjusting their toe angles to increase steering precision during cornering, lane changes, and even parking. As well, every TLX is equipped with Agile Handling Assist® technology that can apply braking to individual wheels as needed to help keep the TLX on its intended performance line. Also available is Super Handling All-Wheel Drive™ (SH-AWD®), a revolutionary torque-vectoring technology born from racing that turns even the most demanding driving moments into some of your most confident performance experiences.
MAKE EVERY CORNER YOUR FAVORITE CORNER

That is the power of available Super Handling All-Wheel Drive (SH-AWD), a torque-vectoring system that creates an incredibly stable driving platform and turns corner after corner into some of your best high-performance experiences. SH-AWD distributes power front to back and to each rear wheel based on wheel speed, steering angle, rate of steering, lateral G-forces, and yaw rates. A chalkboard’s worth of math translates into a very simple benefit: across a vast range of weather and road conditions, you get superior handling and confidence. From tight hairpins to high-speed lane changes to the loop after loop up a full parking garage, SH-AWD dramatically improves almost every drive every day.

Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to distribute to the outside rear wheel, improving control and helping rotate the TLX through the turn.

Lane Change

For increased stability during lane changes, the SH-AWD system transfers power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD actively sends power to the wheel with the most traction.

Highway Cruise

For better fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

SH-AWD

TLX V-6 SH-AWD with Advance Package shown in Fathom Blue Pearl.
FOUR WHEELS, ONE FOCUS

Precision All-Wheel Steer (P-AWS®) is a world’s first from Acura—a system that engages the rear wheels to assist the front wheels during cornering, lane changes, and braking. It’s an innovation that reads the driver’s inputs as well as inputs from the vehicle and then independently adjusts the toe angle of each rear wheel. The result is a noticeable improvement in vehicle steering precision at almost every speed.

AGILE HANDLING ASSIST

During high-performance driving, Agile Handling Assist increases vehicle responsiveness and stability. The system can brake individual wheels as needed, effectively using brake torque vectoring to directly control the vehicle’s rotation, delivering a more intuitive handling experience.
When you engineer a car with as much potential as the TLX, you want to make sure all that potential is realized. That’s why every TLX is equipped with our Integrated Dynamics System (IDS) that perfectly sets up the car’s technology to deliver four unique modes of Precision Crafted Performance. Click from Normal mode into Sport mode, and the TLX instantly dials up throttle response, increases the top end of shift points, weights the steering for a more connected feel, and puts the P-AWS or SH-AWD system on notice to deliver more aggressive responses. Sport+ takes that aggressive demeanor one step further, with even higher shift points and rev-matching downshifts for better balance when quickly running up and down the gears. And, should you feel like making the most of your fuel rather than your horsepower, Econ mode is at the ready to encourage both the engine and climate control to operate more efficiently, improving fuel savings.
CONNECT TO EVERYTHING AND EVERYONE

Available AcuraLink® effortlessly connects you to the information and media on your various mobile devices. From texts to tweets to traffic jams, AcuraLink is there to help, whether it’s managing replies, finding a better route to your destination, or preloading your TLX with great trip-planning destinations. And should you want more help than all your technology can supply, Live Concierge Link directly connects you to personal assistants who can take care of everything from reservations to route options, while AcuraLink Assist directly connects you to live assistance any time of the day or night in the event of an emergency.¹

APPLE CARPLAY INTEGRATION

CarPlay® seamlessly integrates your iPhone® with the car’s built-in display and controls so you can make calls, access your music, send and receive messages, get directions, or use Siri® with the tap of a button.²

WIRELESS CHARGING

The TLX’s available wireless charge pad keeps your Qi-enabled device powered up without the hassle of finding a USB cord.

ODMD

The On-Demand Multi-Use Display™ (ODMD™) provides everything you need right at your fingertips on two screens. Navigate CarPlay or Android Auto on the top screen, while still remaining connected to your music and climate management on the lower, dedicated touchscreen.

ANDROID AUTO INTEGRATION

Android Auto™ brings the Android® experience into your TLX. With it, you can project all your favorite apps onto the TLX’s touchscreen display, and its intuitive interface populates suggested directions, upcoming appointments, weather conditions, and more. The Talk to Google voice feature allows you to access directions via Google Maps™, send and receive text messages, and access your favorite music.³
Music is art. In the TLX, it’s performance art, as the available ELS Studio® Premium Audio System delivers music as powerfully as music delivers emotion. Created by eight-time Grammy® award winner Elliot Scheiner, ELS Studio was designed to produce music as it’s meant to be heard, so even the most familiar songs will feel like entirely new listening experiences. It’s the perfect combination of engineering and artistry, all there to turn even the most routine drive into one of your best drives.
A CAR THAT LOOKS OUT FOR YOU, LITERALLY

The TLX delivers a full suite of advanced, active safety and driver-assistance technologies as standard equipment. We call that suite AcuraWatch™ a network of systems designed to increase awareness and support the driver, working to help prevent, avoid, and mitigate impacts.

AcuraWatch uses sensors that can continuously monitor the vehicle’s surroundings, warning of potential threats, automatically providing steering input to help keep you in the center of a detected lane, automatically braking the vehicle when necessary to maintain a set interval from a vehicle detected ahead and, when necessary, emergency-braking to help avoid frontal collisions.

In addition, our available Surround-View Camera system gives you a 360-degree view of the space around the TLX, which is extremely helpful when backing into tight parking spaces. The system also delivers a front wide-angle view that’s useful when exiting garages, parking spaces, and alleys.  

1. a. Collision Mitigation Braking System™ (CMBS™)  
   Forward Collision Warning (FCW) System

2. b. Lane Departure Warning (LDW) System  
   Lane Keeping Assist System (LKAS)  
   Road Departure Mitigation (RDM) System

3. c. Adaptive Cruise Control (ACC) with Low-Speed Follow

4. d. Available Blind spot information (BSI) System

5. e. Available Rear Cross Traffic Monitor

6. f. Available Surround-View Camera System
THERE IS NO BETTER AMENITY THAN SAFETY

THERE IS NO BETTER AMENITY THAN SAFETY

AT OUR BEST WHEN IT MATTERS MOST

Acura’s Advanced Compatibility Engineering™ (ACE™) body structure is designed to absorb and disperse frontal impact energy so less force is transferred to what really matters: the people inside. But we didn’t stop there. Crash compatibility is designed into the structure as well, so in the event of a frontal collision, the occupants of all vehicles involved are better protected. ACE incorporates extra bracing at the front corners to absorb and distribute impact energy from narrow-offset collisions to the primary crash structure. The outer braces are designed to transfer impact load toward the center of the frame, where the energy can be distributed around the cabin area more evenly. This enhanced frontal-crash-energy management helps reduce the forces transferred to the reinforced cabin and can help to more evenly disperse the forces transferred to other vehicles in a collision.
When it comes to personalizing, choose Acura Genuine Accessories, which are crafted with the same precision and attention to detail as the rest of your Acura. The TLX has 39 accessories to choose from. See your Acura dealer for a complete list of accessories or visit acura.com.

OWNER BENEFITS

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.20

Acura Financial Services®

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services (AFS) provides you with the convenience, options, and service to complement your life. For more information, go to www.acurafinancialservices.com.21

Acura Care®

Additional peace of mind can be had with the Acura Care program—comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care® (TLC®)

Acura’s commitment to your satisfaction doesn’t end with the delivery of a world-class vehicle. As an Acura owner, you’ll enjoy an array of services, like the Acura Concierge,22 for 24-hour weather information, insurance claims assistance, or to help you plan a trip, trip-interruption benefits, like alternative transportation, lodging, and meals, and a 24-Hour Roadside Assistance program.23

AcuraLink®

AcuraLink Owners Mobile App

It’s not enough to simply be connected anymore; you need tools that work harder for you and your family. AcuraLink provides you with a more enjoyable driving experience while offering peace of mind and added convenience. Download the AcuraLink app to reap the benefits of the complimentary trial packages. Enjoy the luxury of a personal concierge or locate your vehicle after the big game by remotely flashing your lights and sounding your horn via your smartphone. Check your vehicle status remotely, receive assistance from a live agent in the event of a collision, and more. AcuraLink package information can be located at acuralink.com.

1–800–to–Acura

Operators are available 24 hours a day to help answer your Acura questions.

Acura.com

Learn more about Acura vehicles, including the latest specifications, see photo galleries and technology videos, and find out how our vehicles compare with the competition. You can also build and price your Acura, see current offers, and even get a quote from an internet–certified Acura dealer.

Owners.Acura.com

The online help doesn’t end when you take possession of your vehicle. Your complimentary Acura Owners personalized website gives the most current information about your vehicle, provides tips on how to care for your Acura, lets you keep a personalized maintenance record, sends you service reminders, and lets you schedule service appointments online.

When you're young, you seek out challenges. The straight and narrow is better left for someone else. The twists and turns are where the most thrilling life awaits. And it's the twists and turns that created the TLX.

Our challenge was to engineer a car that delivers the thrill of performance in every corner. It's a driver-centric philosophy we call Precision Crafted Performance, the ultimate expression of man and machine becoming one.

Welcome to one of our most exciting vehicles ever—the Acura TLX.
