THE VALUE AMERICANS WANT... 
THE SIZE AMERICA NEEDS.

The 1978 AMC cars are designed to meet today's needs for smaller, lighter, more efficient vehicles which provide outstanding interior room, comfort, ride and performance. Short overall length makes them agile and easy to maneuver. Good design provides a spacious interior. Strength and weight contribute to riding comfort usually found only in larger, more expensive cars.

For 1978, there are thirteen models in five distinctive AMC lines. All of these AMC cars offer an excellent blend of small car efficiency, handling and maneuverability.

There is the all-new luxury Concord compact. The unique, wide body Pacer with a fresh new look. The sporty but roomy Gremlin. The exciting AMX. And the smartly appointed Matador.

A wide selection of Hatchbacks, Wagons, 2-door and 4-door models are included in the 1978 model line-up. A broad choice of optional trim packages also are provided for added style and sportiness.

An abundance of luxury, performance, comfort and room has been built into all 1978 AMC passenger cars. They are well-designed and well-appointed, and priced to be a superior value for the money.

AMC '78. The quality Americans want . . .
The size America needs.
The introduction of the BUYER PROTECTION PLAN by American Motors in 1972 marked the beginning of a new era of protection for American car buyers. Since that time, BPP has continued to provide a greater sense of confidence for AMC owners.

The BUYER PROTECTION PLAN includes the only full 12-month, 12,000-mile warranty in the automotive industry.

We provide this warranty because we are a consumer-sensitive company dedicated to meeting the needs of automotive buyers.

As you read the details of the BUYER PROTECTION PLAN printed below, you will see that it covers everything on the car. Nothing is excluded except tires. That's the way we want it, and that's why American Motors has earned a reputation as the company with the most unique service plan in the business.

Your satisfaction with the car you drive is important to us, and we feel the BUYER PROTECTION PLAN assures you satisfaction.

1978 AMC FULL 12-MONTH/12,000-MILE NEW CAR WARRANTY

When you buy a new 1978 AMC car from an AMC dealer, American Motors Corporation** guarantees to you that for 12 months or 12,000* miles from the date of delivery or first use, whichever comes first, it will, except for tires, pay for the repair or replacement of any part it supplies which proves defective in material or workmanship.

All we require is that the car be properly maintained and cared for under normal use and service in the fifty United States or Canada and that guarantee repairs or replacements be made by an AMC dealer.

No other express warranty is given or authorized by American Motors. American Motors shall not be liable for loss of use of vehicle, loss of time, inconvenience or other incidental or consequential damages. Some states and provinces do not allow limitation or exclusion of incidental or consequential damages so the above exclusion and limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province.

* In Canada (20,000 km).

** In Canada: American Motors (Canada) Limited

RELATED FEATURES

COMPLETE GUARANTEE COVERAGE

This guarantee gives you 12-month or 12,000-mile (20,000 km) coverage on many items not covered by most car warranties. It covers wiper blades, brake linings, light bulbs—everything we put on the car except tires. If any part American Motors supplies is wrong on your 1978, you won't have to pay for the parts or the labor. You are responsible to see that your car is maintained, at your expense, according to the 1978 Owner's Manual and Maintenance Supplement.

SERVICE ADJUSTMENTS

Any needed service adjustments required during the first 12 months or 12,000 miles (20,000 km) of normal use, whichever comes first, and which are not required as part of normal scheduled maintenance will be performed by an authorized AMC dealer without charge to the owner.

GUARANTEE SERVICE FOR OWNERS WHO MOVE OR TRAVEL

If you move or are traveling, any AMC dealer in the United States or Canada will perform guarantee repairs for you.

GUARANTEE COVERAGE FOR SUBSEQUENT OWNERS

Subsequent owners of an AMC car are eligible for any unused guarantee coverage. A subsequent owner need simply present the owner's manual (property filled-out) to an authorized AMC dealer to obtain guarantee repairs.

TIRE POLICY

The tire manufacturer provides a limited warranty for the tires supplied with your new car. Specific warranty information and tire adjustments are handled directly with owners by the tire manufacturer's distributors, dealers or retail stores. Your AMC dealer will assist if you need help in securing an adjustment.

NEW CAR PRE-DELIVERY SERVICE

Your AMC dealer has serviced and tested your new car for starting, handling, braking and overall performance in accordance with AMC's Dealer Pre-Delivery Service Procedure.

A LOANER CAR

If your car needs guarantee repair work and "same day" (morning to evening) service cannot be completed as promised or if guarantee repairs require that the car be kept overnight, your AMC dealer will provide you with a free loaner car until your car is ready. To qualify, you must comply with your dealer's work schedule.

SPECIAL TRIP INTERRUPTION PROTECTION

If you're 100 miles (160 km) or more from home and a servicing AMC dealer can't provide "same day" guarantee repairs for your car, interrupting your trip, we will reimburse you for reasonable extra lodging and meal costs up to $150, based upon your actual expenses. Submit receipts to the AMC dealer who serviced your car. He'll handle the paperwork that generates a direct reimbursement from Detroit to you.
AMC Pacer Hatchback

Take a look at Pacer for 1978 and you'll see design innovations that widen your driving perspective and add a new life to your life. Pacer doesn't look like any other compact car, and it doesn't ride or handle like other compacts either.

Pacer's wide design on a short wheelbase means that you maneuver with small car agility. Yet you ride with big car room, comfort and handling ease because they have the 6-cylinder engine performance that make Pacer a hit on open road.

There is a Pacer for every mood. Whether you're looking for a car for everyday use or something a little more special, there is a Pacer that fits your needs.
because the wide stance is combined with isolated suspension and rack and pinion steering.

Performance is impressive, too. The standard 6-cylinder engine or the new optional V8 helps make Pacer at home in town or cruising on the open road.

Pacer also pays attention to the niceties of life. There is a high level of standard interior and exterior appointments like individual reclining seats, Light Group and custom door trim panels.

For some additional excitement, consider the optional Sport Package featuring a unique, two-tone paint treatment in seven spirited combinations.

No need to worry about taking along that extra cargo either. The wide rear hatch opens on a flat load floor for easy loading and unloading.

One more thing. AMC's exclusive BUYER PROTECTION PLAN is with you and your Pacer wherever you may roam. You'll enjoy going more places and doing more things in Pacer. The room and ride Americans want... The size America needs.
AMC PACER WAGON

We designed the Pacer Wagon to be an exciting-looking, efficiently-sized vehicle with a unique blend of mid-size room, ride and handling qualities. We also provided the Pacer with a variety of tastefully appointed standard features that usually cost extra on other makes.

Credit the Pacer’s wide design for its distinctive appearance, passenger comfort and 52.5 cubic feet of cargo area. The low suspension softens road shocks, providing for an easy ride.

The Pacer is easy to entry and passeng er.
of cargo area. The wide design plus Pacer’s isolated suspension gives you a smooth, stable ride that softens road shocks. Rack and pinion steering provides for precise, responsive handling.

The Pacer Wagon is a pleasure to own as well as drive. There is an oversized passenger door for easy entry and exit, panoramic visibility for drivers and passengers and a wide rear hatch for easy access to the flat load floor. And a fold-down rear seat provides even more loading space.

Other Pacer value features include a new electronic ignition, front disc brakes, 20-gallon fuel tank, individual reclining seats, custom door trim panels, woodgrain instrument panel and more.

There is a lot to like in a Pacer Wagon. Good value for the money, exceptional room and ride, and a host of standard features. Only AMC has a wagon like Pacer. And only AMC backs its cars with the exclusive BUYER PROTECTION PLAN.
AMC Pacer Options

## CALIFORNIA REQUIREMENTS
As in the past, vehicles destined for sale and registration in the state of California must be equipped with the option "California Emission System and Factory Testing" which requires a special engine/transmission/axle ratio combination.

Equipment indicated as standard (S) or optional (O) may not be available in the state of California because of state emission requirements. Please consult your AMC dealer for specific information.
