# THE NEW LAND ROVER DEFENDER

# ENTER scroll or swipe to interact

### **ABOVE & BEYOND**

### ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

### **DESIGNED. LIKE NO OTHER**

How do you redefine an icon? Push harder. Dig deeper. You go above and beyond. You capture its very essence. Then you reimagine it. You design, engineer and build it without compromise. Until you've created a vehicle that's absolutely of the moment. One that's visually compelling, with a go-anywhere-doanything attitude and toughness at its very core. Capable of great things, this is Land Rover Defender. It couldn't be anything else.

Off-road sequences on dedicated land with full permissions. Challenging off-road driving requires full training and experience. Risk of injury and damage. Never drive beyond your abilities. Always check route, surface, base and exit before entering frozen terrain.

Vehicle shown is Defender 90 First Edition in Pangea Green with optional Satin Protective Film.

Vehicles shown throughout are from the Land Rover global range. Specifications, optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online. All in-car features should be used by drivers only when safe.

### PURPOSEFUL DESIGN. ENDLESS POSSIBILITIES

Defender is our most capable Land Rover yet. You can choose either a 90 or 110 body design, both of which are world-class experts, off and on-road. With up to six seats in the 90 and the option of a third row with 5 + 2 seats in 110. There are six models - Defender, S, SE, HSE, First Edition or Defender X - and four Accessory Packs, each with a distinctive character to suit your lifestyle. It's the ultimate personalisation.

Vehicles shown are Defender 90 First Edition and Defender 110 SE in Pangea Green with optional Satin Protective Film.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

Everything about Defender exudes quiet confidence; from its purposeful stance to its reductive, sophisticated surfaces, its integrity is beyond reproach. Both highly desirable and seriously capable.

Tough, durable and highly functional, Defender's interior bears testimony to the vehicle's spirit of adventure. Structural elements are made of robust materials. Intuitive technologies – like those you're more likely to find on a smartphone – deliver a connected, engaged drive without taking anything away from the vehicle's ambience. Added to which, everything has been designed with practicality in mind. With a cabin walk-through\*, an optional front jump seat and centre console, the space can be configured any number of ways. Including yours.

\*Model dependent.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

3

Impressive proportions and a reassuringly recognisable silhouette help define Defender's arresting looks. Whilst short overhangs, great ground clearance and upright front and rear elevations give credence to the vehicle's capabilities. Floating pillars and alpine lights add to its personality, with solid shoulders and powerful squared-off wheel arches that communicate the vehicle's purposeful stance. This is design with undoubted integrity. And unrivalled purpose.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

Approachable. Confident. No nonsense. With its compact, upright look, Defender's front profile features a raised bonnet, sculpted grille and detailing. Together with such characterful touches as round headlights and some of our most sophisticated surfaces yet, these aspects help reinforce the vehicle's overriding sense of capability.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

A celebration of design and functionality. The perfect fusion of form, vertical stance and attitude. From behind, the vehicle looks both utterly modern and perfectly planted. Whilst details like the side-opening tailgate with externally mounted full-size spare wheel and characterful tail lights all point to Defender's distinctive nature.

### TECHNOLOGY

### EXPOSED STRUCTURAL SURFACES. POWDER-COATED ACCENTS

Uncompromisingly tough, the visible fixings for the major interior components underscore Defender's absolute integrity. Strength, durability and highly functional interior architecture are in its DNA. For instance, the interior's exposed structural surfaces are finished in a highly durable textured powder coat, extending to the steering wheel and doors\*. Built to take the knocks, the cross car beam is an integral structure which adds greatly to Defender's strength.

### DURABLE INTERIOR MATERIALS

The spirit of boundless adventure is the first and lasting impression of Defender's interior. Thanks in part to its materials. These include a canvas-inspired Robust Woven Textile, which is offered with the grained leather seats to reduce wear and tear in areas where it is needed most.

Defender X unique hard-wearing seat materials include Windsor leather combined with Kvadrat Steelcut Premium wool textile.

There is also a choice of veneers and finishers on the console, including an open pore wood available with a Rough-cut Walnut or Natural Smoked Dark Oak veneer.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

Front & Rear Classic Mudflaps retain the heritage of Land Rover Defender while protecting the paintwork. Spare Wheel Cover protects the rear-mounted spare wheel.

### UPGRADES

**Front Expedition Protection System**<sup>1</sup> provides robust protection to the front of the vehicle and the raised corners improve the front approach angle.

Improving access to the roof, the **Deployable Roof Ladder**<sup>12</sup> makes stowing your belongings easier. For added security, the ladder can be locked in the stowed position.

Fixed or Deployable Side Steps<sup>1</sup> aid access into the vehicle. Deployable side steps<sup>3</sup> automatically deploy as the doors are opened.

Bright Side Tubes<sup>14</sup> enhance the side of the vehicle whilst providing protection to the door sides during off-road driving.

The Loadspace Rubber Mat is waterproof with a non-slip surface and helps protect the rear loadspace floor from general dirt, while **Deep-sided Rubber Mats** provide the ultimate in footwell protection.

<sup>1</sup>Upgrades available mid-2020. <sup>2</sup>Roof Rails required for fitment. <sup>3</sup>Available for Defender 110 only. Not compatible with Fixed Side Steps or Bright Side Tubes. <sup>4</sup>Not compatible with Fixed Side Steps or Deployable Side Steps.

### MONOCOQUE ARCHITECTURE

Unique monocoque architecture contributes to Defender being the toughest and strongest vehicle we have ever created. It has triple the torsional rigidity of a body-on-frame design. Whilst being lightweight, fuel-efficient and engaging to drive.

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

### TESTED TO THE EXTREME

1.2 million kilometres of on and off-road drives. 45,000 individual tests. From +50 to -40 degrees. Crossing the dunes of Dubai to sweeping down the straights of the Nürburgring. We've conducted altitude tests, drenched Defender in 85,000 litres of dyed water in our monsoon facility and engineered its tyres to withstand greater impact. In fact, we've gone to more challenging extremes than ever before to create a vehicle that's capable of great things. This is Defender.

1)

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

## ALL WHEEL DRIVE (AWD)

Commanding. Off and on-road. The system intelligently controls torque distribution between the front and rear axle. On challenging surfaces, such as sand, grass or snow, torque can be balanced between the front and rear wheels to maximise traction. In extreme conditions, where the front or rear wheels lose traction, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip. The AWD system combines with Electronic Traction Control (ETC) to deliver a sure-footed driving experience in even the most challenging situations.

It's your world. Take command.

### TWIN-SPEED TRANSFER BOX

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing.

Vehicle is shown with accessory Front Expedition Protection System. It improves off-road capability by increasing the front approach angle.

TECHNOLOGY

# ELECTRONIC ACTIVE DIFFERENTIAL

On or off-road. In ice, rain or snow. The optional Electronic Active Differential ensures the greatest level of traction. It does so by controlling the slip between the left and right wheels on the rear axle, helping to deliver effortless capability. Not only that, it's far more effective than brakes when traction is lost, reacting much faster and with a smoother response.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details. Vehicle shown is Defender 110 X in Gondwana Stone.

11

ACCESSORY PACKS

## CONFIGURABLE TERRAIN RESPONSE\*

Thanks to a world-first in Terrain Response, you can now individually configure Defender's powertrain, steering, differentials and traction control settings. This means you can go beyond - be it the Siberian tundra, or rock crawling in Moab.

So, get behind the wheel and discover what you're truly capable of.

\*Only available as part of a pack.

11

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

## HILL DESCENT CONTROL

Difficult slopes? You needn't worry. Hill Descent Control (HDC) assists you with tricky descents by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

## ALL TERRAIN PROGRESS CONTROL (ATPC)

All Terrain Progress Control (ATPC)\* is a state-of-the-art optional system. It enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1.8km/h and 30km/h, enabling you to maintain full concentration on the terrain ahead.

\*Only available as part of a pack.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

TECHNOLOGY

## WADING

Life has a habit of throwing unexpected challenges our way. That's why Defender has a wading depth of 900mm, so crossing water need not be one of them. The Wade Program in Terrain Response raises the vehicle using Electronic Air Suspension\*. Unique to Land Rover, a 3D Surround Camera with Wade Sensing uses ultrasonic sensors in the door mirrors to visually and audibly alert you if the water approaches the vehicle's maximum wading depth.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

## TOWING

Whatever you take. Wherever it is you decide to go. Defender's 3,500kg towing capability means it can readily respond to the most challenging demands. Combined with this is the optional Advanced Tow Assist\*, which allows you to reverse a trailer while Defender takes care of the countersteering. The Touchscreen will also display both the current and desired trailer trajectory.

\*Only available as part of a pack.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

DESIGN

## GEOMETRY

Outstanding geometry strengthens the vehicle's all-terrain capability. Its approach angle is 38 degrees\*. This is coupled with a breakover angle of up to 31 degrees and a departure angle of 40 degrees\*.

\*With Electronic Air Suspension in Off-Road Height. Fitting of side tubes or side steps may affect the off-road capability of the vehicle.

Vehicle shown is Defender 90 First Edition in Pangea Green with optional Satin Protective Film.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

# PETROL AND DIESEL

There is a range of engines available for Defender: two 4-cylinder diesels, a D200 or D240. And two petrols, a 4-cylinder P300 or 6-cylinder P400. Each has been optimised for specific attributes to cater for all needs.

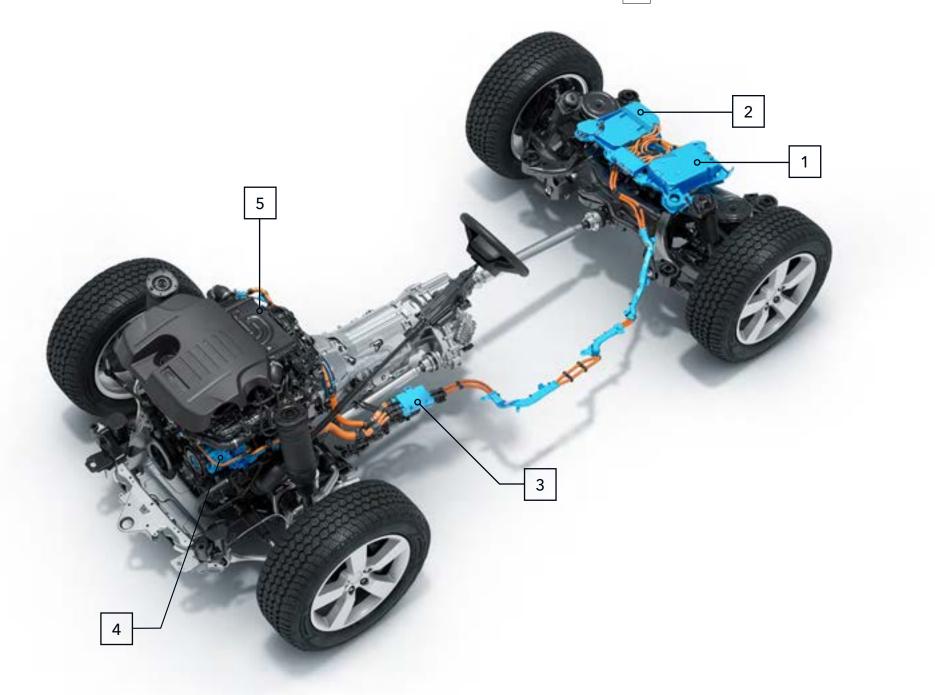

Diesel engines offer better fuel economy over greater distances and produce higher levels of torque at lower engine speeds. This makes them the ideal choice for longer journeys, motorway cruising, towing or off-roading.

Defender's petrol engines are even more powerful, which can provide a more engaging and direct driving experience. They are even more refined and are better suited to shorter, stop-start journeys.

All engines are equipped with intelligent Stop/Start technology which is designed to improve fuel efficiency and reduce emissions\*.

# PETROL MHEV

Mild Hybrid Electric Vehicle (MHEV) technology will be fitted to the P400 engine. It harvests and stores energy normally lost during vehicle deceleration and intelligently redeploys it to increase the engine's efficiency. This system helps improve fuel economy and boosts the vehicle's performance.

PRACTICALITY

\*Market dependent.

Engine availability is market dependent. Please consult your local Land Rover Retailer for details.

## CONNECTED NAVIGATION PRO<sup>1</sup>

Middle of the concrete jungle. Middle of nowhere. Defender's navigation system ensures you're always in touch with the rest of the world. It uses machine learning to adapt guidance based on your familiarity with the roads and the real-time traffic conditions. Dynamic route assistance will even propose an alternative route if a faster one becomes available. And, what's more? Thanks to regular automatic map downloads<sup>2</sup>, the maps are always up to date.

PRACTICALITY

<sup>1</sup>Contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. <sup>2</sup>When connected to Wi-Fi or to a data plan.

Pivi Pro features, options and their availability remain market dependent - check with your Retailer for local market availability and full terms. Certain features require an appropriate sim with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Mobile connectivity cannot be guaranteed in all locations.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

# CONNECTIVITY

## Smartphone Pack

Allows vehicle optimised apps on your smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player.

## Wireless Device Charging<sup>1</sup>

Packaged into the centre console, in front of the armrests and behind the cupholders, you can easily charge your smartphone without having to plug it in.

## Software Updates

Defender stays up to date through Software Updates<sup>2</sup>. The vehicle's infotainment, telematics and various control modules can all be updated remotely to help ensure optimal performance.

## Secure Tracker

It's something we hope you never need to use, but in the event of theft, the optional Secure Tracker helps locate your vehicle. A theft alert will be sent within minutes to the Stolen Vehicle Tracking Centre if an attempt is made to drive the vehicle with non-authorised keys. Optional Secure Tracker Pro<sup>3</sup> takes this even further and integrates authentication technology into the key fob. Includes service subscription for warranty period.

<sup>1</sup>Only available as part of a pack. <sup>2</sup>When connected to Wi-Fi or to a mobile network. <sup>3</sup>Requires Keyless Entry. Requires mobile network connectivity.

Pivi Pro features, options and their availability remain market dependent - check with your Retailer for local market availability and full terms. Certain features require an appropriate sim with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Mobile connectivity cannot be guaranteed in all locations.

## ONLINE PACK WITH DATA PLAN

Stay truly connected. You'll enjoy access to everything you need, seamlessly integrated within Pivi Pro – including unlimited data<sup>1</sup> for online media music streaming, weather updates and calendar information. It's all designed to keep you informed and entertained. At all times.

## WI-FI ENABLED WITH DATA PLAN

With Wi-Fi Enabled with data plan<sup>12</sup>, you'll be able to keep in touch with friends and family, and keep everyone entertained with video streaming. Even when you are on the road less travelled. Wi-Fi uses the external antenna for the best possible connection.

<sup>1</sup>Certain features require an appropriate sim with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Fair use policy applies. After 20GB of data is used within a month, data speeds on vehicle may reduce for the rest of the month. <sup>2</sup>Optional feature.

TECHNOLOGY

## BRIGHTER LIGHTS. SAFER NIGHT-TIME DRIVING

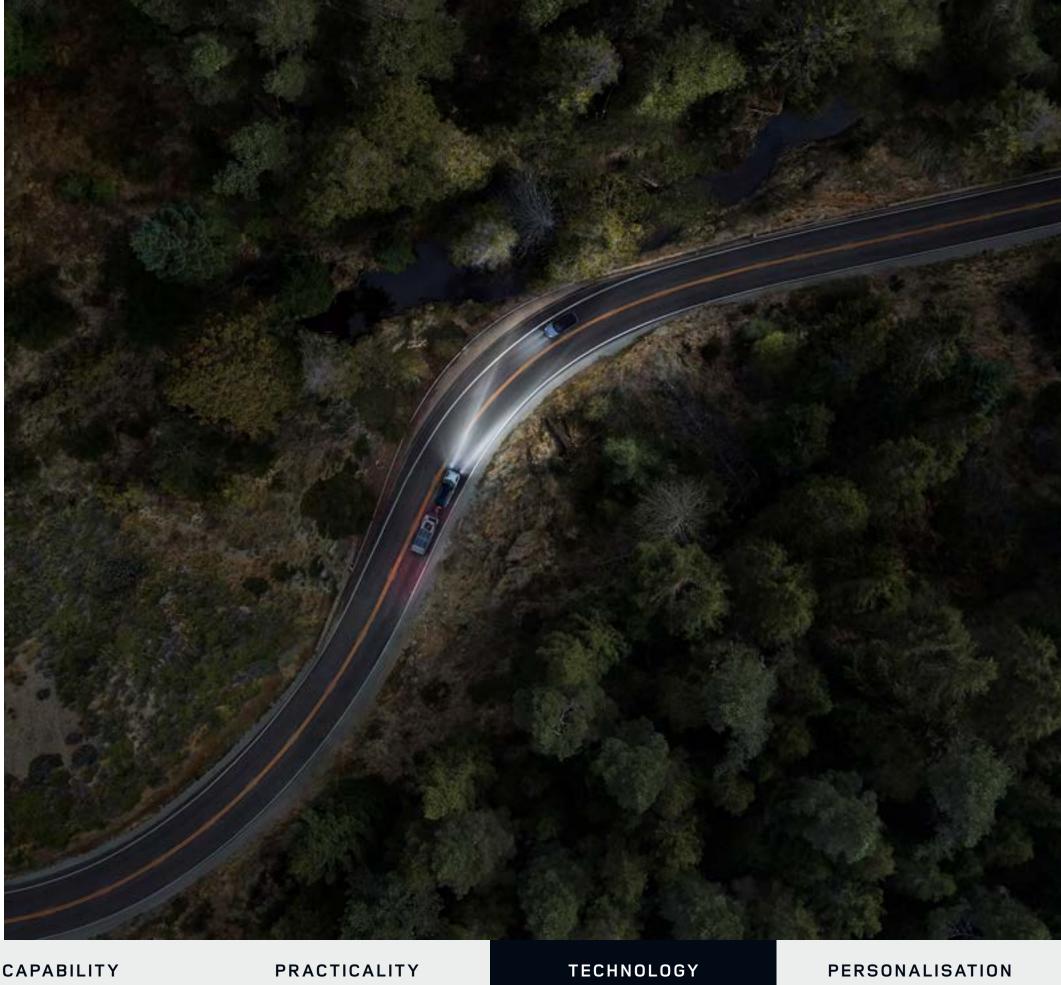

Defender features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, so driving at night becomes less tiring. Premium LED headlights\* feature the distinct exterior graphic of the signature Daytime Running Lights (DRL). This increases the light output so you can see even better in the dark.

## MATRIX LED HEADLIGHTS

Matrix LED headlights\* with signature DRL enable an Adaptive Driving Beam. By splitting the main beam into vertical strips, the adaptive beam maximises the number of high beam sections for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. The adaptive beam is also able to optimise the light distribution to suit the driving conditions of town, country, motorway or bad weather.

\*Model dependent.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

DESIGN

ACCESSORY PACKS

# CLEARSIGHT GROUND VIEW

Thick forest terrain. The odd bough and boulder scattered across the muddy track. How do you get through with greater confidence?

Available as part of the 3D Surround Camera system, ClearSight Ground View gives you the added benefit of being able to 'see through' the bonnet – giving you confidence when manoeuvring around any obstacles. Even bollards in the city. This feature displays a camera view of the front underside of the vehicle on the large central Touchscreen – in normal circumstances, this area would be invisible to the driver.

ClearSight Ground View dependent on 3D Surround Camera. Image is not live. Check surroundings for safety. Subject to local regulations.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

Accessories shown: Adventure Pack (Roof Rails required for fitment) with Fixed Side Steps and 'A' Frame Protection Bar upgrades (Upgrades available mid-2020). Cross Bars also shown.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

## CLEARSIGHT INTERIOR REAR VIEW MIRROR

If the boot is piled high with equipment and you can't see a thing through the rear window?

No problem. Defender's ClearSight interior rear view mirror uses a live video feed so you can see the path, or convoy, behind you. This is regardless of equipment or passengers in the back who may be blocking your vision.

Optional feature, subject to local regulations. If bifocal or varifocal users cannot easily adjust focus on the ClearSight digital rear view image, they may revert to rear view mirror mode at any time.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

## HOW DOES MUSIC MAKE YOU FEEL?

Music has the power to change your mood, evoke memories and affect your wellbeing. It can give you tingles or make you cry. It's why music and cars go so well together. Sitting behind the wheel, listening to your favourite artist, band or composer. It's your space. Your world.

But what if you could do more than simply listen to the music? What if you could feel it, experience it, immerse yourself in it? What if you could make more of a connection with the music and enjoy a greater sense of acoustic involvement in your Land Rover?

British-based Meridian<sup>™</sup> Audio are all about the musical experience - the very sense of being there. Their award-winning, precision-engineered audio systems are built on a lifetime of research into psychoacoustics (the science of how the human brain perceives sound) to deliver a performance that is so true to life, you feel every beat, every breath.

DESIGN

## MERIDIAN™

Whatever your musical tastes, you'll feel more with one of our sound systems. There are three to choose from: our six-speaker system delivers rich bass notes and crystal-clear highs. With 10 speakers and a subwoofer, the Meridian Sound System<sup>1</sup> delivers exceptional definition. Whilst the Meridian Surround Sound System<sup>2</sup> with 14 speakers and a subwoofer envelops you in the clearest, most engaging and authentic sound. It's like being there. Only you're in a Defender.

#### EXPLORE MERIDIAN

<sup>1</sup>Available as part of a pack. <sup>2</sup>Model dependent.

Visuals aim to represent the perceived placement of the musicians based on an occupant seated on the right side of the vehicle.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

## DRIVER ASSISTANCE

Relax. Even in heavy traffic. Land Rover Defender has been built using our advanced technologies and driver assistance features. The more you use them, the more you'll find they don't take over your drive, they simply help take the stress out of it - that's got to be good. All the following are standard:

A comprehensive system of six airbags including driver and passenger airbags, side curtain and thorax airbags to help protect occupants.

**Emergency Braking** can help to prevent collisions with other vehicles, pedestrians or cyclists. It displays a warning in the event of a potential collision, and applies the brakes if no action is taken.

**Cruise Control and Speed Limiter** allows you to maintain the current speed of the vehicle without the need to continually use the accelerator pedal.

Lane Keep Assist detects when your vehicle is unintentionally drifting out of lane and will apply a corrective torque to the steering wheel to encourage you to guide your vehicle back.

**Driver Condition Monitor** detects when you're starting to feel drowsy and gives an early warning to take a break.

**Wade Sensing** uses ultrasonic sensors in the door mirrors to provide real-time pictorial information about the water depth when wading. The system lets you know when water levels are near the 900mm maximum wading depth.

**Traffic Sign Recognition** keeps you informed of speed limits and 'no overtaking' signs by displaying them clearly in the instrument cluster. When activated, Adaptive Speed Limiter uses recognised speed limits to adjust your vehicle's speed accordingly.

**3D Surround Camera** helps you see more around the vehicle. 3D exterior perspectives alongside a 360° overhead view make manoeuvring easier, while off-road views including the innovative ClearSight Ground View provide you with greater clarity when scaling various terrains. (3D Surround Camera also includes Wade Sensing and ClearSight Ground View).

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details. Vehicle shown is Defender 110 X in Gondwana Stone.

# DRIVER ASSIST PACK (OPTIONAL)

Features Adaptive Cruise Control, Rear Pre-collision Monitor and Blind Spot Assist Pack.

**Adaptive Cruise Control** - Will automatically keep your vehicle a safe distance from the vehicle in front, should it slow or stop when you're cruising or travelling in slow-moving traffic. If the vehicle in front stops, you will come to a smooth halt.

**Rear Pre-collision Monitor** – If a vehicle approaching from behind is not slowing down, Defender will attempt to alert the approaching driver to brake by automatically flashing the hazard lights.

## **BLIND SPOT ASSIST PACK**

Features Blind Spot Assist, Clear Exit Monitor and Rear Traffic Monitor.

**Blind Spot Assist** - Can help prevent collisions. If your Defender detects another car in your blind spot when you begin to change lanes, a rotational force is automatically applied to the steering wheel - indicating a steering correction should be made.

**Clear Exit Monitor** - Helps passengers stay safe as they exit Defender by warning of approaching hazards, such as passing vehicles and cyclists.

Standard and optional features may differ depending on market availability. Please consult your local Land Rover Retailer for details.

DESIGN

ACCESSORY PACKS

CAPABILITY

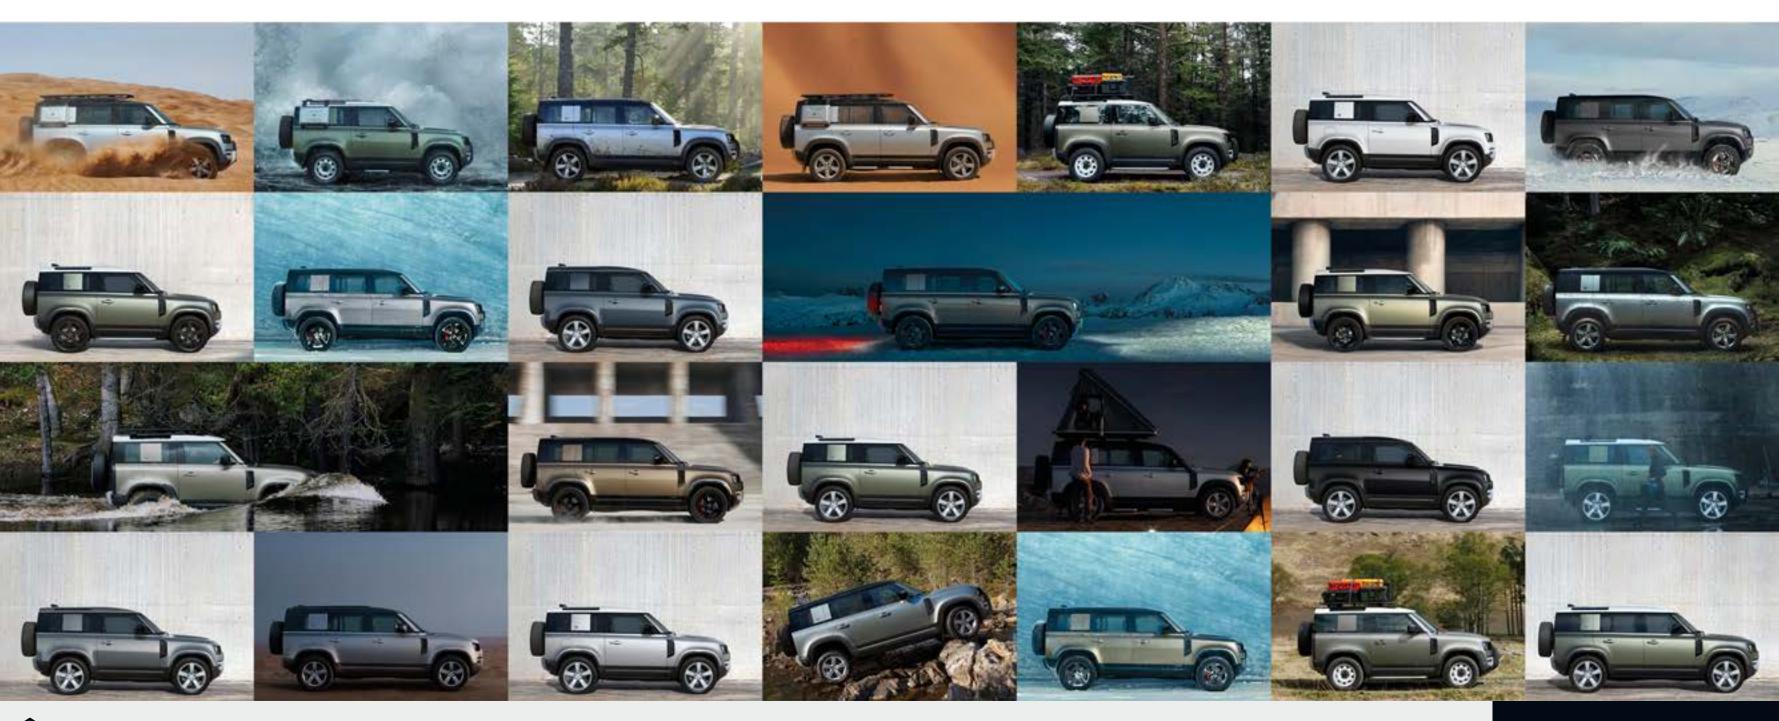

**Rear Traffic Monitor** - Warns you of vehicles, pedestrians or other hazards approaching from either side. Particularly useful when reversing out of a parking bay.

## TYRES

For the toughest demands. The most capable and tough vehicle needs tyres which are just as robust. That's why Land Rover Defender is equipped with 815mm diameter tyres as standard. They improve ground clearance, off-road geometry and traction. An increased sidewall depth also means the vehicle is less prone to punctures and can withstand more damage.

Distance from the centre indicates level of performance - 10 being best.

- → All Season (Standard Fitment Band A)\*

**Above & Beyond Belt** - Featuring the world's safest and strongest ANSI COBRA® buckle, made from heavy-grade nylon, this item is supremely capable. Tested to extremes.

**Above & Beyond Pen** - Superbly crafted. Underwater, upside down, through extremes of heat and cold - made with aircraft-grade aluminium, it will write wherever you want.

**Reversible Base Layer** - Designed to keep you warm or cool, the base layer adapts to your environment. Constructed with Merino wool and high-performance fabrics with wicking qualities.

**Mirovia Seam Sealed Backpack** – Resiliently protective. Its large, water-resistant roll top and heat-sealed seamed construction help defend contents from the elements.

**Above & Beyond Flask** - Essential for all journeys, made from double-walled stainless steel with a 500ml capacity. Robust construction for all environments with a paracord for ease of carrying.

## PROUD PARTNERS

Tusk Trust - one of our prized partners for some 15 years - does truly remarkable work in the Borana Conservancy in Kenya. So where better to put Defender through additional tests? One of our prototypes went out there to tow heavy loads, wade through rivers and carry supplies across unforgiving terrain in a series of real-world trials at the 14,000-hectare reserve. Needless to say, the vehicle proved itself beyond any doubt.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories, and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications or availability, nor does it constitute an offer for the sale of any particular vehicle, part or accessory. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

COLOURS: Image colours reproduced here are provided for illustrative purposes only. Colours are reproduced on-screen and may therefore vary compared to the actual finish. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Information and images displayed in relation to the InControl technology, including Touchscreen, App screens, or sequences are subject to regular software updates, version control and other system/visual changes depending on options selected.

Optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times. Certain features require an appropriate SIM with a suitable data contract, which will require a further subscription after the initial term advised by your Retailer.

#### Standard

\*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO<sub>2</sub> and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **\*\*WLTP** is the new official EU test used to calculate standardised fuel consumption and CO<sub>2</sub> figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. <sup>†</sup>TEL (Test Energy Low) and TEH (Test Energy High) figures are shown as a range under WLTP testing measures. TEL refers to the lowest/most economical figures (with the lightest set of options). TEH refers to the highest/least economical figures (with the heaviest set of options). WLTP legislation dictates that where there is <5g CO<sub>2</sub> variance between TEL and TEH, only the TEH is declared.

Engine availability is market dependent. Please consult your local Land Rover Retailer for details.

\*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO<sub>2</sub> and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. \*\*WLTP is the new official EU test used to calculate standardised fuel consumption and CO<sub>2</sub> figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. <sup>†</sup>TEL (Test Energy Low) and TEH (Test Energy High) figures are shown as a range under WLTP testing measures. TEL refers to the lowest/most economical figures (with the lightest set of options). TEH refers to the highest/least economical figures (with the heaviest set of options). WLTP legislation dictates that where there is <5g CO<sub>2</sub> variance between TEL and TEH, only the TEH is declared.

Engine availability is market dependent. Please consult your local Land Rover Retailer for details.

Class A (All wheels with All-season tyres) Class C (All wheels with Off-road tyres)

PET	ROL	

\*6.4 (6.1) on P400 X models. \*\*Max speed is 208km/h (129mph) when fitted with 22" wheels. †Weights reflect vehicles to standard specifications. Optional extras increase weight. <sup>††</sup>Includes a 75kg driver, full fluids and 90% fuel. <sup>‡</sup>Includes full fluids and 90% fuel. <sup>‡‡</sup>P400 X model. <sup>o</sup>Dependent on specifications and seating configuration. <sup>A</sup>Dynamic roof load allows for up to 168kg when fitted with Off-road tyres.

Engine availability is market dependent. Please consult your local Land Rover Retailer for details.

# DEFENDER 90 DIMENSIONS AND CAPABILITY

#### **RIDE HEIGHT**

With roof antenna (Coil suspension / Air suspension) 1,974mm / 1,969mm

### HEADROOM

Maximum front/rear headroom with standard roof 1,030mm / 980mm with panoramic roof 1,030mm / 946mm with folding fabric roof 1,030mm / 946mm

#### LEGROOM

Maximum front legroom 993mm Maximum rear legroom second row 929mm

### LOADSPACE CAPACITY

Height 904mm, Width 1,183mm Loadspace width between arches 1,124mm Maximum loadspace volume behind first row Dry\* 1,263 litres, Wet\* 1,563 litres behind second row Dry\* 297 litres, Wet\* 397 litres

#### **OBSTACLE CLEARANCE**

Off-road (Coil suspension / Air suspension) 225mm / 291mm Standard (Coil suspension / Air suspension) 225mm / 216mm

#### **TURNING CIRCLE**

Kerb-to-kerb 11.3m Wall-to-wall 12.0m Turns lock-to-lock 2.7

#### WADING DEPTH

Maximum wading depth Air suspension 900mm Coil suspension 850mm

\*Dry: volume as measured with VDA-compliant solid blocks (200mm x 50mm x 100mm). Wet: volume as measured by simulating the loadspace filled with liquid. \*\*In off-road height and tow eye cover removed.

Fitting of side tubes or side steps may affect the off-road capability of the vehicle. Challenging off-road driving requires full training and experience.

Width 2,008mm mirrors folded Width 2,105mm mirrors out

Front wheel track Air suspension 1,706mm Coil suspension 1,704mm

Rear wheel track 1,702mm

Length behind first row 1,313mm

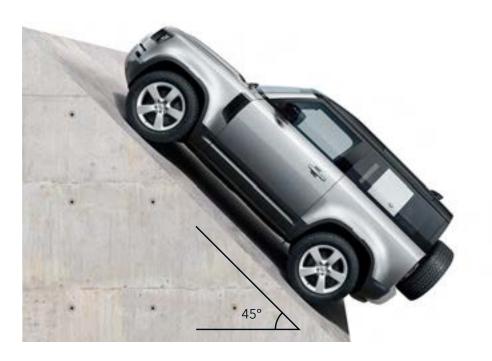

Overall length 4,583mm

A Ride Height Approach Angle Off-road\*\* - Coil (Air) 31.5° (38.0°) Standard - Coil (Air) 31.0° (30.1°) B Ramp Angle 25.5° (31.0°)

25.0° (24.2°)

C Departure Angle 35.5° (40.0°) 37.9° (37.6°)

# **DEFENDER 110** DIMENSIONS AND CAPABILITY

#### **RIDE HEIGHT**

With roof antenna 1,967mm

HEADROOM Maximum front/rear headroom 1,032mm / 1,025mm

### LEGROOM

Maximum front legroom 993mm Maximum rear legroom second row (5 seat / 5 + 2 seat) 992 / 975mm

### LOADSPACE CAPACITY

Height 904mm, Width (5 seat / 5 + 2 seat) 1,211 / 1,188mm Loadspace width between arches 1,160mm Maximum loadspace volume behind first row (5 seat/5 + 2 seat) Dry\* 1,946 / 1,826 litres, Wet\* 2,380 / 2,233 litres behind second row (5 seat/5 + 2 seat) Dry\* 857 / 743 litres, Wet\* 1,075 / 916 litres behind third row Dry\* 160 litres, Wet\* 231 litres
