

RANGE ROVER EVOQUE

2012

The all-new Range Rover Evoque. A Range Rover with an altogether different spirit. The most exciting vehicle in a generation. Bold and sophisticated in design. With clever technology that's innovative, relevant and always intuitive to use. Nothing else looks like it, feels like it, or drives like it. In fact, Range Rover Evoque is a quantum leap in the evolution of Range Rover.

Those ultimate touches of personal choice and practicality.

Design

The all-new Range Rover Evoque. Design that is inspired by the vibrancy and energy that defines the greatest cities on earth. A spirit that belongs to a new generation. Bold and uncompromising. Unique. Original. With an attitude that's got whatever it takes. The future transformed into stunning reality.

Unashamedly on-road with an all-new chassis, Range Rover Evoque provides an engaging blend of dynamic and sporty handling with impressive refinement. The lightweight, compact footprint of the vehicle and the low center of gravity facilitate both quick responses and extraordinary agility. And with the availability of Adaptive Dynamics with advanced MagneRide™ dampers there is an optimum balance between confident, nimble handling and a supple, controlled ride.

Range Rover Evoque masters all surfaces and all weathers, using legendary Land Rover all-terrain technologies. It is smaller, lighter – the most efficient Range Rover... ever. A true Range Rover in compact form, a new class of SUV.

RANGE

Available in two distinct body styles. Range Rover Evoque and Range Rover Evoque Coupe. Bold, assertive design that is also available in three distinct derivatives; Pure, Prestige and Dynamic – each one offering a tempting array of choices and technology.

Range Rover Evoque

The five-door version, with its sleek, striking coupe design and a more practical profile to suit specific lifestyle needs.

Range Rover Evoque Coupe

The compact premium crossover, with its breathtaking contemporary design. A bold, new interpretation of classic Range Rover design cues with a dynamic profile and powerful stance.

Exterior design

Utterly contemporary, with a sporty, dynamic profile. The Range Rover Evoque offers a new interpretation of classic Range Rover design cues including the signature clamshell hood, the floating roof and the prepared-for-anything 'wheel at each corner' stance. There's a new, dramatic rising beltline – a muscular shoulder runs the length of the vehicle – and a unique, distinctly athletic taper to the roofline which is emphasized by the black pillars. Range Rover Evoque always makes an entrance. It is unmistakably Range Rover in its confidence

with the bold horizontal graphic that is created by the perforated two-bar grille and distinctive headlamps.

Superbly designed. Carefully created by Land Rover designers to give more opportunity for individual expression and to make every journey more personal. It is the true Range Rover experience on a compact scale. The striking exterior design conveys an immediate sense of luxury with its precision build quality and

the use of eye-catching metallic finishers or sophisticated details such as the vents on the hood (Coupe only) and at the side of the vehicle, as well as the jewel-like characteristics of the front* and rear lamps with their LED signature lighting* and the tapering blade indicator clusters.

The advanced lighting technology achieves outstanding performance as well as providing some of the vehicle's most striking signature design elements.

The innovative LED lighting systems are used to create the unique graphics of the front lights* and complex 3D 'petal' design in the rear lamps. Night-time driving is also enhanced with the optional availability of adaptive xenon headlamps. These optional headlamps have an adaptive feature to provide added illumination and Automatic High Beam Assist which detects light from oncoming traffic and switches automatically between high and dipped beams as appropriate.

*Certain models only.

Range Rover Evoque Prestige shown in Fuji White

Pure

The purest expression of the Range Rover Evoque design form and intent.

Prestige

The ultimate in Range Rover Evoque luxury with an exterior that offers excitement and an interior that is sheer indulgence.

Dynamic

The boldest expression of Range Rover Evoque with sports interior themes and daring gloss black detailing.

Sports command driving position

Range Rover Evoque introduces the new Sports Command Driving Position with optional 6-way and 8-way seats. This offers a new take on the feeling of control and command that is an integral feature on every Range Rover. The driver sits lower, 'in' the vehicle, cocooned by the interior with all important information clearly visible and all controls easy to reach. The result is a drive that is sportier than ever while retaining the legendary Land Rover view of the road ahead and the surrounding environment.

Luxury finishes

The same ethos of luxury, quality and attention to detail that goes into every other, larger Range Rover vehicle. The same ethos is behind the materials. The fine leathers. The authentic metal and real wood finishers and innovative recycled materials. Whichever Range Rover Evoque you choose, it's a true Range Rover.

Depending on your choice of Range Rover Evoque model, there are two grades of high quality leather available. The Prestige model features Oxford leather with its beautifully soft, high-grade hides which have been specially selected for their tactility and appearance. The finest twin-needle stitching also features on Range Rover Evoque. From its length and direction, to its color and the

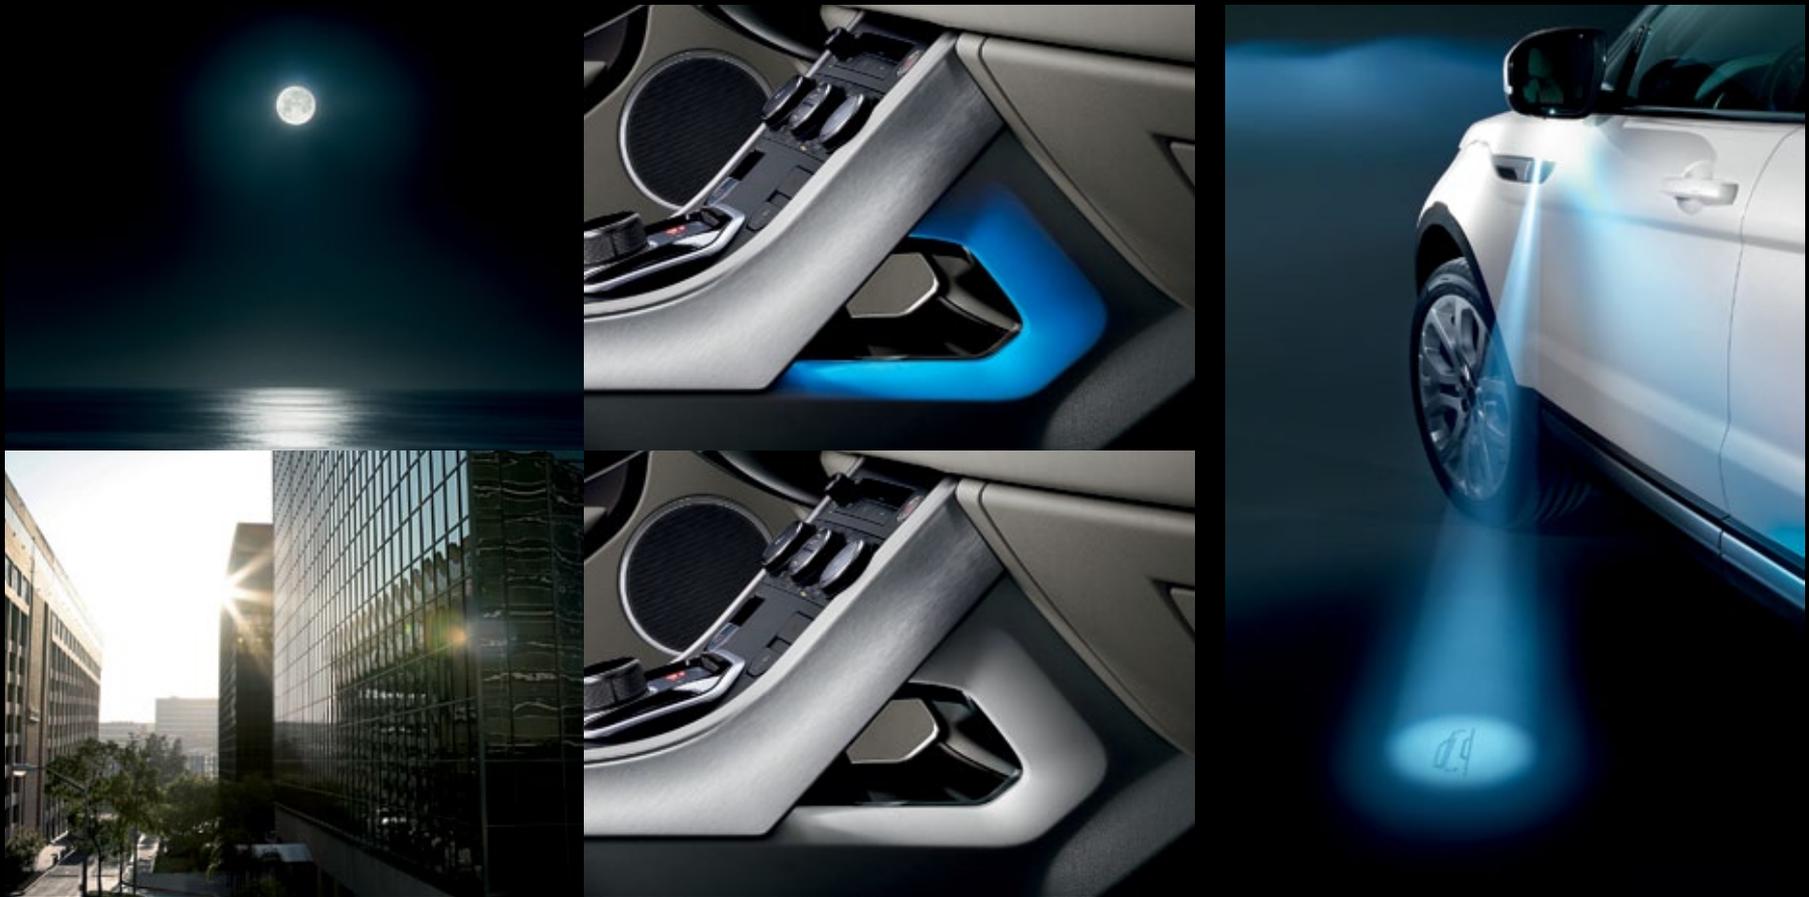

excellence of the thread and even the size and shape of the needle: it all guarantees the highest quality finish. The luxury in Range Rover Evoque also extends to the rear accommodation which offers generous legroom and provides a surprisingly spacious environment.

Features

Even as the driver activates the remote key fob to unlock the Range Rover Evoque, the vehicle stirs, illuminating puddle lamps that project the unique 'Range Rover Evoque' graphic onto the ground. Once inside the vehicle, start up is a moment of pure theater. The transmission's Drive Select rotary shifter purposefully rises from the center console to 'greet' the driver. The needles on the twin dials dramatically sweep across the face of the instrument panel. Living with Range Rover Evoque is rewarding, memorable and exciting.

Lighting

Range Rover Evoque is enhanced with ambient interior LED mood lighting. This can be configured to suit personal tastes with a choice of five colors and a variety of brightness settings. To add a real sense of occasion automatic color changes are activated when the driver chooses the optional Dynamic Program on Terrain Response®, changing the ambient lighting to red.*

*Only available with optional Adaptive Dynamics

Panoramic glass roof

There is also the standard full-size, fixed panoramic glass sunroof, cleverly engineered to maximize its length and width to create a sensation of space and light, as well as providing uninterrupted views of the surrounding environment. Importantly the toughened glass has a dark tint to protect occupants and the interior from the sun's rays. A full-sized interior blind is also provided for those who may prefer a more private experience.

Lightweight materials

Starting at just 3902lbs and using a range of advanced lightweight materials, Range Rover Evoque is the lightest Range Rover model ever. There are key weight-saving materials throughout the vehicle, including an aluminum hood and roof and a magnesium cross car beam. The front fenders and tailgate assembly are constructed from composite materials. Even the thickness of the acoustically laminated windscreen is reduced to save weight and improve fuel efficiency, performance and handling. The interior has also been independently tested by a leading international consultancy to help ensure that occupants enjoy an allergy-free environment. The interior trim materials have been dermatologically tested by an independent laboratory to minimize allergenic effects from materials. The pollen filter has been tested to ensure it reduces pollen migration to the vehicle cabin interior. This reduces potential allergenic symptoms for people who suffer from allergies and for those with sensitive skin.

2.0 liter engine

The 2.0 liter engine comes in a lightweight all-aluminum unit with the latest direct-injection technology, advanced turbocharging and twin independent variable valve timing to help lower fuel consumption and CO₂ emissions by up to 20 percent compared with traditional larger capacity engines delivering equivalent performances. The engine is fitted with a 6-speed automatic transmission that has been engineered to improve fuel economy and that features Drive Select, an advanced rotary gearshift with steering wheel mounted paddle shifters. It also delivers a rich, powerful engine sound during strong acceleration and features a unique exhaust manifold for quicker warm-up and lower emissions, a low friction design and a state-of-the-art electronic management system. This includes Smart Regenerative Charging, which prioritizes the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption.

1000 TIMES PER SECOND

On-road dynamics

With its lightweight and more compact footprint, Range Rover Evoque offers the enthusiast driver quicker responses and greater agility. Available on Dynamic models, Adaptive Dynamics with advanced MagneRide™ monitors vehicle movements at least 1000 times per second, reacting to driver or road inputs instantaneously to give greater control and minimize body roll, providing a balanced, flat ride. The system will even sense off-road conditions and optimize damping accordingly.

Range Rover Evoque features the latest in power assisted steering technology. EPAS (Electric Power Assisted Steering) delivers accurate, consistent steering and agile cornering. Power assistance is speed-sensitive for lightness and responsiveness at low speeds and increased firmness at higher speeds. When compared with a conventional power steering system, EPAS is more energy efficient and can reduce fuel consumption as well as CO₂ emissions by up to 3 percent.

DYNAMIC PROGRAM

GENERAL DRIVING

GRASS/GRAVEL/SNOW

MUD & RUTS

SAND

All surface

Like every Range Rover vehicle, Range Rover Evoque optimizes performance and capability in various on and off-road conditions. It does this by employing a suite of innovative technologies including Terrain Response®, which adapts the Range Rover Evoque engine, transmission and electronic systems to maximize drivability, comfort and traction.

There are four Terrain Response® settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. A fifth Dynamic setting is added when optional Adaptive Dynamics* is specified.

*Adaptive Dynamics only available on Dynamic models.

-  GENERAL DRIVING
-  GRASS/GRAVEL/SNOW
-  MUD & RUTS
-  SAND

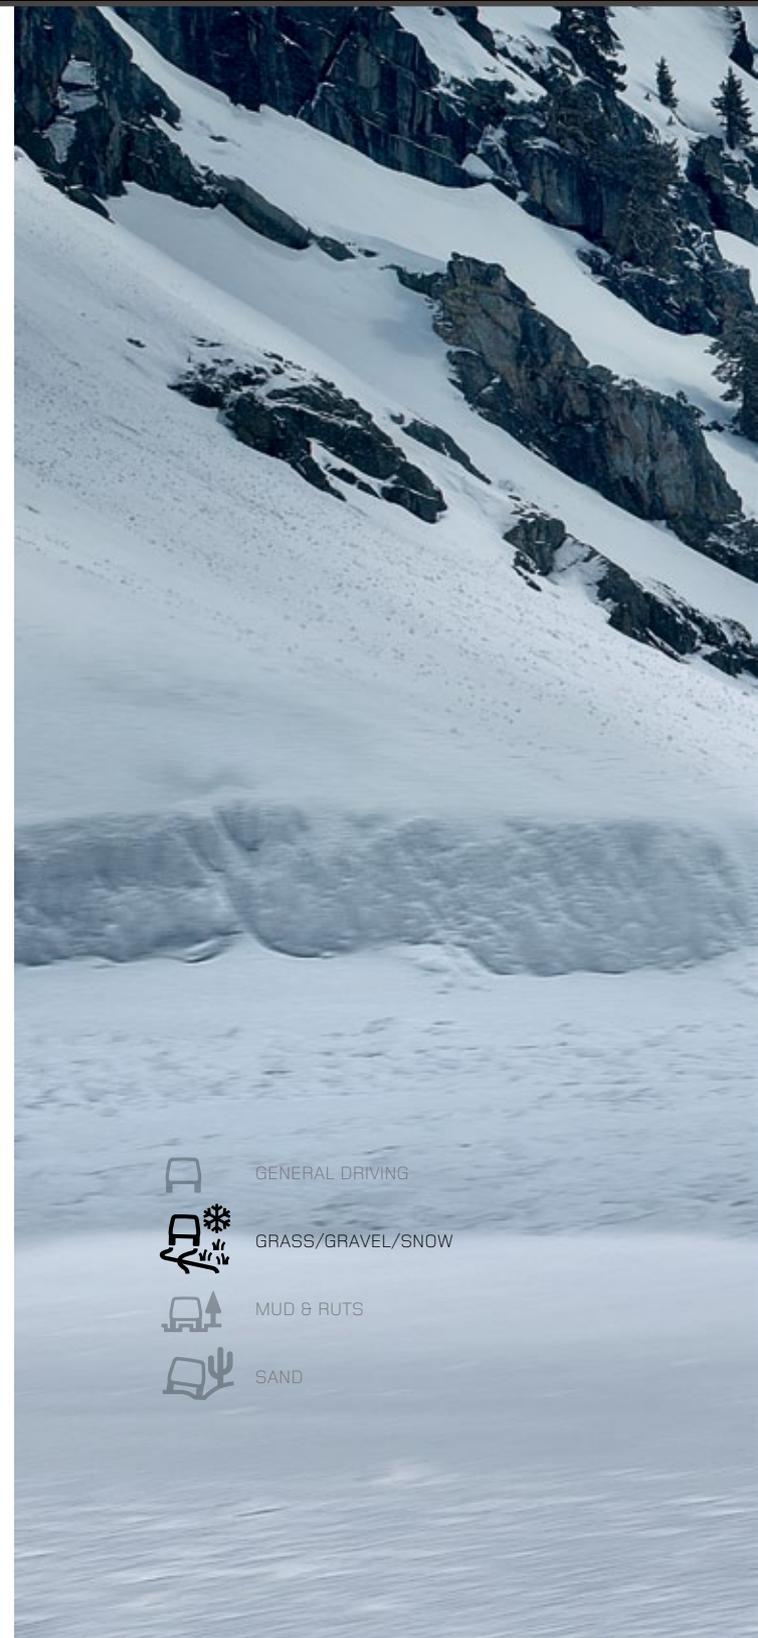

All weather

Other cutting-edge technologies include the Land Rover patented Hill Descent Control (HDC®) which assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel. Gradient Release Control (GRC) which is designed to prevent the vehicle 'running away' on a steep incline when the driver inadvertently releases the brake and Hill Start Assist which is designed to prevent roll back after a hill start.

There is also Dynamic Stability Control (DSC). Designed to correct over- and under-steer, DSC interacts with the engine and brakes to help maintain stability. Electronic Traction Control (ETC) senses when wheel slip is occurring and uses the braking system to minimize wheel spin. Roll Stability Control (RSC) detects critical levels of roll and applies braking to increase the turn radius to help reduce the likelihood of a rollover.

-  GENERAL DRIVING
-  GRASS/GRAVEL/SNOW
-  MUD & RUTS
-  SAND

Audio

Range Rover Evoque is packed with clever, relevant technology including state-of-the-art connectivity. This includes Bluetooth® for both hands free connection to the vehicle's in-built phone system with a compatible mobile phone and audio streaming for the enjoyment of personal music from a portable Bluetooth device via the audio system. Essential connectivity for iPod®, MP3 and USB memory stick is also provided via direct inputs.

All audio options on Range Rover Evoque achieve the highest possible sound quality with two In-Car Entertainment Systems available. They offer unsurpassed performance and enjoyment for driver and passengers alike.

By working with Meridian, a world leader in audio technologies and digital sound processing, Land Rover has also developed two advanced audio systems to delight the most discerning music fans.

The 380W Meridian Sound System features 12 channels and 11 speakers including a dual-channel subwoofer. The Meridian Surround Sound System produces an incredible 825W of surround sound through 15 channels and 17 speakers including subwoofer. Meridian systems offer unique technologies that provide superior audio performance within the confined space of a vehicle. Digital Signal Processing (DSP), for instance, allows a speaker to perform with the characteristics of a speaker of eight times the volume.

The result is the very best in world-class audio reproduction with sound that is real and totally convincing...it's just as the artist intended. Also pioneered by Meridian is Trifield technology which ensures a perfect stereo image for each occupant, producing an holistic sound within the cabin to further improve the concert-like experience. A special feature, Dynamic Volume, detects variations in the cabin and balances out the sound quality so that it's consistent throughout the car.

iPod® is a registered trademark of Apple Inc., registered in the US and other countries. The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.

Interior technologies

The interior of the Range Rover Evoque features a suite of the latest technologies to provide driver and passengers with the most comfortable, most enjoyable experience possible.

All driver displays present clear, useful information. The centerpiece of the vehicle and the hub for controls and Infotainment is the 8-inch color Touch-screen in the fascia. This provides the latest in technology with exceptionally clear graphics.

Also available is HD Radio® and Sirius® Satellite Radio*, plus a highly intuitive, powerful voice control system that includes the latest 'Say What You See' technology. And of course, connectivity is state-of-the-art with Bluetooth® streaming as well as USB/iPod® connections for handsfree phone operation and the choice of listening to the audio system.

The steering wheel houses controls for convenient features that are standard on Range Rover Evoque. This includes Cruise Control, primary audio controls and Bluetooth® phone connectivity.

There are also separate twin 5-way toggle switches on the steering wheel to maximize control and ease-of-use of the Infotainment systems and Driver Information Display. The Driver Information Display's 5-inch full color screen, conveniently located between the two instrument dials, presents primary vehicle information such as temperature and fuel levels and Terrain Response® settings as well as turn-by-turn navigation information and 'Say What You See' voice control prompts.

The Hard Disk Drive (HDD) Premium Navigation system allows features to be accessed more quickly – for instance, route finder and route recalculation times are significantly reduced – helping minimize delays in determining directions for the driver. The system includes an 'eco' feature, which shows the most economical route to your destination.

Rear Park Aid. This convenient feature is standard on Range Rover Evoque. Other standard advanced driver technologies include Front Park Aid, a Rear Camera system, a powered electric tailgate and keyless entry.

The optional Rear Seat Entertainment System has the ability to play high quality DVD Video and route it through the 8-inch screens located in the back of the front headrests.

The system can play MPEG4 DivX video files stored on a USB Device plugged into a USB Port located in the vehicle.

Every Rear Seat Entertainment system comes with a Touch-screen remote control, which allows intuitive and user friendly operation. Two wireless digital headphones featuring WhiteFire® technology provide high quality sound and clarity to occupants using the Rear Seat Entertainment System.

*Subscriptions governed by Sirius Terms and Conditions available at sirius.com. Service available in the 48 contiguous United States and D.C. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries. HD Radio® is a trademark of iBiquity Digital Corporation.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.

Please note: these systems are not a substitute for driving safely with due care and attention and will not function under all circumstance, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Surround camera, tow assist, blind spot monitoring

The Surround Camera system utilizes five discreetly placed digital cameras to relay an almost 360 degree view around the vehicle to the 8-inch Touch-screen display on the fascia. The system provides a number of driver-assist features and can be invaluable when maneuvering on-road and off-road. The five digital cameras are housed around the exterior of the car – two at the front, one on either side of the vehicle and one at the rear.

Tow Assist, part of the Surround Camera system, is a next generation reversing aid that predicts the rearward trajectory of both vehicle and trailer. This helps the driver perform more accurate maneuvers and is selected from the Touch-screen menu. Wide-view cameras on the vehicle give a clear field of vision; guidelines are superimposed over the resulting image to highlight the predicted reversing path for the vehicle and trailer.

Blind Spot Monitoring is also available. This system uses side-mounted radars to warn of vehicles in the driver's blind spot. A bright amber warning icon is illuminated in the appropriate door mirror when a hazard is identified.

Please note: It remains the driver's responsibility to detect obstacles and estimate the vehicle's distance from them when reversing. Always be vigilant when reversing. The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

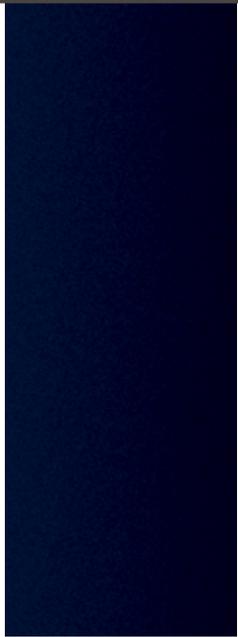

Choices

You're already making a statement with your Range Rover Evoque. Now you can express your individuality even more with one of the fabulous roof options.

Vehicles shown from left: 1. Range Rover Evoque Prestige in Indus Silver with panoramic roof. 2. Range Rover Evoque Prestige in Colima Lime with panoramic roof. 3. Please discuss your requirements with your Land Rover Retailer for further details.

Interior finishers

The solidity and substantiality of real metal. Authentic aluminum finishers are used on every Range Rover Evoque. Each piece goes through more than twenty distinct processes resulting in exquisitely crafted detailing of superior quality with that telltale cold touch.

And while the use of traditional materials is reinvented with new imagination and creativity, such as with a modern take on wood, Range Rover Evoque also innovates with the latest recycled materials. The use of recycled materials, which have been specifically selected for their quality and luxury characteristics, is an integral part of the Range Rover Evoque 'philosophy'.

In fact, 34lbs of premium recycled materials make a significant contribution to Range Rover Evoque. That's the equivalent of nearly one thousand 16.9oz plastic bottles. A further 46lbs of natural materials are used in the vehicle, including leather for the seat covers, instrument panel and door casings.

Pure – Satin Brushed Aluminum trim finisher

Prestige – Figured Macassar wood trim finisher

Prestige – Dark Grey Oak wood trim finisher

Dynamic – Textured Aluminum trim finisher

Pure

Grained leather interiors in a range of color themes highlight the minimalist contours of the cabin architecture. Soft-touch, wrapped materials on key surfaces contrast with the cool-touch, genuine brushed aluminum. Plus a choice of stunning alloy wheels. This is Pure.

5. Textured Aluminum trim finisher

DIMENSIONS & CAPABILITIES

Wheelbase 104.8 inches (2,660mm)
 Overall length 171.5 inches (4,355mm)†/171.9 inches (4,365mm)‡
 †Pure/‡Dynamic

A Approach Angle 25°/19°†
 B Ramp Angle 22°
 C Departure Angle 33°/30°†
 †Dynamic

Height 63.2 inches (1,605mm)*/64.4 inches (1,635mm)**
 Front wheel track 63.9 inches (1,625mm)
 Width including mirrors 83.7 inches (2,125mm)
 Width with mirrors folded 77.4 inches (1,965mm)
 *Range Rover Evoque Coupe **Range Rover Evoque

Wheelbase 104.8 inches (2,660mm)
 Overall length 171.5 inches (4,355mm)†/171.9 inches (4,365mm)‡
 †Pure and Prestige/‡Dynamic

Wading Depth
 Maximum wading depth 19.7 inches (500mm)

Obstacle Clearance
 Front axle clearance 8.4 inches (215mm)
 Rear axle clearance 9.5 inches (240mm)

Luggage Capacity

Rear seats upright
 Height 33.1 inches (840mm)*/34.3 inches (870mm)**
 Width 43 inches (1,090mm)
 Loadspace volume 19.4 cubic feet (550 liters)*/20.3 cubic feet (575 liters)**
 Loadspace width between arches 39.2 inches (1,000mm)

Rear seats forward
 Length 62.2 inches (1,580mm) Width 43 inches (1,090mm)
 Loadspace volume 47.6 cubic feet (1,350 liters)*/51 cubic feet (1,445 liters)**
 Loadspace width between arches 39.2 inches (1,000mm)
 Maximum box size (width x height)
 35.5 inches (900mm) x 24.4 inches (620mm)*/35.5 inches (900mm) x 24.6 inches (625mm)**

Headroom

Maximum front headroom
 39.1 inches (995mm)*/ 40.3 inches (1,025mm)**
 Rear headroom 38.2 inches (970mm)*/39.7 inches (1,010mm)**

*Range Rover Evoque Coupe **Range Rover Evoque

TECHNICAL SPECIFICATION

Transmission Data	Range Rover Evoque/Range Rover Evoque Coupe
Transmission type	Automatic
1st :1	4.148
2nd:1	2.370
3rd :1	1.556
4th :1	1.155
5th :1	0.859
Gear ratio 6th :1	0.686
Reverse :1	3.394
Final Drive ratio :1	3.750

Steering Data	
Turns lock-to-lock	2.47
Turning circle (Curb-to-curb)	11.3

Brakes	
Front Type	Ventilated disc
Front size (mm)	300
Rear Type	Solid Disc
Rear size (mm)	302
Parking	Electric Parking Brake integrated into brake calliper
ABS (Anti-Lock Braking System)	■

Transmission, Suspension & Driving Dynamics	
Driveline	4WD
Transmission - CommandShift® 6-speed automatic including Drive Select with paddle shift and sport mode	■
Electronic Power Assisted Steering (EPAS)	■
Electronic Traction Control System	■
Terrain Response®	■
Hill Start Assist	■
Hill Descent Control (HDC®)	■
Gradient Release Control	■
Gradient Acceleration Control	■
Adaptive Dynamics including Dynamic Program	□

Safety & Security	
Airbags - front (driver and front passenger), knee bolster (driver), side curtain (driver and passengers)	■
ABS (Anti-Lock Braking System)	■
Child seat ISOFIX anchor points	■
Cornering Brake Control (CBC)	■
Dynamic Stability Control (DSC)	■
Electric Parking Brake	■
Emergency Brake Assist (EBA)	■
Roll Stability Control (RSC)	■
Trailer Stability Assist (TSA)	■

PERFORMANCE & WEIGHTS

Weights	Range Rover Evoque/Range Rover Evoque Coupe
Weight from	3,615.6lb / 1,640kg
Gross vehicle weight**	3,902lb / 1,770kg
Maximum payload (including 165lb/75kg driver)	1,102.3lb / 500kg
Gross Axle Weight Rating (GAWR) Front/Rear	2,866lb (1,300kg) / 2,524.3lb (1,145kg)

Towing (towing pack optional)†	
Unbraked trailer	1,653.5lb / (750kg)
Trailer with over-run brakes/Maximum Towing	3,500lb / (1,585kg)

Fuel Economy* & Performance	
Highway mpg	28
City mpg	19
Combined mpg	23
CO ₂ emissions (g/km) Automatic	199
Maximum speed mph (kph)	135 (217)
0-60mph	7.1
0-100kph	7.6
Useable Fuel Tank Capacity gallons (liters)	18.49 (70)
Low Fuel warning gallons (liters)	3.06 (11.6)

Engine Data	
Location	Front Transverse
Capacity	1999
No. of cylinders	4
Cylinder layout	In-line
Bore inches/mm	3.44 inches/87.5mm
Stroke inches/mm	3.27 inches/83.1mm
Compression ratio (:1)	10
Cylinder head material	Lightweight Aluminum Alloy
Cylinder block material	Lightweight Aluminum Alloy
Ignition system	Bosch EMS
Valves per cylinder	4
Maximum power bhp @ rpm	240 @ 5500
Maximum torque lb/ft @ rpm	251 @ 1750

■ Standard □ Optional - Not Available

*EPA estimates. Actual mileage may vary.

**Including fluids, 90% fuel and 165lb/75kg driver.

†If towing for commercial gain, please refer to your Land Rover Retailer for information relating to digital tachograph installation.

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption.

Range Rover Evoque Vehicle Kit

It's your Range Rover Evoque. Unmistakably so with a range of exclusive accessories that reflects your lifestyle and your personality. Importantly, Range Rover Evoque accessories can be added at any stage during the vehicle's life...not just when it's new. A selection of accessories is illustrated here. Range Rover exclusive accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Visit www.LandRoverUSA.com for more information.

Please note: The vehicle shown above includes Stainless Steel Side Tubes – VPLVP0071, 20 inch Alloy Wheels Gloss Black Finish – VPLVW0071, Front and Rear Mudflaps – VPLVP0065/VPLVP0069 and Roof Mounted Bike Carrier – LR006847. The alloy wheels shown on page 39 may also be available as an accessory fitment. Please see your Land Rover Retailer for further details.

Featured Range Rover bike is a concept model only.

Roof Rails*

Silver Finish (shown above)

VPLVR0085

Maximum permissible load capacity 165lb (75kg).†

Vehicle height when fitted:

Range Rover Evoque 64.5 inches (1640mm)

Range Rover Evoque Coupe 63.3 inches (1609mm).

Roof Trim Finisher Kit

Silver Finish - VPLVR0089** Black Finish - VPLVR0090**

Roof Rails*

Black Finish (shown above)

VPLVR0086

Crossbars not included.

Crossbars*

Silver Finish

VPLVR0073

Vehicle height when fitted:

Range Rover Evoque 67.7 inches (1720mm).

Range Rover Evoque Coupe 66.8 inches (1697mm).

Adjustable position crossbars. Aerodynamic profile designed to minimize drag and noise. Lockable for security. Roof Rails not included.

Maximum permissible load capacity 165lbs (75kg).†

Luggage Carrier*

LR006848

Maximum permissible load capacity 165lb (75kg).†

Ski and Snowboard Carrier*
LR006849

Carries four pairs of skis or two snowboards. Lockable for security. Incorporates slider rails for easy loading. Maximum permissible load capacity 79lb (36kg).†

Luggage Box*
VPLVR0062

Gloss Black finish. Opens from both sides. Lockable for security. External dimensions: 62.9 inches (1600mm) long, 37.7 inches (960mm) wide, 16.1 inches (410mm) high. Volume 118.8 gallons (450 liters). Maximum permissible load capacity 165lb (75kg).†

Aqua Sports Carrier*
LR006846

Carries one surfboard, kiteboard, sailboard and mast, or one canoe or kayak. Maximum permissible load capacity 99lb (45kg).†

*Roof Rails and Crossbars or Sports Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted.

**Required for Roof Rails fitted to panoramic glass roof vehicles.

†Maximum permissible load capacity minus the weight of the roof mounted accessory.

Rubber Mat Set
VPLVS0124PVJ

Sports Pedal Covers
Automatic transmission vehicles – VPLHS0044

Waterproof Seat Covers

Range Rover Evoque:

Front Seat Entertainment Headrest
Ebony – VPLVS0075PVJ Almond – VPLVS0075SVA
Rear Seat without Armrest
Ebony – VPLVS0077PVJ Almond – VPLVS0077SVA

Range Rover Coupe:

Front Seat Entertainment Headrest
Ebony – VPLVS0074PVJ Almond – VPLVS0074SVA

Waterproof Seat Covers

Illuminated Tread Plates

Illuminates the words Range Rover when the driver or passenger door is opened.

Range Rover Evoque:

Ebony (shown above) – VPLVS0079PVJ
Espresso – VPLVS0079AAM
Lunar – VPLVS0079LAA
Cherry – VPLVS0079CJB

Range Rover Evoque Coupe:

Ebony – VPLVS0078PVJ
Espresso – VPLVS0078AAM
Lunar – VPLVS0078LAA
Cherry – VPLVS0078CJB

Load Retention System*

VPLVS0125

To secure luggage within the loadspace. Flexible and rigid luggage retainers with four D-ring fasteners included.

Loadspace Rubber Mat

VPLVS0091

Waterproof with retaining lip and non-slip surface. Compatible with the Cargo Barrier.

Social Seating*

VPLVS0101

Fold out seating for outdoor use. Stows neatly away in the loadspace. Maximum permissible weight 573.2lb (260kg). Introduced 2012.

Load Retention Net

VUB503130

Rigid Loadspace Protector (shown above)

VPLVS0089

Easy access to tie-down points where fitted. Not compatible with Cargo Barrier Full Height.

Flexible Loadspace Protector

VPLVS0090

Heavy duty fabric protects loadspace up to window height. Includes protective gloves.

Cargo Barrier Full Height (shown above)

VPLVS0081 – Range Rover Evoque Coupe models only
VPLVS0082 – Range Rover Evoque models only

Cargo Barrier Half Height

VPLVS0144 – Range Rover Evoque Coupe models only
VPLVS0145 – Range Rover Evoque models only

Help prevent cargo and animals from entering the passenger compartment. A small hatch is provided to allow longer items to be carried. (Full Height only)
Compatible with Rigid Loadspace Protector (Half Height only) and Loadspace Rubber Mat.

*Requires Loadspace Luggage Rails – VPLVS0102 when not fitted as standard.

Side Protection Tubes - Stainless Steel
VPLVP0071
Suitable for Pure and Prestige models only.

Draw Bar
VPLVY0061

Tow Hitch
VPLVT0067

Front Mudflaps
Mudflaps to reduce spray and help protect paintwork.
Pure and Prestige models (shown above) – VPLVP0065
Dynamic models – VPLVP0066

Rear Mudflaps
Pure and Prestige models (shown above) – VPLVP0069
Dynamic models – VPLVP0070

Towing Electrics*
VPLHT0062

*Please note: these accessories are not suitable for Caravans, Trailers or Lighting Boards fitted with rear mounted LED Lamp Kits.

The vehicle shown above includes Stainless Steel Side Tubes – VPLVP0071, 20 inch Alloy Wheels Gloss Black Finish – VPLVW0071, Front and Rear Mudflaps – VPLVP0065/VPLVP0069, Black Finish Roof Rails – VPLVR0086, Crossbars – VPLVR0073 and Ski and Snowboard Carrier – LR006849.

17 inch Accessory Alloy Wheel – LR024421 This is the only 17 inch wheel available on Range Rover Evoque and Range Rover Evoque Coupe
Snow Traction System – LR005169 Suitable for 17 inch front wheels only
Bulb Kit – VPLHV0060
Electric Cool Bag – VUP100140L Powered by the 12 Volt auxiliary socket
Tow Strap – STC8919AA

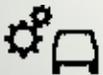

IN SUPPORT OF

International Federation of Red Cross and Red Crescent Societies

At Land Rover we do this by investing in four key areas:

e_TERRAIN® TECHNOLOGIES. EFFICIENT POWER SYSTEMS, LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions by 2015, as part of our carbon management plan. The all-new Range Rover Evoque and LR2 vehicles include innovative stop start technology (on the diesel manual gearbox) and Intelligent Power System Management (IPSM) with regenerative braking, just two examples of e_TERRAIN® TECHNOLOGIES that reduce our vehicles carbon footprint. What's more, Land Rover's Adaptive Dynamics System constantly monitors vehicle performance, to enhance driving and emissions efficiencies.

FACT

We will use life cycle assessment to understand the environmental impact of our vehicles, including the use of e_TERRAIN® TECHNOLOGIES, beginning with Range Rover Evoque.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company, we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based on 2007 levels. Our activities include factory energy efficiencies, cutting transport miles and the carbon offset of all CO₂ emissions from manufacturing assembly. But it doesn't stop there. Every new vehicle is designed to be 85 percent recyclable and reusable, in addition 95 percent recoverable and reusable, with 10 percent specifically for energy recovery.

FACT

Turning waste food into energy in a trial at our headquarters in Gaydon, has diverted 43 tons of waste from landfill and saved 3.7 tons of CO₂ emissions.

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every ton of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent ton of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and Forum for the Future, CO₂ offsetting allows us to take action now, to reduce our impact on the environment, as part of our integrated carbon management plan.

FACT

We plan to offset approximately 3,000,000 tons of CO₂ emissions by 2012.

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION AND SOCIETY'S GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

FACT

In 2010, Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People Around the World'. Land Rover has supported the IFRC's life saving work since 2007 and to date has given over £4m in vital funding and vehicle support to help vulnerable people around the world.

LAND ROVER FINANCIAL GROUP* provides competitive rates and programs, at the level of customer service you expect and deserve. With Land Rover Financial Group you will benefit from:

- A wide-range of financing programs for new and pre-owned Land Rover vehicles designed to meet the varied credit needs of consumers
- One-stop shopping – apply for financing through your local Land Rover Retailer
- Flexible financing terms
- Convenient payment methods including online payments, automatic deductions from a checking account, and Chase branches nationwide
- Online monthly statements which are secure, fast and simple while saving paper
- An outstanding customer service team

Enjoy the Benefits of Land Rover Ownership Today! Apply to finance a new or pre-owned Land Rover or lease a new Land Rover. Ask your local Land Rover Retailer for more information on Land Rover Financial Group or visit **LandRoverUSA.com**

*Chase provides auto financing, leasing and servicing to Land Rover customers through Land Rover Financial Group. Subject to credit approval. Other terms and conditions apply.

IMPORTANT NOTICE: This publication is intended for international usage and while Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,000 miles/1,600 kilometers (whichever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be available in your market. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
