RANGE ROVER EVOQUE
2018
Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one united with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.
THE RANGE ROVER EVOQUE MARKS A BOLD EVOLUTION OF RANGE ROVER DESIGN. WITH ITS DRAMATIC RISING BELTLINE, A MUSCULAR SHOULDER RUNNING THE LENGTH OF THE CAR, AND A DISTINCTIVE TAPER TO THE FLOATING ROOFLINE, THE RANGE ROVER EVOQUE ADOPTS A VERY DYNAMIC PROFILE WITH A POWERFUL AND ATHLETIC STANCE.

Gerry McGovern.
Land Rover Design Director and Chief Creative Officer.

Scan to view the Range Rover Evoque in action.

Vehicles shown are from the Land Rover global range. Specifications, options and availability will vary between regions and should be verified with your nearest Land Rover retailer.

With its striking lines, muscular shoulder and tapered roof, Range Rover Evoque sets itself apart from its contemporaries. Whether discovering hidden parts of town or being seen in all the right places, it’s always ready for action. Striking the perfect balance between distinctive exterior design, a contoured cabin, capability and performance, it defines contemporary city life.

Optional adaptive full LED headlights complement the vehicle’s design cues by combining a distinctive look with enhanced light output. The headlights’ adaptive function enables light beams to be automatically aligned with steering inputs and follow curves in the road*. The Daytime Running Lights (DRLs) have a distinctive signature which also serves as the directional indicator where it flashes amber.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

Vehicle shown: Range Rover Evoque HSE Dynamic Five-door in Yulong White with optional 20” alloy wheels.
CONVERTIBLE EXTERIOR

Range Rover Evoque has defined the compact SUV with its design cues that have become synonymous with design and contemporary living. The vehicle goes even further with Range Rover Evoque Convertible. A premium compact Convertible SUV, setting new standards in design, capability and sheer driving pleasure.

Vehicle shown: 2018 Range Rover Evoque HSE Dynamic Five-door in Yulong White with optional 20” wheels.

The Five-door model ensures practicality while retaining the instantly recognizable design cues of the Range Rover Evoque. The floating roof, rising beltline and athletic form truly reflect life in the city today. The interior space is both thoughtfully planned and superbly finished. Whether taking family or friends around town or heading off to some quiet spot in the countryside for lunch, the vehicle’s comfortable seating ensures that all arrive feeling relaxed and ready to go.

Range Rover Evoque Convertible takes the vehicle’s inherent capability and superb looks to another level. Its distinctive lines exude confidence, individuality and poise while the spacious interior enables four passengers to travel in comfort.

The desirability of the exterior design continues inside. The Range Rover DNA is communicated throughout the interior by the superb detailing, strong lines and clean surfaces combined seamlessly with contemporary trim.

A range of individual features provide added appeal to the door, architectural shapes of the vehicle’s interior. The seats incorporate the latest technologies such as climate control options in the front seats to ensure a truly relaxed and comfortable ride. Details include the use of premium materials such as perforated Windsor leather, twin-needle stitching and deeply padded door inserts. Perforated Windsor leather seats are standard on HSE, HSE Dynamic, and Autobiography models.

The 10” Touchscreen* is a superb addition to the interior, becoming the centerpiece of the dash. With a 21:9 wide format and 80 percent more pixels than the standard 8” touchscreen, the feature is available on SE, SE Premium and Landmark Edition and comes as standard on the HSE, HSE Dynamic, Autobiography and both Convertible models.

The Sport Command Driving Position in Range Rover Evoque ensures a greater view of the road ahead so terrains can be tackled with confidence.

INTERIOR

SPORT COMMAND DRIVING POSITION

The Sport Command Driving Position in Range Rover Evoque ensures a greater view of the road ahead so terrains can be tackled with confidence.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. 2018 Range Rover Evoque. HSE Dynamic in Yulong White, with optional 20” wheels.

Vehicle shown right: 2018 Range Rover Evoque HSE Dynamic in Yulong White, with optional 20” wheels.
CARGO SPACE CAPACITY

The cargo space in the Range Rover Evoque is a functional as well as a stylishly appointed space. All models contain ample luggage room for the perfect weekend getaway or that last minute shopping trip. The five-door body style offers flexible seating which can be easily configured with the rear 60:40 split seating arrangement, or for maximum cargo space, the rear seats can be folded down. When the rear seats are upright, there is a healthy cargo space of 20.3 cu.ft. on the Five-door.

The Convertible tailgate has been designed to allow easy access to the cargo space and even has an optional ski hatch which also doubles as an armrest. The cargo space capacity, 8.9 cu.ft., remains unchanged regardless of the roof position and is able to accommodate a standard golf bag, or a baby stroller.

Vehicle and interior shown above: 2018 Range Rover Evoque HSE Dynamic Convertible with Black Design Package in Phoenix Orange.

Vehicle shown right: 2018 Range Rover Evoque SE Five-door with optional 20” alloy wheels in Corris Grey.
CONVERTIBLE ROOF

The vehicle utilizes a fabric Z-folding Convertible Roof System. It is electrically operated, with opening and closing easily controlled by a switch in the center console, an action that can be completed while the vehicle is traveling up to 30 mph*. The Ebony roof complements the complete color palette. The roof has an acoustic inner lining to reduce road noise and to provide insulation to the cabin.

The wind deflector improves front seat comfort with the Convertible roof down by reducing drafts from the rear of the cabin.

*Always follow local speed limits.

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

**SUSPENSION**
You’re unlikely to push any Land Rover vehicle harder than we have. For an unrivalled breadth of dynamic capability, both on and off-road, the vehicles have been exposed to years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

**WIND SPEED**
Range Rover Evoque was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

**MONSOON**
Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator each one is drenched with some 18,697 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.

**HOT AND COLD CLIMATE**
In real world environments and our climate chambers, we freeze vehicles to -40°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

**SUSPENSION**

**WIND SPEED**

**MONSOON**

**HOT AND COLD CLIMATE**

**DRIVING TECHNOLOGY TESTING**

**OFF-ROAD**
From the icy proving grounds of Arjeplog, Sweden, to Dubai’s unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 5,282 miles of the most demanding off-road routes.

**SEMI-ANECHOIC CHAMBER**
In the ‘neutral sound’ of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that Range Rover Evoque sounds refined at every speed and across every surface.

**WIND SPEED**
Range Rover Evoque was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

**MONSOON**
Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator each one is drenched with some 18,697 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.

**HOT AND COLD CLIMATE**
In real world environments and our climate chambers, we freeze vehicles to -40°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

**DRIVING TECHNOLOGY TESTING**
Land Rover has always been synonymous with capability and Range Rover Evoque lives up to the Land Rover heritage of excellence and responsiveness. The drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response®.

This feature adapts to the responses of the vehicle’s engine, transmission, differentials and chassis systems to enhance driveability, comfort and traction.

There are four standard Terrain Response settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. So, the vehicle feels sure-footed in various terrain or weather conditions.

A fifth setting, Adaptive Dynamics is standard on the HSE Dynamic Five-door model. This mode tunes the suspension to deliver even tighter body control with flatter handling and sharper response.

All Terrain Progress Control (ATPC) is a state-of-the-art system that enables drivers to set and maintain a steady speed in challenging conditions.

Operating like a cruise control system, it functions at very low speeds between 1 mph and 18 mph, helping the driver to maintain concentration on steering and finding a path through obstacles. In addition, the system enables the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like ice or wet grass.

Developed by Land Rover’s all-terrain specialists, it works seamlessly alongside the standard Terrain Response, 4 Wheel Drive (4WD) traction and braking systems.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings.

### Terrain Response®

### All Terrain Progress Control

- **General Driving**: Standard for all conditions.
- **Grass, Gravel, Snow**: Conditions requiring adaptive speed control.
- **Mud & Ruts**: Conditions requiring extra traction.
- **Sand**: Conditions requiring extra stability.

*These systems are not a substitute for driving safely and do not function under all circumstances, speeds, weather and road conditions. Please consult the owner's manual or your local authorized Land Rover retailer for more details.*
*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

HILL DESCENT CONTROL

Land Rover’s patented Hill Descent Control (HDC®) is designed to assist the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel*. Hill Start Assist is designed to help prevent the vehicle from rolling backwards as it pulls away on an incline*. The vehicle also utilizes Gradient Release Control (GRC) which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake*. 

*See owner's manual for complete details on driver and vehicle limitations and activation of system. Always drive safely and with due care and attention. Please consult your Land Rover Retailer for more details.
Adaptive Dynamics

Adaptive Dynamics™ with advanced MagnaRide™ monitors vehicle movements at least 1,000 times per second, reacting to driver or road inputs instantaneously to give greater control and minimize body lean, providing a balanced, flat ride. Standard on the Five-door HSE Dynamic model, the system will even sense off-road conditions and optimize the advanced MagnaRide™ damper settings accordingly, delivering the perfect balance of agile handling and a supple, controlled ride.

Torque Vectoring

When cornering, the vehicle’s agility and stability are enhanced by the Torque Vectoring by Braking system. This feature is standard on all vehicles. Monitoring the vehicle, the system constantly balances the distribution of torque between all the wheels to improve grip and centering whether on or off-road.

Active Driveline

Active Driveline delivers benefits in both on and off-road situations. In many on-road driving conditions, the system is able to disconnect drive to the rear of the vehicle, providing maximum fuel economy. A sophisticated control strategy continuously monitors key vehicle and environmental parameters. If the requirements for 4WD are met, the system seamlessly and imperceptibly reconnects drive to the rear of the vehicle within 300 milliseconds. When off-road driving, torque to each rear wheel can be varied according to the available grip. A dedicated display on the Touchscreen relay detailed information, so you always feel in control.
With a towing capacity of up to 3,968 lbs on the Five-door and 3,306 lbs on the Convertible, by incorporating tailored technologies, the Range Rover Evoque can handle the most demanding of tasks.

**REAR VIEW CAMERA**
Providing improved visibility when reversing, the Rear View Camera is a valuable parking aid and offers help when hitching a trailer.

**Tow Hitch Assist** makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process; it displays the predicted path of the vehicle towards the tow bar on the Touchscreen. Standard with Rear View Camera.

**SURROUND CAMERA SYSTEM**
As part of the Surround Camera System, the Tow Assist feature helps with reversing by predicting the trailer’s direction*. You can even input your trailer’s width for precise guidelines displayed on the Touchscreen.

**TRAILER STABILITY ASSIST**
Trailer Stability Assist monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

*Please refer to the standard and optional feature listing on page 68.

Vehicle shown left and above HSE Dynamic Five-door in Yulong White with optional 20” wheels.
HEAD-UP DISPLAY

Head-up Display is a technology option, available as part of the Driver Assist Plus Package, that presents key vehicle data such as vehicle speed, gear position and navigation directions on the windshield, without the need for the driver to take their eyes off the road.* This innovative laser system is more robust against issues such as ‘washout’ – the effect that the glare from sunlight has on inferior LED-based systems. The feature can be turned on and off dependent upon driver preference. Available on the HSE model and above.

*These systems are not suitable for driving safely with due care and attention and will not function under all circumstances, weather and road conditions, etc. Drivers should not assume that these systems will correct errors of judgment in driving. Please consult your owner’s manual or your local authorized Land Rover Retailer for more details. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Please consult your owner’s manual or your local authorized Land Rover Retailer for further information.

**InControl Apps features a range of Land Rover approved apps that can be connected to Range Rover Evoque from your smartphone, to enhance aspects of your in-car experience.

**Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Certain features require a Micro SIM with a suitable data contract which will require further subscription after the initial term advised by your country-specific Land Rover website or local Land Rover Retailer for availability and full terms in your country. Certain features may require an additional subscription with separate terms and conditions. *These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, weather and road conditions, etc. *These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, weather and road conditions, etc. Drivers should not assume that these systems will correct errors of judgment in driving. AUDIO

Delivering exceptionally clear audio, the Range Rover Evoque offers you the choice of three sound systems. With 8 speakers, the Land Rover Audio System in Range Rover Evoque SE, SE Premium and Landmark Edition delivers a crisp, well-balanced sound.

Added to which, Land Rover has partnered with Meridian™, a world leader in high-performance audio technologies and digital sound processing, to develop advanced audio systems for Range Rover Evoque. Dynamic Volume Control technology has been integrated on all Meridian Sound Systems, to ensure that any unwanted noise detected in the cabin will be smoothly and automatically balanced out.

The Meridian Sound System (380W) features 10 speakers and a dual channel subwoofer, delivering exceptional definition, crystal clear highs and full, deep bass through the careful arrangement of speakers.

This 10 speaker system and a dual channel subwoofer, optional on SE, SE Premium and Landmark Edition and standard on HSE, HSE Dynamic and both Convertible models adds further depth and clarity.

Range Rover Evoque also offers an optional upgrade, the Meridian Surround Sound System, which produces 660W through 12 speakers and a dual channel subwoofer on the HSE Dynamic Convertible, and 825W through 16 speakers and a dual channel subwoofer standard on the Five-door Autobiography and optional on HSE, HSE Dynamic models only.

These systems also include Meridian TriField™ technology. This technology delivers the very best in high-fidelity audio reproduction, bringing you closer to the original performance regardless of your position in the vehicle; everyone will feel and hear pure musical enjoyment.

Meridian is a trademark of Meridian Audio Limited. TriField™ and the “three fields” device is a trademark of TriField Productions Ltd.

Vehicles shown right are an HSE Dynamic Five-door in Fuji White and HSE Dynamic Convertible in Phoenix Orange.
CONNECTION

Touch and Touch Pro provide a wealth of information and entertainment. This intuitive Land Rover InControl® technology can support nearly parking, stream your favorite music and even help you with the recovery of a stolen vehicle. Making life more rewarding, hassle-free and enjoyable.

PLANNING ROUTES

Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen. Only available with Touch Pro*

STAYING CONNECTED

Before you get into your vehicle, set your ideal cabin temperature with the Remote app on smartphones and now the Apple Watch. Standard with Touch and Touch Pro. On the road, the in-car WiFi Hotspot provides a stable Internet connection and lets you connect up to eight devices. Optional with Touch*

MOVING FASTER

Touch Pro brings you more processing power, thanks to a quad-core processor plus an integrated Ethernet network†. Customizable home screens let you arrange the screen, so you live with up to four personalized home screens and over 60 shortcuts.

INTELLIGENT ROUTING

Connect Mode above the system to learn your commute and automatically advises you of the expected travel time based on live and historical traffic movements without having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. Only available with Touch Pro.

SHARING PROGRESS

Share your estimated time of arrival so your selected contact will know exactly when you will arrive — calculated by the navigation guidance system. If you’re running late, Share ETA can then send automatic updates via text or email, without any further action from you**. Only available with Touch Pro.

FINDING PARKING

When you near your destination, Navigation Pro will suggest nearby parking from a database including space availability. With just one click, the parking is added and your route is updated. Arrival Mode Parking shows a 360° street level image to help you identify your destination. Only available with Touch Pro*

DOOR-TO-DOOR

Once you’ve parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transportation options. Only available with Touch Pro. The Remote app also lets you check your vehicle to make sure you’re locked and secured all doors and windows. Standard with Touch and Touch Pro.

HELP IS ALWAYS AT HAND

With Protect, emergency services will be automatically notified if the airbags are deployed in an accident or you can call them manually via in-car button. You can also summon a Land Rover Optimized Assistance operator should you need technical assistance. Standard with Touch or Touch Pro.

STAYING FOCUSED

Our Touch Pro Voice Recognition® system understands normal spoken instructions. So you can concentrate on the road ahead without any distractions. Only available with Touch Pro*

POSITIONING

Only available on Connect*. *The use of Land Rover InControl features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control and crash. The driver should exercise ultimate control and operate the vehicle in a safe manner at all times. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control and crash. The driver should exercise ultimate control and operate the vehicle in a safe manner at all times. †Not available on Convertible. The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions. *Not available on Convertible. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control and crash. The driver should exercise ultimate control and operate the vehicle in a safe manner at all times. The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions. †The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.
LANE KEEP ASSIST WITH AUTONOMOUS EMERGENCY BRACING AND DRIVER CONDITION MONITOR*

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back. Driver Condition Monitor is designed to detect if you’re starting to feel drowsy and to give you an early warning when you need to take a break. If a potential collision is detected, the Autonomous Emergency Braking system displays a forward collision warning, giving you time to take action. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST AND INTELLIGENT EMERGENCY BRAKING*

When you’re cruising on the highway or traveling in slow-moving traffic, this system will keep your vehicle a set distance from the one in front should it slow or stop. Should the vehicle in front stop completely, your vehicle is designed to come to a smooth halt. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume following the car in front. The system can be set from 20 mph up to highway speeds. Once set it can operate at lower speeds up to when the vehicle is stationary with Queue Assist.

ADAPTIVE LED HEADLIGHTS WITH LED SIGNATURE*

Full LED headlights deliver an enhanced light output for improved visibility at night. Light beams automatically align with steering inputs and follow curves in the road.

BLIND SPOT MONITOR WITH REVERSE TRAFFIC DETECTION*

Blind Spot Monitor is designed to alert you to vehicles in, or quickly approaching, your blind spot through a small warning light in the corresponding door mirror. Reverse Traffic Detection is designed to warn you of hazards approaching from either side of your vehicle, through both audible and visual warnings so you know what’s behind you even when the view is obstructed.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should never assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

PARKING AIDS

PARK ASSIST*

Our Park Assist system makes parallel and perpendicular parking easier than ever by automatically steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle’s speed with the brake and accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist will also steer you out of a parallel space, helping reduce the stress of parking.

360° PARKING AID*

Our 360º Parking Aid gives you complete confidence when maneuvering in tight spaces. Sensors located around the car are automatically triggered when reverse is selected, or can be manually activated with a graphic appearing on the Touchscreen showing an overhead view of the car. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.

SURROUND CAMERA SYSTEM*

Using four digital cameras discreetly placed around the vehicle, the system provides an almost complete 360º view including a bird’s-eye overhead view via the Touchscreen. This helps with various maneuvers from parking by a curb, to getting in and out of tight spaces and intersections.

GARAGE DOOR OPENER (HOMELINK®)

The HomeLink® System is a universal transmitter fitted to the underside of the interior rear view mirror. This transmitter can be programmed to operate up to three home or office wireless controlled systems, such as garage doors, gates, or security lighting. By replacing the individual remote control units normally required for each system, the driver no longer needs to search the car interior for the correct handset when needed.

HomeLink® is the registered trademark of Gentex Corporation. Features and their availability may differ by vehicle specification and market. Please see pages 64-81, or contact your nearest Land Rover Retailer, for more information.
COMFORT FOR ALL

SEATING

Heated front seats are standard on HSE and HSE Dynamic and, for rear passengers, optional. Five-door body styles can also be specified with optional heated rear seats.

No matter what the temperature, optional heated and cooled front seats are also available on both body styles. This enables both the driver and passenger to set their preferred temperature independently and is controlled via the Touchscreen.

POWEROEDURE GESTURE TAILGATE

The optional powered gesture tailgate allows you to operate the tailgate both to open and close from outside the vehicle without needing to physically touch the vehicle or the smart key.

Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle.

Two sensors are mounted on either side of the tailgate to allow curbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss.

Powered gesture tailgate is not available on Convertible models.

Additionally, if required, the tailgate can also be closed by pressing a button located on the inside of the tailgate. Or, by pressing a button on the smart key.

CONFIGURABLE AMBIENT INTERIOR LIGHTING

New levels of ambient refinement and personalization have been reached with Configurable Ambient Interior Lighting – standard on HSE, HSE Dynamic and Autobiography models.

This feature allows you to vary the color and shade, changing the ambiance of the cabin to suit your mood. There are ten colors in total, varying from Ice White through to Moonlight and Racing Red.

POWERED GESTURE TAILGATE

The optional powered gesture tailgate allows you to operate the tailgate both to open and close from outside the vehicle without needing to physically touch the vehicle or the smart key.

Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle.

Two sensors are mounted on either side of the tailgate to allow curbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss.

Powered gesture tailgate is not available on Convertible models.

Additionally, if required, the tailgate can also be closed by pressing a button located on the inside of the tailgate. Or, by pressing a button on the smart key.

PANORAMIC ROOF

On Five-door body style, the full glass fixed panoramic roof, standard on SE Premium and up, enhances the sense of space in the vehicle’s interior and floods it with natural light as well as providing uninterrupted views of the surrounding environment.

Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun’s rays. A full-sized, powered interior blind is also provided for those who may prefer a more private experience.

Vehicle shown is HSE Dynamic Five-door in Indus Silver. Interior shown above is HSE Dynamic Five-door in Ebony with Lunar stitch.

COMFORT FOR ALL

Vehicle shown is 10" Touch Pro.

Vehicle shown is HSE Dynamic Five-door in Indus Silver. Interior shown above is HSE Dynamic Five-door in Ebony with Lunar stitch.
9-SPEED AUTOMATIC TRANSMISSION

The lightweight, compact 9-speed Automatic Transmission provides optimum fuel economy and CO2 emissions as well as greater control in low-grip conditions or when towing through the specially designed, ultra-low first gear. The transmission is specifically designed for transverse applications, and is one of the most efficient and technically advanced ever used in a production vehicle. Two patented dog clutches replace the bulkier conventional set-up, allowing small ratio steps to give better response during acceleration, plus improved shift quality, drive and refinement.

The higher top gear not only reduces fuel consumption but the lower engine revs improve comfort and reduce noise when cruising at a sustained speed. The 9-speed Automatic Transmission is extremely robust and perfectly complements Land Rover’s rugged all-terrain ability while delivering exceptionally high levels of refinement.
**INGENIUM GAS ENGINES**

**Si4 237HP**  
The Ingenium 2.0 liter 4-cylinder Turbocharged Gas engine produces 251 ft-lbf of torque and delivers outstanding driveability.  
- The intelligent Continuously Variable Valve Lift (CVVL) system can vary the extent to which the inlet valves are opened, reducing engine-pumping losses. This lets the engine ‘breathe’ with maximum efficiency, optimizing power and torque.  
- CVVL works in combination with dual independent variable cam timing for variable operating flexibility, resulting in better acceleration and improved fuel economy.  
- For excellent acceleration and effortless overtaking, maximum torque is available at 1,250 rpm.  
- The twin-scroll turbocharger is fed by an integrated exhaust manifold which increases the transfer of energy to the turbine – significantly reducing turbo lag and improving engine response.

<table>
<thead>
<tr>
<th>ACCELERATION 0-60 MPH (SECONDS)</th>
<th>TOP SPEED (MPH)</th>
</tr>

</tr>
</tbody>
</table>

**Si4 286HP†**  
The high-performance Ingenium 286HP 2.0 liter 4-cylinder Turbocharged Gas engine features upgrades to the boosting system.  
- Delivering a peak torque of 295 ft-lbf at 1,500 rpm.  
- The upgraded turbocharger features a high flow compressor.  
- The twin-scroll turbocharger features ceramic ball bearings which reduces friction and improves transient response.

*Always follow local speed limits. **If vehicle fitted with 18” wheels the top speed will be 137 mph. †The high powered Si4 286HP engine performs at a higher level. A unique bumper has been engineered to allow increased airflow in the air curtains to satisfy the necessary levels demanded by the upgraded turbo making fog lights unavailable.
BODY AND CHASSIS

STRENGTH AND STABILITY

BODY

Range Rover Evoque features a strong body structure which has been developed using advanced, lightweight materials to deliver outstanding stiffness and refinement.

The structure is based on a steel monocoque platform. Delivering the exciting design and sporting dynamics of Range Rover Evoque dictated that a new structure was developed.

Lightweight technologies are used extensively in the body design, including:
- Front fenders and tailgate assembly
- Magnesium cross car beam
- Optimized steel structure using high strength boron steels

CHASSIS AND VEHICLE DYNAMICS

Range Rover Evoque has a chassis which has been specially developed by Land Rover’s engineers to deliver on-road dynamics which combine sporting and agile responses with impressive refinement, while not compromising all-terrain capability.

Range Rover Evoque has a fully independent suspension, with coil sprung strut front and rear, and isolated front and rear subframes, mounted to an exceptionally stiff steel monocoque bodyshell. The performance of the base suspension system is supplemented by advanced technologies such as an intelligent 4 Wheel Drive (4WD) system.*

The chassis features a number of innovations, such as Electric Power Assisted Steering (EPAS)*, which help the vehicle achieve its unique dynamic character.

OPTIMIZED STRUCTURE

The use of special ultra-high-strength steels in strategic load-bearing areas was a key design objective. The finished steel structure uses 18 percent (by weight) of high strength boron steels. These specialized steels deliver increased strength in critical areas, without the need to increase the thickness and weight of the pressings.

The ultra-high-strength boron steel has been used in key parts of the crash safety cell, including the A-pillars and sills. The five-door body style also features B-pillars constructed of ultra-high-strength boron steel. The resulting structure is designed to protect occupants using a strong and stable cell, and provides a stiff platform for superior refinement and vehicle dynamics.

The use of ultra-high-strength boron steel in the A-pillar was critical in retaining the slim, raked pillar of the vehicle, without compromising the strength of the structure.

The crash structure was optimized using state-of-the-art computer simulation tools, which allowed engineers to conduct ‘virtual’ collision tests long before physical prototypes were available.

The Combine steel body structure is further optimized using high tech materials to ensure the high strength structure.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.
SAFETY

As with every Land Rover, safety is a key priority in Range Rover Evoque. State-of-the-art Dynamic Stability Control and Roll Stability Control systems are designed to detect losses of traction and to react to keep the vehicle on course and reduce the possibility of roll-over. In the unlikely event of a roll-over situation, the roll-over protection system of the Range Rover Evoque Convertible deploys two aluminum bars vertically from the rear bodywork within 90 milliseconds to create a space for occupants.

Each model of the range features a comprehensive occupant safety feature, including seat belt pretensioners, driver and passenger airbags and a driver knee airbag. In addition, the Five-door comes with thorax and side curtain airbags*, and the Convertible offers combined head/thorax side airbags**.

CURTAIN AIRBAGS* WITH ROLL-OVER SENSING
In the event of a side impact or rollover, these are deployed to provide greater protection against head injuries.

FRONTAL AIRBAGS†
In a severe impact the driver and passenger airbags inflate to offer supplementary occupant protection.

DRIVER KNEE AIRBAG†
The driver knee airbag inflates in the event of a frontal impact, providing additional protection to the occupants’ lower legs.

PASSENGER SEAT BELT CHECK SYSTEM

*Not available on Convertible  **Convertible incorporates a combined head/thorax airbag, providing head protection as well as thorax protection  †These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

**SAFETY SYSTEMS**
1. DRIVER AIRBAG
2. PASSENGER AIRBAG
3. SIDE CURTAIN AIRBAGS*
4. SIDE THORAX AIRBAGS**
5. DRIVER KNEE AIRBAG
6. AIRBAG DEACTIVATION SWITCH FOR FRONT PASSENGER
7. SEAT BELT PRETENSIONERS
8. SEAT BELT REMINDER
9. LATCH POINTS

The presence of airbags is indicated by the ‘AIRBAG’ logo. The ‘AIRBAG ON’ indicator on the instrument cluster lights up when the airbags are activated.

*Optional on Convertible. **Convertible incorporates a combined head/thorax airbag, providing head protection as well as thorax protection. †These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.
ENVIRONMENTAL

SUSTAINABILITY

Range Rover Evoque is the most compact Range Rover yet. Its credentials stem from a comprehensive approach to reducing environmental impact throughout the life cycle of the vehicle. Its size has helped Range Rover Evoque minimize weight, improve aerodynamic performance, and deliver more sporting, agile handling with a lower center of gravity.

Such radical thinking and production processes bear testimony to Land Rover’s unwavering commitment to deliver a more sustainable future.

LIGHTWEIGHT MATERIALS

Starting at just 3,865 lbs and using a range of advanced lightweight materials, Range Rover Evoque is the lightest Range Rover ever. There are key weight-saving materials throughout the vehicle, including a magnesium cross-car beam, aluminum hood and, on the five-door body style, also the roof. The front fenders and tailgate assembly are constructed from composite materials.

Even the laminated windshield is reduced in weight to help improve fuel efficiency, performance and handling.

STOP/START

All engines feature intelligent Stop/Start technology that automatically shuts down the engine at rest and starts it again as soon as the brake pedal is released. This feature helps to reduce CO2 emissions.

LIFE CYCLE ASSESSMENT

In order to minimize the vehicle’s overall ecological impact, Range Rover Evoque is designed with a life cycle approach, aiming to minimize the environmental impact by considering the entire life cycle of the vehicle: from development and manufacturing, through customer use, to end-of-life recycling and reuse.

Each element of the life cycle was analyzed with a view to consuming fewer natural resources, using more sustainable materials and minimizing the generation of waste.
The following pages take you through a logical series of steps to make your vehicle a true expression of your individuality. You have a number of choices: from selecting your engine and model to exterior and interior colors, wheels, finishes and those detailed touches that define your character.

If you’d like to bring your options to life, go to our online configurator at landroverusa.com.

  - Standard: Not Available.
  - Optional: – Not Available.
  - Airbags (driver airbags and knee bolster airbag; front passenger airbag and side airbags – seat mounted with head protection):
    - Standard: Not Available.
    - Optional: – Not Available.
  - Front height adjustable seat belts:
    - Standard: Not Available.
    - Optional: – Not Available.
  - LATCH mounting points in outboard rear seats:
    - Standard: Not Available.
    - Optional: – Not Available.

---

- **Standard:**
- **Optional:** – Not Available.

**Note:**
1. Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts.
2. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

3. Not available with the SE Tech Package
4. Not available with the Cold Climate Convenience Package.
Now you have chosen your Range Rover Evoque model, you can select your exterior paint color. From rich, deep lusters to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat color. Our metallics deliver a sparkle finish that is sure to catch the eye. And our premium metallic paints enhance both the color and the intensity of the sparkle or sleek metallic finish to give your vehicle even more presence.

The availability of exterior paint colors varies by model and by time of year. Please contact your nearest Land Rover Retailer for further details.

- Fuji White (solid)
- Navik Black (solid)
- Yulong White (metallic)
- Corris Grey (metallic)
- Kaikoura Stone (metallic)
- Loire Blue (metallic)
- Santorini Black (metallic)
- Silicone Silver (premium metallic)
- Carpathian Grey (premium metallic)
- Moraine Blue* (premium metallic)
- Firenze Red (metallic)
- Moraine Blue* (premium metallic)
- Phoenix Orange** (premium metallic)

*Moraine Blue only available on Landmark Edition. Please refer to page 55
**Phoenix Orange only available on Convertible body styles. Vehicle shown is HSE Dynamic Convertible with Black Design Package.

Visit landroverusa.com to configure your vehicle online.

**Choose Your Interior — Seat Configuration**

Your choice of seat can play a vital role in how you drive your Range Rover Evoque and your enjoyment of the cabin space itself. That’s why they’re available in a range of styles, colors and a choice of three materials: grained leather, perforated grained leather or perforated Windsor leather. With the exception of the convertible, heated front and rear seats can also be specified across the range with electric memory featured as standard on SE Premium, Landmark Edition, HSE, HSE Dynamic, Autobiography and both Convertible models.

STEP 5
CHOOSE YOUR INTERIOR

Now you have chosen your interior color combination, choose one of seven interior finishers. For full availability and designer’s choices, please see the color and trim matrix on pages 82-85.

INTERIOR FINISHERS

- Satin Brushed Aluminum
- Textured Aluminum
- Gloss Black Strata*
- Figured Macassar Wood*
- Dark Satin Brushed Aluminum**
- Dark Sport Textured Aluminum
- Dark Grey Oak Wood**

*Ivory, Espresso, and Dark Cherry are available on HSE Dynamic only.
**Other trim finishers are available on Autobiography only.

Visit landroverusa.com to configure your vehicle online.

*Visit landroverusa.com to configure your vehicle online.
Range Rover Evoque is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Range Rover Evoque to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalization.

Importantly, these accessories can be added by your Land Rover Retailer at any stage during the vehicle’s life – not just when it’s new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Vehicle shown above is HSE Dynamic Five-door in Yulong White with optional equipment and accessories.

**Fitting of side steps or side tubes may effect the off-road capability of the vehicle**

*Rim only. Center caps available separately
†Not available on Convertible
‡Please contact your nearest Land Rover Retailer for feature availability.

Please note all images in the accessory section are representative of the features advertised not vehicle specification.

**Side Tubes – Bright Finish**
VPLVP0184 – SE, SE Premium and HSE

Stainless steel side tubes provide an off-road inspired appearance, designed to complement the vehicle’s exterior style.

**Alloy Wheel**
VPLVW0113 – 19” 10 spoke ‘Style 103’ with Technical Gold Finish

Personalize your vehicle with a selection of alloy wheels featuring a wide range of contemporary and dynamic designs.

**Fixed Side Steps**†
VPLVP0225 – SE, SE Premium and HSE

Complete with a rubber tread mat and brushed stainless steel trim, the fixed side steps provide easy access/exit to the vehicle and also assist in safely accessing the roof. With embossed Range Rover branding, exterior bright work and Bright anodized aluminum edge trim finish, they complement vehicle exterior styling cues.

**Personalized Sill Treadplates**
Personalized illuminated treadplates allow you to choose your own message using an approved set of fonts/typefaces which will be highlighted in White illumination when the front doors are open.

**Union Jack Sill Treadplates**
Driver and passenger’s front door sill treadplates add style to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle’s interior and the Union Jack adds a distinctly British style.

**Illuminated Sill Treadplates**
VPLVS0314AAM – Espresso†
VPLVS0078PVJ – Ebony (Convertible)
VPLVS0314PVJ – Ebony (Five-door)
VPLVS0078LAA – Lunar (Convertible)
VPLVS0314LAA – Lunar (Five-door)
VPLVS0314CJB – Cherry (Five-door)

Driver and passenger’s front door sill treadplates add style to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle’s interior and subtly illuminates Range Rover script when the front doors are open.

**Sport Pedal Covers**
VPLHS0044 – Automatic (shown above)
VPLVS0178 – Sport Footrest – Automatic

Stainless steel Bright finish sports pedal covers are easy to fit and feature hidden fixings for a clean finish. Complementing the sports pedals, the footrest is manufactured from stainless steel and features a Satin finish.

Visit gear.landroverusa.com for more information.
Roof rails and crossbars or sports bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted. **Maximum permissible load capacity minus the weight of the roof mounted accessory.

**Touring**

Luggage Roof Box*

VPLVR0062

Roof mounted luggage box with Gloss Black finish. Opens from both sides for easy and quick access to the roof box. External dimensions: 5.74ft long, 2.7ft wide, 1.48ft high. Maximum payload: 150lbs.

Roof Rails*

Δ

VPLVR0085 – Silver Finish

VPLVR0086 – Black Finish

Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Vehicle height when fitted: 5.38ft. Maximum permissible load capacity 158lbs.

Silver Roof Trim Finisher

VPLVR0089 – Panoramic Roof

Black Roof Trim Finisher

VPLVR0090 – Panoramic Roof

Flexible Cargo Space Protector

Δ

VPLVS0090

Heavy duty flexible fabric helps protect cargo space up to window height and covers cargo space floor with second row seat backs covered. Includes general purpose gloves. Not applicable with full height or half height luggage partition.

Roof Mounted Bike Carrier – Fork Mounted with Wheel Carrier*

Δ

VPLWR0101

Roof mounted cycle carrier provides a simple and secure fitting with the bicycle front wheel removed, ideally suited to lightweight bikes and ‘racing’ wheels. A separate carrier is included for the front wheel. Easy to fit, lockable cycle carrier which carries one bicycle per holder. A maximum of two holders can be fitted.

Flexible Cargo Space Protector

VPLVS0090

Heavily duty flexible fabric protects cargo space up to window height and covers cargo space floor with second row seat backs covered. Not applicable with full height or half height luggage partition.

**Sporting**

Roof Bars**

VPLBR0070 – Silver Finish

VPLBR0071 – Black Finish

Roof bars feature a range of cross bars for roof carrying. The rear mounting points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Vehicle height when fitted: 5.38ft. Maximum permissible load capacity 158lbs.

Silver Roof Top Finisher

VPLRTR0168 – Panoramic Roof

Black Roof Top Finisher

VPLRTR0169 – Panoramic Roof

Ski / Snowboard Carrier*

Δ

LR006849

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading, is also lockable for security. Maximum payload 79lbs**.

Ski Bag

VPLGS0166

The Land Rover padded ski/snowboard bag carries up to two pairs of skis and poles up to 70.8 inches long. It is manufactured from durable 600D polyester and features removable shoulder straps.

Flexible Cargo Space Protector

VPLVS0090

Flexible Cargo Space Protector helps maintain optimum weight distribution while protecting the equipment and vehicle from scratches/bruises.

**Requires cargo space rails – VPLVS0102 for fitting

‡Not suitable for caravans, trailers or lighting boards fitted with rear mounted LED light kits

ΔNot available on Convertible.

Visit gear.landroverusa.com for more information.

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater cargo space. And its ‘can do’ attitude has made it the most welcome of vehicles across the globe. You can be part of the Land Rover story at one of our Land Rover Experience Centers. You can see how each one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Ireland or Morocco. Adventure awaits.

For more information, visit landroverusa.com.

LAND ROVER ONELIFE

Onelife, the official Land Rover magazine, is published twice a year and reaches customers in 40 countries. Each issue is filled with the latest Land Rover news and vehicles, insights into the technology and design that shape each vehicle, inspirational journeys and opinions from international experts.

For more information, visit landroverusa.com.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your own Land Rover has never been so simple. And it’s more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your nearest Land Rover Retailer to find out more.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of off-road and everyday customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver true total cost of ownership through strong residual value, competitive service, maintenance and repair costs.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

For more information, visit landroverusa.com.

LAND ROVER COLLECTION

The vehicle is just the beginning. The latest Land Rover Collection is now available for you to discover. A meticulous attention to detail doesn’t stop with our vehicles. You’ll find the same level of craftsmanship in all of our clothing, travel bags and premium gift ideas. So whether you’re shopping for yourself or a loved one, you know the quality is assured.

The Land Rover Collection includes ladies and men’s clothing, an extensive range of small leather goods such as wallets, portfolios, iPad and iPhone cases along with briefcases and weekend bags. A range of soft furnishings and ladies silk scarves add a luxury feel to the collection. There’s a kids collection too, with colorful fun clothing, and ladies silk scarves add a luxury feel to the collection. So whether you’re shopping for yourself or a loved one, you know the quality is assured.

For more information, visit landroverusa.com.

ROADSIDE ASSISTANCE

Land Rover Roadside Assistance provides assistance in minor emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please consult your Warranty Benefits Handbook, contact your nearest Land Rover Approved Service Center or visit landroverusa.com.
