It is the definitive luxury sports tourer. Defined by exceptional on-road dynamics, comfort and outstanding breadth of capability. Muscular body styling, a sumptuous interior and the choice of two powerful, exceptionally refined engines. It is Range Rover Sport.
Our Planet
Our plan for a sustainable future

Introduction
Range Rover Sport
A stylish, contemporary identity

Interior
Sporting luxury and intuitive technology

Two superb engines
Power, performance and refinement

On-road and off-road
All-terrain capability, outstanding on-road dynamics and comfort

Safety
Smart technology, safe technology

Autobiography Sport
The ultimate expression of luxury and style for Range Rover Sport

Technical Data and Personal Choices
Models, engines, interior and exterior, colors and materials

Range Rover Vehicle Kit
Adding extra capability, more style and making it your Range Rover Sport

Our Planet
Our plan for a sustainable future
Alluring. Ready, poised in anticipation of the drive ahead. Range Rover Sport is assertive, with a unique identity and a low-to-the-road, contemporary appearance. Range Rover Sport, with its muscular, sharp attitude looks like it’s moving, even when it’s standing still.
Stylish and bold. Range Rover Sport features Range Rover signature ‘concentric circle’ headlamps with LED technology and a ‘twin stripe’ design on grilles, vents and lights for charisma and a truly purposeful line. Rear light clusters also boast LED technology and reinforce Range Rover Sport distinctiveness. In addition the three new exterior colors add even more appeal. Range Rover Sport.
Luxurious. Step inside Range Rover Sport. The unique cockpit driving position puts the center console and controls all within easy reach, while the instrument panel and instrument cluster all place the emphasis on a sublime driving experience.

Now the Range Rover Sport can be tailored to even more individual tastes and practical needs with the introduction of Autobiography Sport as well as a number of option packs that are available across the model range.

Easy-to-use Human-Machine-Interface (HMI) touch-screen with entertainment, information, navigation and communication functionality.

Instrument panel with five inch Thin Film Transistor (TFT)-LCD technology.

Steering wheel with two separate five-way navigation toggle switches to maximize control and ease-of-use of the Infotainment system and functions on the five inch TFT screen.

Noble-plated finish and interior trims for a luxury ambience.

Premium interior materials and attention to detail, including door casings and speaker frets.
As the definitive luxury sports tourer, Range Rover Sport is the place to be for both driver and passengers alike. The dynamic cockpit interior is designed to cosset and cocoon, while the command driving position offers a clear view of the surrounding environment and helps to put the driver in complete control.

Range Rover Sport’s seats are made to sit in, not on, they create a luxurious, long-range comfort and sporty experience. Driver’s electrically adjustable seat bolsters are available. Range Rover Sport’s seats are offered in an exciting variety of colors and in two grades of leather, as well as leather combined with Alcantara®. Contrast stitching is standard with Premium Windsor leather and leather combined with Alcantara®. An Extended Leather Pack, which features a dash finished in fine hide is standard on HSE w/LUX and Supercharged models.

Alcantara® is a registered trademark of Alcantara S.p.A.
The superb interior provides premium levels of craftsmanship and comfort. Tactile materials create a superior ambience of quality and prestige. Interior mood lighting enhances the experience of night-time driving. For the ultimate expression of sporting luxury Autobiography Sport offers even more individual style through exclusive interior color choices in the finest materials.

An acoustic windscreen and laminated front side glass raise cabin refinement and improve noise insulation.
Intuitive, easy-to-use access to Infotainment. The focal point of the center console is a full-color Touch-screen, which provides a hub for all audio, communication and navigation. This not only adds to the premium character of the interior, it also reduces the number of conventional controls required on the console and improves driver ergonomics.

A choice of In-Car Entertainment options are available including a 480 Watt, 13 speaker harman/kardon® LOGIC7® systems incorporating premium audio quality.

The Portable Audio Interface allows an iPod® to be connected to the In-Car Entertainment system, which includes full track and search integration. An MP3 player or a mass storage device can also be connected via the USB port.

harman/kardon® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated. iPod is a registered trademark of Apple Inc., registered in the US and other countries.
Control. Range Rover Sport features Land Rover’s legendary command driving position which gives better visibility of the road ahead for the earlier recognition of hazards and helps when maneuvering. Even the passengers enjoy an expansive view of the world around them.

The centerpiece of driver information is the instrument panel with its five inch Thin Film Transistor (TFT) display technology. Instead of traditional gauges, this TFT screen offers several personalization setting options, such as drive-away locking, speed warning, optional High Beam Assist and more. With its high contrast and sharp resolution, this TFT display communicates information at a glance. Importantly, the display can be operated using a simple menu system controlled by the five-way navigation toggle switch on the steering wheel.

The multifunction steering wheel gives fingertip control of key functions.

Steering wheel mounted shift paddles are standard on the Range Rover Sport Supercharged.

Passive keyless entry gives driver access without the necessity of using the smart key’s unlock command. The vehicle is automatically unlocked and the immobilizer deactivated when the smart key comes within close proximity and a door handle is pulled.

Push button Start/Stop. Push-button keyless start couldn’t be simpler. The vehicle is started by pressing the dash-mounted push button while applying the brake pedal. There is no requirement to dock the smart key.
Choice. The right engines for a diverse variety of driving styles and performance requirements. Each one offers unparalleled levels of refinement, progressive power on demand and torque.

**LR-V8 Supercharged**
510bhp and 461ft/lbs of torque. Highly efficient, spray-guided direct injection.

**LR-V8**
375bhp and 375ft/lbs of torque with cutting-edge powertrain technologies for an outstanding blend of power and efficiency. Highly efficient, spray-guided direct injection.

e_TERRAIN TECHNOLOGIES is a unique engineering philosophy and commitment to sustainable initiatives which uses the latest creative and innovative technology to make continual and significant improvements to the environmental performance of all Range Rover vehicles.
Advanced. Range Rover Sport has many advanced dynamic technologies that combine to deliver exhilarating on-road performance.

The Range Rover Sport Supercharged features Adaptive Dynamics with Dynamic Program, the world’s first production system of its kind to be based on predictive technology. Adaptive Dynamics on the Range Rover Sport Supercharged offers performance for combined on and off-road driving. Standard on Supercharged, Adaptive Dynamics works by predicting the response to driver input, allowing the system to mitigate any excessive movement, rather than a traditional system which reacts after the vehicle has already moved.

The Dynamic Program setting is selected via the Terrain Response® system which utilizes Adaptive Dynamics to give an even more engaging drive and reinforces Range Rover Sport’s on-road driving dynamics. On Range Rover Sport Supercharged models the system can provide more performance-orientated responses to input by remapping steering, throttle and gearbox settings.

The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner’s manual or your local authorized Land Rover Retailer for more details.
Thanks to Dynamic Technologies, Range Rover Sport is the best ever Range Rover for driver-focused dynamics and performance. From the smoothest roads, to more extreme rough surfaces and poor weather conditions, the vehicle delivers a sense of confidence and security.
More experience. The Terrain Response® system gives access to over 60 years of Land Rover all-terrain drive expertise and state-of-the-art dynamic technology. Terrain Response® is your own driving expert with you in the vehicle at all times. Simply turn the conveniently positioned dial to the appropriate icon and Range Rover Sport’s engine, transmission, suspension and traction settings reconfigure for optimum driveability in multitudes of conditions.

The Terrain Response® system on Range Rover Sport Supercharged includes a sixth position on the dial, Dynamic Program, which gives an on-road focus to the vehicle’s Adaptive Dynamics settings.

The Terrain Response® system includes Sand Launch Control as part of the sand mode. Sand Launch Control helps prevent the wheels spinning when moving off from a standstill. Once the vehicle reaches the appropriate speed the slip thresholds are increased to maintain progress. This technology takes yet another step forward with Gradient Acceleration Control and Hill Start Assist. Gradient Acceleration Control helps reduce, and smooth out the effects of, the sudden initial acceleration that can occur when the vehicle enters a steep gradient. Hill Start Assist automatically releases brake pressure progressively on a steep gradient and helps prevent the vehicle from inadvertently rolling backwards.

Another cutting-edge feature is Trailer Stability Assist (TSA). Using onboard sensors that detect the presence of a trailer, TSA identifies trailer sway to trigger active braking, cut engine output and stabilize the trailer.

The Terrain Response® system includes Dynamic Program, which gives a sportier, more engaged drive in multitudes of conditions.

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner’s manual or your local authorized Land Rover Retailer for more details.
Available Adaptive Cruise Control* (ACC) with Advanced Emergency Brake Assist* uses radar to scan the road. ACC is designed to automatically match the pace of the vehicle ahead, settling down behind it and maintaining a constant speed with one of four cruise gap distances set according to the driver’s preference.

Forward Alert* gives an audio and visual alarm when the distance to the vehicle in front decreases. Advanced Emergency Brake Assist is designed to detect a possible collision and prepares the brake system for emergency braking, then assists the driver as he or she brakes by applying full-force braking even if pressure on the pedal is light.

ACC helps reduce the need for driver intervention and assists in creating a more relaxing, more comfortable journey.

Xenon Lighting with LED technology and Range Rover signature ‘concentric circle’ design give Range Rover Sport a striking headlight identity.

Automatic headlights with high beam assist detect vehicle headlights/tail lights and dip the high beam until the light source is out of range.

To cope with the demands of sports tourer performance, every Range Rover Sport has brakes that are engineered for maximum stopping power and to enhance the driver experience. The Supercharged model has high-performance six piston fixed caliper front brakes.

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner’s manual or your local authorized Land Rover Retailer for more details.
An available Surround Camera* system technology utilizes five discreetly placed digital cameras to relay an almost 360 degree view around the vehicle to the Touch-screen display on the center dashboard. The system provides a number of driver-assist features, for example zoom and pan, which can be invaluable in situations such as parking, towing or hitching a trailer.

A Rear View Camera displays a rearward view from the vehicle on the Infotainment screen to aid with parking. Maneuverability lines representing the vehicle’s outer perimeter superimpose a predicted path on the rearward image.

The Hard Disk Drive (HDD) Premium Navigation system allows features to be accessed more quickly, for example, route finder and route recalculation times are significantly reduced, which help minimize delays in determining directions for the driver. The system can also be updated with the latest mapping information via your Land Rover Retailer.

*It remains the driver’s responsibility to detect obstacles and estimate the vehicle’s distance from them when reversing. Always be vigilant when reversing.
Five digital cameras are housed around the vehicle, two on either side of the front bumper, one in each of the door mirror casings and one in the rear spoiler.
Range Rover Sport’s highly rigid body, with its low center of gravity and energy-absorbing crumple zones offer impressive levels of safety and occupant protection. Dynamic Stability Control (DSC) monitors wheel speed and steering angle to help make cornering more stable.

DSC applies ABS braking to individual wheels to support and maintain control. Further improvements to the Stability Control Systems include Roll Stability Control and Enhanced Understeer Control. For added peace of mind, Range Rover Sport is equipped with a total of six airbags, including side curtains.

The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner’s manual or your local authorized Land Rover Retailer for more details.
Autobiography Sport is the ultimate expression of sporting luxury, individual style and is the pinnacle of the Range Rover Sport model line-up. It is an opportunity to express yourself in your own unique way through a selection of exclusive interior color choices in the finest materials.
Autobiography Sport is available with three luxury orientated interior themes. All include the following styling features as standard: Autobiography Sport unique Titan front grille, Titan side vent, Autobiography Sport 20 inch 10-Spoke alloy wheel, stainless steel door tread plate.
In pursuit of sporting pedigree. Adding even more presence and head-turning assertiveness to Range Rover Sport’s already muscular form. The Autobiography’s unique exterior body design elements set Range Rover Sport even further apart from its rivals with more attitude and more sporting appeal than ever before. It’s the look that just has to be driven.

(with sunroof closed and roof pod)
Front wheel track 63.1 inches/1,605mm

Access height air suspension setting reduces height given by 1.96 inches/50mm to 68.4 inches/1,739mm

Overall length 188 inches/4,783mm

Turning Circle
Curb-to-curb 37.7ft/11.5m
Wall-to-wall 39.0ft/11.9m
Turns lock-to-lock 3.1

Obstacle Clearance
Ground clearance off-road height up to 8.93 inches/227mm, with air suspension raised
Standard ride height 6.77 inches/172mm

Ramp Angle
Standard ride height 20°, off-road ride height 25°, w/air suspension raised

Approach Angle
Standard ride height 30.3°, off-road ride height 34.5°, w/air suspension raised, off-road ride height 34.6°, to spoiler w/air suspension raised

Departure Angle
Standard ride height 26°, off-road ride height 29° w/reduced section spare wheel (to bumper) and air suspension raised
Luggage Capacity
Rear seats upright
Height 37.1 inches/943mm Width 48.0 inches/1,221mm
Loadspace volume 33.8 cu ft/958 liters
Loadspace width between arches 44.0 inches/1,120mm Length at floor 39.0 inches/991mm
Rear seats folded
Height 37.1 inches/943mm Width 48.0 inches/1,221mm
Loadspace volume 71.0 cu ft/2,013 liters
Loadspace width between arches 44.0 inches/1,120mm Length at floor 69.0 inches/1,754mm

Headroom
Maximum front headroom 39.4 inches/1,000mm

Wading Depth
Maximum wading depth 27.5 inches (700mm)

Snow Traction System
LR005737
For front 18 inch, 19 inch and 20 inch wheels only.
Please note: When choosing vehicles fitted with specific wheel and tire combinations or optional wheels and tires, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tires may offer certain styling or driving benefits but may be more vulnerable to damage. Please discuss your requirements with your local Land Rover Retailer when selecting your vehicle and specification. The alloy wheels shown on pages 44-45 may also be available as an Accessory fitment. Please see your Land Rover Retailer for further information.
Touring Accessories

**Touring Accessories**

- **iPod Link Lead†** (not shown) - LR019691
  - Integrates the latest iPod technology into the vehicle audio system.
  - In addition the link lead also acts as a charger for your iPod device.

- **Bulb Kit** (not shown) - VPLSV0017
  - A selection of essential bulbs are a legal requirement in certain countries.

- **Tow strap** (not shown) - STC8919AA
  - Includes storage bag that can be attached as a warning flag to the strap. 6614kg maximum load capacity.

- **Tracking Target Sticker** LR021589
  - Required for vehicles equipped with the Surround Camera System option which includes Tow Assist.

- **Towing electrics** (combined 7- & 4-pin) (not shown) - VPLST0016
  - Power and light your trailer with sockets inserted on your Range Rover Sport.

- **Tow Hitch receiver** LR019990
  - Tow your boat, trailer or other mode of transportation with help from this sturdy, lockable hitch receiver. Can handle up to a 7,716lb trailer load capacity and a 550lb tongue weight capacity. Removes easily from vehicle for convenient, discreet storage in an accompanying bag.

- **Bike carrier** LR008387
  - Transport up to four bicycles with this rack, which works with the Tow Hitch Receiver. Swings away from the vehicle for easy access to the loadspace. Features a bike lock and a hitch lock. Requires Tow Hitch Receiver LR019990.

- **Rear Access Ladder** AGP90020

- **Towing Electrics** (combined 7- & 4-pin)
  - Power and light your trailer with sockets inserted on your Range Rover Sport.

**Please note:** These accessories are not suitable for Caravans, Trailers or Lighting Boards fitted with rear mounted LED lamps.

†iPod is a trademark of Apple Inc., registered in the US and other countries.
Roof Rails and Crossbars*  
LR006846  
Carries one surfboard, kiteboard or sailboard and mast.  
Load capacity 99lbs.

Carries one surfboard, kiteboard or sailboard and mast.  
Load capacity 99lbs.
Luggage Box
VPLDR0003
Opens from both sides. Lockable for security. External dimensions: 63 inches long, 38 inches wide, 18 inches high. Volume 118 gallons. Load capacity 120.81 lbs.

Luggage Carrier
LR068848
Load capacity 136 lbs.

Sports Box
VPLDR0002
Can be mounted on either side of the vehicle for curbside opening in any country. Internal retention system for skis or other long loads. Lockable for security. External dimensions: 90.55 inches long, 24.41 inches wide, 15.35 inches high. Volume 105 gallons. Load capacity 124.12 lbs.

Lashing Eye Kit
VUB503160
Six additional tie-down points for use with Crossbar T-slots.

Ratchet Strap
CAR000101
Tie strap for securing items to the Luggage Carrier or Expedition Roof Rack. 196.85 inches long, 0.79 inches wide. Supplied individually.

*Roof Rails and Crossbars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.
**Loadspace Rubber Mat**
VPLSS0049
Waterproof with retaining lip and non-slip surface.

**Rigid Loadspace Protector**
EBFS00020
Non-slip surface. Not compatible with Cargo Barrier or Cargo Divider.

**Flexible Loadspace Protector**
VPLSS0016
Heavy duty fabric protects loadspace up to window height. Covers full loadspace even with rear seats folded. Includes protective gloves.

**Premium Carpet Mat Set**
Deep pile carpet mats with waterproof backing.
- Ebony (shown left) - VPLSS0025PVj
- Nutmeg (shown left) - VPLSS0025SVB
- Ocean (shown left) - VPLSS0025HFX

**Rubber Mat Set**
(not shown) - LR006242

**Cargo Divider**
EGHS00140PMA
Separates pets from cargo. Must be fitted with Cargo Barrier. Not compatible with Rigid Loadspace Protector.

**Cargo Barrier**
VUBS008080

**Stainless Steel Sill Tread Plates**
LR006788 - Four piece kit. Stylish protection for both front and rear outer door sills.

**Stainless Steel Rear Bumper Tread Plate**
LR007321
Provides protection to the upper surface of the rear bumper. Compatible with all models except vehicles fitted with Stormer Accessories Pack. (not shown) - LR007322
Compatible with Stormer Accessories Pack 2005-2009 Model Year only.

**Waterproof Seat Covers**
*Ebony Front Seat Pair - with DVD Headrest*
VPLSS0027PVj
*Front Seat Pair*
(not shown) - VPLSS0026PVj
*Rear Seat Set*
(not shown) - VPLSS0028PVj

*Almond Front Seat Pair - with DVD Headrest*
(not shown) - VPLSS0027SVA
*Front Seat Pair*
(not shown) - VPLSS0026SVA
*Rear Seat Set*
(not shown) - VPLSS0028SVA

*Seat shown is Ebony Front with DVD Headrest*
**Load Retention Net**
VUB503130
Utilizes loadspace tie-down points. Includes floor net and two ratchet straps.
Strap length approximately 78.74 inches.

**Electric Cool Bag**
VUP100140L
Powered by the 12 volt auxiliary socket. Thermostatically controlled temperature.
Easy clean interior surfaces.
Height 14.96 inches, length 14.96 inches, width 8.66 inches.
Volume 14 quarts.
Our plan for a sustainable future.

We take our responsibility to our planet very seriously, with an integrated and innovative approach for a sustainable business and lower carbon world. As a company we are committed to:

Reducing our dependency on fossil fuels and the production of man-made CO₂ emissions...

Using fewer resources and creating less waste...

Enthusising our employees and stakeholders for sustainable business development

At Land Rover we do this by investing in four key areas:

**e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS; LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS**

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions within the next five years. Beginning with an intelligent Stop/Start system on Land Rover LR2 diesel manual, followed by Intelligent Power Systems Management (IPSM) with Smart regenerative braking on all Land Rover LR4, Land Rover LR2 and Range Rover vehicles, to the announcement of our new compact Range Rover, e_TERRAIN TECHNOLOGIES form a fundamental part of our carbon management plan.

**SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE**

World class manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based off 2007 levels. Going forward we are measuring our total operating carbon footprint and setting targets to reduce it; since 2006 this integrated approach has included the carbon offset of all manufacturing assembly CO₂ emissions from our Solihull and Halewood plants. But it doesn’t stop there. Every new vehicle is designed to be 95 percent recoverable and reusable – with 85 percent that’s recyclable and a further 10 percent that can be used to generate energy.

In 2009, we reduced our CO₂ emissions by 26,550 tons, water consumption by 192,000m³ and 1,300 tons to landfill.
CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every ton of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent ton of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and governed by a body of climate change experts, CO₂ offsetting allows us to take action now, to reduce our impact on the environment as part of an integrated carbon management plan.

Land Rover currently has 19 emissions reduction projects in our plan to offset approximately 2,500,000 tons of CO₂ by 2012...

Our customers in the Middle East have contributed over $1,650,000 to this target since October 2008...

We have three Gold Standard projects in the portfolio: energy efficient stoves in Uganda and Ghana and wind generation in Aliaga Turkey

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION & SOCIETIES GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

As part of our Sustainability policy Land Rover has actively promoted responsible off-road driving since 1990...

This year Land Rover launched a new three-year global initiative with the IFRC entitled ‘Reaching Vulnerable People around the World’ through which Land Rover aims to support IFRC’s life saving work. To date Land Rover has given over £2.5m worth of support to IFRC, including vehicle donations and funds raised
