NEW RANGE ROVER VELAR
2018
Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.
Land Rover is proud to introduce the New Range Rover Velar. A brand new addition to the Range Rover family, sitting between the Range Rover Evoque and the Range Rover Sport. A new dimension in glamour, modernity and elegance, with emotionally charged DNA and unquestionable design pedigree.

Search ‘Range Rover Velar’ to see the vehicle in action.

The World of Land Rover

There’s a World Out There

Your Peace of Mind
INTRODUCING A NEW TYPE OF RANGE ROVER

“The interior of the New Range Rover Velar is a calm sanctuary, created through elegant simplicity and a visually reductive approach, with design enabled technologies like the Touch Pro Duo infotainment system‡. All-LED lights and flush deployable door handles on the exterior complete a truly compelling design and, of course, it’s a Land Rover with unrivalled capability. Introducing the New Range Rover Velar: the Avant-Garde Range Rover.”

Gerry McGovern, Land Rover Chief Design Officer

*When Reduced Section Steel Spare or Alloy Spare Wheel is fitted.  **Standard on P380 engine.  †Not available on the Range Rover Velar.  ††These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.  ‡Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

COMPPELLING DESIGN

The design of the Range Rover Velar is revolutionary; its elegant look and exemplary range of standard features such as flush deployable door handles, sleek LED headlamps and rear lights are also standard. See page 8 for details.

INTELLIGENT VERSATILITY

To make your trip even more comfortable, Range Rover Velar provides 38 inches head clearance and 37 inches knee clearance for occupants, along with exemplary cargo space of 34.4 cubic feet*. Electronic Air Suspension** enables automatic access height for elegant entry and the Powered Gesture Tailgate† allows simple loading with hands free access. See page 38 for details.

DISTINCTIVE INTERIOR AMBIANCE

The Range Rover Velar cabin is a calm sanctuary. Wind and road noise are minimized through the use of aerodynamic undertrays and acoustically laminated front glazing. Rear passengers can benefit from reclining rear seats†, optional Four-zone Climate Control and two optional 8” Rear Seat Entertainment screens†. See page 11 for details.

DESIGN ENABLED TECHNOLOGIES

The standard Touch Pro Duo infotainment system, part of Land Rover InControl® technologies, makes life more connected and entertaining. The system seamlessly integrates two 10” high-definition Touchscreens to enable you to make a phone call on one screen while navigating on the other. Touch Pro Duo is complemented with full-color Head-up Display†, an optional state-of-the-art system†† providing sharp graphics and optional Interactive Driver Display† with configurable touch steering wheel controls. See page 21 for details.

CAPABILITY

Range Rover Velar has world-renowned Land Rover capability at its core. Standard features include: All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD), Adaptive Dynamics, Electronic Air Suspension**, and Torque Vectoring by Braking to deliver a connected drive††. Adding to driver assurance off-road, optional features include: All Terrain Progress Control (ATPC), Terrain Response® 2†† and an Active Rear Locking Differential. Impressive wading depth of up to 25.6 inches helps provide composure and sure-footed progress in challenging conditions.††. See pages 14 to 19 for details.

6

OUTSTANDING CRAFTSMANSHIP AND MATERIALS

A specialist team has meticulously developed every component that you see and touch, to deliver a refined, tactile experience. Supple leathers or premium textile and suede cloth can be specified for seats, steering wheel and extensively throughout the cabin. See page 11 for details.

SPORTS COMMAND DRIVING POSITION

The Sports Command Driving Practice helps deliver a more confident, engaged drive. See pages 11 and 34 for details.

REFINED EFFICIENT POWER

A choice of V6’s and 4-cylinder Ingenium engines deliver refined and responsive driving. The 3.0 V6 engine delivers 332 lb-ft of torque while the D180 engine delivers CO2 from just 142 g/km. See page 12 for details.

VERSATILITY

The design of the Range Rover Velar is revolutionary; its elegant look and exemplary range of standard features such as flush deployable door handles, sleek LED headlamps and rear lights are also standard. See page 8 for details.
Sophisticated. Intelligent. Advanced. Refined power and effortless elegance combine with exquisite effect in this outstanding example of contemporary automotive design. The Range Rover Velar is beautifully balanced, with optimised proportions. Its proud Range Rover lineage is instantly recognizable, from the formal, powerful volumes of the front end, through a flowing, continuous waistline, culminating in a taut and elegantly tapered rear.

The sleek volumes of the lower body, with its flawlessly integrated deployable flush door handles, bear witness to our obsession with the finest detail. Optional 22” wheels enhance the vehicle’s stunning proportions, further emphasising the spectacular on-road presence of the Range Rover Velar. At the rear, the vehicle’s design is distinguished by quad tail light signature elements within a full-width graphic incorporating the iconic Range Rover script, seamlessly harmonising the vehicle’s lines to stunning effect.

Search ‘Range Rover Velar Design’ for full details.
CELEBRATION OF INTERIOR DESIGN

The cabin of the Range Rover Velar exudes elegant simplicity. The familiar Range Rover interior design architecture, with its strong elegant horizontal lines, blends seamlessly with innovative features to give a feeling of calm, and enhance the driving experience.

Two seamlessly integrated 10" Touchscreens* and minimalist controls as standard, give easy control of the latest advanced technology. As the vehicle is started and comes to life, the revolutionary Touch Pro Duo technology reinforces the overall sense of luxury and innovation**. Everything has been designed and crafted to help you and your passengers arrive relaxed. The twin sliding armrests, which operate independently, help maximise your individual comfort.

Beautiful materials, including optional Windsor leather with a signature Diamond Cut pattern. Throughout the cabin, add a contemporary twist. Modern premium textiles, expertly constructed in collaboration with one of Europe’s leading manufacturers of high-quality and design-led textiles, Kvadrat, are offered as an alternative to leather.

The elevated position of our renowned Sports Command Driving Position, is designed to enable you to see further down the road and view your surroundings with greater clarity.

The option of Configurable Ambient Interior Lighting in a choice of ten colors creates the right mood. The panoramic roof, standard on all models, floods the cabin with light, bringing the outside in and further enhancing the interior.

Search ‘Range Rover Velar Design’ for full details.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

**Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Interior shown: 2018 Range Rover Velar R-Dynamic HSE with Light Oyster/Ebony interior in Windsor leather and optional equipment.
ENGINES AND TRANSMISSION

Power, sheer driving pleasure and refinement, there is a range of engines available for the Range Rover Velar and each has been optimized for specific attributes to cater for all needs. All engines are equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from braking to charge the battery for maximum economy, especially during city driving. Ingenium technology underpins all of the 4-cylinder engines in the Range Rover Velar. These low friction, all-aluminum engines have stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration, for smooth day-to-day performance.

Search ‘Range Rover Velar Performance’ for full details.

DIESEL ENGINE

D180
The Ingenium 2.0liter 4-cylinder 180HP Turbocharged Diesel engine produces 317 lb-ft of torque and is optimized to deliver the best fuel economy in the range.

- High-pressure common rail direct fuel injection, exhaust variable cam timing and a high-efficiency water-cooled intercooler work in combination to deliver cleaner, more efficient combustion.
- The high-pressure common rail system ensures that only enough fuel is delivered when required, resulting in clean, efficient combustion.

*Always follow local speed limits. **If vehicle is fitted with 18” wheels the top speed will be 136 mph.

GAS ENGINES

P250
The Ingenium 2.0liter 4-cylinder 247HP Turbocharged Gas engine produces 269 lb-ft of torque and delivers outstanding driveability.

- The intelligent Continuously Variable Valve Lift (CVVL) system varies the extent to which inlet valves are opened, reducing engine-pumping losses. This lets the engine ‘breathe’ with maximum efficiency, optimizing power and torque.
- CVVL works in combination with dual independent variable cam timing for ultimate operating flexibility, resulting in excellent power across the rev range.
- For exceptional acceleration and effortless overtaking, maximum torque is available between 1,200-4,500rpm.
- The twin scroll turbocharger is fed by an integrated exhaust manifold which increases the transfer of energy to the turbine – reducing turbo lag and improving engine response.

P380
The 3.0 liter V6 380HP Supercharged Gas engine produces 332 lb-ft of torque and is the top of the range for ultimate performance.

- The Roots-type twin vortex supercharger provides linear power delivery and increased responsiveness.
- A spray-guided direct injection system carefully manages the air-fuel mixture in the combustion chamber for improved combustion, extracting more energy from the fuel injected. This results in excellent power.
- The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency.
- A twin, contra-rotating balancer shaft system is employed to maximize refinement, resulting in an engine with incredibly smooth power delivery.

8-SPEED AUTOMATIC TRANSMISSION

All Diesel and Gas engines in the Range Rover Velar are coupled with an 8-Speed Automatic Transmission. With eight closely spaced ratios, the transmission ensures that you are always in the optimum gear, enhancing fuel efficiency and acceleration. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style.

PERFORMANCE AND CAPABILITY
ALL WHEEL DRIVE WITH INTELLIGENT DRIVELINE DYNAMICS

All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD) fitted as standard, delivers both outstanding on road performance and the full off-road capability expected of a Range Rover. Working together, AWD with IDD continually optimizes the engine torque distribution to the front and rear wheels and to provide improved traction and in variety of road and weather conditions*. Uniquely developed for the Range Rover Velar, the durable transfer box uses an electronically controlled multi-plate wet clutch to deliver smooth and precise distribution to the front and rear wheels. This ensures the constant optimization is imperceptible from the cabin and available engine torque is maximized to give efficient vehicle traction.

IDD determines the required distribution by continually monitoring the vehicle and its interaction with the road. Typically starting with a 50:50 distribution to ensure maximum controlled stability from the first vehicle movement, the system has the full capability of 100 percent rear bias to 100 percent front bias should road conditions require it. Predictive, as well as reactive, the system helps prevent losing traction as well as working to regain it*. All system parameters are on hand anytime you need to adjust them. All you need to do is twist the control to the required position and the system will adjust itself accordingly. Vehicle shown: 2018 Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment.

LOW TRACTION CONDITIONS

On slippery surfaces, such as wet grass and snow, torque can be balanced between the front and rear wheels to improve traction. In extreme conditions where only the front wheels have traction, up to 100 percent of engine torque can be distributed to the front wheels for enhanced grip*. LOW TRACTION CONDITIONS

HIGH TRACTION CONDITIONS

On smooth, dry surfaces, Range Rover Velar provides intelligent torque distribution to the rear wheels for the most efficient drive as well as delivering precise agility and handling*.

TORQUE VECTORING BY BRAKING

Torque Vectoring by Braking is designed to deliver controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels*. Understeer detected. Torque to outside wheels maintained. Line corrected.

ADAPTIVE DYNAMICS

The standard Adaptive Dynamics system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. To do this, the system is designed to constantly analyze acceleration, steering, throttle and brake pedal activity. The electronically controlled dampers adjust to optimize the suspension settings and provide optimum balance between comfort, refinement and agility. Search ‘Range Rover Velar Capability’ for full details.

CONFIGURABLE DYNAMICS

To enhance either refinement or comfort as the vehicle’s performance, the optional Configurable Dynamics function allows you to configure the throttle mapping, gearbox shift points, steering settings and suspension to suit your driving needs.

REFINED PERFORMANCE

The drive of the Range Rover Velar is supremely confident, connected and effortlessly delivered thanks to a carefully engineered suite of technologies.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.
CAPABILITY

The first vehicle to combine luxury and refinement with Land Rover-renowned capability, Range Rover continues to be leading-edge. Range Rover Velar offers new levels of style, while its unique Land Rover technologies and optimised geometry secure its position at the forefront of off-road capability.

The Land Rover patented Hill Descent Control (HDC®) is a standard feature. It is designed to assist the driver with controlled descents of difficult slopes. It does so by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist, which also comes as standard, is designed to help prevent the vehicle from rolling backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control, which is also standard, and is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

**ELECTRONIC AIR SUSPENSION**

A sure-footed, composed drive is completed by the latest Electronic Air Suspension, which provides exceptional wheel articulation and poise. It changes the vehicle’s height quickly, allowing cross-linking of the diagonal wheels to keep all four wheels on the ground on very uneven surfaces. Added to which, it makes loading heavy objects into the trunk easier as you can alter the vehicle’s height by +/- 2 inches to suit your needs. These functions can be operated via the 10" Touchscreen or button* in the cargo space area. The Speed Lowering System also uses the Electronic Air Suspension to reduce aerodynamic drag and fuel consumption at cruising speeds by lowering the vehicle from normal ride-height when the speed reaches 65 mph.

**ALL TERRAIN PROGRESS CONTROL**

All Terrain Progress Control (ATPC) is a state-of-the-art optional system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, snow and dirt roads. Operating like a cruise control system, it functions between 2.2 mph and 19 mph, enabling you to maintain full concentration on steering and finding a path through obstacles.

---

*Only available when optional towing equipment is selected. †These systems are not a substitute for driving safely with due care and attention and will not function in all conditions and situations, speeds, terrains and road conditions. Driver should not assume that these systems will correct errors of judgment in driving. *These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others.

Driving while distracted can result in loss of vehicle control. †Optional on P380 engine only. Standard on First Edition.

TERRAIN RESPONSE®
When you manually select Land Rover’s unique standard Terrain Response system, it sets the vehicle up optimally to match the demands of the terrain, by adapting the responses of the vehicle’s engine, predictions, differentials and chassis systems. There are six Terrain Response settings: Comfort, Grass/Gravel/Snow, Mud and Ruts, Sand, ECO and Dynamic Mode.*

TERRAIN RESPONSE® 3
Terrain Response 3 is an option that takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and automatically selects the most suitable terrain setting*. This function works seamlessly through the Touch Pro Duo Control Panel (lower touchscreen**).

TERRAIN RESPONSE® 2
Terrain Response 2* is an option that takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting*. This function works seamlessly through the Touch Pro Duo Control Panel (lower touchscreen**).

ACTIVE LOCKING REAR DIFFERENTIAL
The Active Locking Rear Differential** is designed to enhance traction in various weather conditions. A typical open differential transfers equal torque to the driven wheels meaning that if one wheel slips, then torque transfer to the other wheel is also limited, which reduces traction. Whereas the Range Rover Velar All Wheel Drive (AWD), with Intelligent Drive Dynamic (IDD) and Electronic Traction Control (ETC), both fitted as standard, go two steps further by distributing torque to both the front and the rear wheels, and by braking the wheels independently to improve traction respectively.

The addition of the Active Locking Rear Differential delivers the ultimate combination to enhance traction through limiting slip across the rear wheels*. A second multi-plate wet clutch between the rear wheels can lock almost instantly to provide full engine output torque to both wheels. This can be especially useful to deliver effortless capability in low grip conditions such as wet grass or during wheel articulation off-road. It also provides enhanced traction when exiting a corner, as when the inside wheel becomes unloaded due to weight transfer, the Active Locking Rear Differential increases the torque to the outside wheel*. Search ‘Range Rover Velar Capability’ for full details.

ACTIVE LOCKING REAR DIFFERENTIAL

TECHNOLOGY

INFOTAINMENT

The new Land Rover InControl® infotainment system, Touch Pro Duo, not only looks like no other, it performs like no other. Delivering a wealth of information and entertainment, it features intuitive and advanced integrated technologies to ensure everyone can make the most of their trip†. Search ‘Range Rover Velar Technology’ for full details.

TOUCH PRO DUO

The new standard 10” dual high-definition Touchscreens allow the user to view required information while simultaneously being able to interact with additional features, for increased flexibility and efficiency of use†. For instance, you can use the navigation system in the upper screen, while streaming music on the lower screen. Direct access to cabin and seat temperature controls are also available via the lower Touch Pro Duo screen. For a truly elegant and streamlined appearance, the steering wheel also has new hidden until lit, touch-sensitive switches as standard. One of these switches is programmable, so that it can be personalized to your preferences to accomplish a host of functions.

INTERACTIVE DRIVER DISPLAY

The Range Rover Velar ensures you're always entertained, informed and connected. R-Dynamic SE and HSE models feature a 12.3” high-definition Interactive Driver Display that can receive and project a vast amount of driving information, entertainment and data including navigation, phone and media††. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. Features can be accessed on either the Interactive Driver Display or the Touch Pro Duo screens†.

HEAD-UP DISPLAY

To reduce distraction or the need for you to take your eyes off the road, Head-up Display* is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield**. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease. It can also display information from the Touch Pro Touchscreens including phone and media information such as the name of the track you are listening to. The feature can be turned on and off dependent on driver preference††.

REAR SEAT ENTERTAINMENT

The optional Rear Seat Entertainment System provides two 8” screens built-in to the rear of the front headrests. It includes ‘Trip Status’, a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. The system comes with two WhiteFire® digital wireless headphone sets and HDMI, Mobile High-Definition Link (MHL) and USB connections.

†Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. ††Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. ‡Not available on Range Rover Velar.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.

Interior shown: 2018 Range Rover Velar R-Dynamic HSE with Light Oyster/Ebony interior in Windsor leather with optional features.
A vehicle’s cabin is the ideal place within which to experience your personal choice of music and the Range Rover Velar has the option of four different audio systems to bring your music to life.

**LAND ROVER SOUND SYSTEM**
Outstanding acoustic range through eight speakers. Only available on Range Rover Velar.

**MERIDIAN® SOUND SYSTEM**
Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 11 door-mounted speakers including a dual channel subwoofer. Only available on Range Rover S.

**MERIDIAN SURROUND SOUND SYSTEM**
All the fullness and clarity of a live performance delivered through an arrangement of 17 front, side and rear speakers including a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for all passengers in the vehicle.

**MERIDIAN SIGNATURE SOUND SYSTEM**
This delivers truly life-like reproduction, creating a profound, personal sound experience for every user. World-first Trifield 3D technology takes surround sound to the next level, the Signature Sound System includes 23 speakers including a dual channel subwoofer. Incredibly authentic, the sense of cabin space is expanded to a 3D experience – rendering all the instruments, performers and venues of your favorite performances in true scale and location. Not available on Range Rover Velar.

**SIRIUSXM® SATELLITE RADIO AND HD RADIO™**
The option of HD satellite radio technology offers improved sound quality, and a wide choice of stations and entertainment*. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience to the precise acoustics of the interior of the Range Rover Velar.

**TRIFIELD**
Exclusive to Meridian, Trifield blends the center and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

**TRIFIELD 3D**
Building on Meridian’s proven Trifold surround sound technology – world-first in car Trifold 3D truly brings musical performances to life. Through the addition of dedicated height channels, the sense of cabin space is expanded to a 3D experience, for a supreme sense of scale and definition in your music.

* Terms of service apply. Search ‘Range Rover Velar Technology’ for full details.

Meridian is a trademark of Meridian Audio Ltd. Trifold and the ‘three fields’ device is a trademark of Trifield Productions Ltd. Formed in 1977 in Cambridgeshire, England, Land Rover’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that Range Rover is the most supertech space within which to experience sound. Meridian Cabin Correction technology was utilized to analyze cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.
CONNECTIVITY

Land Rover InControl® is a suite of standard and optional features that connects you to your vehicle and links you seamlessly with the outside world. As part of InControl, Remote features Standard Vehicle Location as a standard and InControl® Apps is available on the Range Rover Velar S. With a selection of apps, even when you’re away from your vehicle, some of the InControl® features stay with you, making sure the Land Rover experience is more enjoyable than ever.*

Search ‘Range Rover Velar Technology’ for full details.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, with hands-free equipment, when it is safe to do so. Remote Packages require a compatible mobile phone and a Wi-Fi-enabled device. Voice commands and other device use subject to service provider’s coverage. Standard Vehicle Location service requires a Wi-Fi-enabled device.

TECHNOLOGY

STANDARD FEATURES

VOICE RECOGNITION SYSTEM
Understands clear spoken instructions, so you can concentrate on the road ahead with fewer distractions.†

REMOTE PACKAGE†
InControl Remote app provides upgraded information on your vehicle and enables you to interact with your vehicle remotely. Compatible with most smartphones, Android™ or the Apple Watch®, this service includes:

– Remote Lock/Unlock – Lock or unlock your doors from your smartphone with the click of a button. Simply press the ‘lock’ button on the Vehicle Security screen of the InControl Remote smartphone app to single lock the doors, arm the alarm, fold in the side mirrors and close the windows. Press the ‘unlock’ button to unfold the side mirrors, turn on the low beam headlights and cause the hazard lights to flash twice to help you locate your vehicle.

– Stolen Vehicle Locator – Uses tracking technology to alert you to an attempted theft, and signals your vehicle’s location to the relevant authorities, for a timely recovery.

– Deep Flash – This feature turns on your Land Rover’s hazard lights, low-beam headlights and sounds an audible alert to help you locate your vehicle in a crowded parking lot.

– Journey Tracking – This optional feature can automatically record your trip history including your route and mileage statistics. This information can be exported as an email to use for expense reporting and can be imported to a spreadsheet.

– Vehicle Status Check – Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

– Land Rover Optimized Assistance – If you breakdown you can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

– SOS Emergency Call – In cases where the airbags deploy, SOS Emergency Call will automatically connect you to the emergency response team who will notify emergency services to your location.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, with hands-free equipment, when it is safe to do so. Remote Packages require a compatible mobile phone and a Wi-Fi-enabled device. Voice commands and other device use subject to service provider’s coverage. Standard Vehicle Location service requires a Wi-Fi-enabled device.

†Remote Package contains subscription services that can be extended after the initial term advised by your Land Rover Retailer.

Android™ is a trademark of Google Inc. Apple Watch® is a registered trademark of Apple Inc., registered in the US and other countries. Mobile network connectivity cannot be guaranteed in all locations. InControl Packages of levels 1 to 4 are available in the UK and other countries.
NAVIGATION PRO

Navigation Pro** allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro** allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics.

**Do not use Land Rover InControl ® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps will need to be downloaded from the Apple/Play Store.26

- **Commuter Mode**
  - You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system.

- **Real Time Traffic Information**
  - Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.

- **Online Search**
  - Search for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.

- **Planning Routes and Door-to-Door Routing**
  - Before setting off, use the Planner app to guide you to your destination. A true door-to-door experience which includes public transportation options.

- **Share ETA**
  - You can share your estimated time of arrival or your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system.

- **Satellite View**
  - You can switch to satellite view with a single tap.

- **Commute Mode**
  - Allows the system to learn your commute patterns and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.

- **Parking Service**
  - As you approach your destination, you can see where parking is available. Simply tap on your preferred parking garage and the navigation system updates to direct you to it.

- **Online Routing**
  - While you’re on your way to a destination the system monitors live traffic conditions and adapts to account for typical traffic patterns for that time of day, keeping you on the optimum route.

- **Safety Camera**
  - The feature audibly and visually alerts you when approaching a safety camera.

LAND ROVER INCONTROL® APPS***

Land Rover InControl Apps technology allows vehicle-optimized apps on your Android or Apple smartphone to be controlled through the vehicle’s Touchscreen, including calendar, music player and a USB slot to the USB slot. You can also download third-party apps offering a vast range of services. Applications include:

- **Spotify**
  - Access a library of more than 30 million tracks from overhead. With Connect Pro you can switch to satellite view with a single tap.
  - While you’re on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

- **Online Search**
  - Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode.

- **Tiles™**
  - Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth® tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle’s Touchscreen, allowing you to make sure you have everything you need with you before you set off on your trip.

DRIVER ASSISTANCE

MAKING DRIVING EASIER

From negotiating city traffic or the highway, to providing additional assistance for you and your passengers, there's a wealth of innovative technologies available; either as standard, optional or as part of an optional package. Whichever you choose, you’ll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

Search: Range Rover Velar Technology for full details.

STANDARD DRIVE FEATURES

Cruise Control with Speed Limiter allows the driver to maintain the current speed of the vehicle and limit the speed set to a maximum specified speed. It is only possible when the vehicle is not stationary. Both functions can be easily turned on or off by the driver as desired. The Speed Limiter is designed to help keep your vehicle a set distance from the one in front, and notify you with a visual alert and auditory warning when it is designed to keep your vehicle a set distance from the one in front should it slow or stop. Should the vehicle in front stop completely, your vehicle is designed to come to a smooth halt. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume.

Adaptive Cruise Control (ACC) is designed to allow you to keep your vehicle a set distance from the one in front should it slow or stop. There are two basic methods. ACC will support a constant speed, or help to control your vehicle's distance from the one in front.

They do this with the aid of sensors or cameras. The ACC system maintains your desired distance from the vehicle in front, without the need for you to continuously press the brake pedal. If the vehicle in front stops, your vehicle is designed to come to a smooth stop. When you resume driving, ACC will automatically resume your set speed.

Adaptive Cruise Control with Queue Assist and Intelligent Emergency Braking †‡

Adaptive Cruise Control with Queue Assist allows you to maintain your speed set distance from the vehicle in front. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume. Should the vehicle in front stop completely, your vehicle is designed to come to a smooth halt.

Adaptive Cruise Control with Queue Assist and Intelligent Emergency Braking †‡

Adaptive Cruise Control with Queue Assist uses Traffic Sign Recognition information to adjust your vehicle’s speed accordingly."
ENJOY STRESS-FREE PARKING

Range Rover Velar offers the most advanced technologies to deliver intuitive and easy parking solutions. Whether reversing, parallel parking or getting into or out of tight spaces, these features make life easier. Available as standard, optional or as part of an optional package.

Seek ‘Range Rover Velar Technology’ for full details.

---

Rear Parking Aid helps make reversing into tight spaces easier. When you select Reverse, sensors located in the rear bumper are automatically triggered. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles*.

Rear View Camera provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle’s outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible*.

Surround Camera System† uses four digital cameras discreetly placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various maneuvers from parking by a curb, to getting in and out of tight spaces and intersections*.

SEARCH ‘Range Rover Velar Technology’ for full details.

*These systems are not a substitute for driving safely with due care and attention and will not remove human error under all circumstances, speeds, weather and road conditions, etc. Driver still must ensure that these systems will not remove all the need for due care and attention.

†Not available on the Range Rover Velar.

††Park Assist is only programmed to steer you out of a parallel parking space and will not steer the car out of perpendicular parking spaces.

Features and their availability may differ by vehicle specification. Please refer to Specification and Price Guide for details or contact your nearest Land Rover retailer for more information.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover are committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. The development process of the Range Rover Velar has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle’s life.

Due to its advanced lightweight properties, the body structure of the Range Rover Velar is 82 percent aluminum. Our innovative design incorporates up to 50 percent closed-loop recycled material from the manufacturing process of the body sheet, resulting in significant performance benefits and lower life cycle CO2 emissions. The closed-loop supply chain reduces scrap aluminum from the stamping process, segregates it and re-works it into the same grade quality sheet, thereby reducing the need for primary aluminum production, while maintaining the highest quality.

ADVANCED AERODYNAMICS

The streamlined design of our latest vehicle has been carefully optimized to make Range Rover Velar the most aerodynamic Range Rover ever. A rear spoiler with two integrated slots to direct airflow over the tailgate minimizes rear windshield soiling and provides a reduction in drag. The option of aerodynamically designed and engineered wheels can also help reduce drag by 5 percent.

ENGINE MANUFACTURING CENTER

Jaguar Land Rover’s Engine Manufacturing Center, where our engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising no fewer than 22,600 individual panels, which are capable of providing up to 4.2 (MW) (enough energy to power up to 1,600 homes), the panels generate more than 30 percent of the site's energy, reducing the plant’s CO2 footprint by over 2,400 tons per year.

Search 'Range Rover Velar Sustainability' for full details.
**DRIVER ASSISTANCE**

The Range Rover Velar has been engineered to include standard features to assist you and your passengers, and to help avoid accidents.

The elevated Sports Command Driving Position in the Range Rover Velar provides enhanced visibility. You can see more of the road and be more easily seen by others on the road, providing an enhanced feeling of confidence.

The Range Rover Velar is further enhanced by the latest technologies included as standard:

- **Dynamic Stability Control (DSC)** monitors the dynamic behavior of the Range Rover Velar, intervening to enhance vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by countering understeer or oversteer.

- **Anti-lock Braking System (ABS)** allows the vehicle to maintain traction with the road surface when braking and prevents wheels from locking – thereby retaining the vehicle's ability to steer.

- **Electronic Brake-force Distribution (EBD)** automatically varies the braking force to each axle in order to minimize stopping distance, while still maintaining stability and the vehicle’s ability to steer.

- **Electronic Traction Control (ETC)** enhances traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

- **Cornering Brake Control (CBC)** automatically varies the braking force to each wheel when the vehicle’s brakes are applied around a corner and the limit of grip is reached. The system is designed to prevent the vehicle’s wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

- **Roll Stability Control (RSC)** is integrated with DSC to reduce the possibility of rollover, while providing agility and the ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

- **Emergency Brake Assist** understands when you apply the brakes quickly but without the necessary force to maximize stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time.

- **Emergency Stop Signal** system automatically activates the hazard warning lights during emergency braking.

- **Autonomous Emergency Braking** – see page 28 for details.

For easier installation, two LATCH points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags including driver, passenger, side curtain and Thorax airbags are standard to protect you.

---

*These systems are not a substitute for safe driving and are not expected to prevent accidents. Vehicle networks and electronic components may be affected by electromagnetic fields. These effects may depend on a variety of factors, including environmental conditions and vehicle location. To ensure the safety of occupants, vehicle owners are advised to comply with all applicable laws and regulations. For more details see your local authorized Land Rover retailer.
BRIGHTER LIGHTS, FOR NIGHT-TIME DRIVING

The Range Rover Velar features all-around exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, to make driving at night less tiring.

Driving at night or in poor visibility is made easier by the available Auto High Beam Assist (AHBA) which detects lights ahead and automatically lowers the high-beams for oncoming traffic*. Search ‘Range Rover Velar Driver Assistance’ for full details.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

VERSATILITY

TRULY FLEXIBLE

Range Rover Velar enjoys optimum levels of space. Occupants can enjoy the highest levels of comfort and exemplary levels of storage.

Automatic Access Height, as part of the Electronic Air Suspension*, allows you to get in and out of the vehicle with greater ease. When you arrive at your chosen destination and Automatic Access Height initially lowers the vehicle suspension height by up to 0.9 inches lower than normal height. Then, as you open the door, it drops to its full access height of 1.6 inches lower than normal, making exit – and entry – more relaxed and elegant. The ride height automatically returns to its normal height as you pull away.

Exceptional 38 inches head clearance and 37 inches legroom in the second-row enables passengers to stretch out and relax. An electric recline function is also available for the rear seats, offering occupants in the second row additional comfort.

Optional Four-zone Climate Control helps make life more comfortable for everyone, by adjusting temperature levels, direction and intensity of airflow.

The 40:20:40 second row seat configuration features a rear-seat pass-through for storage of skis, an armrest and for the greatest possible storage space, the entire row can be folded. Optional rear seat remote release levers are located in the luggage compartment and, when released, mechanically fold all the seats down. Even when you're heading off on an extended road trip, there is plenty of space. With a maximum cargo space of 264 cubic feet, you can carry several suitcases or other bulky items with ease.

Optional Towing

Tow hitch receiver** with a maximum tow capacity of 5,512 Ibs† is available as an option, including all electrics and appropriate attachments for your trailer allowing you to use items from the Land Rover Gear range more easily, adding even more versatility to the vehicle.

Everything has been designed and engineered for ease of use and adaptability, to fit perfectly with your lifestyle. A Tow Package is also available which includes the tow hitch receiver, fixed rear recovery eye, Advanced Tow Assist†† and Surround Camera‡.

Search ‘Range Rover Velar Versatility’ for full details.

*Standard on P380 engine.
**Requires Fixed Rear Recovery Eye. †Maximum tow capacity refers to the V6 engine. Tow capacity varies by engine option. Please contact your local authorized Land Rover Retailer for more details. ††See page 73 for details. ‡These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

The following pages take you through a logical series of steps to personalize your Range Rover Velar. You have a number of choices; from selecting your model and engine, to exterior and interior colors, wheels, finishes and those detailed touches that make the vehicle your own.

You can start with our online configurator at landroverusa.com.

**THE RANGE ROVER VELAR OFFERS AN EXCLUSIVE RANGE OF CHOICES THAT ALLOW YOU TO PERSONALIZE YOUR VEHICLE.**

**STEP 1**
**CHOOSE YOUR MODEL**
If you would like Land Rover designers to choose your Range Rover Velar features for you, turn to page 42 to see our First Edition.
If you would like to specify your own vehicle, turn to page 44 where you can compare the standard features across Range Rover Velar and Range Rover Velar R-Dynamic.

**STEP 2**
**CHOOSE YOUR ENGINE**
You can select from a range of powerful diesel or gas engines.

**STEP 3**
**CHOOSE YOUR SPECIFICATION PACKAGE**
You can individualize your Range Rover Velar even further from a choice of superbly designed and engineered premium specification packages.

**STEP 4**
**CHOOSE YOUR EXTERIOR**
There’s a wide range of exterior options to select from; roof styles, paint colors, exterior design packages and wheels – all enable you to truly express yourself.

**STEP 5**
**CHOOSE YOUR INTERIOR**
Once you’ve chosen your seat style, select your preferred color combinations and choice of finishers.

**STEP 6**
**CHOOSE YOUR OPTIONS AND LAND ROVER GEAR**
You can choose from a wealth of options to create the exact vehicle you want. A range of accessories which your retailer can fit is also available to select from.

**TECHNICAL DETAILS**
Technical information and data for dimensions, performance and specifications.
CHOOSE YOUR MODEL

SELECT FIRST EDITION

Range Rover Velar First Edition represents the epitome of the vehicle’s design story. First Edition is only available in the first year of sales and includes the very finest touches and options as standard. It is presented in three exterior colors: Flux Silver, Corris Grey or Silicon Silver. Search ‘Range Rover Velar First Edition’ for full details.

Vehicles shown above are the Range Rover Velar First Edition.

All exterior colors shown above include rear tow eye cover surround in Indus Silver.

22” 9 SPLIT-SPOKE ‘STYLE 9007’
WITH DIAMOND TURNED FINISH
Standard on First Edition

21” 5 SPLIT-SPOKE ‘STYLE 5047’
WITH DIAMOND TURNED FINISH
Optional on First Edition

20” 10 SPOKE ‘STYLE 1032’
WITH DIAMOND TURNED FINISH
Optional on First Edition

PERFORMANCE AND CAPABILITY

First Edition includes all of the features available on DYNAMIC HSE (see page 49) plus the following:

- 380 HP engine. Further information on this powertrain is available on pages 12 and 13.
- All Terrain Progress Control (ATPC)*
- Terrain Response® 2*
- Configurable Dynamics
- Active Rear Locking Differential* 

EXTERIOR

Select either the metallic exterior color Corris Grey, or the premium metallic Silicon Silver. Select either the 22” 9 split-spoke ‘Style 9007’ with Diamond Turned finish or choose from one of the two additional optional wheels, the 20” 10 spoke ‘Style 1032’ with Diamond Turned finish or the 21” 5 split-spoke ‘Style 5047’ with Diamond Turned finish.

The following exterior features are standard:
- Exclusive First Edition badging on the B-pillar
- Black contrast roof
- 22” ‘Style 9007’ Diamond Turned Wheel

INTERIOR

The following interior features are standard:
- 20-way heated/cooled front seats with memory and massage settings in Light Oyster/Ebony perforated Windsor leather with heated rear reclining seats
- Full Extended Leather Upgrade
- Unique Carbon Fiber with Copper Wire Weave trim finishers with exclusive First Edition script
- Suedecloth headlining
- Illuminated treadplates
- Premium carpet mats
- Configurable Ambient Interior Lighting
- Heated steering wheel
- Heated windshield
- Head-up Display*
- Meridian™ Signature Sound System with 23 speakers
- 4 x USB, 3 x 12V
- Instrument panel chrome ends
- Reduced section alloy spare wheel
- Surround Camera System*
- Activity Key

When you have selected your preferred engine, color and wheels, visit pages 70-77 to choose from our wide range of Options and Land Rover Gear.
SELECT RANGE ROVER VELAR OR RANGE ROVER VELAR R-DYNAMIC

To help you choose between the Range Rover Velar or Range Rover Velar R-Dynamic models, this guide provides the standard features across both models, plus the additional features included with the Range Rover Velar R-Dynamic.

The elegant proportions and unmistakable Range Rover design cues create a vehicle that simply demands attention.

**Standard Features**

- **Transmission and Dynamics**
  - 8-speed automatic transmission
  - Electronic Parkbrake
  - ABS

- **Exterior Features and Finish**
  - 18" 10 spoke 'Style 1022'
  - Rear fog lights
  - Follow me home lighting

- **Interior**
  - 10-way electric front seats
  - Luxtec and suedecloth seats

- **Convenience**
  - Automatic headlights
  - Body-colored sliding panoramic roof

- **Safety**
  - 6 airbags

For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

---

RANGE ROVER VELAR

- Satin Chrome gearshift paddles and Bright metal treadplates

RANGE ROVER VELAR R-DYNAMIC

- Burnished Copper side vents and bumper accents

---

**61** Standard on 380 HP engine. Not applicable on 4-cylinder engines.

**62** These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions.

**63** The hood badge, grille script and grille are finished in Shadow Black look and allure. The hood badge, tailgate script and grille are finished in Shadow Black look and allure. The hood badge, tailgate script and grille are finished in Shadow Black look and allure.

**64** Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions.
### CHOOSE YOUR ENGINE

Choose from three powertrains: one diesel and two gas. Range Rover Velar delivers effortless performance from its advanced line-up of refined diesel and gas engines, which are paired with a smooth and responsive 8-speed Automatic Transmission.

CHOOSE YOUR EXTERIOR

SELECT YOUR ROOF
The standard body-colored sliding panoramic roof enhances the sense of space in the vehicle’s interior, flooding it with natural light and opens fully to let the outside in. You can also select the optional Black contrast roof to further enhance your vehicle’s exterior.

- Black contrast roof is available with Narvik Black or Santorini Black exterior color finishes. Includes front bumper lower, door cladding lower, rear bumper lower, pinstripe finisher, and tow eye cover in Corris Grey, and the rear tow eye cover surround in Indus Silver.

- Includes rear tow eye cover surround in Indus Silver.

All vehicles shown are the Range Rover Velar R-Dynamic HSE with optional features.

SELECT YOUR PAINT COLOR
Now you have chosen your preferred roof style, you can select your exterior paint color. From rich, deep lusters to smooth, crisp metallics, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat color.

Our optional metallics deliver a sparkle finish that is sure to catch the eye. And our optional premium metallics further enhance the exterior form through the intensity of the liquid-like smoothness to give your vehicle even more presence.

- Fuji White (Solid)
- Indus Silver (Metallic)
- Narvik Black* (Solid)
- Corris Grey** (Metallic)

*Black contrast roof is available with Narvik Black or Santorini Black exterior color finishes. Includes front bumper lower, door cladding lower, rear bumper lower, pinstripe finisher, and tow eye cover in Corris Grey, and the rear tow eye cover surround in Indus Silver.
**Includes rear tow eye cover surround in Indus Silver.

All vehicles shown are the Range Rover Velar R-Dynamic HSE with optional features.

Visit landroverusa.com to configure your vehicle online.

Visit landroverusa.com to configure your vehicle online.

**Black contrast roof not available with Narvik Black or Santorini Black exterior color finishes. Includes front bumper lower, door clinching lower, rear bumper lower, porchписыва фианос, and rear eye cover in Corris Grey, and the rear tow eye cover surround in Indus Silver.**

**Includes rear tow eye cover surround in Indus Silver.**
SELECT BETWEEN RANGE ROVER VELAR DESIGN PACKAGES

You can tailor the exterior of your Range Rover Velar with the addition of any of the following packages: Premium Exterior Package*, Black Exterior Package* and Premium Black Exterior Package. Each one elevates the vehicle’s sense of sophistication, with specific detailing providing another level of individuality.

Please note that these packages are not available on R-Dynamic models. Instead, for the Range Rover Velar R-Dynamic model, the R-Dynamic Black Package is available. See pages 56 and 57.

**PREMIUM EXTERIOR PACKAGE**

- Standard Range Rover Velar Narvik Black mid finisher
- Atlas lower blade
- Narvik Black lower finisher
- Front fog lights

**BLACK EXTERIOR PACKAGE**

- Narvik Black grille inner surround
- Narvik Black grille mesh
- Satin Black lower blade
- Satin Black lower finisher
- Satin Black front bumper lower

**PREMIUM BLACK EXTERIOR PACKAGE**

- Narvik Black grille inner surround
- Narvik Black grille mesh
- Atlas lower blade
- Narvik Black lower finisher
- Front fog lights

*Only available on Range Rover Velar S and SE models.

For full feature and option availability, please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

Vehicle shown is Range Rover Velar SE with optional equipment.

Visit landroverusa.com to configure your vehicle online.

**PREMIUM BLACK EXTERIOR PACKAGE**

- Narvik Black grille inner surround
- Narvik Black grille mesh
- Atlas lower blade
- Narvik Black lower finisher
- Front fog lights

**BLACK EXTERIOR PACKAGE**

- Narvik Black grille inner surround
- Narvik Black grille mesh
- Atlas lower blade
- Narvik Black lower finisher

CHOOSE YOUR OPTIONS AND LAND ROVER GEAR

SELECT YOUR OPTIONS

A wealth of options are available to select from at the point of ordering your new vehicle, to help you express your individuality and appoint your Range Rover Velar with precisely the premium features you require.

For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

EXTERIOR FEATURES

Roof Rails

Roof rails facilitate easy fitment of cross bars for truly stable roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Available in Black or Silver finishes.

Not available as Land Rover Gear – Accessories fit.

No Badges*

You have the option to remove both the derivative and engine badges from the rear of the vehicle.

Heated Windshield

Offers a quick and convenient way to defrost or demist the windshield. Featured heated washer jets prevent washer fluid from freezing so you can easily keep your windshield clean in cold conditions.

Powerful LED Headlights with Signature Daytime Running Lights (DRL) *

See page 36 for details.

Powered Gesture Tailgate*

Powered Gesture Tailgate enables the driver to operate the tailgate (both to open and close) from the curbside without needing to physically touch either the vehicle or the key fob. And as the system is compatible with accessory towing solutions, you can still tackle demanding situations with the least amount of fuss.

*Not available on Range Rover Velar. **Only available on the 380 HP engine, standard on First Edition.

DRIVING AIDS

Configurable Dynamics

See page 15 for details.

All Terrain Progress Control (ATPC)

See page 17 for details.

Terrain Response® 2

See page 18 for details.

Active Rear Locking Differential**

See page 19 for details.

Visit landroverusa.com for more information.
A range of stylish, tough and practical accessories is available, bringing you the opportunity to personalize your Range Rover Velar even further. These accessories can be purchased through your Land Rover Retailer and added at any stage during the vehicle’s life – not just when it’s new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

For our full range of accessories please search ‘Land Rover Accessories’ to view the online accessories catalog.

**TOURING ACCESSORIES**

- **Cross Bars**
  - Optional roof rail required, see page 70.
  - Cross bars and cross bar kit have been designed to enhance stability of the vehicle while carrying. Adapt the cross bars to the roof rack on the roof and secure with the roof rack. When the vehicle is empty, the cross bars can be removed. The incremental height when fitted is 3.6 inches.
  - VPLYR0162

- **Large Sports Roof Box**
  - Quick and easy fix. Fits to the roof rack. Can carry a maximum of 163 lbs. Open from both sides for easy access. The box is also equipped with a secure lock and a cover. VPLWR0100

- **Center Armrest Cooler/Warmer Box**
  - Food and drinks chiller and warmer that acts as a rear center armrest. With a leather-covered top, it is held in place by the center seat belt and powered from the rear auxiliary socket. Ideal for long trips with the family. VPLVS0176

- **iPhone® Connect and Charge Dock**
  - The device is designed to allow visibility of the phone while charging, utilizing the cupholder space in the center console. When connected the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. When parked, the home button is accessible. The iPhone USB charger can be easily disconnected if the USB connection is required for other use. VPLRV0119

- **Wireless Phone Charging Cupholder †**
  - Designed to allow visibility of the phone while charging, utilizing the cupholder space in the center console. The holder will accommodate phones up to 2.8 inches wide securely in place. The charger displays an LED light to indicate when charging, and turns off when complete. VPLYV0124

- **Click and Go Accessory System**
  - The Click and Go range is a multi-purpose seat–back system for second row passengers. The versatile Click and Go Base fastens between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. VPLRS0388

---

*Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the cellular and could have a detrimental effect on the navigation and satellite radio system, if fitted. **Maximum payload equals the load capacity of the roof mounted accessory.

†Wiring harness required, VPLYV0125

iPhone® is a trademark of Apple Inc., registered in the US.
OUTDOOR ACCESSORIES

**Carbon Fiber Rear Spoiler**
- Sleek and dynamic Carbon Fiber rear spoiler for Range Rover Velar.
- Range Rover Velar branding.
- Manufactured from lightweight Carbon Fiber, providing an aerodynamic improvement and sleeker exterior styling.
- Easy to install with installation tools included in the package.

**Ski/Snowboard Holder**
- Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading and is also lockable for security.
- Flexible rack system to facilitate roof carrying. Maximum payload 134 lbs†.
- Requires roof rails and cross bars for installation and provides a comprehensive and flexible solution for retaining luggage and other items within the cargo space. The attachment package includes components to fix into the cargo space rails via a quick lock/quick release system to help prevent movement during travel.

**Kayak Carrier**
- Flexible rack system to facilitate roof carrying. Maximum payload 134 lbs†.
- Requires roof rails and cross bars for installation and provides a comprehensive and flexible solution for retaining luggage and other items within the cargo space. The attachment package includes components to fix into the cargo space rails via a quick lock/quick release system to help prevent movement during travel.

**Rubber Mat Set – Ebony**
- Protects seats from wet, dirty clothes as well as general wear and tear. Provides a comfortable and cozy feeling for the passengers.
- Protective rubber mat extension covers the back of the rear seats to help prevent movement of luggage during travel.
- Helps to protect the rear cargo space carpet from general dirt.

**Cargo Space Rubber Mat**
- This waterproof mat extension covers the back of the rear seats to help prevent movement of luggage during travel.
- Helps to protect the rear cargo space carpet from general dirt.

**Aqua Sports Carrier**
- These smart, practical steps make it easier to get in and out of the vehicle.
- Neatly stowed under the sills, the side steps automatically deploy as the doors are closed. The deployable side steps are compatible with other accessories for a complete upgrade.
- High grade Carbon Fiber side power vents with a High Gloss finish provide a performance-inspired styling upgrade.
- The design of the cargo space partition net has been optimized to prevent luggage from entering the passenger compartment. Designed to complement vehicle exterior styling.

**Luggage Carrier**
- Complete the look and feel of your steering wheel with premium gearshift paddles. Gearshift paddles are machine polished, anodized and hand brushed to provide exceptional wear resistance with a premium finish.
- Please contact your nearest Land Rover Retailer for fitment options.

**Personalized Illuminated Treadplates**
- Illuminated treadplates with Range Rover script and halo surround. Highlighted in white illumination when the front doors are open.
- Manufactured from stainless steel with a Bright finish, the rear cargo space treadplate finisher provides protection for the cargo space trim space with subtle illumination.

**Deployable Side Steps**
- These smart, practical steps make it easier to get in and out of the vehicle.
- Neatly stowed under the sills, the side steps automatically deploy as the doors are closed. The deployable side steps are compatible with other accessories for a complete upgrade.
- High grade Carbon Fiber side power vents with a High Gloss finish provide a performance-inspired styling upgrade.
- The design of the cargo space partition net has been optimized to prevent luggage from entering the passenger compartment. Designed to complement vehicle exterior styling.

## TECHNICAL DETAILS

### DIMENSIONS AND CAPABILITIES

- **Standard Ride Height**
  - With roof rails: 65.3" (1658 mm)
  - With roof antenna: 66.3" (1684 mm)
  - With panoramic roof open: 67.1" (1705 mm)

- **Access height**
  - Access to seat will reduce each of the above by 1.6" (41 mm).

- **Headroom**
  - Maximum front headroom with panoramic roof: 38.1" (968 mm)
  - Maximum rear headroom: 38" (965 mm)

- **Legroom**
  - Maximum front legroom: 40.3" (1024 mm)
  - Maximum rear legroom: 37.2" (945 mm)

- **Cargo space Capacity**
  - **Rear seats upright**
    - Height: 41.1" (1044 mm)
    - Width: 49" (1245 mm)
    - Cargo space volume: 34.4 cubic feet
    - Cargo space width between arches: 41.3" (1049 mm)
    - Length at floor: 40.7" (1034 mm)
  - **Rear seats forward**
    - Height: 41.1" (1044 mm)
    - Width: 49" (1245 mm)
    - Cargo space volume: 70 cubic feet
    - Cargo space width between arches: 41.3" (1049 mm)
    - Length at floor: 70.6" (1793 mm)

- **Obstacle Clearance**
  - **Off-Road from (R-Dynamic)**
    - Ride Height: 28.9° (27.2°)
    - Approach Angle: 23.5°
    - Ramp Angle: 29.5° (29.1°)
  - **Standard from (R-Dynamic)**
    - Ride Height: 25.9° (25.1°)
    - Approach Angle: 21°
    - Ramp Angle: 27.3° (26.8°)

- **Dimensions and Capabilities**
  - **Wheelbase**: 113.1"
  - **Overall length**: 189"
  - **Width**: 85.4" (mirrors out)

- **Weights (Ibs)**
  - Weight from: 4,359
  - Maximum laden weight: 5,490
  - Maximum mass on each axle (front): 2,623
  - Maximum mass on each axle (rear): 3,131

- **Towing (Ibs)**
  - Unbraked trailer: 1653
  - Maximum towing: 5,291
  - Maximum coupling point / nose weight: 386
  - Maximum vehicle and trailer combination / Gross Train Weight: 10,736

- **Roof Carrying (Ibs)**
  - Maximum roof load (including roof rails): 174

- **Performance**
  - **Maximum speed**
    - **DIESEL GAS**
      - 180 HP: 125 mph

Visit landroverusa.com to configure your vehicle online.
THE WORLD OF LAND ROVER

THERE’S A WORLD OUT THERE

Your Land Rover vehicle has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can’t reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we’ve put together a range of experiences, publications and Land Rover branded goods. There’s a world to explore. Get out there and enjoy it.

LAND ROVER EXPERIENCE

Land Rover Experience Centers have expert instructors on hand to help you make the most of driving Land Rover vehicles. You can enjoy a Taster Drive to a Full Day course at one of the centers in our expanding network around the world, visit one of our factories or go even further on one of our Adventure Travel holidays.

ONE LIFE MAGAZINE

The official Land Rover magazine features the best in photography, authoritative journalism and expert insights. OneLife takes you right into the heart of exclusive experiences and extraordinary adventure, while keeping you up to date with the latest innovations, design and lifestyle choices.

PARTNERSHIPS

We are delighted to partner with individuals, teams and events who share our pioneering spirit. As Title and Exclusive Innovation Partner to Ben Ainslie Racing, Land Rover are an integral part of the team challenging for the biggest prize in world sailing, the 35th America’s Cup. With pioneering spirit core to what makes Land Rover unique, our association with Virgin Galactic continues a proud tradition.

HUMANITARIAN PARTNERSHIPS

Since 1954, Land Rover have supported the International Federation of Red Cross and Red Crescent Societies (IFRC) in reaching 150 million people needing aid in 189 National Societies.

SPECIAL VEHICLE OPERATIONS

Utilising the very latest in technologies and craftsmanship, our state-of-the-art Special Vehicle Operations facility creates the ultimate in truly personalized vehicles.

LAND ROVER COLLECTION

Our latest range of clothing and luxury leather goods is crafted with the same design excellence and attention to detail as our vehicles. We also have a collection that honors Land Rover’s unique heritage and features expedition-inspired gifts and apparel.
YOUR PEACE OF MIND

CUSTOMER SERVICE
When you bring your Land Rover vehicle to us, we use proprietary Land Rover diagnostic equipment to assess all your vehicle’s mechanical and electronic systems. Our factory-trained Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and accessories. A choice of service plans is available which, together with Roadside Assistance, ensure complete peace of mind.
For further details contact your local Land Rover Retailer or search ‘Land Rover Warranty’.

LAND ROVER ROADSIDE ASSISTANCE
Land Rover Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.
For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Retailer or search ‘Land Rover Roadside Assistance’.

LAND ROVER FINANCIAL SERVICES
Getting the keys to your very own Land Rover has never been so simple. And it’s more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.
For further details contact your local Land Rover Retailer or search ‘Land Rover Finance’.

FLEET & BUSINESS
Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Diverse, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service and low maintenance and repair costs.
We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.
Search ‘Land Rover Fleet and Business’ for full details.
