performance-engineered to evade stereotypes.
change cars mid-commute.

Optional equipment shown. See disclosures on page 71.
In ECO mode, the throttle response is modified and climate control is optimized for efficiency. In EV1 mode, the CT can run on battery power alone for short distances, at low speeds under certain conditions. Because the gasoline engine is not engaged, noise is minimized and emissions are eliminated. Depending on driving conditions, both settings can noticeably reduce fuel consumption.

>> Click knob to alternate between ECO and Sport mode.
Optional equipment shown. See disclosures on page 71.
intelligence, down to the last drop.

The highest combined fuel-efficiency rating of any luxury vehicle\(^2\) — 42 MPG\(^3\) — is only one aspect of the CT’s ingenious design. To discover more ways we’ve pushed the category forward since introducing the world’s first luxury hybrid more than six years ago, click the buttons below.
For an even greater performance edge, the CT F SPORT is outfitted with a more dynamic sport-tuned suspension. As well as racing-inspired sport aluminum pedals and a sport steering wheel trimmed in perforated leather. It also features bold design cues inside and out, including a distinctive mesh grille and exclusively available Ultrasonic Blue Mica and Ultra White exterior colors. For more information on the CT F SPORT or to configure your CT with individual F SPORT Accessories, use the buttons below.
now available in a new shade of blur.

CT F SPORT Details

Equip your CT
to understand why it's so far ahead, you need to know where it's been.
The CT wasn’t only engineered to be a great Lexus Hybrid, it was engineered to be a great Lexus. Period. In fact, it was designed by the same chief engineer who brought us our most luxurious vehicle to date—the LS 600h L.
unconventional seating, unrelenting standards.

Optional equipment shown. See disclosures on page 71.
designed for all the senses, including your sense.

Optional equipment shown. See disclosures on page 71.
designed for all the senses. of responsibility.

A variety of ecological materials and practices are used in the creation of the CT, including floor mats composed of 30% plant-based sources and a painting process specifically designed to reduce environmental impact. And, because 90% of the vehicle can ultimately be recycled, its design won’t only influence the vehicles of the future. It will also help build them.
one more way it excels at handling.

Optional equipment shown. See disclosures on page 71.
To help make your CT truly yours, you’ll find an extensive list of individual accessories and one of the widest ranges of color combinations of any Lexus. In addition to eight exterior colors, seven interior trim variations and three dash panel options, an F SPORT is also available. This includes a more dynamic sport-tuned suspension and bold design cues like 17-inch Dark Graphite wheels and exclusively available Ultrasonic Blue Mica and Ultra White exterior colors.

OPTIONS

Navigation System\textsuperscript{10} with Remote Touch\textsuperscript{11} controller
Not all feats of performance are found on asphalt. Take the innovation found inside the CT. From an available Pre-Collision System that is the first in its class to audio components that are among the most innovative in the industry, the CT has been miles ahead of the competition since day one.

Optional equipment shown. See disclosures on page 71.
and before its wheels touch the pavement.
a car that changes everything, even the way you hear.

The CT features the world’s first automotive speakers constructed with bamboo charcoal-based resin. The innovative design doesn’t just make them lighter, it also makes them sound better. With the available 10-speaker system, sound quality is further enhanced with a Class D amplifier that uses 50% less power and is 26% lighter than a conventional one. Specifically tuned to the acoustics of the CT’s quiet cabin, it offers exceptional performance at all volume levels.

greater clarity
wider range
more natural sound
With a distinctive shape, the standard light-emitting diode (LED) daytime running lights (DRL) offer an aggressive appearance.

Available low-beam twin LED headlamps use less energy, last longer and offer greater light distribution than conventional bulbs.

Halogen high-beam headlamps are designed to provide added visibility when driving at night.
highly responsive, down to its headlamps.
NAVIGATION

Utilizing a retractable eight-inch LCD screen, the available voice-activated Navigation System¹⁰ isn’t only remarkably fast and accurate, it’s also intelligent: It can recognize more than 100 voice commands.

Optional equipment shown. See disclosures on page 71.
clearly, innovation isn’t limited to areas under the hood.

The available, award-winning\textsuperscript{13} Remote Touch\textsuperscript{11} functions similarly to a computer mouse, enabling you to easily move through logical menus of the CT’s innovative features. Ergonomically designed with a fingertip toggle pad, haptic feedback and buttons on either side, it’s located centrally for you and your front passenger’s comfort and convenience. Use the buttons on the left to learn more about select features it enables you to access.
connects to the road as well as the driver.

A ride this exhilarating demands an equally impressive soundtrack. Accordingly, the audio system offers both USB and auxiliary input connectivity for portable music players. And, for those with compatible Bluetooth® devices, an audio-streaming function enables you to access content without ever removing the device from your pocket or purse.

Optional equipment shown. Device not included. 2012 model shown. See disclosures on page 71.

The audio system can also be used to play MP3 files stored on portable USB drives.
Devices with A2DP Bluetooth compatibility can stream content wirelessly to the audio system.
The available Pre-Collision System (PCS)\textsuperscript{12} visually and audibly alerts the driver of a potential frontal impact. The system determines a collision is imminent and proactively retracts the front seatbelts and prepares Brake Assist\textsuperscript{18}.

If the driver forcibly presses on the brake pedal, Brake Assist\textsuperscript{18} provides additional braking force. If the brake pedal is not pressed, the brakes are automatically applied to help reduce impact speed.

Optional equipment shown. See disclosures on page 71.
it does more than make waves, it uses them.

Utilizing advanced radar technology, an available Dynamic Radar Cruise Control system can help maintain a constant speed or pre-set following distance from a vehicle traveling ahead. And, the CT is the first in its class to offer an available Pre-Collision System (PCS)\textsuperscript{12} that’s designed to detect potential front collisions and take measures to help reduce impact damage.

STANDARD FEATURES

LUXURY AND CONVENIENCE

SmartAccess\textsuperscript{20,21} with push-button Start/Stop and touch sensors on exterior front-door handles
Power tilt-and-slide moonroof with sliding sunshade
Dual-zone automatic climate control with interior air filter
Tilt-and-telescopic steering column
Power windows with one-touch auto open/close
Power door locks
Powered auxiliary console (vehicles without Navigation)
Cruise control
Center console with cupholders and storage bin
Lexus Personalized Settings (LPS)\textsuperscript{22} to customize select electronic functions
Illuminated entry system
Dual illuminated visor vanity mirrors

SEATING AND TRIM

NuLuxe interior trim
Leather-trimmed steering wheel
Padded driver’s armrest
Chrome-finished shift knob
10-way power driver’s seat (including lumbar); four-way manual front passenger’s seat
Height-adjustable headrests for all seating positions
COMMUNICATION, AUDIO AND NAVIGATION

Lexus six-speaker Premium Sound System with Automatic Sound Levelizer (ASL) and in-dash CD player

SiriusXM Satellite Radio. Subscription required. 90-day trial subscription included

USB and auxiliary iPod®/MP3/Windows Media® Audio (WMA) port

Bluetooth® technology

Bluetooth audio profile for wireless integration of compatible music players with in-vehicle audio system

INSTRUMENTATION AND CONTROLS

Steering-wheel-mounted audio, phone and display controls

Multi-information display

Drive Mode Select with Normal, Sport, ECO and EV (Electric Vehicle)¹ driving modes

Selectable blue or red instrumentation lighting

Selectable ECO driving indicator or tachometer

Automatic on/off headlamps with auto-off delay

Interior fuel-filler door release

Outside temperature display

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Eight-year/100,000-mile Hybrid System Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the CT Warranty and Services Guide at your Lexus dealer for details.

1. There is less noise when driving in hybrid-electric mode only, be alert to your surroundings. 2. Highest combined MPG compared to gas-powered vehicles. 3. 2013 EPA-estimated 43/40/42 (city/highway/combined) MPG. Actual mileage will vary. 4. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/liftings and clutch linings; or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. 5. F SPORT is a trademark of Toyota Motor Corporation. All information presented herein is based on data available at time of printing and is subject to change without notice. F SPORT Accessories are available exclusively through participating Lexus dealers. See dealer for more detailed information. 6. To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with either quarter-turn fasteners or retention hooks (clips). This floor mat was designed specifically for use in this model and model year vehicle and SHOULD NOT be used in any other vehicle. 7. Up to 90% recyclable based on ISO 22628 standards. 8. Cargo and load capacity limited by weight and distribution. 9. In-performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 200,000 miles, depending upon driving conditions. 10. Availability and accuracy of the information provided by the Navigation System or any SiriusXM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Navigation updates available at additional cost. See Navigation System Owner’s Manual or contact SiriusXM for details. 11. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 12. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See Owner’s Manual for further information. 13. Based on Technical Innovation award, www.popularmechanics.com 2010. 14. SiriusXM services require a subscription after trial period. Subscriptions governed by SiriusXM Customer Agreement available at siriusxm.com. You decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-800-967-2346 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 15. Always drive safely, obey traffic laws & focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data, you are responsible for charges. Apps/services are subject to change. Apps identified by ™ or ® are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see lexus.com/enform. 16. Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. 17. Bluetooth® audio device must be enabled with A2DP and AVRCP. 18. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. 19. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 20. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 21. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloha.org. 22. The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. 23. iTunes® and iPod® are registered trademarks of Apple Inc. All rights reserved. 24. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for further details. 25. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for further details. 26. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner’s Manual for details. 27. This device is not a substitute for safe driving practices. It is the driver’s responsibility to maintain a lookout for pedestrians, cyclists, other cars and objects and to drive the vehicle in a safe and prudent manner to avoid making contact. 28. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See Owner’s Manual for further information/warnings. 29. Whiplash Injury Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 30. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. 31. Coverage with the available in continental U.S. and Canada. Please see your Lexus dealer for details. 32. Lexus Genuine Accessory Warranty will only apply when the installation is performed by a trained Lexus-approved installer. If the film is installed by anyone else, the Lexus “Parts Only” warranty—12 months—will be applicable instead. See dealer for details. 33. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 34. HD Radio™ Technology manufactured under license from iBiquity Digital Corp. United States and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (877-253-908) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
