THE PURSUIT OF PERFECTION.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options are available in all regions of the country. See lexus.com for information about options packages.

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage corrosion perforation Warranty. All warranties with zero deductible. See the ES Warranty and Services Guide for your dealer details for further details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM Radio, XM NavTraffic, XM NavWeather and XM Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic and forecasting information in your general vicinity and along your route. Disruptions may be experienced between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Please refer to your owner’s manual for details on what to do if a specified route is not available in your city or roadway. Periodic Navigation updates available at an additional cost. Please see your Navigation System Owner’s Manual for further details.

2. XM Radio and XM NavTraffic each require an XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 30-day complimentary trial, you must set up the appropriate XM subscription to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-395-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, your vehicle must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM, Customer Agreement available at xmradio.com/terms. XM Radio fees, services and programming are subject to change.

3. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around your vehicle and check visually to make sure it is safe to move.

4. The engine immobilizer is a state-of-the-art anti-theft system. Please see your Owner’s Manual for important instructions and cautions.

5. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as road surface condition, tire condition, vehicle load, weather conditions, traffic conditions, and driver input and response. System effectiveness may be reduced in adverse weather and road conditions. Always remain vigilant when driving and maintain a safe following distance. The purpose of VSC is to help the vehicle maintain a straight course and, if activated, may apply the brakes to individual wheels. Drivers can override the system at any time by using the brake pedal to slow the vehicle down.

6. The engine immobilizer is a state-of-the-art anti-theft system. Please see your Owner’s Manual for important instructions and cautions.

7. The engine immobilizer is a state-of-the-art anti-theft system. Please see your Owner’s Manual for important instructions and cautions.

8. Enform is a registered trademark of Toyota Motor North America, Inc. The Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Please see your Owner’s Manual for important instructions and cautions.

9. Disclaimer and Trademark Notice: XM, NavTraffic, NavWeather, NavWeather and Sports, Sports and Stocks and XM are registered service marks, and XM, NavTraffic, NavWeather, NavWeather and Sports, Sports and Stocks and XM are service marks of Sirius XM Radio Inc. XM is a registered trademark of Harman International Industries, Inc. Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Please see your Owner’s Manual for important instructions and cautions.

10. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatbelt. Do not use a reserved facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your Owner’s Manual for further information.

11. Dynamic Radar Cruise Control is designed to help slow down and not a substitute for safe and attentive driving practices. Please see your Owner’s Manual for important instructions and cautions.

12. The effectiveness of the AB system is affected by vehicle speed, road surface condition, tire condition, vehicle load, traffic conditions, the amount of driver attention, and the level of distraction.

13. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.

14. Friction materials are designed to operate between 300°F to 500°F. To help maintain this operating temperature, the brake system is designed to allow the brakes to become hot during normal driving conditions.

15. Bluetooth is a registered trademark of Bluetooth SIG, Inc. and is used under license.

16. The vehicle's malfunction indicator lamp (MIL) system is designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner’s Manual for further details.

17. The Bluetooth hands-free system is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices.Brake effectiveness also depends on proper brake system maintenance and tire and road conditions. The SmartAccess system may interfere with some pacemakers or other cardiac devices. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

18. The Navigation System is designed to assist in locating an address or point of interest. XM Radio, XM NavTraffic, XM NavWeather and XM Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic and forecasting information in your general vicinity and along your route. Disruptions may be experienced between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Please refer to your owner’s manual for details on what to do if a specified route is not available in your city or roadway. Periodic Navigation updates available at an additional cost. Please see your Navigation System Owner’s Manual for further details.

19. The engine immobilizer is a state-of-the-art anti-theft system. Please see your Owner’s Manual for important instructions and cautions.

20. The engine immobilizer is a state-of-the-art anti-theft system. Please see your Owner’s Manual for important instructions and cautions.

DOWN TO
THE FINEST DETAIL.
There’s attention to detail. And then there’s this. The 2010 ES 114 points of sound dampening, 88 measures to help prevent vibrations, 43 sensors for comfort. And, of course, 7 sensors to monitor the sensors. Here, just numbers on a page. But when combined with the kind of luxury you’ve grown to expect from Lexus, they result in an experience unlike any other. It’s a vehicle engineered with one goal in mind: that every moment you spend inside is as remarkable as the first.
IN THIS CASE, YOUR SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety—yours. To that end, the ES features available heated and ventilated front seating that can be adjusted to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And to ensure your settings aren’t in vain, they can be recalled at the press of a button. Even its technology is designed to adapt to you. Its available voice command is the most tested automotive voice-recognition system ever, enabling you to use casual speech to help control everything from climate settings to navigation functions.
LEXUS ENFORM™
Offering the ultimate in convenience for the driver, the available Lexus Enform system features two services: eDestination and Destination Assist. The first allows you to save up to 200 points of interest from your computer and upload them to your ES. The latter connects you to a live agent, available 24/7, who can help you find destinations while driving and automatically upload them to your available Navigation System. Learn more at lexus.com/ES/Enform.

SAFETY CONNECT™
For added peace of mind, Safety Connect features four main services: Automatic Collision Notification that can request help if your airbags deploy, even if you are unable to; Stolen Vehicle Location that can help police track your ES if it’s stolen; an Emergency Assistance Button (SOS) that allows you to request help in any kind of emergency situation; and Enhanced Roadside Assistance that can send assistance for everything from flat tires to fuel delivery at the touch of a button.

MARK LEVINSON® AUDIO
Offering fully discrete 5.1-channel playback in a 7.1-channel architecture, the available Mark Levinson Premium Surround Sound System in the ES uses 14 strategically placed speakers to create a “sweet spot” of sound that envelops the entire cabin. The result is a listening experience virtually unrivaled by other vehicles in its class. For more information, please visit lexus.com/ES/Levinson.

NAVIGATION WITH REAL-TIME TRAFFIC AND WEATHER
Available XM NavTraffic™ provides real-time traffic, road construction and accident information. And available XM NavWeather™ provides continually updated weather information along your route.

SINGLE-SOURCE WOOD TRIM
Yet another example of attention to detail, the side panels and center console are crafted from a single piece of wood and then selected by hand to ensure the grain, color and shade are consistent throughout the cabin.

PANORAMA GLASS ROOF
The ES is the only Lexus to feature an available panorama glass roof. Offering fresh air to the front passengers, and natural sunlight to all occupants, the full-length glass roofline is so seamlessly integrated with the metal roof frame that no molding is visible.

DUAL-ZONE CLIMATE CONTROL
To make it even more accommodating, separate controls allow the driver and front passenger to adjust the cabin temperature to their preference. In addition, a new omni-sensing automatic recirculation system checks the outside air for pollutants. And if a high level is detected, the air intake turns off, and cleaner air is recirculated inside the cabin.

BACKUP CAMERA
When the ES is placed in reverse, an available backup camera located above the rear license plate transmits a wide-angle color image to the screen on the available Navigation System. As a result, the driver may be able to see objects they otherwise would have missed.

HAND-SELECTED LEATHER
Only the highest-quality leather stock is considered for use in an ES. And even then, it must undergo extreme tests before being approved. To name a few: being frozen to -40°F, withstanding the flame of a blowtorch and enduring a 10-year simulation of ultraviolet rays.

THE DIFFERENCE BETWEEN OWNING A CAR AND OWNING A LEXUS.
For those who wish to embrace curves, the front-suspension geometry on the ES was specifically designed for greater control and steering feel. And in the rear, a uniquely engineered subframe helps provide exceptional handling and rigidity. For those who wish to defend against them, it features innovations like an available lighting system that can rotate in either direction to help illuminate more of the road ahead. And for the curve we hope is never thrown your way: an available Pre-Collision System™ that is designed to sense and react to an imminent frontal collision before it occurs.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control™ sensors use radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System (PCS)™ is designed to detect when a frontal collision is unavoidable and automatically retract the front seatbelts to prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

LUXURY AND CONVENIENCE
SmartKeyTM with push-button Start/Stop
Remote keyless entry-linked memoryTM
Dual-zone automatic climate control with interior air filter, sensor and automatic recirculation mode
Power tilt-and-telescopic steering column
Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade
Power windows with one-touch auto-open/close feature
Exterior glass with UV reduction
Remote-linked moonroof and moonroof opening
Retained accessory power for moonroof and windows
Electrochromic (auto-darkening) inside rearview mirror with compass
Power door locks
Cruise control
Center console with storage bin and accessory power outlet
Dual cupholders, front and rear
Illuminated entry system
HomeLink® universal transceiver to operate compatible garage, gate, home lighting and home security systems

SEATING AND TRIM
Leather-trimmed interior
10-way driver’s and front passenger’s (including lumbar) power seats
Lexus Memory System to control power driver’s seat (except lumbar), outside mirrors and steering wheel
Height-adjustable headrests for all seats
Brown walnut or espresso bird’s-eye maple interior trim
Carpeted floor mats

COMMUNICATION, AUDIO AND NAVIGATION
Lexus eight-speaker Premium Sound System with Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
XM® Radio1,2,20 complimentary 90-day trial subscription
USB and auxiliary iPod® port
Bluetooth® technology
Bluetooth® audio profile for wireless integration of compatible music players with in-vehicle audio system

INSTRUMENTATION AND CONTROLS
Steering-wheel-mounted audio and display controls
Liquid-crystal multi-information console display
Electrochromic instrumentation
ECO Driving indicator
Automatic on/off projector-beam headlamps with auto-off delay
Illuminated interior electronic trunk-lid and fuel-filler door releases
Outside temperature gauge

STANDARD LUXURY FEATURES
STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY
Vehicle Stability Control (VSC)® with code/keyswitch
Traction Control (TRAC)
Four-wheel power-assisted disc brakes with front ventilated discs
Four-sensor, four-channel Anti-lock Braking System (ABS)
Brake Assist
Electronic Brakeforce Distribution (EBD)
Direct Tire Pressure Monitor System
Water-repellent front door glass
Daytime running lights
Integrated bioplmars
Rain-sensing intermittent windshield wipers with mist cycle
Rear-window defogger with auto-off timer
Power-adjustable outside mirrors with turn indicators, defoggers and puddle lamps

PASSIVE SAFETY
Driver’s and front passenger’s advanced airbag system (SRS)® with front passenger’s twin-chamber airbag (SRS)®
Front and rear seat-mounted side airbags (SRS)®
Driver’s and front passenger’s lower airbags (SRS)®
Front and rear seat curtain airbags (SRS)®
Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front and outboard rear seats
Automatic Locking Retractor/Emergency Locking Retractor (ALR/EUR) seatbelts for all passenger seating positions, Emergency Locking Retractor (EUR) only for driver’s seat
Height-adjustable front shoulder belt anchors
Child Restraint Seat (CRS) tether anchors and brackets for all rear seating positions
Highly-rigid body structure with front and rear crumple zones
Side-impact door beams
Reinforcements in pillars and door sills
Impact-dissipating upper interior trim
Collapsible steering column

SECURITY
Safety Connect® offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance® services
Vehicle theft-deterrent and engine immobilizer system
Emergency interior trunk release
First aid kit
Tool kit

VARIABLE PORTION
(Accessories)

NAVIGATION SYSTEM/MARK LEVINSON PREMIUM AUDIO SYSTEM PACKAGE
- HDD Navigation System including voice command, color LCD display with integrated backup camera, XM NavTraffic, XM NavWeather, XM Sports and Stocks, complemented by 90-day trial subscription and Enhanced Bluetooth technology
- Lexus Enform with Safety Connect,ollen Destination Assist, eDestination, Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance services
- Lexus Personalized Settings (LPS)
- Mark Levinson 14-speaker, 300-watt amplifier, less than 0.1% THD, 20–20,000 Hz
- Premium Surround Sound Audio System with 7.1 architecture and in-dash, single-feed, six-disc DVD/CD auto-changer featuring DVD audio and DVD-video playback

ULTRA LUXURY PACKAGE
- Semi-aniline perforated leather-trimmed interior with double-contrast stitching
- Wood- and leather-trimmed steering wheel and shift knob
- Heated and ventilated front seats
- Driver’s seat power cushion extender
- Lexus Memory System for front passenger’s seat
- Electrochromic (auto-dimming) outside mirrors with tilt-down in reverse
- Panorama glass roof
- Power rear sunshade
- High-Intensity Discharge (HID) headlamps
- Dual-speed Adaptive Front Lighting System (AFS)
- 17 x 7.0-in 10-spoke Liquid Graphite-finish alloy wheels
- Full-size spare tire with 17-in alloy wheel

OPTION PACKAGES
- Wood- and leather-trimmed steering wheel and shift knob
- Voice-activated HDD Navigation System with backup camera and Enhanced Bluetooth technology
- High-Intensity Discharge (HID) headlamps
