467-horsepower, naturally aspirated 5.0-liter V8 engine; eight-speed Sport Direct-Shift transmission with manual-mode torque converter lockup; Torque Vectoring Differential with Slalom, Track and Standard modes; Brembo® brakes; and 19-inch alloy wheels by BBS. Rear-wheel drive. /n

INTRODUCING
THE 2016 GS F

GS F shown in Ultrasonic Blue Mica 2.0 // Options shown.
MORE THAN A NEW STANDARD.
A NEW BREED.

There are those who push boundaries. And then there are those who ignore them altogether. Introducing the most powerful sedan we’ve ever offered: the first-ever GS F. Wielding unprecedented levels of exhilaration and striking sophistication throughout, this is the next expression of F performance.
FOUR DOORS. ALL F.

The challenge: Create the highest-performance Lexus sedan ever. One that doesn’t just wear the coveted F badge, one that embodies it. The result: the first-ever GS F. With immense power, a race-ready cockpit and signature elements, including flared and vented fenders, unrelenting Brembo brakes with six-piston front calipers and stacked quad-tip exhaust outlets, the GS F is pure F.
HIGH-BACK SPORT SEATS

Embracing you from hip to shoulder, these exclusive race-inspired front sport seats feature a unique foam construction that’s designed to disperse body pressure, increasing support and helping to keep you firmly planted through turns. Even the stitching pattern on the leather-trimmed seats was created to grab more than just your attention. Inspired by specially crafted athletic sportswear, the pattern’s shape and position were carefully calculated to provide greater muscular support and grip in high-G situations.
While the GS F offers drivers and passengers a seemingly endless supply of adrenaline, courtesy of its dynamic performance, the striking design of its interior proves you don’t have to sacrifice sophistication for exhilaration. Supple leather-trimmed seating embraces occupants from hip to shoulder, while black carbon fiber accents and contemporary ambient lighting punctuate the aggressive interior lines. And, forging an even greater connection with the driver, the distinctive cross-stitched sport steering wheel ensures that control is always on command.
THE NEXT EXPRESSION OF F

F vehicles aren’t merely built—they’re honed. World-renowned for pushing the globe’s best drivers to their limits, Fuji Speedway is more than ground zero for ultimate performance. It’s a proving ground for Lexus. And that’s only the beginning. Exhaustive testing, tuning and engineering continue at the most iconic and challenging tracks around the world, from Germany to the United States. Those grueling development trials have forged the most dominating Lexus vehicles ever built, from the LFA supercar to the RC F GT3 racecar. And now, the GS F.
Whether tackling back-road switchbacks or devouring open miles on the highway, specialized manufacturing techniques, including high-strength adhesive bonding, laser brazing, and multi-spot and laser screw welding, allow the GS F to push the limits without compromising exceptional ride quality and drivability.
TORQUE VECTORING DIFFERENTIAL

Putting added control into the hands of the driver, the GS F is the first Lexus sedan to feature a Torque Vectoring Differential (TVD). With three driver-selectable modes—Standard, Slalom and Track—the TVD responds in one-thousandth of a second to vary torque distribution according to cornering conditions. By sending more power to the outside rear tire, it helps propel the GS F around the turn for enhanced agility while also helping you to hold your line with ultimate precision.
STRENGTH IN NUMBERS

5.0 LITERS. EIGHT GEARS.

Engineering a performance vehicle that can carve through slalom courses as deftly as it dominates straightaways requires optimal balance. It was this commitment that led to innovative components, including lightweight titanium valves and high-strength, forged connecting rods. As well as a lightning-fast eight-speed Sport Direct-Shift transmission with downshift rev-matching. And, delivering invigoration for all the senses, its naturally aspirated 467-horsepower V8 emits a throaty, specially tuned engine sound as it screams toward its impressive 7,300-rpm redline.
Reining back such a high-performance machine requires serious stopping power. Get the control you crave thanks to the huge Brembo 14.9-inch brake rotors clamped by massive six-piston aluminum monoblock calipers in the front and 13.5-inch rotors clamped by four-piston calipers in the rear. And, for optimal performance lap after heart-racing lap, the brakes feature a fast-cooling, slotted rotor design and high-friction pads for reduced brake fade.

TAMING THE BEAST
ADVANCED TECHNOLOGY

In the lead even while parked, the driver-inspired cockpit features next-generation technology, including a race-ready gauge cluster and a high-resolution 12.3-inch multimedia display with full-screen map views. Looking beyond the interior to the road ahead, Premium Triple-Beam LED headlamps with intelligent high beams are as striking as they are smart. Providing additional illumination when you need it most, and switching to low beams when they sense oncoming traffic, the headlamps on the GS F seamlessly blend innovation with exhilaration.
12.3-INCH MULTIMEDIA DISPLAY

The GS F lets drivers see the bigger picture—the 12.3-inch high-resolution multimedia display. Providing immediate, simultaneous access to audio or climate controls and various systems including Navigation, the display offers a full-screen map for added convenience.

LEXUS SAFETY SYSTEM+

Lexus Safety System+ is among the most comprehensive safety systems ever offered on a Lexus. Featuring a Pre-Collision System* with Pedestrian Detection* High-Speed Dynamic Radar Cruise Control* intelligent high-beam headlamps* and Lane Departure Alert* with Steering Assist* this integrated suite of advanced technology is designed to help pave the way to a world with fewer collisions and better-informed drivers.

ABOVE AND BEYOND

CUSTOMIZABLE GAUGE DISPLAY

Keeping up with the rapid revs is no small feat. That’s why a digital tachometer was implemented in this race-ready gauge cluster. The easy-to-read, full-color LCD display allows you to quickly organize the data you need to help achieve optimum control. Customizable readouts include performance data such as drive mode, gear position, G-force, lap times and torque distribution. Additionally, this in-dash display offers multimedia linkage, providing access to incoming calls, current song titles and more.

SPORT DIRECT-SHIFT PADDLE-SHIFTERS

For added control, paddle shifters allow the driver to communicate with the eight-speed Sport Direct-Shift automatic transmission to deliver split-second gear changes. When downshifting, the throttle is automatically blipped to match the engine speed as the lower gear engages. This not only allows for faster entrance and exit speeds through corners but also wails a 467-horsepower* symphony.
THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform, our suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT
Lexus Enform Safety Connect® offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you’re involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle’s GPS location.

SERVICE CONNECT
Our new Lexus Enform Service Connect® offers remote access to information about your vehicle’s status and maintenance needs. Easily accessed through LexusDrivers.com or the MyLexus and Beyond mobile app, you can get information on everything from your vehicle’s fuel level and mileage to maintenance alerts and vehicle health reports.

DELIVERY AND TECHNOLOGY SPECIALISTS
To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad® and iPad Mini® apps like FaceTime®. Learn more about these complimentary services at lexus.com/specialists.

REMOTE
The Lexus Enform Remote® mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS
Lexus Enform Destinations® offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your Navigation System.® Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE
The Lexus Enform App Suite® offers access to your favorite mobile applications through your vehicle’s center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

A testament to the all-out performance wielded by the GS F, the available 17-speaker, 835-watt Mark Levinson Premium Surround Sound Audio System is powered by a 12-channel digital amplifier and features GreenEdge™ speaker technology that allows twice the output of conventional speakers, while mid-range Unity™ drivers help re-create a sensation of openness. By significantly widening the dispersion of sound, a larger “sweet spot” is created, enveloping every passenger with three-dimensional sound that rivals the finest home-audio systems.
