GX 460

301-hp 4.6-liter V8; dual Variable Valve Timing with intelligence (VVT-i); six-speed automatic Electronically Controlled Transmission with intelligence (ECT-i); full-time four-wheel drive (4WD); seven-passenger seating.

IT DOES ONE THING EXCEPTIONALLY WELL. EVERYTHING.

GX shown in Knight’s Armor Pearl // Options shown.
LET THE OCCASION RISE TO YOU.
THE 2014 LEXUS GX.
The GX isn’t only spacious. With ample room for seven passengers, it’s also meticulously crafted right down to the Linear Espresso and available Mahogany wood trim and supple, yet durable, fine leather trim. And with available heated and ventilated front seats, heated outboard second-row seats, and climate control for the second and third rows, you’re sure to arrive both in style and in comfort.
Trailer Sway Control continually monitors the yaw rate, acceleration and steering sensors to help prevent or control unwanted trailer movement.

If excessive movement caused by wind, bumpy roads or steering operation is detected, corrective measures are engaged.

To help reduce sway, braking is applied independently to each wheel and the throttle is moderated to help reduce vehicle speed.

When Trailer Sway Control is taking corrective measures, the indicator flashes to alert the driver.

If deceleration is required, the brake lights are automatically illuminated.

THE MOST DIRECT WAY TO PEACE OF MIND IS A STRAIGHT LINE.
VERSATILITY  

In addition to the convenience of a second-row 40/20/40 split seatback that accommodates various kinds of cargo, the second-row passenger-side seat tilts and slides forward to allow easy access to the third row. And to make packing even easier, the available power third-row seat can automatically fold flat into the cargo area floor at the touch of a button.
EVERYTHING YOU COULD WANT, OFTEN BEFORE YOU EVEN KNOW IT.

ENGINE AND TOWING
The 4.6-liter V8, paired with Variable Valve Timing with intelligence, generates 301 horsepower at 5,500 rpm and 329 lb-ft of torque at 3,500 rpm. The top-end power is helpful during acceleration or climbing long highway grades. And low-end torque is most beneficial during off-the-line pulling and off-road use. Thanks to its powerful engine and robust body-on-frame construction, the GX boasts a 6,500-lb towing capacity.

MULTI-DIMENSIONAL AUDIO
Designed exclusively for the GX, the available Mark Levinson Premium Surround Sound System features 7.1-channel architecture, 17 speakers and 330 watts of maximum power. The result is an audio experience that resembles a concert hall, immersing the cabin in multi-dimensional sound that was once reserved for six-figure home audio systems.

FULL-TIME 4WD
The full-time 4WD system features a TORSEN® torque-sensing limited-slip center differential that, combined with 4-wheel Active Traction Control, efficiently delivers engine power to the wheels with traction, helping to minimize tire spin in slippery conditions. And, for maximum off-road traction, the center differential can be locked with the press of a button.

ADVANCED CONNECTIVITY
To help you arrive sooner, subscription-free traffic and weather service offers real-time updates of changing conditions. And to help you make the most of your trip, the available Lexus Enform® with subscription-free App Suite uses your compatible smartphone to give you in-vehicle access to many of your favorite mobile applications.

CRAWL CONTROL
Think of it as the off-road equivalent of cruise control. With the press of a button, the available CRAWL Control system carefully manages the engine and brakes to help you maintain a slow, consistent speed: up, down and over rugged terrain. And, for added control, you can alternate between five speeds using a toggle switch.

PRE-COLLISION SYSTEM
If the available Pre-Collision System detects an imminent frontal collision, it is designed to retract the front seatbelts and apply the brakes to help reduce impact speed. The system also features a Driver Attention Monitor, which is designed to detect if the driver is not facing forward and signal an alert if it detects an object ahead.

3-D NAVIGATION
Offering added information and clarity, the available Navigation System features three-dimensional maps with overhead views as well as 3-D buildings and landmarks. The system can also predict your time of arrival based on current traffic conditions and, when there is congestion on your current route, Traffic Detour Preview automatically displays alternate routes.

LIVE LIFE,
UNOBSTRUCTED.
A. Available Ecru leather interior trim
B. Contrast dash stitching and available Mahogany wood trim
C. Available heated and ventilated front seats
D. Available electrochromatic power-folding outside mirror with Side Monitor® camera
E. Black Nuluxe-trimmed interior
F. Available Mahogany wood interior trim
G. Available GX capability controls
H. Available Ecru leather-trimmed interior
I. Available Rear-Seat Entertainment System (RSES)
J. Available carpet cargo mat. For a complete list of Genuine Lexus Accessories, visit lexus.com/GX/accessories
K. Available dual-screen DVD Rear-Seat Entertainment System® with wireless headphones® and remote
L. Available rear-seat climate controls
Options shown.
ON- AND OFF-ROAD CAPABILITY

Whether you’re navigating through rocky mountains or simply driving around town, the GX is equally up for either task. Thanks to its ingenious Kinetic Dynamic Suspension System (KDSS), which is designed to change with the terrain, it can automatically optimize handling when the road is smooth and allow more independent wheel movement on uneven ground.
KEY STANDARD FEATURES BY TRIM

GX
18-in split-six-spoke alloy wheels\textsuperscript{a} // Nuance interior trim // Linear Espresso wood and Alpaca Black interior trim // Fold-flat third-row seats // Lexus Display Audio with 8.0-inch color touchscreen // subscription-free traffic and weather\textsuperscript{b} and backup camera\textsuperscript{c} // Trailer Sway Control\textsuperscript{d} // LED headlights and daytime running lights (DRL) // Power rearview // Privacy glass // Roof rail\textsuperscript{e} // Lexus Memory System \textsuperscript{f} // 10-way power-adjustable front seats // reclining sliding middle-row seats with 40/20/40-split seatback // Lexus nine-speaker Premium Sound System // USB Port\textsuperscript{g} // Bluetooth\textsuperscript{h} connectivity // Smartphone accrued with push-button Start/Stop // Dual-zone climate control with interior air filter // 10 standard airbags\textsuperscript{i}

GX PREMIUM
(Includes all GX features and Navigation Package) // 18-in split-six-spoke alloy wheels\textsuperscript{a} // Leather interior trim // Heated and ventilated front seats and heated second-row outboard seats // Three-zone automatic climate control with interior air filter, smart sensor and automatic recirculation mode // Mahogany wood interior trim // Rain-sensing wipers // Windshield wipers // LED foglamps // Intuitive Parking Assist

GX LUXURY
(Includes all GX Premium features) + Adaptive Variable Suspension (AVS) // Auto-leveling rear air suspension // 18-in split-six-spoke alloy wheels\textsuperscript{a} with Liquid Graphite finish // Semi-aniline leather interior trim // Blind Spot Monitor\textsuperscript{m} with Rear Cross-Traffic Alert\textsuperscript{n} // Power-folding, electrochromic (auto-dimming) outside mirrors // Wood- and leather-trimmed heated steering wheel // Illuminated door-sill scuff plates // Power-fold-flat third-row seats // Headlamp washers // Cargo-area tonneau cover

PACKAGES

COMFORT PACKAGE (Available on GX only)
Heated and ventilated front seats // Heated second-row outboard seats // Three-zone automatic climate control with interior air filter, smart sensor and automatic recirculation mode

NAVIGATION PACKAGE (Available on GX only)
Navigation System\textsuperscript{o} // Advanced voice commander // High-resolution color LCD display // Wide-view backup camera\textsuperscript{p} // Enhanced Bluetooth technology\textsuperscript{q} // Lexus Enform\textsuperscript{r} with Destination Assist and eDestination. Subscription required. One-year trial subscription included // Subscription-free Lexus Enform App Suite\textsuperscript{s} with Bing,\textsuperscript{t} Yahoo\textsuperscript{u} and Facebook Places // Enhanced Bluetooth technology\textsuperscript{q} with automatic phonebook synchronization

MARK LEVINSON PREMIUM SURROUND SOUND AUDIO PACKAGE (Available on GX Luxury only)
(Includes Navigation Package) + Mark Levinson\textsuperscript{v} Speaker, 330-watt Premium Surround Sound Audio System\textsuperscript{w} // Automatic Sound Levelizer (ASL) // 71-channel architecture // DVD/CD player

DRIVER SUPPORT PACKAGE (Available on GX Luxury only)
(Includes Navigation and Mark Levinson Premium Surround Sound Audio Packages) + Pre-Collision System\textsuperscript{x} with Dynamic Radar Cruise Control\textsuperscript{y} // Driver Attention Monitor\textsuperscript{z} // Lane Departure Alert\textsuperscript{AA} // Intelligent high-beam headlamps\textsuperscript{AB} // Wide-view Front and Side Monitor system\textsuperscript{AC} // CRUISE\textsuperscript{AD}

INDIVIDUAL OPTIONS

Blind Spot Monitor\textsuperscript{m} with Rear Cross-Traffic Alert\textsuperscript{n} and power-folding electrochromic (auto-dimming) outside mirrors // Headlamp washers // Intuitive Parking Assist\textsuperscript{g} only // Dual-screen DVD Rear-View Entertainment System\textsuperscript{AB} // 10.3-inch LCD display // Wood- and leather-trimmed heated steering wheel and shift knob (GX only) // Cargo-area tonneau cover (GX, GX Premium only)

WHEELS

WARNING: Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GX Warranty and Services Guide at your Lexus dealer for details. DISCLOSURES: 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. Please consult your Lexus dealer or Owner’s Manual for towing and load specifications. 3. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. 4. Trailer sway control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner’s Manual for details. 5. Cargo and load capacity limited by weight and distribution. 6. Always drive safely, obey traffic laws & focus on the road while driving. Availability and accuracy of the information provided by HD services is dependent upon many factors. Services not available in every city or roadway. Use common sense when relying on information provided. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 7. Always drive safely, obey traffic laws & focus on the road while driving. Availability and accuracy of the information provided by the Navigation System or any HD service is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Navigation updates are available at an additional cost from your local Lexus dealer. See your Navigation System Owner’s Manual or Lexus dealer for details. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 9. CRAWL Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The GX 460 is designed to meet off-road driving requirements, but off-road is inherently dangerous. Always wear seatbelts. 10. TORSEN® is a registered trademark of Zexel Torsen, Inc. 11. A single-disc DVD player is standard. A separate DVD player or game system utilizes the center console’s video/audio inputs is required in order to use the split-screen function of the dual-screen system. 12. Headphones are for passenger use only. Do not use while operating vehicle. 13. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 14. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. The included Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver’s face appears to be turned away. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for further information. 15. The Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver’s face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for more information. 16. Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner’s Manual for more information. 17. The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 18. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 19. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see Owner’s Manual. 20. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner’s Manual. 21. The Wide-view Side Monitor system does not provide a comprehensive view of the front passenger-side area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 22. The GX 460 is designed to meet most off-road driving requirements. Abuse use may result in bodily harm or damage. Lexus encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection. 23. In performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles depending on driving conditions. 24. Roof rack with rails not recommended for luggage. 25. Roof rack capacity is 176 lb. See Owner’s Manual for details. 26. iTunes® and iPod® are registered trademarks of Apple Inc. All rights reserved. 27. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. The phones on lexus.com have been tested for Bluetooth® wireless technology compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. 28. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 29. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local locksmith directory. 30. All airbags (AB) are Supplemental Restraint Systems. All ABs are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; roof rack capacity is 176 lb. See Owner’s Manual for details. 32. Intelligent high-beams system operates at speeds above 21 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. 33. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner’s Manual for further information. 34. Intelligent high-beams system: • Automatically switches on and off depending on road conditions. • Creates a brighter, more uniform road illumination. • Provides better road illumination on curves and in poor visibility conditions where conventional high beams would be too bright. • Helps you to see better on rainy days. • Helps to reduce glare for oncoming drivers. • Reduces eye strain. • Conserve energy. 35. Lane Departure Alert system: • Designed to alert the driver if a potential hazard is detected ahead and the driver’s face appears to be turned away. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for further information. 36. Rear Cross-Traffic Alert system: • Designed to alert the driver if a potential hazard is detected behind and the driver’s face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. 37. Lexus is under license. Other trademarks and trade names are those of their respective owners. The phones on lexus.com have been tested for Bluetooth® wireless technology compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier.
