GX 460
301-hp, 4.6-liter V8; dual Variable Valve Timing with intelligence (VVT-i); six-speed automatic Electronically Controlled Transmission with intelligence (ECT-i); full-time four-wheel drive (4WD); seven-passenger seating.
Whether it’s rugged terrain or the urban landscape, the GX is up to the challenge. In the mood for a certain type of cuisine? With the available Lexus Enform App Suite, you can use your favorite mobile apps to find restaurants and even make reservations. And, to help you arrive with confidence, available advanced camera systems provide assistance at low speeds, helping you see around blind corners and navigate tight parking spaces more easily.
The GX interior is meticulously crafted right down to the Linear Espresso or available Mahogany wood trim. First-class seating features supple, yet durable, available fine leather trim. A tilt-and-slide seat feature simplifies passenger-side access to the third row. And with available heated and ventilated front seats, heated outboard second-row seats and three-zone climate control, you’re sure to arrive in comfort and style.
THE MOST DIRECT WAY TO PEACE OF MIND IS A STRAIGHT LINE.

Trailer Sway Control offers an added dose of confidence to your towing adventure as part of the Vehicle Stability Control (VSC) system. To help reduce sway, braking is applied independently to each wheel and the throttle can be moderated. A flashing indicator alerts the driver when the system is taking corrective measures.
FULL-TIME 4WD
The full-time 4WD system features a Torsen® torque-sensing limited-slip center differential, that, combined with 4-wheel Active Traction Control, efficiently delivers engine power to the wheels with traction, helping to minimize tire spin in slippery conditions. A two-speed transfer case offers extra off-road capability. And, for maximum off-road traction, the center differential can be locked with the press of a button.

ENGINE AND TOWING
The 4.6-liter V8, paired with dual Variable Valve Timing with intelligence, generates 301 horsepower at 5,500 rpm and 329 lb-ft of torque at 3,500 rpm. The top-end power is helpful during acceleration or climbing long highway grades. And low-end torque is most beneficial during off-road pulling and off-road use. Thanks to its powerful engine and robust body-on-frame construction, the GX boasts a 6,500-lb towing capacity.

CRAWL CONTROL
Think of it as the off-road equivalent of cruise control. With the press of a button, the available CRAWL Control system carefully manages the engine and brakes to help you maintain a slow, consistent speed: up, down and over rugged terrain. And, for added control, you can alternate between five driver-selectable settings using a toggle switch.

REAR-SEAT ENTERTAINMENT
The available dual-screen Rear-Seat Entertainment System allows the left and right rear-seat passengers to enjoy separate entertainment. With 7.0-inch LCD screens located behind the driver’s and front passenger’s headrests, the system features a pair of wireless headphones and can be used as a DVD player, audio player or game console.

ADVANCED CONNECTIVITY
The innovative Siri® Eyes Free connects with your compatible iPhone, enabling you to access e-mail, send text messages and more. In addition, to help you make the most of your travel, an industry-first subscription-free traffic and weather service offers real-time updates of changing conditions via HD Radio. Learn more at lexus.com/enform.

3-D NAVIGATION
Offering added information and clarity, the available Navigation System features three-dimensional maps with overhead views as well as 3-D buildings and landmarks. The system can also help predict your time of arrival based on current traffic conditions and, when there is congestion on your current route, Traffic Detector can automatically display alternate routes.

MULTIDIMENSIONAL AUDIO
Designed exclusively for the GX, the available Mark Levinson® Premium Surround Sound System features 71-channel architecture, 17 speakers and 330 watts of maximum power. The result is an audio experience that resembles a concert hall, immersing the cabin in multidimensional sound that was once reserved for six-figure home-audio systems.

PRE-COLLISION SYSTEM
If the available Pre-Collision System detects an imminent frontal collision, it is designed to retract the front seatbelts and apply the brakes to help reduce impact speed. The system also features a Driver Attention Monitor, which is designed to detect if the driver is not facing forward and signal an alert if it detects an object ahead.

10

TECHNOLOGY TO KEEP YOU A STEP AHEAD, EVERY STEP OF THE WAY.
passenger side, assisting in the navigation of narrow passages and parking spaces. To view objects in the vehicle’s path when driving in reverse.

This available feature is designed to warn you if you detect surrounding objects using audible tones and an indicator on the multi-information display.

This available system is designed to help you see around blind corners and along the road when changing lanes. It helps you to react to situations where you might be drifting so that you can steer back into your lane.

LANE DEPARTURE ALERT

This available system uses a camera to monitor visible lane markings, this available feature is designed to warn you if you detect surrounding objects and notify you of their location and proximity using audible tones and an indicator on the multi-information display.

WIDE-VIEW FRONT AND SIDE MIRRORS

These mirrors are designed to allow the driver to see objects in the vehicle’s path when changing lanes.

INTUITIVE PARKING ASSIST

This available system is designed to detect surrounding objects and notify you of their location and proximity using audible tones and an indicator on the multi-information display.

BACKUP CAMERA

The backup camera uses a rearward-facing camera mounted above the license plate that is designed to show a view of the area behind the vehicle when backing up.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT

This system uses radar sensors to monitor the area in your blind spots and alert you when other vehicles enter your blind spots or cross into the turning path.
A. Available Ecru leather interior trim
B. Contrast dash stitching and available Mahogany wood trim
C. Available heated and ventilated front seats
D. Available carpet cargo mat
For a complete list of Genuine Lexus Accessories, visit lexus.com/GX/accessories
E. Available Navigation System with high-resolution display
F. Available electrochromatic power-folding outside mirror with Side Monitor® camera

G. Available GX capability controls
H. Available Ecru leather interior trim
I. Available Rear-Seat Entertainment System (RSES)
J. Available Mahogany wood interior trim
K. Available dual-screen DVD Rear-Seat Entertainment System® with wireless headphones® and remote
L. Available rear-seat climate controls

Options shown.
ON- AND OFF-ROAD CAPABILITY

Whether you’re navigating through rocky mountains or simply driving around town, the GX is equipped for either task. Thanks to its ingenious Kinetic Dynamic Suspension System (KDSS), which is designed to change with the terrain, it can automatically optimize handling when the road is smooth and allow more independent wheel movement on uneven ground.
KEY STANDARDS BY TRIM

GX

GX PREMIUM
(Includes all GX features and Navigation Package) // 18-in split-spoke alloy wheel™ // Leather interior trim // Heated and ventilated front seats and heated second-row outboard seats // Three-zone automatic climate control with interior air filter, ion sensor and automatic recirculation mode // Mahogany wood interior trim // Rain-sensing wipers // Windshield wiper // LED foglamps // Intuitive Parking Assist™

SERVICES AS INNOVATIVE AS THE GX ITSELF.

THE LEXUS DELIVERY AND TECHNOLOGY SPECIALISTS. To assist you in getting the most out of your GX, the Lexus Delivery Specialist will conduct a personalized delivery focused on every feature, setting and function you desire. To answer questions that arise after delivery, the Lexus Technology Specialist can offer expert guidance in person or without you ever leaving the driveway, via camera-enabled iPad® apps like FaceTime.® Learn more about our Lexus Delivery and Technology Specialist services at lexus.com/specialists.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GX Warranty and Services Guide at your Lexus dealer for details. DISCLOSURES 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 9 for higher. If premium fuel is not used, performance will decrease. 2. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier, functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/for details. 3. The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 4. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 5. Before towing, check your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on the total weight of your car, occupants and available equipment. Calculated with the new SAE J2807 method. 6. Please consult your Lexus dealer or Owner’s Manual for towing and load specifications. 7. Trailer Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner’s Manual for details. 8. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for further details. 9. TORSION® is a registered trademark of Zexel Torsen, Inc. 10. CRAWL Control is designed for driving in difficult terrain at slow speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The GX 460 is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. 11. A single-disc DVD player is standard. A separate DVD player or game system utilizing the center console’s video/audio inputs is required to use the split-screen function of the dual-screen system. 12. Headphones are for passenger use only. Do not use while operating vehicle. 13. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available in Beta only on iPhone® 4S, iPhone® 5, iPad® with Retina® display, iPad® mini, & iPod® touch, 5th gen. & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Data charges may apply. See Apple.com & phone carrier for details. 14. iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. 15. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio® Technology manufactured under license from iBiquity Digital Corp. U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Anc” logos are proprietary trademarks of iBiquity Digital Corp. 16. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See Navigation System Owner’s Manual for details. 17. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 18. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. The included Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver’s face appears to be turned away. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for further information. 19. The Driver Attention Monitor is designed to alert the driver if an apoplectic hazard is detected ahead and the driver’s face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for further information. 20. Do not exclusively rely on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See Owner’s Manual for details. 21. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see Owner’s Manual. 22. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner’s Manual. 23. Lane Departure Alert is designed to warn lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner’s Manual for more information. 24. The Wide-view Side Monitor system does not provide a comprehensive view of the front passenger-side area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 25. The GX 460 is designed to meet off-road driving requirements. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn all times. Please do not allow passengers to ride in the cargo area. Tow hitch receivers & ball mount kits are not intended to provide crash protection. 26. In performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 27. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your mirrors to confirm clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner’s Manual. 28. Roof rack with crossbars not recommended for luggages. 29. Roof rack capacity is 176 lb. See Owner’s Manual for details. 30. Pandora® is a registered trademark of Pandora Media, Inc. All rights reserved. 31. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must be paired. Phone performance depends on software, coverage & carrier. 32. The Smart Access system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 33. The engine immobilizer is a theft-preventing device. If you insert your key into the ignition switch or bring a Smart Access fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. 34. Alternatively, you can obtain a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.key-savers.com. 35. All airbag (AB) systems are Supplemental Restraint Systems. All ABs are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seat. Be sure to see if you should deactivate this system. 36. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner’s Manual for details. 37. Intelligent high-beams system operates at speeds above 40 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness. 38. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch lining or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products are available through participating Lexus dealers. 39. 2015 EPA-estimated ratings. Actual mileage will vary. 40. Cargo and load capacity limited by weight and distribution. 41. FaceTime® is a registered trademark of Apple Inc. All rights reserved.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and optional packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or different options/packages, contact your dealer to check the availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
