Uncommon craftsmanship.
Uninhibited performance.
Unmatched technology.

Experience an exhilarating sport sedan that doesn’t just make a statement—it leaves a legacy.

The 2020 Lexus IS
The 2020 IS

IS 300
Bold styling meets a 2.0-liter turbocharged in-line four-cylinder engine with 241 horsepower. Eight-speed Sport Direct-Shift transmission with paddle shifters. Zero to 60 in 6.9 seconds.1 Rear-wheel drive.

IS 300 AWD
Full-time all-wheel drive (AWD) with a powerful 3.5-liter V6 engine that generates 260 horsepower. Eight-speed Sport Direct-Shift transmission with paddle shifters. Zero to 60 in 6.1 seconds.1

IS 350
Exhilarating performance delivered by a powerful 3.5-liter V6 engine with 311 horsepower. Eight-speed Sport Direct-Shift transmission with paddle shifters (RWD). Zero to 60 in 5.6 seconds (RWD)/5.7 seconds (AWD).1 Rear-wheel drive or available all-wheel drive.

IS F SPORT MODELS
The next level of dynamic design and performance. Exclusive track-inspired details such as F SPORT–tuned suspension, a limited-slip rear differential (IS 350 RWD), dramatic interior and exterior styling, and F SPORT front seats with enhanced bolstering are available on all IS models.
IS F SPORT shown in Ultra White
IS F SPORT shown with Black NuLuxe™ and Dark Gray Streamline interior trim.
RAZOR’S-EDGE PERFORMANCE

Experience precise handling, thrilling control and uninhibited power in the most rigorously tested IS ever.

Fanatically tested and tuned at renowned tracks across the globe, the IS offers three expressions of power and a single vision of visceral, direct performance. With advanced tuning techniques for enhanced fuel efficiency and advanced casting techniques for enhanced responsiveness, the IS delivers acceleration and adrenaline on demand.

IS F SPORT shown in Obsidian.
THREE FORMS
OF POWER

IS 300 / IS 300 F SPORT
Engineered with highly advanced twin-scroll turbocharger technology and a paddle-shift transmission, the 241-horsepower IS 300 provides the robust power, low-end torque and responsive performance you can feel the moment you accelerate.

IS 300 AWD / IS 300 AWD F SPORT
With an all-wheel drive system designed to adapt to changing conditions, the IS 300 AWD delivers V6 power with 260 horsepower and a paddle-shift transmission. The F SPORT model also offers a more robust engine note when pushed to higher rpm.

IS 350 / IS 350 F SPORT
Engineered for peak performance, the IS 350 wields a powerful 311-horsepower V6 and paddle-shift transmission. When pushed to higher rpm, the IS 350 F SPORT is filled with a throaty engine note that complements its exhilarating performance.

IS shown in Atomic Silver
ALL-WHEEL DRIVE

Style doesn’t have to take a snow day with the IS 300 AWD and IS 350 AWD. By automatically allocating engine power between the front and rear axles from 30/70 to as much as 50/50, all-wheel drive can help provide enhanced traction and control on a wide range of road surfaces and conditions.

torque split up to

50/50
The IS F SPORT is an overdose of performance, engineering and dynamic styling. Exclusive to the IS 350 F SPORT, Adaptive Variable Suspension monitors and adjusts the shock settings on each wheel, depending on the conditions. And, while cornering, the suspension is tightened for reduced body lean and even greater response. A limited-slip rear differential effectively distributes engine power to the rear wheel with the most grip to help optimize traction, handling and control in a variety of conditions.

**SPORT S / SPORT S+ DRIVE MODES**

Sport S mode adjusts the amount of steering response, alters the powertrain for faster gear changes and more dynamic throttle mapping, and switches the outer ring of the LFA-inspired tachometer to white on F SPORT models. Sport S+ mode on the IS 350 F SPORT goes a step further by tightening the suspension. In both modes, the transmission’s shift points are automatically altered coming into and out of corners for sharper acceleration.

**F SPORT PERFORMANCE**

Tuned by the same team behind the legendary LFA supercar, the IS F SPORT offers the next level of dynamic handling and exhilarating response.
F SPORT STYLING

The interior of the F SPORT is a sleek and aggressive command center. Featuring enhanced bolsters and a unique foam-injected construction designed to cradle the driver during high-G turns, exclusive F SPORT seats wrap the driver from hip to shoulder. Their low position helps place the driver’s hip point as close as possible to the vehicle’s center of gravity for a more dynamic driving experience. Beyond the track-inspired seating, it boasts a steering wheel trimmed in perforated leather, aluminum pedals, exclusive stitching and race-inspired instrumentation that deliver unmistakable F SPORT style.

**LFA-INSPIRED DIGITAL INSTRUMENTATION**

Nearly identical to the digital gauges in the world-renowned LFA supercar, the instrument cluster in the IS F SPORT models features a digital display that moves in concert with a sliding bezel, expanding and retracting digital readouts when information is accessed.

**EXCLUSIVE 18-INCH SPLIT-FIVE-SPOKE ALLOY WHEELS**

Exclusive 18-inch alloy wheels feature a dynamic split-spoke design inherited from the LFA, and pair with high-friction brake pads designed to offer greater responsiveness and reduced fade.
With an aggressively styled front fascia, head-turning LED headlamps, distinctive taillamps with signature L-shaped illumination, and an advanced driver-centric cockpit, the 2020 IS commands the road and captivates the eye.

CUTTING-EDGE DESIGN

Every angle is crafted to create our most expressive IS yet.
IS shown in Atomic Silver

The 2020 IS makes its track-honed heritage known with a ground-hugging, aerodynamic exterior and assertive styling. An aggressive stance and a striking front fascia are punctuated by sculpted lines that finesse their way from the rocker panels through the rear wheel arches and culminate in the dramatic, sweeping taillamps.

The unmistakable LED headlamp design not only attracts attention but also enhances visibility. The available Adaptive Front Lighting System® uses steering and speed sensors to direct the angle of low-beam illumination as the vehicle enters a curve.
Where versatile accommodations meet iconic Lexus craftsmanship.

The 2020 IS pairs high design with the highest attention to detail. Combining meticulous craftsmanship with exceptional comfort, the interior features a shift knob and steering wheel trimmed in hand-selected leather. Located where your hands naturally rest on the steering wheel, an available heating element continually monitors and adjusts the heating level to help maintain a set temperature. Further refining the driving experience, a dual-zone climate-control system features individual settings to allow the driver and front passenger to adjust their preferred temperatures.

Seating throughout the IS is as adaptable as it is striking. The low-set, 10-way power-adjustable driver’s seat, including lumbar, and the eight-way power-adjustable front passenger’s seat provide peak comfort, while standard 60/40-split fold-down rear seats provide remarkable versatility. Available heated and ventilated front seats also offer separate heaters and fans in the seat cushions.
Experience innovation in sharp focus. LED headlamps with Intelligent High Beams,* Lexus Safety System+, an available class-leading 10.3-inch multimedia display,* class-exclusive Scout® GPS Link* navigation** and more create a world of connectivity designed for and around the driver.

**LEADING-EDGE TECHNOLOGY**

With class-exclusive technology* and advanced safety features, the 2020 IS has intelligence that sets it apart.
PEACE OF MIND,
STANDARD

Presenting Lexus Safety System+, an integrated suite of the most advanced active safety equipment ever offered on the IS.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION
This system is engineered to help detect a vehicle or a pedestrian in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it’s designed to automatically prepare Brake Assist for increased brake force and, in some cases, can even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST
This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

HIGH-SPEED DYNAMIC RADAR CRUISE CONTROL
This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS
To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM +
10.3-in class-leading available high-resolution multimedia display

MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM

The available 15-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System features patented, proprietary Clari-Fi® technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from any source. This, combined with technology designed to create an expansive “sweet spot” of audio, envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

LEXUS ENFORM

Lexus Enform® elevates connected technology and provides concierge-level convenience. From emergency assistance and a live response center agent, to the ability to start your engine remotely using your smartphone, smartwatch, the Lexus skill on Amazon Alexa® built-in devices, or the Lexus action on Google Assistant-enabled® devices, our premium suite of connected technology offers peace of mind with every drive.

DRIVE MODE SELECT

Drive Mode Select enables you to make your vehicle more responsive or efficient with a simple turn of a dial. Normal mode provides the optimal balance of fuel efficiency and engine performance. ECO mode moderates the throttle response, engine power output and climate settings for increased fuel efficiency. Sport mode alters the powertrain for faster and more dynamic throttle response. In the IS 350 F SPORT, Sport S+ mode goes a step further by tightening the suspension to reduce body lean and Custom mode enables you to create a unique profile of a combination of drive mode settings.

DRIVER-CENTRIC TECHNOLOGY

From touch-based climate controls to Siri® Eyes Free® to the available advanced Voice Command with Enhanced Bluetooth® technology and more, the IS delivers smart, seamless convenience. In addition to the center-console controller, available Remote Touch® allows you to easily move through logical menus of the vehicle’s features, with buttons on either side for both driver and front passenger accessibility.

NAVIGATION SYSTEM WITH 10.3-INCH MULTIMEDIA DISPLAY

Largest in its class, the available 10.3-inch high-resolution split-screen multimedia display provides immediate, simultaneous access to your favorite mobile apps, audio and climate controls, and various other systems, including the voice-activated Navigation System.
TECHNOLOGY

10 airbag system is the most in its class.

SCOUT® GPS LINK
An intelligent alternative to available Navigation system, SCOUT® GPS Link46 uses a smartphone app to offer turn-by-turn directions via the Lexus Multimedia System.23 Drivers can also access real-time traffic info, personalized commute times, automatic traffic avoidance and more.

INTUITIVE PARKING ASSIST
The available Intuitive Parking Assist19 utilizes inconspicuous sensors integrated into the front and rear bumpers that are designed to detect surrounding objects. Using audible tones and an indicator on the multimedia display, the system can notify you of a detected object’s location and proximity, helping with routine tasks like parallel parking.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT
To help you change lanes with confidence, the available Blind Spot Monitor27 is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. And for added peace of mind, Rear Cross-Traffic Alert28 can help you when backing out of a parking space by notifying you of vehicles approaching from either side under certain conditions.

BACKUP CAMERA WITH DYNAMIC GRIDLINES
When you put the vehicle in reverse, the view from the backup camera29 is shown on the multimedia display in full color with dynamic gridlines to assist you with parking and other maneuvers.

INTERIOR & TRIM

The Lexus accessory line is as elegant and well-crafted as your exquisitely designed Lexus vehicle. To learn about Lexus Enform's data collection, use, sharing and retention, please visit https://www.lexus.com/privacyvts/. The Destination Assist trial period is at no extra cost and begins on the original service. 17- or 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy or 15,000 miles, depending upon driving.

LABORATORY RESULTS FROM 3RD PARTY TESTING AT INDEPENDENT LABORATORIES MAY VARY BASED UPON ACTUAL USE.

Contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are other factors outside of Lexus' control, which can limit system functionality or availability. Use common sense when relying on this information. Service may vary by vehicle and region. Registration required.

30. A 2017 Euro NCAP evaluation of a Lexus cars. All four LEXUS cars were rated five stars for adult occupant protection. The tests reflect evaluate cars, equipment, and environment on the market at the time the tests were conducted. The Euro NCAP rating system and methodology may change over time so those ratings do not necessarily reflect the results of more current tests of the same model and make. For additional limitations and details.
