The look of the Lexus flagship may have changed, but its uncompromising commitment to world-class luxury remains the same. The new bold exterior styling is highlighted by dramatic body lines—from the new front grille to the flowing look evoking forward momentum—as well as new wheel designs, including available 19-inch split-seven-spoke and 15-spoke alloy wheels. A more rigid platform helps deliver enhanced agility and responsiveness, and the available Climate Concierge and Advanced Pre-Collision System offer comfort and peace of mind on an unprecedented scale.

Daring and unreserved, the all-new LS 460 F SPORT is the next level of exhilaration. We dialed it up with paddle shifters, a sport-tuned suspension and Brembo® brakes for starters. Then we gave it its own unique exterior styling and created unique front sport seats to maximize the intensity. In a lineup with this much presence, the F SPORT speaks loudest of all.

The LS Hybrid certainly defies convention, but not logic. The world’s first prestige luxury hybrid has never rested on its laurels, instead choosing to push the bar higher. Its intelligent 438-hp Lexus Hybrid Drive delivers efficient power that is uncompromisingly thrilling, and the new bamboo-trimmed steering wheel and interior are as engaging as they are sustainably smart.

Generations of the LS have inspired an entire industry through visionary innovation, craftsmanship and design. And now our flagship has a new face. Invigorating new styling announces the presence of the 2013 LS like never before. New innovations make this the most technologically advanced Lexus ever. The all-new F SPORT model opens up a world of intense performance. And, for the first time, all LS models are available with all-wheel drive, expanding the world of possibilities—and expanding the pursuit it began decades ago.

A definitive new look for
THE DEFINITIVE LUXURY SEDAN.
LS 460 F SPORT

When passion runs this deep, the only choice is to follow where it leads. The all-new LS F SPORT is engineered to drive your hunger for exhilarating performance even further. On rear-wheel drive models, its exclusive torque-sensing limited-slip rear differential automatically and instantly distributes power to the right and left wheels to help improve traction and stability duringcornering, without interrupting power output. Downshift rev-matching allows for more precise shifting (RWD only). And aggressive styling cues are exclusive to F SPORT, including a signature grille, genuine aluminum interior trim and strong yet light 19-inch forged-alloy wheels. The design is unrestrained. The feeling, undeniable.

DRIVE MODE SELECT

Optimize the vehicle systems in your LS to match your driving mood. Select from a number of modes, including ECO for enhanced fuel efficiency and Sport S for enhanced performance. On models with air suspension, COMFORT mode provides a smoother ride, and SPORT S+ pushes the engine, transmission, suspension and steering systems to deliver maximum acceleration and responsiveness.

19-IN WHEELS WITH BREMBO BRAKES

Inspired by the world-renowned Lexus LFA supercar, the F SPORT model offers track-tested features such as high-performance Brembo brakes. Its exclusive 19-inch forged alloy wheels are elegant and aggressive with a two-tone finish and open design, showcasing your desire for a more complete mastery of the road.
A BOLD STATEMENT

down to the smallest stitch.

F SPORT EXCLUSIVE STYLING

Exhilaration isn’t solely delivered by what’s under the hood. And on the LS F SPORT, every detail has to contribute. The exclusive F SPORT front seats are tightly bolstered to help keep you in place during hard cornering. Paddle shifters give you greater control over the transmission. And meticulously crafted touches—from the white and gray stitching to the aluminum interior trim and pedals—elevate the dynamic interior. The F SPORT logo is embossed in both front headrests in a way that speaks boldly and elegantly. So while the dynamic exterior modifications and head-turning performance are getting all the attention outside, the inside is speaking directly to you.
LS 460 / 460 L

Since its inception, the LS has never been shy about making waves. Now, starting with a more dynamic exterior highlighted by the new spindle grille, the LS promises something even greater—a promise fulfilled by all the innovation, exhilaration and thoughtful design you’d expect from an industry leader. The 4.6-liter, 386-hp V8 engine pairs with an eight-speed automatic transmission on a more agile platform to deliver an invigorating blend of acceleration, seamless shifting, control and fuel efficiency. And to help provide even more traction and command, all-wheel drive is available on every LS, even when you opt for 19-inch wheels. It’s not just a sight to behold, but an experience to savor.

AGILITY AND RIGIDITY

To help enhance handling and stability, and to make the ride even more comfortable, the platform of the LS was strengthened in a number of ways. Cabin and panel reinforcements, high-precision welding and other advanced production technologies were all used to increase rigidity and reduce vibration. The result? More control and confidence on the road.

A COMMANDING PRESENCE.

More seen, and more truly felt.
INNOVATIVE. INTELLIGENT. INVITING. IN EVERY DETAIL.

From intuitive technologies that connect you to your destination to purposeful details that connect you to your immediate environment, the new LS is filled with equal parts style and smarts. The instrument panel and center console have been redesigned to have more dimension, evoking a sense of space, sophistication and easy functionality. The focal point is the wide 12.3-inch split-screen high-resolution multimedia display, making it easier than ever to use technologies such as the standard Navigation System and the available Lexus Enform® App Suite, which helps you with a host of tasks, from making dinner reservations to buying movie tickets.

LEXUS ENFORM APP SUITE

The available Lexus Enform App Suite uses your compatible smartphone to give you in-vehicle access to your favorite mobile applications. You can connect to Bing™, iHeartRadio, MovieTickets.com, OpenTable®, Pandora®, Yelp® and Facebook Places. And, with wireless updates, new apps will be added as they become available. Learn more at lexus.com/LS/enform.

EXCLUSIVE WOOD TRIM

Unlike anything else in the world, the stunning design of the available Shimamoku espresso steering wheel and matching trim combines the organic feel of natural wood with a layered look that evokes modern art. The result of 67 steps of craftsmanship in 38 days, the wheel is formed from many layers of thinly cut wood, bonded together and meticulously shaped and buffed to align with the look of the wood on the instrument panel.

LS shown with available equipment.
INDULGE YOUR SENSES. EXCEED YOUR EXPECTATIONS.

To create an environment of unparalleled comfort and refinement, the atmosphere inside the LS is designed to engage the senses like no other interior. As you approach your LS, the Advanced Illumination System begins an elegant sequence of soft, warm lights—from the puddle lamps outside down to the GPS-linked clock inside—to welcome you into the vehicle. At the push of the start button, the available Climate Concierge automatically monitors the temperature of four separate climate zones and adjusts not just the fans, but also the temperature of the seats and steering wheel individually so that each zone achieves its pre-set level of comfort as quickly as possible. The personalization extends to the broad selection of color and materials options: soft leather trim that is among the finest in the industry and exquisite wood accents that are hand-selected for consistency throughout the cabin. And with the Ultra Luxury Package you enjoy an Alcantara® headliner and power rear-door sunshades.

MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM

Engineers and technicians spent over 2,000 hours tuning this available 19-speaker, 450-watt system so that the sound quality in the LS would rival the finest concert halls. And to audiophiles around the world, it will come as no surprise that the name on this system is Mark Levinson, whose dedication to quality extends even to the smallest screw in an amplifier.

EXECUTIVE-CLASS SEATING PACKAGE*

To help you make the most of the long wheelbase on the LS 460L and LS 600h L, this available package replaces the rear bench with two individual seats. The right-rear seat has power-reclining capability and includes amenities such as a swiveling console table, built-in ottoman-style leg rest, and an indulgent shiatsu massager. Learn more at lexus.com/LS/exec.

*See page 16 for more information regarding options/packages. LS L shown with available equipment.
BAMBOO-TRIMMED INTERIOR

Because it grows more than 10 times faster than conventional wood, bamboo was the smart and sustainable choice for a new interior option in the new LS Hybrid. The plants are handpicked for the perfect age and color, and only highly experienced artisans are qualified to perform the final shaping and polishing by hand. The result is a stimulating visual look contrasted with a comfortable, gentle feeling to the touch.

GENERATIONS OF HYBRID LEADERSHIP

With 438 total system horsepower and a 0-to-60 time of 5.6 seconds, it’s no wonder the LS 600h L is a leader among luxury hybrids. After all, from launch it was the world’s first prestige luxury and AWD V8 hybrid, and it hasn’t slowed since. At Lexus, we have six generations of hybrid technology behind us, which means we are uniquely qualified and completely committed to creating the most advanced hybrid vehicles in the world. This is why the LS 600h L can pair a 5.0-liter V8 gasoline engine with cutting-edge hybrid technology to deliver smooth, seamless power you wouldn’t expect from any hybrid.

The HYBRID THAT FEELS nothing like one.
Advanced Pre-Collision System (PCS) is engineered to detect an imminent frontal collision and, while retracting the front seatbelts, automatically prepares Brake Assist to help provide increased braking pressure the moment you step on the brake pedal. The system is designed to detect pedestrians and other three-dimensional objects in the vehicle’s path—even at night—and can apply the brakes to help reduce vehicle speed. And now the system can brake the vehicle to a complete stop at speeds up to 24 mph.

Decelerate and stop from 24 mph

Blind Spot Monitor with Rear Cross-Traffic Alert

Even at low speeds such as in traffic jams, the available Blind Spot Monitor is designed to alert you if it detects vehicles in your blind spots. And when you’re backing out of a parking spot, the new Rear Cross-Traffic Alert is designed to notify you of approaching vehicles that might be out of camera view.

All LED Lamps

A stunning sight to behold, the new LS is the first Lexus to offer energy-efficient LEDs for all exterior lamps, including available headlamps, foglamps, rear combination lamps—even the puddle lamps under the side mirrors. They illuminate faster than conventional bulbs, making it easier for you to be seen when you apply the brakes.
Vehicle shown with available enhancements available from the rear seats of your LS.

Executive Class Seating Package (standard on LS LWB, LSh)
- Includes Semi-Aniline Leather and Alcantara® Upgrade Package.
- Four-zone climate control, including rear overhead ducts, Air Purifier and infrared rear passenger temperature sensor.
- Four-zone Climate Concierge and climate-comfort rear seats (standard on LSh)
- Power adjustable rear seats with memory and two-way power lumbar support.
- Power-adjustable outboard rear butterfly headrests (standard on LSh)
- Right rear power recliner with ottom® and multi-directional shiatsu massage.
- Wood- and leather-trimmed rear center console with climate and audio controls, and retractable wood-trimmed table.
- Rear-seat co-pilot (excluding LSh)
- Power rear and rear-door sunshades.
- Wood- and leather-trimmed climate and audio controls are just a few of the conveniences available from the rear seats of your LS.

All-Weather Package (standard on LS AWD, LSh)
- Windshield-wiper decal and headlamp washers.
- Enhanced interior heater for faster heat output in cold weather.
- Higher-capacity vehicle battery.

LS F Sport
- Includes all LS standard equipment, plus:
  - F SPORT exterior styling including front bumper, upper and lower grille inserts, rear diffuser.
  - 10-inch split 10-spoke forged alloy wheels by BBS with summer (AWD) or all-season (AWD) tires 
  - Brembo® six-piston front brake calipers with 14.5-in ventilated discs.
  - TORSEN® torque-sensing limited-slip rear differential® (AWD) only.
  - F SPORT-tuned, low-end Adaptive Variable Air Suspension, stabilizer bars and shock absorbers.
  - Variable Gear Ratio Steering (VGRS)
  - ECCS: Normal Comfort, Sport S and Sport S+ Drive Modes.
  - Black leather-trimmed interior with white perforations.

- F SPORT shift knob and bolstered front seats with embroidered headrests.
- Paddle shifters.
- Downshift rev-matching (RWD only).
- Blind Spot Monitor® with Rear Cross Traffic Alert® (standard on LSh)

Options
- 19-inch 10-spoke alloy wheels with high-gloss black and summer (AWD) or all-season (AWD) tires (excluding LSh)
- Adaptive Variable Gear Ratio Steering (VGRS), Comfort and Sport S+ Drive Modes (standard on LSh)
- Pre-Collision System™ with all-speed Dynamic Radar Cruise Control LED headlamps and intelligent high-beam headlamps® (standard on LSh) 
- Blind Spot Monitor® with Rear Cross Traffic Alert® (standard on LSh)
- 19-inch split 10-spoke alloy wheels with high-gloss black and summer (AWD) or all-season (AWD) tires (excluding LSh)
- Adaptive Variable Gear Ratio Steering with Variable Gear Ratio Steering (VGRS), Comfort and Sport S+ Drive Modes (standard on LSh)
- Pre-Collision System™ with all-speed Dynamic Radar Cruise Control LED headlamps and intelligent high-beam headlamps® (standard on LSh)
- Mark Levinson® 19-speaker 450-watt @ 110-volt AC power outlet
- Dynamic Pedestrian Detection System
- Audio and Rear-Seat Entertainment System (RRES) with Blu-ray/DVD player, nine-inch screen, auxiliary AV inputs and wireless headphones.

LED FOGLAMPS

Accentuating the look of the spindle grille, the new foglamps not only contribute to the exciting new design of the LS, but they also outperform conventional bulbs while being more energy-efficient at the same time.

PURPOSEFUL DESIGN

Each of the textures of the interior was thoughtfully put into place in order to bring out an authentic expression of the material. For example, the shape of the leather trim evokes the tension of leather being stretched. Likewise, the aluminum trim design is inspired by metal being carved and polished.

SAFETY AND SECURITY FEATURES

Vehicle Dynamics Integrated Management (VDIM) with Vehicle Stability Control (VSC™) and Traction Control (TRAC)

Four-wheel ventilated power-assisted disc brakes with Electronic Controlled Braking (ECB), four-sensor, four-channel Anti-lock Braking System (ABS), Brake Assist, and Electronic Brakeforce Distribution (EBD)

Smart Stop Technology™

Direct Tire Pressure Monitor System™

Water-repellent front-door glass

Power-adjustable, auto-folding outside mirrors with turn indicators, defoggers, puddle lamps and auto-tilt-down in reverse

Rain-sensing intermittent windshield wipers with wash cycle

Remote Touch™ device functions similarly to a mouse, providing the driver and front passenger with convenient access to a range of features.

GPS-LINKED CLOCK

The analog clock has self-illuminating hands, and it automatically changes based on your location. It is mounted in two types of genuine aluminum to create an elegant, contrasting look.
1. **WARRANTY**

Four-year/50,000-mile Lexus Limited Warranty. Eight-year/100,000-mile Hybrid System Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the LS Warranty and Services Guide at your Lexus dealer for details.

2. **Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some**

3. **The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and views may become cloudy. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all affect whether VSC and VDIM will be effective in preventing a loss of control. See Owner’s Manual for further details.**

4. **Do not rely exclusively on sensor braking when the system becomes active. Always be prepared to take full braking responsibility. The system is not a substitute for safe and attentive driving. System effectiveness depends on many factors. See Owner’s Manual for further information.**

5. **Always drive safely, obey traffic laws & laws on the road while driving. Apps/services vary by phone/caller: functionality depends on many factors.
