Dynamic style.
Precision-engineered performance.
Driver-inspired technology.

Because going far beyond utility means nothing if it doesn’t lead to the experience of something greater.

Introducing the 2019 Lexus NX.

Experience Amazing
The NX 300 can be further enhanced with more aggressive styling and performance upgrades, including a more dynamic F SPORT-tuned suspension.

NX 300
Razor-sharp styling conceals a 2.0-liter turbocharged in-line four-cylinder engine delivering 235 horsepower. Available 10.3-inch multimedia display and onboard Wi-Fi®. Available AWD. Every NX model features Amazon Alexa™ compatibility. And now includes added iPhone® functionality via Apple CarPlay™ integration.

NX 300 h AWD
Behind its cutting-edge style, the NX 300h pairs a potent 2.5-liter engine with powerful electric motors for instantaneous torque and a 31-MPG combined estimate. Standard AWD.

NX 300 F SPORT
The NX 300 can be further enhanced with more aggressive styling and performance upgrades, including a more dynamic F SPORT-tuned suspension.

NX F SPORT shown in Ultra White // Options shown
NX F SPORT shown in Ultra White // Options shown
Inspired by the facets of a cut gemstone, LED taillamps are just one of many eye-opening details that set the NX apart. Available triple-projector-beam headlamps and dramatically styled front and rear fascias further punctuate its low, wide stance. From the sharp contours of its exterior styling to the available expansive moonroof, every aspect pushes the conventional to the leading edge.

**CUTTING-EDGE DESIGN**

Multifaceted LED illumination puts scintillating design in razor-sharp focus.

NX F SPORT shown in Ultra White // Options shown
STRETCHING THE LIMITS OF VERSATILITY

Lexus-first innovations and class-leading features push comfort and convenience even further.

Versatility goes beyond boundaries with a Lexus-first kick-sensor-activated power rear door. Just wave your foot beneath the concealed sensor, and the available Touch-Free Power Rear Door raises or lowers. Inside, available heated and ventilated front seats provide customized comfort, while available first-in-class power-folding and -reclining rear seats take amenities to another level.

60/40 split power fold-flat rear seats

UNCOMPROMISING PERFORMANCE

From the high performance and fuel efficiency of its hybrid to the available adaptive suspension on its F SPORT, the NX is exhilaration, evolved.

Offering the instant acceleration of the NX Hybrid and the instant gratification of the NX 300 and higher-performance F SPORT models, this is a visceral driving experience, delivered. With a dynamic suspension, specially tuned components, and an available adaptive F SPORT suspension inspired by the LC, this is the most responsive NX yet.
Welcome to the next level of NX. Pairing a potent 2.5-liter engine with powerful electric motors, the NX Hybrid delivers immediate torque and smooth, seamless acceleration off the line. And, with its 31-MPG combined estimate, you won’t just enjoy a smoother and quieter ride, you’ll enjoy it over many more miles on a single tank of gas. All without requiring a charge. Featuring an all-wheel drive system so innovative that it’s designed to adapt to the angle or condition of the road, as well as an exclusive damping control system, it offers performance as captivating as its style.

MORE EFFICIENCY. MORE RESPONSE. MORE NX, PERIOD.

With two sources of power and intelligent all-wheel drive, the NXh gives even more to the driver while taking less from the world.
**TURBOCHARGED POWER**

**NX 300 / NX 300 F SPORT**

The surge of the 235-horsepower engine in the NX 300 and NX 300 F SPORT doesn’t let up—thanks to the Lexus engineers who spent years researching, developing and refining a turbocharger with advanced twin-scroll technology. The powerplant itself seamlessly moves between conventional and Atkinson cycles, for quick acceleration with greater efficiency.

**ALL-WHEEL DRIVE**

Go beyond limitations with available all-wheel drive. AWD predicts your path, monitoring the vehicle and your input. On the NX 300 and NX 300 F SPORT, if wheelspin is detected, it can deliver up to 50% of available torque to the rear wheels. On the NX 300h, the electronic AWD system is so innovative, it can even adapt to the angle or condition of the road.

AWD available on NX 300

Full-time all-wheel drive (AWD) with rear electric-drive motor standard on NX 300h

NX F SPORT shown in Atomic Silver // Options shown
For those with an even greater passion for performance, the NX F SPORT offers head-turning styling and technology that puts the F SPORT stamp on its thrilling driving experience.

A bold front fascia sets the distinctive NX F SPORT even further apart. The 18-inch, split-five-spoke alloy wheels and black exterior mirrors visually ground its sleek stance, while a suspension tuned by the same team that created the LFA supercar was specially engineered to make this the most responsive NX yet.

**ADAPTIVE VARIABLE SUSPENSION**

Available AVS allows the driver to harness the engine’s power and communicate with the pavement like never before. Based on the state-of-the-art technology in the Lexus LC, this system features 650 levels of damping that can automatically adapt to changing conditions, for enhanced response based on the selected drive mode.
The NX 300 F SPORT doesn’t just look the part—it feels it. Deeply bolstered front sport seats hug you through the turns. Circuit Red NuLuxe® interior trim boldly reflects its performance roots. And impeccable contrast stitching completes the experience of pure invigoration for all the senses.

**BOLSTERED SPORT SEATS**

Feel confidence through every curve with the F SPORT front sport seats. Featuring a unique foam-injected construction and designed to contour to the needs of the driver, these enhanced bolstered sport seats cradle you from hip to shoulder for a more dynamic driving experience.

**DRIVER’S COCKPIT**

F SPORT performance is deeply ingrained in the driver’s experience, with quick-shifting paddle shifters, exclusive G-force and turbo-boost gauges, and an exclusive perforated leather–trimmed steering wheel and shift knob. Additional signature touches in the F SPORT include rubber-studded aluminum pedals and Metallic Sport interior trim.
From Amazon Alexa® compatibility to fast-charging USB ports, the NX offers innovation at every turn. There’s a large, intuitively designed Remote Touchpad. And an expansive available 10.3-inch split-screen multimedia display provides access to your favorite iPhone® apps via Apple CarPlay® integration, and enables you to control audio, climate and other systems, including the available voice-activated Navigation System. On the NX F SPORT, G-force and turbo-boost displays ensure performance information is front and center.

INTUITIVE TECHNOLOGY

Experience an array of innovations—from class-leading standard active safety equipment to Apple CarPlay® integration and onboard Wi-Fi.
PEACE OF MIND, STANDARD

Presenting Lexus Safety System+, an integrated suite of class-leading standard active safety equipment.10a

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

This system10 is engineered to help detect a vehicle or a pedestrian11 in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it’s designed to automatically prepare Brake Assist11 for increased brake force and, in some cases, can even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system17 utilizes a camera to monitor visible lane markings. If an inadvertent lane departure, or potential departure due to swaying, is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system18 uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams19 offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or tail lamps of vehicles ahead.
Driver-centric innovation takes another leap forward.

LEXUS ENFORM

Lexus Enform enhances connected technology and provides concierge-level convenience. From emergency assistance and a live response center agent, to the ability to start your engine remotely through your smartphone, smartwatch or using the Lexus skill on Amazon Alexa-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

AMAZON ALEXA

Bring all the convenience of Amazon Alexa on the road. Using only your voice, you can easily access thousands of the same skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your Navigation System to provide on-the-go recommendations.

APPLE CARPLAY

With Apple CarPlay integration, you can access the same familiar interface from your iPhone through the vehicle’s multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri, and get access to your favorite apps like Spotify, Audible and Apple Podcasts.

NAVIGATION SYSTEMS

The available 10.3-inch high-resolution split-screen multimedia display provides immediate, simultaneous access to audio and climate controls and various systems, including Lexus Enform Dynamic Navigation. On vehicles with the standard multimedia display, Scout GPS Link includes 3D functionality and interactive moving maps. With subscription-free Traffic and Weather updates getting to your destination is easier than ever.

REMOTE TOUCHPAD

More than a convenient way to access multimedia, climate controls and Navigation, the Remote Touchpad mimics smartphone operations with ample touch surface area, pulsation feedback, intuitive pinch, swipe and flick gestures — even integrating handwritten input. Additional functionality also allows drivers to quickly access submenus when on screens with multiple options.

INTUITIVE PARKING ASSIST

Using sensors in the front and rear bumpers, available Intuitive Parking Assist cues the driver with audible tones and an indicator on the multimedia display. Notifications indicate a detected object’s location and proximity, which is especially helpful for routine tasks like parallel parking. If contact with an obstacle is imminent, the system can also bring the vehicle to a complete stop, under certain circumstances.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features on your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime. Learn more about these complimentary services at lexus.com/specialists.

**WARRANTY**
Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/limited-mileage Corrosion Perforation Warranty. Eight-year/100,000-mile Hybrid System Warranty. All warranties with zero deductible. See the NX Warranty and Services Guide at your Lexus dealer for details.

**DISCLAIMERS**
1. Ratings achieved with the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.
2. Amazon and Alexa are trademarks of Amazon.com, Inc. or its affiliates. Certain Alexa functionality is dependent on smart home technology. Not all Amazon Alexa skills are available for in-vehicle use. Ask Alexa to control your smart devices. Apps, prices and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and availability. Data charges may apply.
3. Apple CarPlay and iPhone are trademarks of Apple Inc. All rights reserved. Always drive safely and obey traffic laws. Apps, prices and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and availability. Data charges may apply. 4. 2019 EPA estimates. Actual mileage will vary.
5. NuLease is a registered trademark of NuLease Sales, Inc. Jr. The NuLease smart sensor can monitor tire pressure and cooperate with various systems under certain conditions. See Owner’s Manual for details. 7. 2019 NX vs. 2018/2019 competitors. Information from manufacturers’ websites as of 3/26/2018. 8. Do not allow passengers in sit in-in a vehicle while it is in the reverse gear. The vehicle can accelerate very quickly in a very short period of time. 10. The system is intended to alert occupants should a potential seatbelt(s) or seatbelt buckle(s) be left unfastened. It is not designed to prevent the vehicle from making a rearward movement. 11. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent upon many factors, including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details.

**Lexus Enform**
Lexus’ Android Application is available on select 2020 model-year vehicles. The availability of an Android application depends on the Android platform being used. Android is a trademark or registered trademark of Google Inc. The availability of Alexa varies by region and mobile device. Alexa is not available on all devices.

**Remote Connect**
The Remote Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in a paid subscription is required to access the service. Terms and conditions apply. 23. Always drive safely, obey traffic laws and focus on the road while driving. Siri is available on select iPhone/iPad models and requires Internet access. Siri is not available in all languages or all areas or features vary by area. Some Siri functionality and commands are not accessible in the vehicle. Data charges may apply. See Apple.com and phone carrier for details. Siri is a registered trademark of Apple Inc. 24. The Infotainment system is a trademark of Apple Inc. All rights reserved. This registered trademark of Apple Inc. 25. Always drive safely and obey traffic laws. Apps, prices and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and availability. Data charges may apply. 26. Lane Departure Alert with Steering Assist is designed to help reduce the risk of a minor or moderate side-impact collision. It is not a collision-avoidance system and is dependent upon many factors, including road, weather and vehicle conditions.

**Intelligent Drive Systems**
There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 14. The Dynamic Radar Cruise Control system is designed to detect vehicles. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent upon many factors, including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 15. The Pedestrian Detection System is designed to detect pedestrians, ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size of the vehicle, weather, road conditions and other factors.

**Intelligent High Beams**
Intelligent High Beams operate at a lower beam angle, are designed to help illuminate the road ahead and maintain the vehicle in its lane, with the speed of the vehicle during dark driving situations. When the vehicle is in dark driving situations and its speed is less than 40 mph, Intelligent High Beams will switch to low beams. When the vehicle is in dark driving situations and its speed is greater than 40 mph, Intelligent High Beams will turn on automatically. When the vehicle is in dark driving situations and its speed is less than 40 mph, Intelligent High Beams will turn off automatically.

**Tow Package**
The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Some models require factory tow package for towing and load specifications. Some models require factory tow package for towing and load specifications. Some models require factory tow package for towing and load specifications. Some models require factory tow package for towing and load specifications. Some models require factory tow package for towing and load specifications.
