Dynamic craftsmanship.
Precision-engineered performance.
Class-leading safety technology.¹

Experience the crossover in its most visionary form.

The 2020 Lexus NX
The NX 300 can be further enhanced with more aggressive styling and performance upgrades, including a more dynamic F SPORT–tuned suspension.

NX 300
Razor-sharp styling conceals a 2.0-liter turbocharged in-line four-cylinder engine delivering 235 horsepower. Every NX model features Amazon Alexa compatibility as well as class-leading standard Lexus Safety System+ 2.0. And added Phone™ functionality via Apple CarPlay™ integration. Available AWD.

NX 300 F SPORT
The NX 300h can be further enhanced with more aggressive styling and performance upgrades, including a more dynamic F SPORT–tuned suspension.

NX 300h AWD
Behind its cutting-edge style, the NX 300h pairs a potent 2.5-liter engine with powerful electric motors for instantaneous torque and a class-leading 31-MPG combined EPA estimate. Standard AWD.

NX shown in Atomic Silver (left), NX F SPORT shown in Ultra White (center), NXh shown in Nebula Gray Pearl (right).
NX F SPORT shown in Ultra White (left), NX shown in Atomic Silver (right)
With class-leading standard Lexus Safety System+ 2.0, including features such as advanced pedestrian detection technology, Lane Departure Alert, Lane Tracing Assist, the NX changes the conversation about what a luxury crossover can be.
Inspired by the facets of a cut gemstone, LED taillamps are just one of many eye-opening details that set the NX apart. Available Premium Triple-Beam LED headlamps and dramatically styled front and rear fascias further punctuate its low, wide stance. From the sharp contours of its exterior styling to the available expansive moonroof, every aspect pushes the conventional to the leading edge.

CUTTING-EDGE DESIGN

Multifaceted LED illumination puts scintillating design in razor-sharp focus.
STRETCHING THE LIMITS OF VERSATILITY

Lexus-first innovations and class-leading features push comfort and convenience even further.

Versatility goes beyond boundaries with the 2020 NX. It offers a Power Rear Door with Kick Sensor13 that raises and lowers with a simple kick of your foot beneath the concealed sensor. Inside, available heated and ventilated front seats provide customized comfort, while available class-leading power-folding and -reclining rear seats14 take amenities to another level.

60/40 split power fold-flat rear seats
UNCOMPROMISING PERFORMANCE

From the high performance and fuel efficiency of its hybrid to the available adaptive suspension on its F SPORT, the NX is exhilaration, evolved.

From the powerful NX 300 to higher-performance F SPORT models, this is a visceral driving experience, delivered. With a dynamic suspension and an available adaptive F SPORT suspension inspired by the LC, this is the most responsive NX yet.
MORE EFFICIENCY.  
MORE RESPONSE.  
MORE NX, PERIOD.

With two sources of power and innovative all-wheel drive, the NX Hybrid gives even more to the driver while taking less from the world.

NX 300h
Welcome to the next level of NX. Pairing a potent 2.5-liter engine with powerful electric motors, the NX Hybrid delivers immediate torque and smooth, seamless acceleration off the line. And, with its class-leading 31-MPG combined EPA estimate, you won’t just enjoy a smoother and quieter ride, you’ll enjoy it over many more miles on a single tank of gas. All without requiring a charge. Featuring an all-wheel drive system so innovative that it’s designed to adapt to the angle or condition of the road, as well as an exclusive damping control system, it offers performance as captivating as its style.
PERFORMANCE

TURBOCHARGED POWER

The surge of the 235-horsepower engine in the NX and NX F SPORT doesn’t let up—thanks to the Lexus engineers who spent years researching, developing, and refining a turbocharger with advanced twin-scroll technology. The powerplant itself seamlessly moves between conventional and Atkinson cycles, for quick acceleration with greater efficiency.

ALL-WHEEL DRIVE

Go beyond limitations with available all-wheel drive. AWD predicts your path, monitoring the vehicle and your input. On the NX and NX F SPORT, if wheelspin is detected, it can deliver up to 50% of available torque to the rear wheels. On the NX Hybrid, the electronic AWD system is so innovative, it can even adapt to the angle or condition of the road.

Torque split up to

50/50
For those with an even greater passion for performance, the NX F SPORT offers head-turning styling and technology that puts the F SPORT stamp on its thrilling driving experience.

**F SPORT PERFORMANCE**

A bold front fascia sets the distinctive NX F SPORT even further apart. The 18-inch, split-five-spoke alloy wheels and black exterior mirrors punctuate its sleek stance, while its suspension was specially tuned to make this the most responsive NX yet.

**ADAPTIVE VARIABLE SUSPENSION**

Available AVS allows the driver to harness the engine’s power and communicate with the pavement like never before. Based on the state-of-the-art technology in the Lexus LC, this system features 650 levels of damping that can automatically adapt to changing conditions, for enhanced response based on the selected drive mode.
The NX F SPORT doesn’t just look the part—it feels it. From its aggressive exterior styling to deeply bolstered front sport seats that hug you through the turns, this luxury crossover brings exhilaration to every drive. Exclusive Circuit Red NuLuxe12 and Arctic White NuLuxe interior trims boldly reflect its performance roots. And impeccable contrast stitching completes the experience of pure invigoration for all the senses.

**BOLSTERED SPORT SEATS**
Feel confidence through every curve with the F SPORT front sport seats. Featuring a unique foam-injected construction and designed to contour to the needs of the driver, these enhanced bolstered sport seats cradle you from hip to shoulder for a more dynamic driving experience.

**DRIVER’S COCKPIT**
F SPORT performance is deeply ingrained in the driver’s experience, with lightning-fast paddle shifters, exclusive G-force and turbo-boost gauges, and an exclusive perforated leather-trimmed shift knob and heated steering wheel. Additional signature touches in the F SPORT include rubber-studded aluminum pedals and Metallic Sport interior trim.
Experience an array of innovations—from class-leading standard active safety equipment¹⁴ to Apple CarPlay integration.
Presenting Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.*

**PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION**
By enhancing the radar and camera capabilities, it’s possible for the system to help detect not only the vehicle ahead, but also a preceding bicyclist in daytime and even a preceding pedestrian in daytime and low-light conditions.* Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

**LANE TRACING ASSIST**
When All-Speed Dynamic Radar Cruise Control is enabled, this hands-on system monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

**LANE DEPARTURE ALERT WITH STEERING ASSIST**
This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

**ROAD SIGN ASSIST**
This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

**ALL-SPEED DYNAMIC RADAR CRUISE CONTROL**
This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

**INTELLIGENT HIGH BEAMS**
To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.
To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime.

LEXUS ENFORM
Lexus Enform elevates connected technology and provides concierge-level convenience. From emergency assistance and onboard Wi-Fi™ to the ability to start your engine remotely® using your smartphone, smartwatch, the Lexus skill on Amazon Alexa® built-in devices, or the Lexus Action on Google with your Assistant-enabled® devices, our premium suite of connected technology offers peace of mind with every drive.

MARK LEVINSON® AUDIO
The new available 14-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System features patented, proprietary Clari-Fi® technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from almost any source. This, combined with technology designed to create an expansive “sweet spot” of audio, envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

INTUITIVE PARKING ASSIST
Using sensors in the front and rear bumpers, available Intuitive Parking Assist® cues the driver with audible tones and an indicator on the multimedia display. Notifications indicate a detected object’s location and proximity, which is especially helpful for routine tasks like parallel parking. If contact with an obstacle is imminent, the system can also bring the vehicle to a complete stop, under certain circumstances.

AMAZON ALEXA
Bring all the convenience of Amazon Alexa® on the road with the Lexus+Alexa® app. Using only your voice, you can easily access thousands of the same functions you get with Alexa at home. Listen to audiobooks, stream Amazon Music®, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa can even sync to your Navigation System® or provide on-the-go directions via the integrated Waze app.

APPLE CARPLAY®
With Apple CarPlay®, integration, you can access the same familiar interface from your iPhone® through the vehicle’s multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri®, and get access to your favorite apps like Waze, Spotify® and Apple Audiobooks®.

ANDROID AUTO
With Android Auto®, you can now seamlessly cast your device’s interface onto the vehicle’s multimedia display. Play your music via your favorite apps such as Spotify® and Pandora®, send messages through a range of commonly used apps like WhatsApp®, navigate with Google Maps® and request information—all with just the sound of your voice—through the Google Assistant®. For added convenience, Android Auto can also deliver tailored information based on your calendar, usage activity and habits.

DELIVERY AND TECHNOLOGY SPECIALISTS
To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. Learn more about these services at lexus.com/specialists.

**NOTICE**

Typeset in 2020 by TRD for Toyota Motor Sales, U.S.A., Inc. Printed in the U.S.A. 12/19/2020. Lexus+Alexa app requires an Android™ smartphone with version 5.0 and above. App download required. Skills and services subject to change at any time. All Amazon Alexa functionality is available for in-vehicle use. See applicable app for details. Download of the Lexus+Alexa app is required to begin in-vehicle use of Alexa. Data charges may apply. Siri is a registered trademark of Apple Inc. Data charges may apply. Siri is available on select iPhone/iPad models and requires Internet access. Siri is not available in all languages or areas and features vary by area. Some Siri functionality is not accessible in the vehicle. For additional limitations and details, refer to your Owner's Manual. For additional limitations and details, refer to your Owner's Manual.

[Back to top]

**Rear Camera**

The backup camera does not provide a comprehensive view of the rear area of the vehicle. Environmental conditions may limit effectiveness and view may become obscured. See your Lexus dealer for additional limitations and details.

**Automatic Braking**

Automatic Braking is intended to assist a driver, but it is the driver’s responsibility to be aware of the vehicle’s surroundings. The system cannot prevent all collisions, and performance is dependent on many factors, including road, weather and traffic conditions. Always focus on the road while driving. For additional limitations and details, refer to your Owner's Manual.

**Dynamic Radar Cruise Control**

Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors, including road, weather and traffic conditions. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There may be times when the system is not available or not functional. Do not rely on rear cross-traffic monitoring for additional limitations and details.

**Apple CarPlay**

All functions of Apple CarPlay are not available in all languages. Apple CarPlay is standard on all 2020 NX and NXh models. Apple CarPlay is not available in all areas. Apple CarPlay requires an Internet connection. See Apple.com for details. Data charges may apply. Siri is a registered trademark of Apple Inc. For additional limitations and details, refer to your Owner's Manual.

**Amazon Alexa**

All Alexa functionality is available for in-vehicle use. All Amazon Alexa functionality is available for in-vehicle use. The Lexus+Alexa app requires an Android™ smartphone using version 5.0 and above. App download required. Skills and services subject to change at any time. For additional limitations and details, refer to your Owner's Manual.

**Lexus Connected Services**

Lexus Owner refers to the Lexus Connected Services Owner's Guide for vehicle and service information. All warranties with zero deductible. See the Owner's Guide for additional limitations and details. Lexus rememors you to wear seat belts, secure children in rear seat, obey all traffic laws and drive responsibly. For additional limitations and details, refer to your Owner's Manual.

**Destination Assist**

Destination Assist depends on an operative telematics device, a cellular connection, navigation map data, GPS signal strength and other factors outside of Lexus’ control, which can limit system effectiveness or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors, including road, weather and traffic conditions. For additional limitations and details, refer to your Owner's Manual.

**Toyota Safety Sense 2.0**

Toyota Safety Sense 2.0 is standard equipment on all 2020 NX and NXh models. Toyota Safety Sense 2.0 is not available in all areas. Toyota Safety Sense 2.0 is not available in all areas and requires an Internet connection. See Toyota.com for details. Data charges may apply. For additional limitations and details, refer to your Owner's Manual.

**2020 NX vs. 2019/2020 Competitors**

Information from manufacturers’ websites as of 7/10/2019. For additional limitations and details, refer to your Owner's Manual.

**2020 NX/NXh vs. 2019/2020 Competitors**

Information from manufacturers’ websites as of 7/10/2019. For additional limitations and details, refer to your Owner's Manual.

**Owner’s Manual**

The Owner’s Manual includes sections on system and feature functionality and availability. Use common sense when relying on this information. Service may vary by vehicle and region. Registration required. Services subject to change at any time without notice. Terms and conditions apply.

**Technology/Connectivity**

For additional limitations and details, refer to your Owner's Manual. Not all Amazon Alexa functionality is available for in-vehicle use. See applicable app for details. Download of the Lexus+Alexa app is required to begin in-vehicle use of Alexa. Data charges may apply. Siri is a registered trademark of Apple Inc.
WHEN EVERY DETAIL, EVERY MOMENT AND EVERY EMOTION IS CRAFTED BY LEXUS, IT LEADS TO THIS.
