Striking style.
Greater power.
More advanced technology.

Because performance this captivating means nothing if it doesn’t lead to the experience of something greater.

The 2018 Lexus RC.

Experience Amazing
RC 300
An aggressive body style, a 2.0-liter turbocharged engine delivering 241 horsepower, a 7.3-second 0–60 time,1 and eight-speed Sport Direct-Shift transmission with paddle shifters and downshift throttle-blinking. Rear-wheel drive.

RC 300 AWD
Assertive styling with full-time all-wheel drive (AWD), a more powerful 260-horsepower 3.5-liter V6 engine, a 6.3-second 0–60 time1 and six-speed transmission with paddle shifters.

RC 350
Athletic performance with a highly rigid body and lateral performance damper (RWD), a more powerful 311-horsepower 3.5-liter V6, a 5.8-second 0–60 time (RWD)1 and eight-speed (RWD) or six-speed (AWD) transmission with paddle shifters. Available rear-wheel drive or all-wheel drive.

RC F SPORT MODELS
Each model can be taken to the next level with more aggressive styling, plus a more dynamic F SPORT-tuned Adaptive Variable Suspension and an exclusively available limited-slip rear differential (RWD). Additional upgrades include front sport seats with enhanced bolsters, LFA-inspired instrumentation and 19-inch alloy wheels.3
Professional driver on closed course. Do not attempt.
With its muscular form and aggressive stance, the RC seamlessly balances eye-catching design with breathtaking performance. In front, the signature spindle grille and available Premium Triple-Beam LED headlamps announce its arrival. While strong character lines sweep toward its dramatic rear fascia, creating a bold appearance from every angle.

DESIRE, DISTILLED

A low profile and sleek, sculpted lines create double-take-worthy style.
From meticulous stitching to exclusive wood trim, the RC delivers an ideal combination of performance and luxury.

While every bit a performance cockpit, the interior of the RC envelops the driver and passengers with craftsmanship. Available perforated leather trim epitomizes distinctive style and sophistication, while Linear Espresso and Linear Dark Mocha wood accents offer unparalleled artistry. Individual settings for climate control allow the driver and front passenger to adjust their preferred temperatures. And, to ensure the cabin stays as fresh as it is beautiful, a smog-sensing system automatically switches into recirculation mode if it senses high levels of pollutants outside.
From the turbocharged RC 300 to high-performance F SPORT models, the RC puts responsiveness at your fingertips. In the V6-powered RC 300 AWD and RC 350, power has been increased, giving them peak output of 260 and 311 horsepower, respectively. A highly rigid platform, double-wishbone front suspension design and multilink rear suspension provide crisp turn-in and poise through curves. An Adaptive Variable Suspension further sharpens the F SPORT’s agility, to deliver handling that’s as dynamic as its styling.

FULL-THROTTLE EXHILARATION

With more power, available all-wheel drive and an eight-speed transmission with paddle shifters, raw performance is in your hands.
THREE FORMS OF POWER

RC 300 / RC 300 F SPORT

The RC 300 is powered by a 2.0-liter, twin-scroll-turbocharged and intercooled in-line four-cylinder engine with direct injection. The surge of power in the 241-horsepower RC 300 doesn’t let up—thanks to the Lexus engineers who spent years researching, developing and refining its turbocharger. The engine is paired to a rear-wheel drive system and an eight-speed automatic transmission, and is easy on fuel consumption with a 32-MPG highway fuel economy estimate.\(^4\)

RC 300 AWD / RC 300 AWD F SPORT

The RC 300 AWD features a more powerful 3.5-liter V6 with peak output boosted to 260 horsepower.\(^1\) The V6 features Variable Valve Timing with intelligence, designed to provide added torque at lower speeds and greater horsepower at higher speeds. These refinements combine to generate 236 lb-ft of torque from 2,000–4,800 rpm. The V6 is teamed with a six-speed automatic transmission.

RC 350 / RC 350 F SPORT

Boasting direct and port fuel injection and an awe-inspiring exhaust note reminiscent of the LFA supercar, the 3.5-liter V6 in the RC 350 propels it from 0 to 60 in 5.8 seconds (RWD)\(^1,2\) and 6.0 seconds (AWD).\(^1,2\) Performance has been enhanced, with peak output amplified to 311 horsepower.\(^1\) With all-wheel drive, the V6 is complemented by a six-speed automatic; with rear-wheel drive, it’s paired to an eight-speed Sport Direct-Shift transmission. And in the RWD F SPORT, an available TORSEN® limited-slip rear differential\(^5\) helps maximize your ability to power out of corners.

ALL-WHEEL DRIVE

Make the most of all conditions with the enhanced control delivered by the all-wheel drive system on the RC 300 AWD and RC 350 AWD. By monitoring current conditions, the rear-biased system automatically distributes engine power up to 50/50 between the front and rear axles to help provide optimum traction—even in inclement weather or less-than-ideal road conditions.

30/70

front/rear differential power allocation
CONTROL TAKES CENTER STAGE

Your connection to the road—and your passengers’ connection to onboard Wi-Fi™—make the RC a true command center.

Lexus connected technologies introduce a whole new realm of possibilities, starting with onboard Wi-Fi™. Available features like the expanded Remote Touchpad® and larger, 10.3-inch multifunction screen provide access to audio and climate controls and various systems, including the next-generation voice-activated Navigation System™. And with available Lexus Enform Remote®, you can start your vehicle to heat or cool the cabin to its last settings, and much more.
TECHNOLOGY

INNOVATION
AT THE LEADING EDGE

Multiple technological advancements push the driving experience further.

10.3-INCH MULTIMEDIA SCREEN WITH VOICE-ACTIVATED NAVIGATION

The new, available 10.3-inch high-resolution split-screen multimedia display provides immediate, simultaneous access to audio and climate controls and various systems, including the voice-activated Navigation System. On vehicles with the standard multimedia display, next-generation Scout® GPS Link introduces 3D functionality and moving maps. Driving instructions are provided turn by turn, with search features easily accessible via voice commands or the multimedia display. With subscription-free traffic and weather updates, getting to your destination is easier than ever.

10.3-in split-screen multimedia display with full-screen map view

DYNAMIC VOICE COMMAND

With the ability to recognize millions more phrases than conventional voice-recognition systems, available Dynamic Voice Command offers greater accuracy, seamless address entry, and expanded points-of-interest searches. It also allows you to place compatible Bluetooth®-enabled phone calls, and operate climate, audio and navigation functions using even more natural speech. If you say “It’s too hot in here,” for example, the climate control will automatically lower the temperature by four degrees.

DRIVE MODE SELECT WITH CUSTOM MODE

Make your vehicle more responsive or efficient with the turn of a dial. Sport mode alters the powertrain for faster and more dynamic throttle responses. Normal mode provides an optimal balance of fuel efficiency and engine performance. ECO mode moderates the throttle response, engine power and climate settings for increased fuel efficiency. On F SPORT models, Sport S+ mode provides the most performance-oriented setting, and the addition of a Custom mode lets you combine driving profiles for personalized response.

MARK LEVINSON® AUDIO

The available 17-speaker, 835-watt Mark Levinson Premium Surround Sound Audio System features patented, proprietary Clari-Fi® technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from any source. This, combined with technology designed to create an expansive “sweet spot” of audio, envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. Learn more about these complimentary services at lexus.com/specialists.
LEXUS ENFORM

From available onboard Wi-Fi to concierge access, this is our most sophisticated connectivity suite yet.

WI-FI

Take entertainment to go. Lexus Enform® now includes onboard Wi-Fi. Up to five devices can connect—tablets, laptops, smartphones—dramatically extending tech capability for you and your passengers. Lexus Enform Wi-Fi includes a 4GB one-year complimentary trial.

APP SUITE 2.0

The new and improved Lexus Enform App Suite 2.0® offers access to your favorite mobile applications through your vehicle’s center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, listen to live radio nationwide, check fuel prices, and keep tabs on your stocks and sports scores—all from the center-console display. And, with advanced voice recognition, accessing and controlling App Suite 2.0 features is easier than ever.

SERVICE CONNECT

Lexus Enform Service Connect® offers remote access to information about your vehicle’s status and maintenance needs. Easily accessed through LexusDrivers.com or the Lexus Drivers mobile app, you can get information on everything from your vehicle’s fuel level and mileage to maintenance alerts and Vehicle Health Reports. Service Connect is complimentary for the first 10 years of ownership.

DYNAMIC NAVIGATION

To help you get even more out of the available Navigation System, the new available Lexus Enform Dynamic Navigation offers greater accuracy through continuous cloud-based updates. In addition to up-to-date maps, it can dynamically offer alternate routes based on conditions ahead, and can automatically sort Points of Interest results based on relevance. Lexus Enform Dynamic Navigation is complimentary for the first three years of ownership.

DESTINATION ASSIST

The available Lexus Enform Destination Assist® offers convenient 24-hour access to a live response center agent to help you locate a specific business, address or point of interest. If you’re searching for a restaurant, the agent can help you narrow your choices by distance or type of cuisine, and remotely send the destination to your vehicle’s Navigation System. Destination Assist is complimentary for the first year of ownership.

SAFETY CONNECT

Lexus Enform Safety Connect® offers you the peace of mind of knowing that Roadside Assistance can be there when you need it most. Whether you’re involved in a collision and unable to call for help, your vehicle is stolen, or there is any other type of emergency, assistance can be sent directly to your vehicle’s GPS location. Safety Connect is complimentary for the first 10 years of ownership.

REMOTE

Lexus Enform Remote® mobile app can help you remotely lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. You can also remotely start the engine, which will warm or cool the interior based on the last climate-control settings. Should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded. Lexus Enform Remote is complimentary for the first year of ownership.
PEACE OF MIND, STANDARD

Introducing Lexus Safety System+, an integrated suite of class-leading standard active safety equipment."

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

This system is engineered to detect a vehicle or a pedestrian in the path of your Lexus under certain conditions. Should it determine a frontal collision is imminent, it’s designed to automatically prepare Brake Assist for increased brake force and, in some cases, can even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure, or potential departure due to swaying, is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take corrective measures to help keep you within your visibly marked lane.

HIGH-SPEED DYNAMIC RADAR CRUISE CONTROL

This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH-BEAM HEADLAMPS

To help provide greater visibility for you as well as other drivers, intelligent high-beam headlamps offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode; then temporarily switches to low beams when it senses the headlamps or taillamps of vehicles ahead.
The RC F SPORT is an unflinching take on performance. It features race-inspired upgrades like a G-force monitor and Sport S+ and Custom drive modes. And the rear-wheel drive RC’s available limited-slip rear differential distributes engine power to the rear wheel with the most grip to help optimize traction, handling, and control in a variety of conditions.

**DYNAMIC REAR STEERING**

Class-exclusive available Lexus Dynamic Handling coordinates steering at the front and rear of the vehicle and elevates the RC 350 F SPORT (RWD) to another level. Variable Gear-Ratio Steering optimizes the front steering ratio to sharpen vehicle handling and control. And Dynamic Rear Steering adjusts the angle of the rear wheels by up to two degrees to help provide optimal agility and stability. The system makes calculations based on vehicle speed and driver input, and is designed to deliver what you desire: performance on demand.

**F SPORT PERFORMANCE**

With upgraded components, 19-inch wheels and the addition of a Custom drive mode, F SPORT models take performance to the next level.
F SPORT STYLING

Beyond the striking lines of the coupe body, the interior of the RC F SPORT is a sleek, inspiring command center. Feel confidence through every curve with exclusive front sport seats, designed to hold you through even the most aggressive of turns. Featuring a unique foam-injected construction and designed to contour to the needs of the driver, these sport seats will have you wrapped from hip to shoulder—especially in high-G situations. Their low position helps place the driver’s hip point as close as possible to the vehicle’s center of gravity for a more dynamic driving experience.

F PERFORMANCE BRAKE CALIPERS
Delivering stopping performance as precise as its handling, the rear-wheel drive RC F SPORT models feature massive 14-inch, two-piece front brake rotors with four-piston calipers. Engineered exclusively for the F SPORT, they feature high-friction pads and a unique multistage booster for optimized control, response and feel. Opt for the bright-orange F SPORT calipers and boldly announce your presence wherever you go.

EXCLUSIVE SILVER PERFORMANCE TRIM
Exclusive trim highlights race-inspired features, including an F SPORT–badged steering wheel, a perforated leather-trimmed shift knob, aluminum sport pedals, Silver Performance accents and the exclusive option of bold Rioja Red NuLuxe trim with unique stitching.

PREMIUM PACKAGE

- Blind Spot Monitor with Rear Cross-Traffic Alert
- Heated and ventilated front seats
- Electrochromic (auto-dimming) outside mirrors with auto tilt-down in reverse

LUXURY PACKAGE

Includes Premium Package, plus:
- Perforated leather interior trim
- Power tilt-and-telescopic steering column
- Lexus Memory System for driver’s seat, outside mirrors and steering column
- Rain-sensing windshield wipers
- Heated steering wheel (AWD)

NAVIGATION PACKAGE

Includes Navigation Package, plus:
- Navigation System with DVD/CD player and 10.3-in color multimedia display
- Lexus Enform Dynamic Navigation, Complimentary for the first three years of ownership
- Dynamic Voice Command
- Remote Touchpad
- Lexus Enform Destination Assist, Complimentary for the first year of ownership

NAVIGATION + MARK LEVINSON AUDIO PACKAGE

Includes Navigation Package, plus:
- Mark Levinson Premium Surround Sound Audio System
  - 17 speakers including subwoofer
  - 835-watt Class-D amplifier
  - Clari-Fi audio processing
  - 7.1-channel surround sound
  - Machined-aluminum control knobs

ALL-WEATHER PACKAGE

- Headlamp washers
- Windshield wiper de-icer
- Water-repellent front-door glass
- Fast-response interior heater

F SPORT

Includes Premium Package, plus:
- F SPORT front fascia, grille and exterior badging
- F SPORT 19-in split 10-spoke alloy wheels with summer (RWD) or all-season (AWD) tires
- F SPORT-tuned Adaptive Variable Suspension with Sport S+ and Custom drive modes
- Two-piece front brake rotors (RWD) with high-friction brake pads and black brake calipers
- Vehicle Dynamics Integrated Management
- F SPORT seats with enhanced bolsters
- LFA-inspired instrumentation with G-force monitor
- Turbo-boost gauge (RC 300)
- F SPORT interior details including black headliner, Silver Performance trim and aluminum pedals
- Perforated leather-trimmed shift knob and steering wheel with F SPORT logo
- Stainless-steel door sills
- Heated steering wheel (AWD)
- Lexus Memory System for driver’s seat, outside mirrors and steering column
- Power tilt-and-telescopic steering column
- Active sound control
