REINVENTING THE VEHICLE THAT INVENTED IT ALL.
With a driver-inspired design, more intuitive technology and an innovative approach to performance, the RX not only created the category, it’s redefined it ever since.
From the onset, the RX was designed to make driving more effortless and enjoyable. Which is why, among its many courteous amenities, you’ll find a spacious cargo area, technology that puts you in total control of your interior surroundings and available heated and ventilated front seating.
TECHNOLOGY FOCUSED ON KEEPING YOU FOCUSED.

Optional equipment shown. See disclaimers on page 76.
A UNIQUE APPROACH TO SEATING: YOURS.

Because every driver is different, the finishing touches to every interior come courtesy of the person who will be sitting inside of it. Available adjustments like seating temperature—easily addressed by internal heating and ventilation—and seat cushions that can be extended for additional leg support. Both are simple ways to make the available semi-aniline leather-trimmed seating more comfortable than it already is.
A unique take on the conventional double wishbone design means you’ll have an abundance of usable room in the cargo area. Need additional space? The rear seats fold effortlessly with remote levers on either side of the rear-door opening.

Talk about accommodating: The cargo area offers enough floor space to lay four large suitcases flat, and an available dual-screen Rear-Seat Entertainment System enables two separate video sources to be watched simultaneously. This system includes seven-inch LCD monitors conveniently located behind the front headrests, wireless headphones and a single remote to control both screens.
The RX is so engineered around the driver’s needs, it allows you to operate many of its features without ever removing your hands from the steering wheel. A multifunction toggle button, for instance, can be used to personalize up to 20 different functions—from interior illumination settings to door-locking preferences. And, with Bluetooth® technology, you can control your compatible cell phone and portable audio player wirelessly through the RX.

Optional equipment shown. See disclaimers on page 76.
For added visibility when the RX is placed in reverse, an available backup camera7 displays a wide-angle color view on the available Navigation System3 screen or in the rearview mirror. And, to help take the guesswork out of parking and assist you when negotiating narrow passages, an available Wide-view Side Monitor system8 built into the passenger-side mirror displays an overhead view to the right of the RX at very slow speeds or when in reverse.

Optional equipment shown. See disclaimers on page 76.
ALLOWS YOU TO DO WHAT MOST NAVIGATION SYSTEMS DON’T: DRIVE.

Unlike many navigation systems that require you to look elsewhere in order to use them, the available Navigation System on the RX was designed to help you focus on the road ahead. An available Heads-up Display projects simple turn-by-turn directions, speed and audio information on the windshield in front of you. And, with available XM services, you can receive real-time traffic updates along your route and continually updated weather conditions.
SAFETY CONNECT™
DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect10,12 you can request emergency help, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance13 for a flat tire. The Safety Connect10,12 service also features Automatic Collision Notification (SOS), which automatically sends a call to help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags14 have been deployed.

See disclaimers on page 76.

LEXUS ENFORM™
DESIGNED TO HELP
SIMPLIFY YOUR LIFE.

With the available Lexus Enform10,11 system, you can speak to a live service agent, 24 hours a day, seven days a week. You don’t have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply call Destination Assist via the RX’s available Navigation System3 for live assistance. Once you’ve decided on a location, your agent can send the turn-by-turn directions straight to your vehicle’s Navigation System.3 Planning a trip? You also have the option of preselecting up to 200 destinations online and sending them to your vehicle with Lexus’ exclusive service, eDestination.
The RX was thoughtfully designed to enable you to access and control your portable audio player through the vehicle’s interface using an available USB port. Or, should you have a compatible Bluetooth® player, it can be accessed while remaining in your pocket or purse. And to ensure it’s as flawless as it is functional, the available 15-speaker Mark Levinson® Premium Surround Sound Audio System uses 7.1-channel architecture to create a virtual sweet spot of sound that encompasses the entire interior.
Exceptional agility and acceleration response. All the while providing low emissions and remarkable fuel economy. Proof that when it comes to performance technology, there's really only one way to handle curves: by staying ahead of them.
You don’t design a vehicle around a driver and then ignore their right foot. Which is why you’ll find the RX was designed with some of the most innovative—albeit unconventional—performance technology available. A uniquely designed double-wishbone rear suspension was created to improve rear road-handling grip. The undercarriage was crafted with wind channels for optimal aerodynamics. And the engine was paired with an intelligent six-speed automatic transmission and designed to deliver 90% of its torque at lower RPM for smoother acceleration and response.
WEATHER CAN CHANGE IN AN INSTANT. SO WE DESIGNED AN ALL-WHEEL DRIVE SYSTEM TO RESPOND EVEN FASTER.

All-wheel drive or no all-wheel drive? Since Mother Nature can never seem to make up her mind, how’s a driver to decide? With available Active Torque Control all-wheel drive, you don’t. By monitoring a series of sensors, it powers the rear wheels only when needed and by the amount required. During normal on-road driving, for instance, the vehicle sends 100% of the power to the front wheels for optimal efficiency. Should you encounter a rogue patch of ice, the system will automatically allocate the necessary amount of power to the front and rear wheels to help maintain traction.
THE MOST TELLING PERFORMANCE TIMES ARE MEASURED IN MILLISECONDS.

Utilizing a network of sensors that monitor everything from speed to steering to braking, the Vehicle Dynamics Integrated Management™ system available on the RX is designed to anticipate a loss of traction and take steps to help correct it before it occurs. All within a fraction of a second.

Optional equipment shown. See disclaimers on page 76.
When the first RX Hybrid was introduced, it made a statement: Of all the ways to begin shaping the future of the automobile, none was more important than simply beginning. Now, multiple generations of hybrid technology later, the original luxury hybrid is even further ahead of its time.
MORE FUEL-EFFICIENT ENGINE

EXHAUST HEAT-RECOVERY SYSTEM

ECO MODE

Optional equipment shown.
The current generation hybrid system on the RX 450h began with a challenge: Develop the most efficient RX Hybrid system to date without sacrificing an ounce of performance. Just a few of the systems that answered this challenge: a gasoline engine that works differently from conventional engines to convert more of the energy generated during combustion into mechanical energy; a hybrid battery that is exceptionally light and compact; an Exhaust Gas Recirculation system that captures, cools and reuses a portion of the exhaust gasses, reducing emissions and improving fuel efficiency; and an ECO Driving Indicator Zone Display that provides real-time feedback of economical driving practices.
The RX 450h is the first hybrid vehicle to feature Intelligent Shift Control, an intelligent shifting system that can estimate whether you are traveling uphill or downhill and automatically select the appropriate gear ratio for better engine response. Enhancing performance even further, a sequential-shift mode enables you to upshift or downshift on the fly, helping to provide greater responsiveness and maneuverability coming out of corners.

Optional equipment shown.
The safest accident is the one that never happens. Which is why the RX offers a variety of innovative measures to help prevent one from occurring. Should an accident be unavoidable, we’ve helped plan for that, too. Two hundred and thirty-three crash tests were performed on the RX during development—leading to such passive safety measures as an overlapping pillar design that helps provide increased buckling strength and enhanced load sustainability when buckled.

Optional equipment shown.
WE APPROACHED VISIBILITY FROM A DIFFERENT ANGLE.

To help provide optimal visibility, we even figured out a way to improve the vision of other drivers on the road. In addition to the available Adaptive Front Lighting System (AFS), the RX offers available intelligent high-beam headlamps. If their sensors detect oncoming traffic or vehicles traveling closely ahead of you, they automatically switch from high beams to low beams. And, once traffic clears, they return to high-beam mode for greater visibility.

To help illuminate more of the road ahead, the available Adaptive Front Lighting System (AFS) can rotate the left headlamp up to 15 degrees in a left turn and the right headlamp up to 10 degrees in a right turn.

Optional equipment shown. See disclaimers on page 76.
Numerous safety features that include impressive advancements in intuition.

Call it a state-of-the-art inkling, if you will. Utilizing highly advanced radar technology, the available Pre-Collision System can sense an unavoidable frontal collision and automatically retract the front seatbelts while preparing Brake Assist for increased braking pressure when the driver steps on the brake pedal. It’s just one of the 20 Actively Safe features offered on the RX. Of course, if impact does occur, you can also take comfort in knowing that the RX features a host of passive safety measures as well. Like a class-leading 10-airbag system and active front headrests that can move diagonally upward and forward in the event of certain types of rear collisions to assist in supporting the head, thereby helping to reduce the severity of whiplash-type injuries.

Optional equipment shown. See disclaimers on page 76.
With so much innovative thinking at Lexus, it's hard to stay up-to-date. That's why we created the Lexus Pursuit newsletter. Each month, e-mail subscribers receive exclusive information about upcoming model launches and events, as well as the latest innovations and offers. Sign up today and stay informed of all things Lexus.

RX 350 STANDARD LUXURY FEATURES

LUXURY AND CONVENIENCE

SmartAccess\textsuperscript{28,29} with push-button Start/Stop and touch sensors on exterior front-door handles
Dual-zone automatic climate control with interior air filter
Power tilt-and-telescopic steering column
Power windows with one-touch open/close feature
Remote-linked opening for windows and available moonroof
Power door locks
Multifunction, in-key remote entry system with rolling-code technology\textsuperscript{29}
Electrochromic (auto-dimming) inside rearview mirror
Cruise control
Sliding front center console with storage bin, dual power outlets and pass-through storage
Front and rear cupholders
HomeLink\textsuperscript{®} universal transceiver to operate compatible garage, gate, home lighting and home security systems
Lexus Personalized Settings (LPS)\textsuperscript{30} to customize select electronic functions
Illuminated entry system
Accessory power outlet in front center stack, front console box and rear cargo area
Dual illuminated visor vanity mirrors
Extendable sun visors
Roof rails\textsuperscript{31,32}
Rear bumper protector

SEATING AND TRIM

Espresso bird’s-eye maple or brown walnut wood interior trim
Leather-trimmed steering wheel and shift knob
10-way driver’s and front passenger’s (including lumbar) power seats
Height-adjustable headrests for all seating positions
Reclining, sliding rear seat (40/20/40-split)

COMMUNICATION, AUDIO AND NAVIGATION

Lexus nine-speaker Premium Sound System with Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
Auxiliary iPod\textsuperscript{33}/MP3/Windows Media\textsuperscript{®} Audio (WMA) port
XM Radio\textsuperscript{3,9} Subscription required. 90-day trial subscription included
Bluetooth\textsuperscript{®} technology\textsuperscript{2}
Bluetooth audio\textsuperscript{®} profile for wireless integration of compatible music players
FM-diversity antenna system
Shark-fin antenna

INSTRUMENTATION AND CONTROLS

Steering-wheel-mounted audio and display controls
Electroluminescent instrumentation
Liquid Crystal Display (LCD) multi-information console display on upper console
Organic Light-Emitting Diode (OLED) multi-information display in gauge cluster
Outside temperature gauge
Automatic on/off headlamps with auto-off delay
Interior electronic fuel-filler door release

See disclaimers on page 76.
RX 350 STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

Vehicle Stability Control (VSC) with cutoff switch
Traction Control (TRAC)
Four-wheel power-assisted disc brakes
Four-sensor, four-channel Anti-lock Braking System (ABS)
Brake Assist
Electronic Brakeforce Distribution (EBD)
Full-time all-wheel drive (RX 350 AWD)
Direct Tire Pressure Monitor System
Water-repellent front-door glass
Daytime running lights
Integrated foglamps
LED taillamps
Variable intermittent front windshield wipers
Intermittent rear-window wiper with washer
Rear-window defogger with auto-off timer
Power-adjustable outside mirrors with integrated turn indicators and defoggers

PASSIVE SAFETY

Driver’s and front passenger’s advanced airbag system (SRS) with front passenger’s twin-chamber airbag (SRS)
Front and rear seat-mounted side airbags (SRS)
Driver’s and front passenger’s knee airbags (SRS)
Front and rear Roll-Sensing Curtain Airbags (RSCA)
Active front headrests
Three-point seatbelts for all seating positions, pre-tensioners with force limiters for all seating positions
Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for all outboard seating positions. Emergency Locking Retractor (ELR) only for driver’s seat
Height-adjustable front shoulder belt anchors
Child Restraint Seat (CRS) tether anchor brackets for rear outboard seating positions
Highly rigid body structure with front and rear crumple zones
Reinforcements in pillars and door sills
Side-impact door beams
Impact-dissipating upper interior trim
Collapsible steering column
Collapsible brake pedal

SECURITY

Safety Connect™ offers Automatic Collision Notification, Stolen Vehicle Location, an Emergency Assistance Button (SOS) and Enhanced Roadside Assistance connectivity.
Subscription required. One-year trial subscription included
Vehicle theft-deterrent and engine-immobilizer system with in-key transponder
Tonneau cover
First aid kit
Tool kit

See disclaimers on page 76.
RX 350 OPTION PACKAGES*

NAVIGATION SYSTEM

HDD Navigation System² including Remote Touch device, voice command, high-resolution color LCD display with integrated wide-view backup camera and Enhanced Bluetooth® technology²

XM NavTraffic³,⁹ XM NavWeather³,⁹ and XM Sports and Stocks³,⁹ Subscription required. 90-day trial subscription included

Lexus Enform®¹⁰,¹¹ offers Destination Assist and eDestination. Subscription required. One-year trial subscription included

REAR-SEAT ENTERTAINMENT SYSTEM (RSES) AND NAVIGATION SYSTEM PACKAGE

High-resolution LCD dual-screen DVD Rear-Seat Entertainment System (RSES)⁴

HDD Navigation System² including Remote Touch device, voice command, high-resolution color LCD display with integrated wide-view backup camera and Enhanced Bluetooth® technology²

XM NavTraffic³,⁹ XM NavWeather³,⁹ and XM Sports and Stocks³,⁹ Subscription required. 90-day trial subscription included

Lexus Enform®¹⁰,¹¹ offers Destination Assist and eDestination. Subscription required. One-year trial subscription included

Lexus 12-speaker Premium Sound Audio System

Wireless headphones⁵

Audio and video inputs

Two-prong 120V AC power outlet

PREMIUM PACKAGE

Leather-trimmed interior

Lexus Memory System to control power driver’s seat (except lumbar), outside mirrors and steering wheel

Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade

USB audio input for iPod®³³/compatible music player integration with audio system

Rear-armrest storage compartment with cover

Power rear door

Electrochromic (auto-dimming) outside mirrors

COMFORT PACKAGE

Heated and ventilated front seats

Bi-Xenon™ High-Intensity Discharge (HID) headlamps with dynamic auto-leveling

Adaptive Front Lighting System (AFS)¹⁷ and intelligent high-beam headlamps¹⁸

Rain-sensing intermittent windshield wipers with mist cycle

Lexus 12-speaker audio system

LUXURY PACKAGE

Semi-aniline leather-trimmed interior

Lexus Memory System to control power driver’s seat (except lumbar), outside mirrors and steering wheel

Wood- and leather-trimmed steering wheel and shift knob

Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade

USB audio input for iPod®³³/compatible music player integration with audio system

Rear-armrest storage compartment with cover

LED-illuminated front door sills

Power rear door

Headlamp washers

Wide-view Side Monitor system⁸

Power-folding electrochromic (auto-dimming) outside mirrors

19 x 7.5-in seven-spoke alloy wheels with 235/55VR19 all-season tires²²

Smog-sensing automatic recirculation mode for climate-control system

*Please see page 76 for more information regarding options/accessories/packages.
See disclaimers on page 76.
SPORT PACKAGE

Vehicle Dynamics Integrated Management (VDIM)\textsuperscript{16} with cutoff switch
Sport-tuned suspension
19 x 7.5-in seven-spoke alloy wheels with Superchrome finish and 235/55VR19 all-season tires\textsuperscript{22}

TOWING PREP PACKAGE

Transmission cooler
Heavy-duty alternator
Heavy-duty radiator

OPTIONS\textsuperscript{*}

19 x 7.5-in seven-spoke alloy wheels with 235/55VR19 all-season tires\textsuperscript{22}
Intuitive Parking Assist
Backup camera\textsuperscript{7} integrated into inside rearview mirror
Wood- and leather-trimmed steering wheel and shift knob
Heated and ventilated front seats
Mark Levinson\textsuperscript{15} 15-speaker 330-watts @ 0.1% THD, 20–20,000 Hz\textsuperscript{35} Premium Surround Sound Audio System\textsuperscript{15} with Automatic Sound Levelizer (ASL), 7.1 architecture and in-dash, single-feed, six-disc DVD/CD auto-changer
Lexus 12-speaker Premium Sound System with Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
Two-prong 120V AC power outlet
Pre-Collision System (PCS)\textsuperscript{19} and Dynamic Radar Cruise Control\textsuperscript{36}
Heads-up Display
Bi-Xenon\textsuperscript{17} High-Intensity Discharge (HID) headlamps with Adaptive Front Lighting System (AFS)\textsuperscript{37}

*Please see page 76 for more information regarding options/accessories/packages. See disclaimers on page 76.

See disclaimers on page 76.
LEXUS strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and

**WARRANTY**

consulting your local effectiveness so the driver may need to manually change the high beams from on to off. Please see **off-road.**

**complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.**

8. The backup camera does not provide a comprehensive view of the area behind the vehicle. You should also look around your vehicle and use your mirrors to confirm rear

9. XM services require a subscription after trial period. Subscriptions governed by XM Customer Agreement available at www.xmradio.com. If you decide to continue your XM service at the end of the complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you cancel by phone, mail or online by contacting www.xmradio.com.

**Available only to those at least 18 years of age in the 48 contiguous United States and DC. 10. Lexus Enform® and Safety Connect™ are available. Contact the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Subscription Services terms and conditions apply.**

1. The Pre-Collision System is designed to help the driver avoid a collision or mitigate its effects by alerting the driver to the potential problem, applying the brakes or automatically bringing the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and can limit the ability to reach the response center or receive emergency support. Telecommunications Subscription Service Agreement required. 11. Lexus Enform premium services, Destination Assist® and Destinations function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. 12. The Safety Connect™ services Automatic Collision Notification, Roadside Assistance andStolen Vehicle Location Service will function in the United States, Canada and Alaska, and in other Canadian and Mexican cities. **All services are not available in all states.**

17. The Adaptive Front Lighting System can help improve vision in any condition. However, conditions such as dirt, rapidly changing light conditions or foggy weather will limit effectiveness so the driver may need to manually change the high beams from one to the other. Please see your Owner’s Manual for details.

18. The intelligent high-beam headlamp system will help improve vision in any condition. However, conditions such as dirty, rapidly changing light conditions or bad weather will limit effectiveness so the driver may need to manually change the high beams from one to the other. Please see your Owner’s Manual for details.

19. The Pre-Collision System is designed to help decrease the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including road speed, driver input and road conditions. Please see your Owner’s Manual for further information.

20. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness depends on proper brake-system maintenance and tire and road conditions.

21. Active headrests can help reduce the risk of whiplash in certain types of rear-end collisions.

22. If you have a heart pacemaker or cardiac defibrillator, please talk to your doctor to see if you should deactivate this system. **Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop.**

23. Roof rack capacity is 130 lb. Please see your Owner’s Manual for details.

24. iPod® is a registered trademark of Apple Inc. All rights reserved. 32. Bluetooth® audio device must be enabled with A2DP and AVRCP.

25. EPA Mpg Estimates: Actual mileage may vary. 26. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Please do not exceed any Weight Ratings and follow instructions in your Owner’s Manual. You may not tow down the total weight of cargo, passengers and available equipment.

27. Please consult your Lexus dealer or Owner’s Manual for towing and load specifications. 28. The Smartstream system may interfere with some radio controls or cell phone dialers. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 29. The engine immobilizer is an anti-theft system. When you insert your key into the ignition switch to bring a SmartAccess key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess key fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key or SmartAccess key fob, it cannot be copied. If you lose your key or SmartAccess key fob, your Lexus dealer can duplicate it. 30. The UX 400h is not designed for off-road.
