RX 350
270-hp, 3.5-liter V6, dual Variable Valve Timing with intelligence (VVT-i), and a six-speed Electronically Controlled Transmission with intelligence (ECT-i). Available with full-time all-wheel drive.

RX 350 F SPORT
Boasting performance enhancements like an eight-speed Electronically Controlled Transmission with intelligence (ECT-i) and paddle shifters, standard all-wheel drive and a precision-tuned suspension system.

RX 450h
An Atkinson-cycle 3.5-liter V6, Lexus Hybrid Drive and an Electronically Controlled Continuously Variable Transmission with intelligence (ECVT-i). Class-leading 30-mpg EPA-estimated combined rating. 295 total system horsepower. Available with all-wheel drive.

ROUTINELY UNROUTINE.
NEVER LOSE YOUR EDGE.
THE EXCEPTIONALLY VERSATILE 2015 RX LINE.

RX F SPORT shown in Obsidian. // Options shown.
The driver-inspired design features steering-wheel-mounted controls, an available Remote Touch® device and an elevated display screen for more convenient viewing. And with luxurious seating for five, split rear seats that fold effortlessly and vast cargo space, your RX is ready for almost anyone and anything.
The exhilaration offered by its 295 total system horsepower Lexus Hybrid Drive system is only one way the RX Hybrid gives drivers more than they’d ever expect. Boosting a class-leading 30-mpg EPA-estimated combined rating, it offers innovative features like regenerative braking so you enjoy the convenience of a gas vehicle and the efficiency of a hybrid. As the first hybrid vehicle to feature Intelligent Shift Control, it can also estimate whether you are traveling uphill or downhill and automatically select the correct gear ratio to help provide optimal response.

IT RECHARGES ITS DRIVER. AS WELL AS ITSELF.

RX HYBRID
Inside, a dual-zone climate-control system and available heated and ventilated front seats offer comfort on your terms. Want even more control? Use Siri® Eyes Free® to access e-mail, retrieve text messages and more.
Get even more edge with the RX F SPORT. In addition to exclusive bold styling inside and out, the RX F SPORT offers the invigoration of enhanced performance features: 19-inch alloy wheels, Standard All-Weather Drive, a sport-tuned suspension and an eight-speed automatic transmission with paddle shifters.
**ATTENTION TO DETAIL TO HELP KEEP YOUR ATTENTION ON THE ROAD.**

**HEADES-UP DISPLAY**
The available Heads-up Display can project simple directions, audio information and vehicle speed onto the windshield in front of you to help you stay focused on the road ahead.

**LEXUS MEMORY SYSTEM**
At the push of a button, the available Lexus Memory System automatically adjusts the power driver’s seat (except lumbar), the outside mirrors and the steering wheel to your personal settings.

**STEERING-WHEEL CONTROLS**
Audio, phone and display controls are mounted on the steering wheel for easy access.

**ELEVATED DISPLAY**
The display screen is designed to sit high and deep into the dashboard for convenient viewing.

**REMOTE TOUCH**
The available Remote Touch® device sits where your hand naturally rests and operates just like a computer mouse.
EIGHT MORE WAYS TO ELEVATE THE EVERYDAY.

ENFORM WITH APP SUITE
With an elevated display for easy viewing, available Lexus Enform® and Safety Connect® offer the convenience of live, 24-hour navigation assistance and the peace of mind knowing emergency services can be requested at the press of a button. And with the App Suite,® making dinner reservations, ordering movie tickets and personalizing your iHeartRadio channels have never been easier.

PERSONALIZED SEATING
The standard power adjustable front seats allow you to personalize your level of luxury with ease. For optimal comfort, the driver’s seat can be adjusted in 10 different ways. And front-seat passengers can ride in comfort, too, thanks to the 8-way power-adjustable seat. The available front-seat power cushion extends make long drives far more enjoyable.

AUDIO EXPERIENCE
The placement and angles of every speaker was essential in the development of the Lexus Premium Surround Sound System in the RX. The result is a system that immerses the driver and passengers in remarkably vivid sound. In addition, the available 330-watt, 15-speaker Mark Levinson Premium Surround Sound Audio System® features 7.1-channel architecture, enveloping the entire cabin in three-dimensional sound.

Rear Seat Entertainment
The available dual-screen Rear Seat Entertainment System (RSES)® allows the left and right rear-seat passengers to enjoy separate entertainment. With 70-inch LCD screens located behind the driver’s and front passenger’s headrests, the system features a pair of wireless headphones® and can be used as a DVD player, audio player or game console via audio and video input jacks.

PASSIVE SAFETY
While an ordinary crash test dummy can provide 119 data points, Lexus goes beyond that by using digital models comprising millions. The results of this innovative approach to safety are active front headrests® that are designed to help decrease the severity of whiplash-type injuries under certain conditions, as well as a class-leading® 10 standard airbags.

PRE-COLLISION SYSTEM
To help prepare for, and if possible avoid, potential collisions, an available Pre-Collision System® is designed to help watch the road ahead for obstacles and can warn you of their presence with audible alerts and visible indications. It can even begin braking automatically to help reduce impact energy.

POWER REAR DOOR
The power rear door of the RX offers remote keyless access to the cargo area. The rear door can be raised and lowered from inside the vehicle by using a switch or remotely with the SmartAccess® fob. Loading cargo from skis to surfboards, has never been more convenient.

BLIND SPOT MONITOR AND BACKUP CAMERA
Visionary technologies constantly monitor your RX and the road around you. To help you change lanes with confidence, an available Blind Spot Monitor® is designed to alert you if it detects vehicles in adjacent lanes. And, to assist with tasks like parking, a backup camera® displays a high-resolution view of what the camera sees behind you whenever the RX is in reverse.
INVIGORATING HANDLING

With its low powertrain, fully independent MacPherson strut front suspension, and completely unique double-wishbone rear suspension, the RX combines the versatility of an SUV with the ride of a luxury sedan. The rear suspension not only helps to enhance handling and grip, it is also designed to take up minimal cargo area, further freeing up floor space.
