RX

2020 LEXUS
More expressive craftsmanship.
More driver-inspired technology.
More uncompromising versatility.

Experience even more of what makes the RX the leading luxury SUV of all time.

The 2020 Lexus RX
With a more dynamic front fascia, the 2020 RX 350 boasts a 295-horsepower, 3.5-liter V6 engine with eight-speed automatic transmission. Every RX features a suite of premium technologies, including new Amazon Alexa compatibility, a touchscreen and available color Head-Up Display. As well as new Android Auto™ and Lexus Safety System+ 2.0, which includes preceding pedestrian and bicyclist detection. Front-wheel drive or available all-wheel drive.

RX F SPORT MODELS

Take the RX 350 and RX 450h to the next level with bold interior and exterior styling, including exclusive bolstered sport seats, a redesigned lower front spoiler and 20-inch alloy wheels with Dark Graphite finish. For added exhilaration, the F SPORT models also offer more advanced Adaptive Variable Suspension, enhanced steering and Sport S+ drive mode.

RX 450h

Offering the best of all worlds, the 2020 RX Hybrid pairs a potent V6 engine with powerful electric motors for an impressive 308 total system horsepower and a 30-MPG combined EPA estimate, along with all-wheel drive performance.

RX 450 h

Offering the best of all worlds, the 2020 RX Hybrid pairs a potent V6 engine with powerful electric motors for an impressive 308 total system horsepower and a 30-MPG combined EPA estimate, along with all-wheel drive performance.

RX 350L / RX 450hL

Enjoy the RX in a sleek and stylish three-row crossover. Both models offer ample cargo space and third-row comforts that include power-folding seats and dedicated climate control. Seats six with captain’s chairs (standard on RX 450hL, available on RX 350L) or seven with second-row bench seating (standard on RX 350L). Front-wheel drive (standard on RX 350L) or all-wheel drive (standard on RX 450hL, available on RX 350L).
RX F SPORT shown in Ultra White with Circuit Red NuLuxe™ and Scored Aluminium interior trim.
RX F SPORT shown in Atomic Silver.
RX shown in Nightfall Mica

With a distinct floating roofline and unapologetic accents, the RX makes a statement even before you arrive. This confident crossover delivers daring illumination with new, thinner available Premium Triple-Beam LED headlamps that feature an eye-catching L shape, as well as redesigned taillamps. Plus, the three-row RXL features uncompromised styling with added passenger capacity.

**DESIGN BEYOND LUXURY**

Sleeker and more sophisticated than ever before, the 2020 RX features a redesigned front fascia, elegant character lines, and more expressive headlamps and taillamps.
PUSHING THE LIMITS OF SPACE AND STYLE

Discover refined styling, comfort and a larger interior with the seven-passenger RX 350L.

While it boasts the same powerful stance, signature floating roofline and distinctive wraparound LED tail lamps as the five-passenger RX, the RXL features one noteworthy addition: a power-folding third row. Crafted to impress as much for its seamless function as for its striking form, it incorporates class-leading cargo space and seating for up to seven in the RX 350L and up to six in the RX 450hL.

RX shown in Eminent White Pearl (left); RXL shown in Atomic Silver (right)
With room for up to seven passengers in the RX 350L and six in the RX 450hL, you can take on all of life’s curves. Whether it’s taking a couple more kids to practice, driving your colleagues to lunch, or making room for your latest antiquing find, the three-row RXL has you covered.

**POWER-FOLDING SEATS**

For easy access, simply tilt and slide the second-row seat and step into the inviting third row. Plus, both the RX 350L and RX 450hL feature power-folding third-row seats with a 50/50 split for added versatility.

**CLASS-LEADING CARGO SPACE**

Even with the third row up, the RX 350L and RX 450hL both have more cargo space than our competitors. So you’ll have plenty of room for the weekend’s purchases—and then some. For added convenience, a new Power Rear Door with Kick Sensor is also offered. Simply kick your foot under the rear bumper to open or close.
Why take two cars when you can take one? The RX 350L and RX 450hL are designed to ensure everyone can come along for the ride. With available supple leather-trimmed seats, plenty of legroom and dedicated third-row climate control, the longer the road trip, the better.

CAPTAIN’S CHAIRS
Ready to take second-row comfort to first-class standards? Now you can, with luxurious available captain’s chairs. This configuration seats six and creates an aisle that accentuates the inviting feel of the cabin. Meanwhile, a tilt-and-slide seat feature makes access to the third row even more convenient.
INTERIOR DESIGN

Crafted with attention to even the smallest details, the RX is filled with an abundance of distinctive extras.

AMBIENT LED ILLUMINATION

Adding intrigue to the interior, available ambient LED lighting brightens and dims in a coordinated series to welcome the driver into the RX. Soft lighting also illuminates the area surrounding the vehicle the moment you approach, for added visibility and peace of mind.

HEATED AND VENTILATED SEATING

Taking luxury further, the available heated and ventilated front seats offer heaters and fans in the seat cushions to provide optimum comfort, regardless of the weather. Heated second-row outboard seats are also available in all RX models, including the three-row RX.

MULTI-ZONE CLIMATE CONTROL

Customize the climate around you. Individual settings allow the driver and front passenger to adjust their preferred temperatures. Plus, the RX 350L and RX 450hL feature dedicated climate control for passengers in the third row. To help ensure the cabin stays fresh, an available smog-sensing climate-control system automatically switches into recirculation mode if it senses high levels of pollutants outside.
CUTTING-EDGE CRAFTSMANSHIP

A renowned eye for detail, precision-crafted Yamaha® wood accents and hand-selected leather trim come together to create our most refined RX yet.

Art meets technology as handcrafted trim undergoes a meticulous process by expert takumi craftsmen. The available Yamaha Gray Sapele wood is created by the same artisans responsible for producing some of the world’s finest musical instruments. This artful trim marries the natural expression of fine wood with the clean sophistication of brushed aluminum as the opposing materials are layered upon each other. Laser technology then engraves the wood surface to reveal the metallic lines underneath. An available perforated semi-aniline leather-trimmed interior elevates every drive, while convenient power-folding and -reclining 13-second-row seats offer easy versatility in the RX 350 and RX 450h. In addition, power-folding seats are standard in the third row of the RX 350L and RX 450hL.
See more and do more with advanced technology that’s right at your fingertips. With new Android Auto™ you’ll enjoy access to a variety of messaging apps like WhatsApp®. It also features the unique capability to anticipate and provide personalized information. Meanwhile, you can start your engine remotely¹⁴ with your smartwatch, or start your favorite podcast in your kitchen and finish it on your drive to work with Amazon Alexa® compatibility. And for added convenience, an available pinch- and zoom-enabled 12.3-inch touchscreen multimedia display is intuitively placed to provide easier access to Lexus Enform® apps, navigation and more.

Android Auto functionality. Amazon Alexa compatibility. A convenient, new touchscreen and much more. This is the most connected RX yet.
COMMAND CENTER

Experience connected technology at your fingertips and the forefront of driver convenience.

APPLE CARPLAY®

With Apple CarPlay® integration, you can access the same familiar interface from your iPhone® through the vehicle’s multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri®, and get access to your favorite apps like Waze, Spotify® and Apple Audiobooks™.

AMAZON ALEXA

Bring all the convenience of Amazon Alexa® on the road with the Lexus+Alexa™ app. Using only your voice, you can easily access thousands of the same features and skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music®, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat, and security systems. Offering added in-vehicle convenience, Alexa can even sync to your Navigation System® or provide on-the-go directions via the integrated Waze app.

ANDROID AUTO

With Android Auto™, you can now seamlessly cast your device’s interface onto the vehicle’s multimedia display. Play your music via your favorite apps such as Spotify® and Pandora®, send messages through a range of commonly used apps like WhatsApp®, navigate with Google Maps™ or Waze, and request information—all with just the sound of your voice—through Google Assistant. For added convenience, Android Auto can also deliver tailored information based on your calendar, usage activity and habits.

POWER REAR DOOR WITH KICK SENSOR

The power rear door can be opened and closed using a button on the key fob, on the door lid or next to the steering wheel. For added convenience when your hands are full, the open/close function can now also be performed by kicking your foot under the rear bumper.

PANORAMIC VIEW MONITOR

The RX offers passionate design with optimal visibility, as seen in the available Panoramic View Monitor®. Four high-resolution cameras mounted on the front, sides and rear of the vehicle give drivers a bird’s-eye view of the near environment. Moving view and see-through view options create a composite image of the vehicle’s surroundings as on-screen guides assist with parking and tight maneuvering.

LEXUS ENFORM

Lexus Enform® elevates connected technology and provides concierge-level convenience. From emergency assistance and onboard Wi-Fi® to the ability to start your engine remotely, using your smartphone, smartwatch, the Lexus skill on Amazon Alexa®, built-in devices, or the Lexus action on Google Assistant® enabled devices, our premium suite of connected technology offers peace of mind with every drive.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. Learn more about these services at lexus.com/specialists.
LANE DEPARTURE ALERT
WITH STEERING ASSIST
This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

PEACE OF MIND,
STANDARD
Presenting Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.

ROAD SIGN ASSIST
This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION
By enhancing the radar and camera capabilities, it’s now possible for the system to help detect not only the vehicle ahead, but also a preceding bicyclist in daytime and even a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

LANE TRACING ASSIST
When All-Speed Dynamic Radar Cruise Control is enabled, this hands-on system monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL
This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

TECHNOLOGY

INTELLIGENT HIGH BEAMS
To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM + 2.0
RX shown in Atomic Silver
MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM

The available Mark Levinson® Premium Surround Sound Audio System features patented, proprietary Clari-Fi® technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from any source. Combined with technology designed to create an expansive “sweet spot” of audio, it envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

15 speakers

835 watts
PERFORMANCE BEYOND EXPECTATIONS

From the fuel-efficient and high-performance hybrid to the available F SPORT, the RX turns heads and overturns convention.

Engineered to tap into the strength of an even more reinforced chassis, the optimized suspension delivers enhanced handling and a ride that’s smoother than ever before. When combined with an array of performance features, including a transmission so intelligent it can increase torque at lower speeds for improved acceleration, new Active Cornering Assist, lightning-fast paddle shifters on every model, and an available more advanced Adaptive Variable Suspension that can monitor and adjust the shock absorber settings depending on conditions, the result is a vehicle that does more than run the show. It stops it.
PERFORMANCE

POWER ON DEMAND

RX 350 AND RX 350L

Experience luxury that roars. A 3.5-liter V6 engine with direct and port fuel injection pairs exhilarating power with efficient fuel economy. Combined with a quick-shifting eight-speed transmission, and delivering 295 (RX 350) or 290 horsepower (RX 350L), both models offer dynamic performance at every curve.

For even greater control, an innovative dual Variable Valve Timing with intelligence (VVT-i) system offers precise engine performance as it reduces emissions and enhances fuel efficiency. VVT-i monitors the engine’s speed and load, increasing torque at lower speeds for improved acceleration and boosting performance at higher speeds by adjusting intake and exhaust valve timing.
TWO POWER SOURCES.
UNEQUALLED PERFORMANCE.

Our most powerful RX combines a potent 3.5-liter engine with dynamic electric motors.

Take everything you love about the RX. Then give it more performance. And more efficiency. That’s the philosophy behind the RX 450h and RX 450h-L, which boast a potent 3.5-liter V6 engine—paired with powerful electric motors and an Electronically controlled Continuously Variable Transmission—for a combined 308 total system horsepower, 1 30- and 29-MPG combined EPA estimates, 2 instant torque delivery and AWD performance. All without requiring a charge. Both models also feature a Super Ultra-Low Emission Vehicle (SULEV) rating.

Craving more of an edge? The RX 450h F SPORT adds bold styling and offers an Adaptive Variable Suspension that will take performance even further.
Stay in control with available Active Torque Control all-wheel drive. This intelligent system monitors road conditions in real time, automatically shifting engine power between front and rear axles, while 100% of the power goes to the front wheels during normal driving conditions for improved efficiency. And standard on the RX 450h and RX 450hL, electronic all-wheel drive features a rear electric motor that delivers instantaneous torque to the rear wheels when you need it, with no friction loss.
EXCLUSIVE PERFORMANCE DRIVE MODES

To help provide the highest level of responsiveness, the F SPORT offers exclusive drive modes. Sport S+ mode enhances steering and adjusts the Adaptive Variable Suspension, while Custom mode allows you to personalize everything from road feel to responsiveness. Further enhancing the excitement, an exclusive LFA-inspired gauge cluster provides real-time information such as G-force metrics, power distribution and more.
The bold F SPORT perspective is obvious throughout the driver-centric interior. In addition to exclusive race-inspired instrumentation and bold aluminum accents, you’ll find performance upgrades, including bolstered sport seats, a black headliner, perforated leather-trimmed sport steering wheel and shift knob, plus aluminum pedals and more.

**F SPORT STYLING**

RX F SPORT shown with Circuit Red NuLuxe™ and Scored Aluminum interior trim

**F SPORT BOLSTERED SEATS**

Signature race-inspired F SPORT bolstered seats provide the ideal posture, control and visibility for enhanced driving performance. Featuring a unique foam-injected construction and designed to contour to the needs of the driver, their low position helps place the driver’s hip point as close as possible to the car’s center of gravity, for a more dynamic driving experience.

**20-INCH DARK GRAPHITE ALLOY WHEELS**

Punctuating the attitude of the aggressive exterior, exclusive F SPORT 20-inch Dark Graphite alloy wheels enhance the vehicle’s low, powerful stance.
Standard features on every RX:

- SmartAccess 33, 34 with push-button Start/Stop
- Drive Mode Select
- Lexus Multimedia System 35 with touchscreen display
- Lexus Enform Safety Connect 36 included for the first three years of ownership.
- Lexus Enform Service Connect 36 included for the first 10 years of ownership.
- Lexus Enform Remote with Amazon Alexa 4 and Google Assistant 22 compatibility. Included for the first three years of ownership.
- Remote Touchpad 32
- Amazon Alexa 4 compatibility
- Apple CarPlay 16 integration
- Lexus mobile app services (Lexus Enform Remote, Lexus Drivers and more)
- Voice Command
- Bluetooth 36, 38 and USB 39 smartphone connectivity
- Six USB 39 ports
- Nine-speaker Premium Sound System
- Dual-zone automatic climate control with interior air filter
- Leather-trimmed steering wheel with paddle shifters and shift knob
- NuLuxe 10 interior trim
- Power tilt-and-telescopic steering column
- Power-adjustable front seats
- 40/20/40-split folding, reclining second-row seat
- Auto-dimming inside mirror and power-adjustable, heated outside mirrors
- Rain-sensing windshield wipers
- Power rear door
- Lexus Safety System+ 2.0 6 (Pre-Collision System 26 with Pedestrian Detection, Lane Tracing Assist, Lane Departure Alert 49 with Steering Assist, Road Sign Assist, All-Speed Dynamic Radar Cruise Control and Intelligent High Beams)
- Backup camera 50
- 10 airbags 41

All Figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.

Mark Levinson technology contains: 34. Mark Levinson® and Clari-Fi are registered trademarks of Harman International Industries, Inc. 35. Bluetooth® is a registered trademark of Bluetooth SIG, Inc. 36. Apple CarPlay and Android Auto™ are trademarks of Google LLC. 37. Waze and Waze logo are registered trademarks of Google LLC. 38. Toyota and Toyota Motor Corporation are trademarks of Toyota Jidousha Kabushiki Kaisha. 39. Pre-Collision System (PCS) with Pedestrian Detection (PD) is designed to assist the driver in avoiding potential collisions at speeds of 9 mph or less. PCS w/PD is not a substitute for safe and attentive driving. See Owner's Manual for additional limitations and details. 40. Dynamic Radar Cruise Control (DRCC) is designed to assist the driver in maintaining a safe distance between your vehicle and the vehicle in front of you. DRCC is limited to speeds of up to 100 mph (subject to the speed limits of the driving area). See Owner's Manual for additional limitations and details. 41. Intuitive Parking Assist (IPA) is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. IPA is not a substitute for safe and attentive driving. See Owner's Manual for additional limitations and details. 42. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle's forward-facing camera and Navigation System (when data is available) to recognize certain road signs and provide information to the driver via the multi-information display. RSA is not a substitute for common sense and safe driving practices. RSA is dependent on many factors, including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 43. Does not apply in Canada. 44. Adaptive Front Lighting System (AFLS) allows your vehicle to switch between Low Beam and High Beam automatically. AFLS is not a substitute for safe and attentive driving. AFLS is limited to speeds of up to 90 mph and subject to the speed limits of the driving area. AFLS is not designed to respond to all road or weather conditions. See Owner's Manual for additional limitations and details. 45. Roof rack capacity is 165 lb (75 kg). 46. Roof Rack Extension Kit: Front: 190 lbs (86 kg) Rear: 190 lbs (86 kg). 47. Tire sealant and compressor: Kit includes a tire sealant, tire pressure gauge and inflator pump. Use within warranty period of 3 years or 36,000 miles (whichever occurs first). Kits available at Lexus dealerships and Lexus Service Centers. Kit may be available at other tire repair facilities at an additional charge. 48. Tire Repair: Use the tire sealant and compressor in the tire repair kit to seal and inflate a tire. Use within warranty period of 3 years or 36,000 miles (whichever occurs first). Kit may be available at other tire repair facilities at an additional charge. See Owner's Manual for additional limitations and details. 49. Emergency services: Limited to vehicles equipped with Lexus Safety Connect. Services depend on an operative mobile telephone network. Emergency services include: Roadside Assistance and Stolen Vehicle Assistance. Services subject to change at any time without notice. To learn more about Lexus Safety Connect, see Owner's Manual. 50. Safety and Service Connect services depend on an operative mobile telephone network. Services subject to change at any time without notice. To learn more, see Owner's Manual. 51. Services subject to change at any time without notice. Terms and conditions of subscription service agreement apply. To learn more, see Owner's Manual. 52. Subject to smartphone connectivity and capability. Data charges may apply. 53. Do not attempt. 54. Do not attempt. 55. Do not attempt. 56. Do not attempt. 57. Do not attempt. 58. Do not attempt. 59.
