

SC

2010 LEXUS

IT OFFERS THE DRIVER  
EVERYTHING BUT  
THE ABILITY TO RESIST.

There's no shame in giving in. We knew from the moment inspiration hit on the beaches of the French Riviera that the SC was destined to be far more than mere transportation. A sleek, hardtop coupe on one hand. An exhilarating convertible on the other. And now, with state-of-the-art innovations like a Navigation System<sup>1</sup> that uses the most tested automotive voice-recognition technology ever and offers available real-time traffic<sup>1,2</sup> and weather<sup>1,2</sup>—well, giving in isn't just understandable. It's inevitable.

THE 2010 SC

Vehicle shown with available equipment.

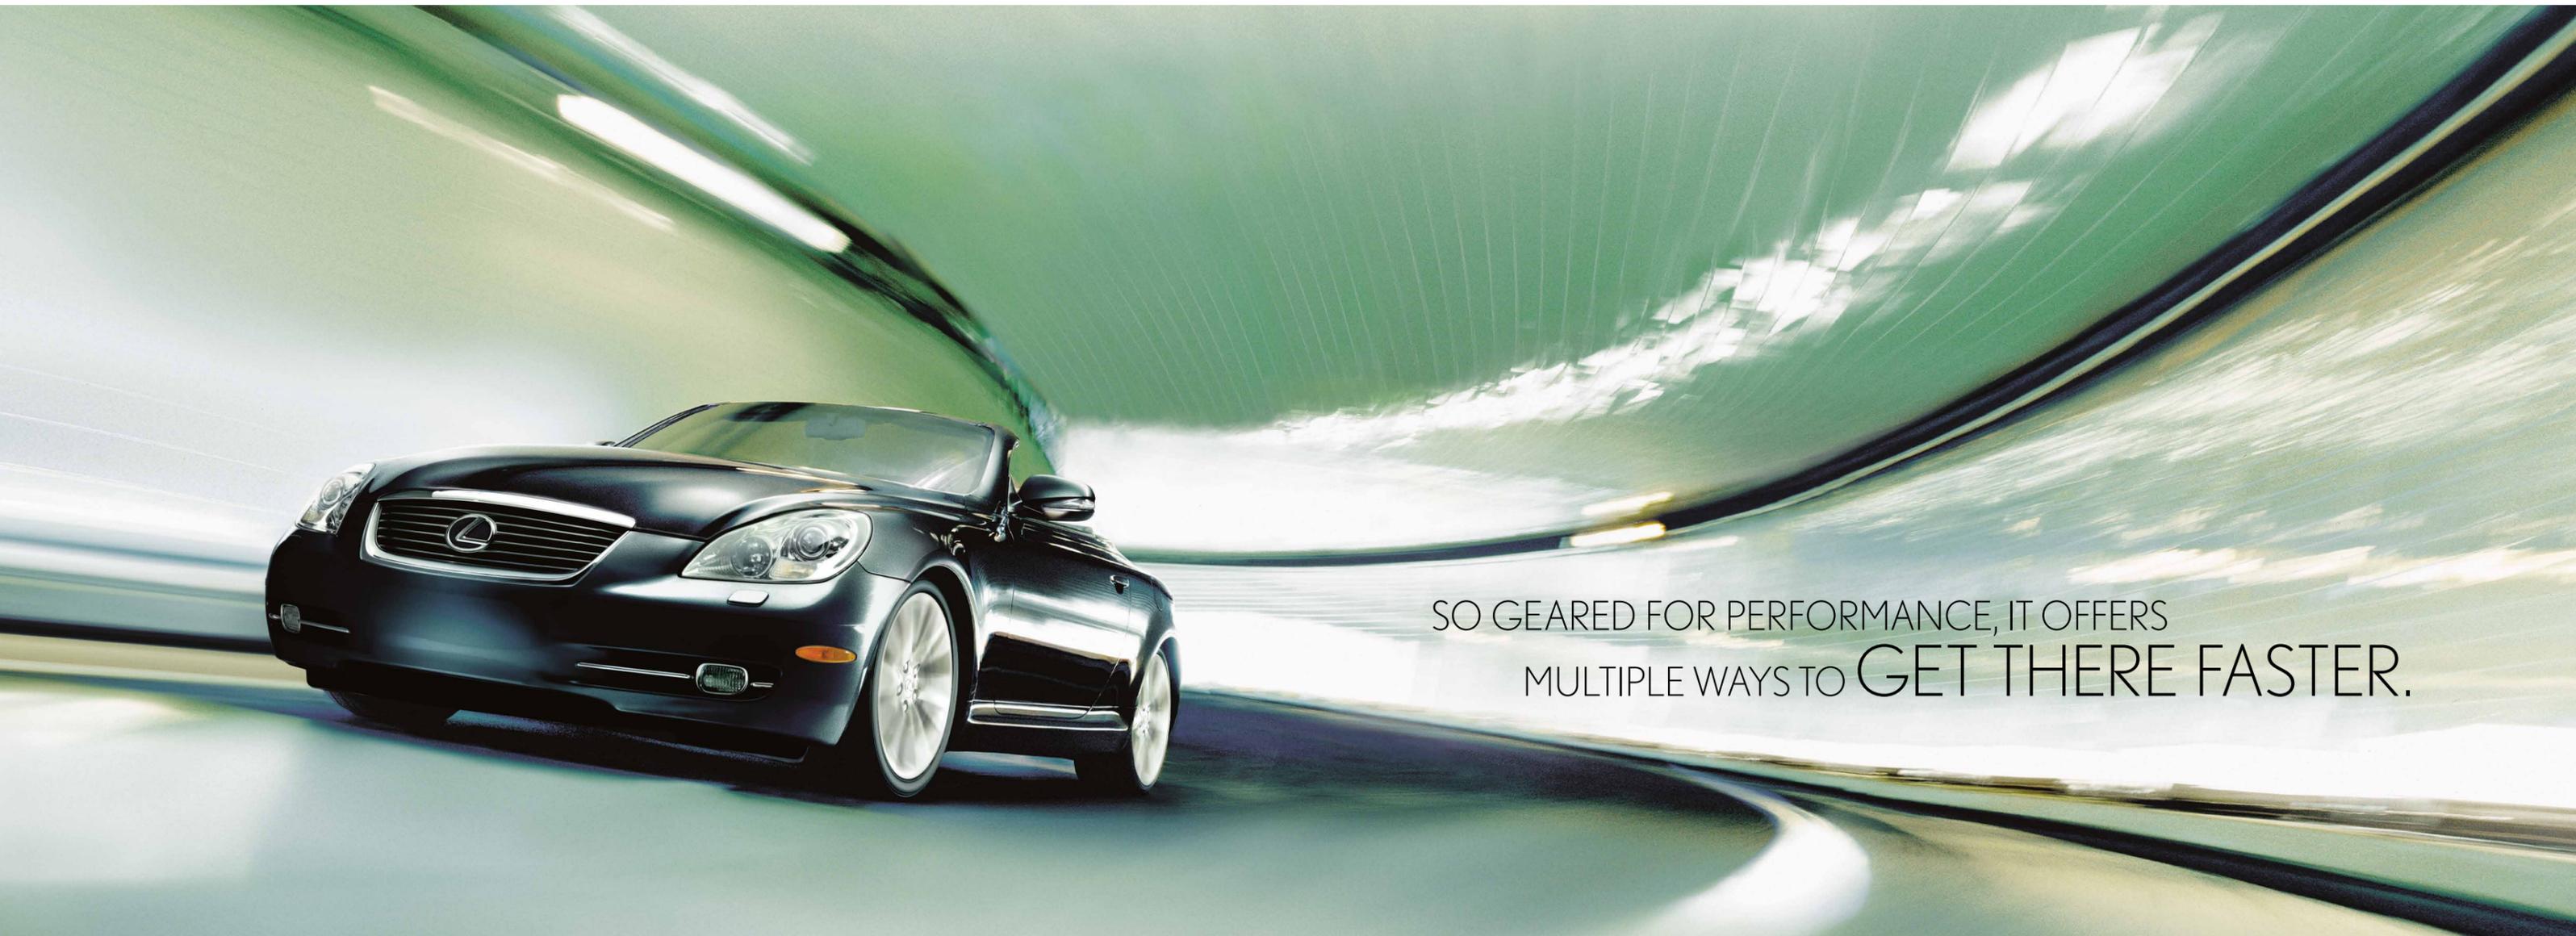

**DESIGN** The beaches of the Côte d'Azur by day and five-star hotels by night. Sound like a dream vacation? Try a typical workday. For many weeks, our designers immersed themselves in the lifestyle of the South of France, finding inspiration for what would later take the form of the SC.

**CRAFTSMANSHIP** Inspired partly by the woodwork found in French yachts, the wood trim in the SC is virtually seamless throughout the cabin. Two separate wood-trimmed panels were even crafted for the sole purpose of concealing the audio controls and Navigation System<sup>1</sup> when they're not in use.

**COMFORT** The finest automotive design begins with the finest materials. In this case, soft semi-aniline leather and hand-selected walnut or bird's-eye maple trim. For added comfort, Intuitive Climate Control with lap-level vents can sense and react to whether the top is up or down and the amount of sunlight entering the cabin.

AN INTERIOR THAT  
**FEELS A WORLD AWAY.**  
NOT SURPRISING, CONSIDERING THAT'S  
WHERE IT WAS DESIGNED.

SO GEARED FOR PERFORMANCE, IT OFFERS  
MULTIPLE WAYS TO GET THERE FASTER.

Under normal circumstances, the SC is a vehicle that's meant to be savored. But for those moments when time is of the essence (or if your adrenals just need a kick start), it's more than ready to deliver. Under its hood, a powerful V8 is paired with a six-speed transmission for virtually seamless shifting. And, inside the cabin, a new Navigation System<sup>1</sup> offers available real-time traffic updates<sup>12</sup> that can help reroute you around whatever it is that's keeping you from arriving on time.

- 4.3-liter V8, 0-60 in 5.8 seconds<sup>3,4</sup>
- 288 horsepower,<sup>3</sup> 317 lb-ft of torque<sup>3</sup>
- Variable Valve Timing with intelligence (VVT-i)
- Six-speed sequential-shift Electronically Controlled Transmission with intelligence (ECT-i)
- Lexus intuitive powertrain control
- 18-inch alloy wheels (available run-flat tires)<sup>5,6</sup>

**MARK LEVINSON®**  
Highly regarded in audiophile circles for its six-figure home systems, Mark Levinson's<sup>7</sup> engineers collaborated with Lexus' engineers throughout the development of the SC. The resulting available nine-speaker Mark Levinson Premium Audio System<sup>7</sup> delivers sound quality nearly unheard of in a vehicle, much less a convertible. Learn more at [lexus.com/SC/levinson](http://lexus.com/SC/levinson).

**VOICE COMMAND**  
The most tested automotive voice-recognition system available, voice command is designed around the way people naturally speak. Say, "Set temperature to 75 degrees," and the system will do it. To make a call, simply say, "Call Steve Jones at the office." Learn more at [lexus.com/SC/voicecommand](http://lexus.com/SC/voicecommand).

**NAVIGATION SYSTEM**  
With available XM NavWeather,<sup>TM1,2</sup> the Navigation System<sup>1</sup> can provide you continually updated weather conditions along your route. And, with available XM NavTraffic,<sup>®1,2</sup> it offers real-time traffic updates and can automatically reroute you around road closures, accidents and congestion. Learn more at [lexus.com/SC/navigation](http://lexus.com/SC/navigation).

## GENERAL

|                     |   |
|---------------------|---|

## STANDARD LUXURY FEATURES

### LUXURY AND CONVENIENCE

- Intuitive Climate Control with lap-level vents, interior air filter, smog sensor and automatic recirculation
- Power tilt-and-telescopic steering column with automatic tilt-away
- Lexus Memory System to control power driver's and front passenger's seats (except lumbar), outside mirrors and steering wheel
- Power windows with one-touch auto open/close feature
- Cruise control
- Remote-linked window opening
- Retained accessory power for windows
- Outside mirrors with integrated turn signals and puddle lamps
- Electrochromic (auto-dimming) inside rearview mirror and outside mirrors
- Power door locks
- Multifunction in-key remote entry system with rolling-code technology<sup>11</sup>
- HomeLink<sup>®</sup> universal transceiver to operate compatible garage, gate, home lighting and home security systems
- Interior electronic trunk-lid and fuel-filler door releases
- Lexus Personalized Settings (LPS) to customize select electronic functions
- Power-retractable aluminum-alloy roof
- Dual-compartment center console with accessory power outlet
- Illuminated entry system and scuff plates
- Dual chrome exhaust tips
- Rear wind deflector

### SEATING AND TRIM

- 10-way driver's and front passenger's (including lumbar) power seats
- Heated front seats
- Height-adjustable headrests for front seats
- Brown walnut or espresso bird's-eye maple wood interior trim and shift knob
- Semi-aniline leather-trimmed interior
- Wood- and leather-trimmed steering wheel
- Carpeted floor mats

### AUDIO AND NAVIGATION

- HDD Navigation System<sup>1</sup> including voice command, color LCD display with integrated backup camera<sup>12</sup> and Enhanced Bluetooth<sup>®</sup> technology<sup>13</sup>
- XM NavTraffic<sup>1,2</sup> and XM NavWeather<sup>1,2</sup> complimentary 90-day trial subscription
- Mark Levinson nine-speaker 240-watt @ less than 0.01% THD, 20-20,000 Hz<sup>14</sup> Premium Audio System<sup>7</sup> with Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc DVD/CD auto-changer
- XM<sup>®</sup> Radio<sup>1,2,15</sup> complimentary 90-day trial subscription
- USB and auxiliary iPod<sup>®16</sup>/MP3/Windows Media<sup>®</sup> Audio (WMA) port
- Bluetooth technology<sup>13</sup>
- Bluetooth audio<sup>17</sup> profile for wireless integration of compatible music players with in-vehicle audio system controls
- Power mast antenna with FM-diversity system

### INSTRUMENTATION AND CONTROLS

- Steering-wheel-mounted audio controls
- Electroluminescent instrumentation
- Automatic on/off projector-beam headlamps with 30-second delay
- Outside temperature gauge

## STANDARD SAFETY AND SECURITY FEATURES

### ACTIVE SAFETY

- Vehicle Stability Control (VSC)<sup>9</sup>
- Traction Control (TRAC)
- Four-wheel power-assisted disc brakes
- Four-sensor, four-channel Anti-lock Braking System (ABS)
- Brake Assist<sup>10</sup>
- Electronic Brakeforce Distribution (EBD)
- Direct Tire Pressure Monitor System<sup>18</sup>
- Adaptive Front Lighting System (AFS)
- High-Intensity Discharge (HID) headlamps with dynamic auto leveling
- Headlamp washers
- Daytime running lights
- Integrated foglamps
- LED taillamps
- Water-repellent door glass
- Variable intermittent windshield wipers with mist cycle
- Rear-window defogger with auto-off timer
- Power-adjustable outside mirrors with defoggers and integrated turn signals

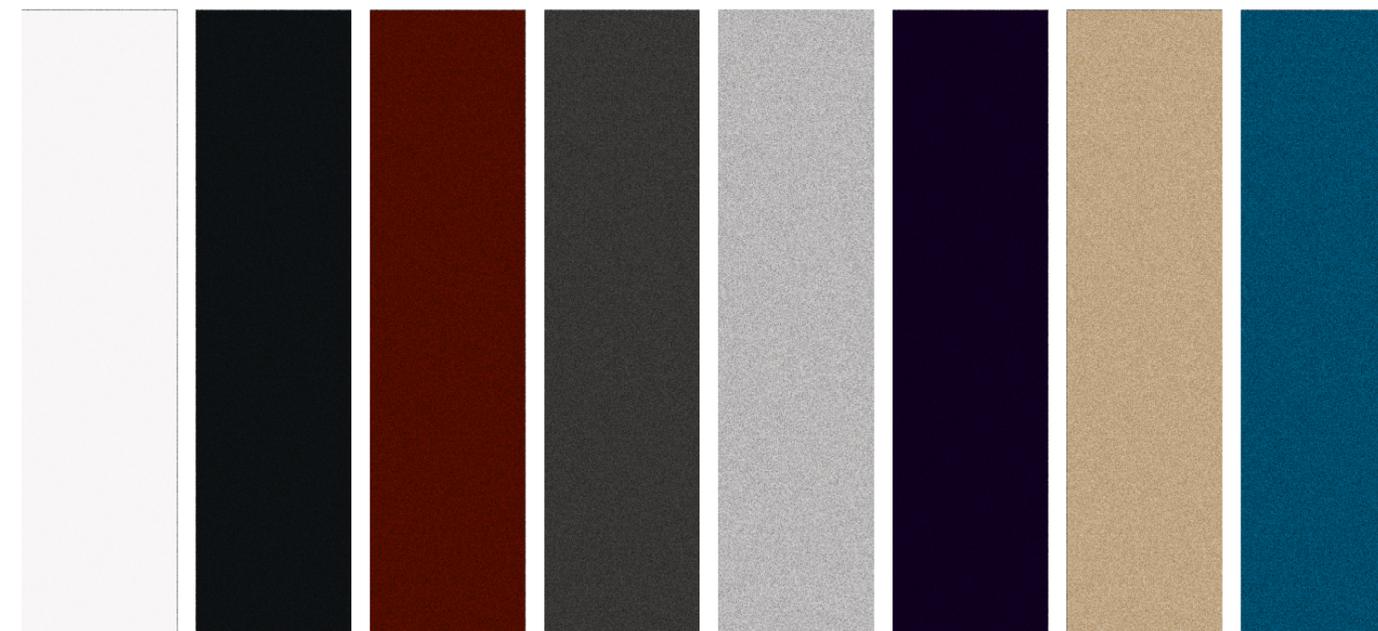

### PASSIVE SAFETY

- Driver's and front passenger's airbag system (SRS)<sup>19</sup>
- Front seat-mounted side torso airbags (SRS)<sup>19</sup>
- Driver's and front passenger's knee airbags (SRS)<sup>19</sup>
- Highly rigid body structure with front and rear crumple zones
- Collapsible steering column
- Dual side-impact door beams
- Reinforcements in pillars and door sills
- Impact-dissipating upper interior trim
- Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front seats
- Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for all passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat
- Child Restraint Seat (CRS) tether anchor brackets for rear seating positions

### SECURITY

- Vehicle theft-deterrent and engine-immobilizer system,<sup>11</sup> with in-key transponder
- Emergency interior trunk release
- First aid kit
- Tool kit

## EXTERIOR COLORS

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *SC Warranty and Services Guide* at your Lexus dealer for details.

**1.** The Navigation System is designed to assist in locating an address or point of interest. XM Radio, XM NavTraffic and XM NavWeather require a monthly service fee and a no-cost, optional dealer-installed external antenna. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **2.** XM NavTraffic and XM NavWeather each require a separate XM subscription and a no-cost, optional dealer-installed external antenna. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic and XM NavWeather services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit [www.xmradio.com](http://www.xmradio.com) or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic and XM NavWeather services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at [xmradio.com/serviceterms](http://xmradio.com/serviceterms). XM Radio fees, services and programming are subject to change. **3.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **4.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **5.** 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending on driving conditions. **6.** Run-flat tire technology is designed for limited emergency use only. If air pressure is lost, vehicle speed must remain below 55 mph; cornering, braking and accelerating must be done with extreme caution; and the tire should be replaced within 100 miles. Temporary spare is not provided with the run-flat tire option. Please see your Lexus dealer for details. **7.** Mark Levinson is a registered trademark of Harman International Industries, Inc. **8.** 2010 EPA-estimated mileage. Actual mileage will vary. **9.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **10.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **11.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting [www.aloa.org](http://www.aloa.org). **12.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **13.** The *Bluetooth* technology phones listed on [lexus.com](http://lexus.com) have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **14.** Continuous average power, all channels driven, at less than 0.01% THD; 20-20,000 Hz. **15.** Functioning XM services require a monthly service fee and no-cost, optional dealer-installed external antenna. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at [xmradio.com/serviceterms](http://xmradio.com/serviceterms). Available only in the 48 contiguous United States and D.C. **16.** iPod is a registered trademark of Apple Inc. All rights reserved. **17.** *Bluetooth* audio device must be enabled with A2DP and AVRCP. **18.** The Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **19.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **20.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application.

\*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See [lexus.com](http://lexus.com) for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit [lexus.com](http://lexus.com). To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
