Three for the Road

Cutlass Ciera GT
Firenza GT
Cutlass 442
Fasten your seat belt. You're in for a ride. The high-output 5-liter V8 with 4-barrel carb, 3.73 ratio rear axle, heavy-duty suspension with rear air shocks and P235/60R15 Eagle GT tires make this one tough machine. With a high-performance camshaft and lowrestriction exhaust, among other things, it gets to 60 mph in 9.8 seconds (on the test track). Inside, classic styling with automatic overdrive shifter on the console, full leather-wrapped steering wheel, reclining velour or vinyl bucket seats, full instrumentation and lots of room to move.

Outside, the 442 is sleek elegance. Your choice of black, medium gray metallic, or white with the special 442 color scheme: gold pinstripes below the belt and around the chrome styled wheels, lower panels in silver metallic; raised white-outline “Eagle GT” letters on the tires.

There's more. A distinctive grille that's spring-loaded to resist impact. There's 16.2 cubic feet of luggage space in the trunk, and room for five on plush seating inside.
Cutlass Ciera GT

Look past the quiet silver metallic exterior with its subtly aerodynamic lines. Inside, bucket seats with rich saddle leather seat inserts hold you in supreme comfort with extra back and thigh lateral support. Look through the leather-wrapped steering wheel to the full alloy instrument panel. Select "Drive" and feel what a fuel-injected 3.8L V6 can do for your idea of how to "get from here to there, not to mention your state of mind. The spirited performance comes with console operated automatic overdrive transmission. You get GT handling with front wheel drive, rack and pinion steering and MacPherson strut front suspension. The K4 suspension specifications give you close involvement with road surfaces.

Fog Lamps are standard. So are the precisely machined aluminum wheels and the Eagle GT Tires.

Cutlass Ciera GT is a masterpiece of space planning. You've got room for 5 people, plus 15.5 cubic feet of practical trunk space. The divided luggage compartment as well as dual sport mirrors are standard.

Firenza GT

A quick, sure cure for boredom. Quickness from 2.8 liters of Multiport fuel-injected V6 power. Sureness from 4-speed automatic transmission. Front-wheel drive, and MacPherson strut front suspension. Plus control from the Eagle GT blackwall tires and the special firm ride and handling package.

You can feel it through the leather wrapped steering wheel, see it on the crisp triple instrumentation complete with tachometer and trip odometer. Control it with a smooth 4-speed manual floor shift or available automatic transmission. Enjoy it with contrast bucket seats in woven black, gray, and red tartan, or choose black or medium gray velour fabric.

The GT has a practical side, too. Fold down the rear seat to reveal a very practical 36.4 cubic feet of cargo space accessible through the convenient deck lid. Plus halogen headlamp high beams. Colors: Black with Silver Metallic or Silver Metallic with black accent.
Three for the Road
