DON'T JUST MAKE A GOOD BUY. MAKE THE BEST BUY.

According to Consumers Digest, "When it comes to choosing a Best Buy...value reigns supreme." Is it any wonder that the editors selected the Achieva coupe and sedan as a "Best Buy" in 1996? With its long list of standard safety and convenience features, like anti-lock brakes, dual frontal air bags* and 4-speed automatic transmission with enhanced traction system, Achieva simply gives you more of what you want (features), and less of what you don’t (big payments). You can conduct your own analysis of what qualifies as a "best buy" on the market. But the experts have already done it for you.

*With some exceptions, you'll pay extra now for "rear seat" time on the air conditioning. On Achieva, it's standard.

All Achieva cars with standard features like automatic programmable power door locks, Seda II models also include power windows.

Achieva’s level of standard equipment in both coupe and sedan includes automatic headlamp control, power windows, automatic programmable power door locks, Hillsense vehicle security system, daytime running lamps, and much more. "Consumers Digest November/December 1995: driven on your daily basis, over and over again."
GET ALL THE NICE SURPRISES WITHOUT
THE STICKER SHOCK.

"Ouch" is not the response a new car should evoke. "Oooh" is more like it. That's the reaction you and your passengers can expect inside the Achieva coupe or sedan. For you, standard features like driver's-side lumbar support, TILT-Wheel adjustable steering column, and large, easy-to-reach controls make the drive more enjoyable. For your passengers, rear-seat heat ducts and a roomy interior space with ample rear headroom and legroom eliminate the need to ask, "Are we there yet?" Aaah.

Enhancing Achieva's comfort and convenience are other features like reclining front bucket seats, wrap-around instrument panel with tachometer, center console with four storage, front seat back map pockets, illuminated interior lamps, interior trunk and hatch/door locks release, and much more.
ENGINEERED TO STRICT SAFETY STANDARDS — YOURS.

When it comes to driving, safety is not an option. It's a must. That's why you'll find so many standard safety and security features on every Achieva. The list starts with anti-lock brakes and daytime running lamps to help you avoid trouble in the first place. For protection in the event of a collision, Achieva provides dual frontal air bags, safety-cage construction with side-impact reinforcements, and front and rear crush zones. Your security is enhanced by battery run-down protection and automatic programmable power door locks. And peace of mind comes from either of Achieva's two responsive, low-maintenance engines.

Additional safety and security features on Achieva include: computer-optimized fueling, one-hour child-secure child-latch seats, tire and windshield breakaway defoggers, 15-inch steel rims, 4-wheel anti-lock brakes, side-impact tensioning side airbags, side-impact sensor and deactivation, doorSIDESWERM side intrusion window, side-impact sensor and deactivation, headlamps and side lighting, one-hour child-secure child-latch seats, tire and windshield breakaway defoggers, and automatic programmable power door locks. Achieva's "defogger" that works with every use.

"Maintenance needs vary with use and driving conditions."
